ACKNOWLEDGMENT

We acknowledge with appreciation the cooperation given by Mr. David V. Kerns, Director of the Legislative Reference Bureau, with the Statutory Revision and Bill Drafting Department of the Attorney General's office in exchange of indexes, summaries, and revision of sections and chapters, which have improved the field of continuous law reform.

We also acknowledge the fine service rendered by the following Special Assistants to the Attorney General before and during the 1963 Session of the Legislature in preparing either daily bill summaries for the Reference Bureau or drafting bills, resolutions and other statutory materials in the Statutory Revision and Bill Drafting Department.

PREFACE

The official Florida Statutes printed in three volumes and published every two years following the regular session of the legislature, is the most efficient system known to keep all of the general laws in an up-to-date convenient form for speedy reference. This system was promoted by prominent members of The Florida Bar first in 1939 when the existing Florida statutory law was revised and adopted as the official statutory law of Florida, and again in 1949 when the system was reestablished. A conference with a committee of attorneys, representing The Florida Bar in 1948, convinced me that the legal profession in Florida and governmental agencies in particular, needed an improved method for quick access to Florida statutory law. A qualified director for the Statutory Revision Department was immediately appointed when I became Attorney General in 1949. The excellent response received from government officials and attorneys throughout the state upon the reactivation of the continuous revision system reflects a keen interest in the active use of this important legal tool.

The recommendation of the Florida Bar Committee on Revision that we print the statutes in three volumes has met with universal approval; therefore this policy will be continued. Numerous requests have influenced us to include the United States Constitution, the Florida Constitution, and other miscellaneous matter in Volume III along with the general index. This should be more convenient for reference purposes.

The efficient drafting of bills in statutory form by specially trained personnel in our office for members of the Legislature, and improved methods of editing coupled with experience on the part of a selected editorial staff, has already resulted, not only in expediting the preparation of material for publication, but has exerted considerable influence on improving the wording and the mechanical process of statutes.

The practicing attorneys, governmental departments, and the judiciary have contributed many helpful suggestions for continuous improvement in the index so necessary in finding the law. We appreciate the many letters received concerning the use of "The Official Florida Statutes" and the numerous comments since we are constantly seeking ways and means for making this publication more useful for those who use it.

I commend the personnel of the Statutory Revision Department for the excellence of their work, and the members of The Florida Bar and the Legislature for promoting and supporting Florida's efficient continuous revision plan for keeping our statutory law up-to-date.

Attorney General

An explanation of the subject matter, purpose, plan, and the organization of

THE OFFICIAL FLORIDA STATUTES 1963

BIENNIAL PUBLICATION

The official Florida Statutes, in three volumes, are printed every two years in a completely new revision to keep the statutory law up-to-date.

The biennial plan of printing statutes is a plan which has been in successful use in some states for over fifty years. It is a preventive and a cure for the overgrowth of statutes. Since many of our statutes are short lived, the dead sections are removed and buried each two years. This procedure makes room for new statutes. The amendments and new laws of each succeeding legislature are meshed in with the standing statutes. Subject matter is gradually consolidated and often revised into single chapters, reducing the volume of reading matter.

The biennial edition of the statutes also affords members of the legislature a complete compilation of all the active general law enacted from 1885 through 1963 in a form convenient for study and improvement. Legislators can better acquaint themselves with what the law is and can amend or reject changes with understanding. A section or chapter method of revision with intelligent legislative judgment usually results in a gradual improvement of existing law.

The legislature has authorized the inclusion in this edition of the state-wide laws enacted at any special or regular session since 1961. These new laws have been edited but not changed. New decimal section numbers are assigned when the general law is converted into statutory form. History notes are added to record the legislative chapter and section of the law, which becomes a part of the general statutory law of the state.

The legislature at each session officially adopts all previously published session laws in statutory form. The 1963 laws included in statutory form are prima facie evidence of the existence of such laws until officially adopted by a subsequent legislative act in 1965.

FORMER REVISIONS AND COMPILATION

The laws of general application of the territory of Florida and of the State of Florida have either been compiled unofficially or revised under authority of law and adopted as official statutes in the following publications to wit: Duval's Compilation of Territorial Laws, 1840 (compilation); Thompson's Digest, 1847 (compilation); Bush's Digest, 1872 (compilation); McClellan's Digest, 1881 (compilation); Revised Statutes (R. S.) 1892 (revision enacted as a law); General Statutes (G. S.) 1906 (revision enacted as a law); Revised General Statutes (R. G. S.) 1920 (revision enacted as a law); Compiled General Laws (C. G. L.) 1927 (compilation unofficial); Official Revised Florida Statutes (F. S.) 1941 (revision enacted as a law); the Florida Statutes of 1949 (F. S. '49) (consolidation of '41 statutes and supplements); Florida Statutes of 1951, 1953, 1955, 1957, 1959 and 1961.

CONTENTS OF STATUTES

The Statutes of 1963 adopted by chapter 63-2, contain all the active Florida statutory law enacted since 1885, completely up-to-date through the regular session of 1963. It is the complete official edition of Florida statutory law. (Section 16.19 F.S.).

All amendments of the Florida Statutes together with new legislation enacted by the 1963 legislature, have been compiled and included in this edition (Section 16.44(6)(d), F.S.). The history notes following each section detail the source of the law from date of enactment to date of the present publication; including the section and chapter number as enacted.

ADOPTION OF STATUTES AND GENERAL LAW

All laws in this edition passed prior to 1963 have been officially adopted as statutory law in their present form. The effect of legislative adoption is to cure

any technical defect with reference to title, form, etc. (McConville v. Ft. Pierce Bank and Trust Co., 101 Fla. 727, 135 So. 392; Christopher v. Mugen, 61 Fla. 513, 55 So. 273; 63 Fla. 1, 58 So. 486, 89 Fla. 119, 103 So. 414, error dismissed 46 S. Ct. 23, 269 U.S. 594, 70 L.Ed. 430).

LOGICAL ARRANGEMENT OF TITLES AND CHAPTERS

The object of any arrangement of statutes is to facilitate the finding of the law. Two methods of arrangement are in general use in the United States namely: The "logical," grouping of related subjects together, as found in most digests, and the "alphabetical," as used in Corpus Juris and American Jurisprudence. A few states use a combination of both methods. A majority however prefer the "logical" arrangement which we have adopted and use in the Florida Statutes.

We have found it advisable to divide several chapters into parts (Part I, Part II, etc.) based on logical organization or related subject matter.

ALPHABETICAL CHAPTER INDEX

An alphabetical chapter index will be found in the fore of Volumes I and II. This index gives direct reference to all chapters. Chapters are alphabetically listed together with the chapter number.

NUMERICAL INDEX TO TITLES AND CHAPTERS

The "Analysis of Florida Statutes by Titles and Chapters" in all three volumes will afford a quick reference to the chapters grouped under the "logical organization" system. Familiarity with this index will save much time.

It lists by chapters groups of related subjects in a general subject field, in numerical order. Should a chapter be repealed, transferred, or expired by law, the chapter number is followed by the word (repealed), (transferred) or (expired). When vacancies occur in the numerical order, the unused numbers have been reserved for future use. A reference to this index will quickly inform one whether a chapter is still active.

Chapters have retained their original numbers except where transferred or revised.

NUMBERING SYSTEM

The decimal numbering system of identifying sections in each chapter is used in Florida.

All chapters are grouped by general subject matter and each is given a number. This chapter number appears in each section to the left of a decimal point. The section number appears to the right of the decimal point. Thus section 12 of chapter 16 would be section 16.12 in the chapter.

In adding a new section preceding section 1 (16.01) of chapter 16 it would become:

(New) Section 16.001
(Old) Section 16.01

In adding a new section between two already existing sections it would appear as:

(Old) Section 16.01		(Old) Section 16.12
(New) Section 16.011	Or	(New) Section 16.121
(Old) Section 16.02		(Old) Section 16.13

The system provides for vast expansion with addition of new sections as needed without necessity for a complete renumbering of existing sections or reorganization of titles and chapters.

INDEX TO SECTION SUBJECTS AT BEGINNING OF EACH CHAPTER

At the beginning of each chapter you will find a Numerical Index to section subjects within the chapter. Should skips appear in section numbers, the section has been repealed or deleted by law or transferred.

When sections have been deleted the section number together with history notes, giving the chapter number of the general session law authorizing the deletion, is transferred to the "Table of Repealed and Inactive Sections" in Volume III. Our policy is to assign new section numbers to new matter rather than reassign used section numbers. History notes will give full information on any deviation from this policy.

HISTORY NOTES AND CROSS REFERENCES

History notes have been carefully compiled, checked for accuracy with original session laws, and brought completely up-to-date. Beginning with the 1957 edition of the Statutes history notes will cite the researcher to the particular paragraphs or subsections affected by each amendment. The lawyer will find them dependable and convenient to use.

Immediately following history notes, related or qualifying laws are frequently noted in the form of cross references.

GENERAL INDEX

An index has never been prepared which has been entirely satisfactory to all members of the bench and bar. It is doubtful whether that Utopia will ever be reached.

No index can contain every possible entry. An index of such size would be incapable of practical use. On the other hand, to index the law only in those places where the user of statutes should logically look would not be sufficient because many persons are not logical in searching an index. We have attempted to reach a happy medium between the logical and the practical approach by selecting catch-words and titles that are commonly used. Cross references have been reduced to a minimum and a direct reference given to the chapter or section whenever possible in every cross reference.

We have revised the index so that it will be workable for the greatest number of persons. The checking plan which we follow insures that no section has been omitted. Every section has been properly indexed under several heads.

We have attempted to use a noun as a catch-word wherever possible instead of an adjective, preposition, a conjunction or an adverb.

The subject matter with which one is concerned will generally give a key to the spot in the index from which to begin the search.

The index is based on a logical arrangement of the statutes. The user will meet with greater success by looking in a place where it should logically be rather than relying upon alphabetical uncertainties of the index.

All indexes at best are inconvenient and time consuming. Continued improvement can and will be made through suggestions and cooperation of the bench and bar with your Statutory Revision Department.

TABLE OF STATUTORY CHANGES MADE BY THE 1963 LEGISLATURE

A table of statutory section changes made by the 1963 regular session of the legislature will be found on the inside fly leaf of Volume I printed on yellow paper. This table will give, (1) the number of the section when any change has been made in a section or subsection, (2) the type of change made whether amended, repealed, new or transferred, and (3) the number of the session law authorizing the change. This table provides a convenient method of quickly finding out whether the law has been changed in any section or chapter.

(If the section is not listed in this table the law was not changed.)

TRACING TABLE

A table, tracing the classification of general laws into the Florida Statutes, will be found in Volume III. This table indicates where a particular section of a law has been assigned in the statutes. The word "omitted" shown in place of a statute section number, indicates that the act is a local or special act or a general act of local application and is not in the statutes. To find an omitted chapter, consult the volumes of the General or Special Session Laws.

TABLE OF REPEALED AND INACTIVE SECTIONS

Preceding the General Index is a table showing repealed and inactive sections.

When a statutory law is repealed or transferred through revision to a new location in the statutes the former section number becomes inactive. All inactive section numbers have been removed from chapters in the statutes and placed in this table, along with history notes to repealed sections. Normally when a section becomes inactive the former assigned number is seldom used again. As new statutory material is added new section numbers are assigned. When a chapter is revised, consolidated or transferred and sections are reasigned a new location, generally the sections get new numbers.

The table provides a consolidated, ready source of statutory reference to all inactive sections along with useful data relating to the disposition of material formerly included therein.

TABLES OF COURTS

A new tabulation of state, district and county courts revised in 1959 and arranged according to jurisdiction beginning with the supreme court down to the small claims courts will be found in Volume III. It will give information concerning, the date of term of court, and type of courts in each county.

This tabulation is also arranged alphabetically by counties. A reference thereto will save time in determining the courts existing throughout Florida in each of the sixty-seven counties.

CENSUS AND MORTALITY TABLE

The 1960 Federal Census and the most recent mortality table will be found in Volume III.

FLORIDA CONSTITUTION

The Constitution of Florida in Volume III with index has been brought up-to-date through November 1963 amendments. The index has been meshed in with the General Index in order that a person searching for a subject may find references to both the constitution and the statutes in one index. The combined General Index has proven to be time saving and a convenient reference to statutory and constitutional provisions relating to the same general subject matter.

CONSTITUTION OF THE UNITED STATES

Upon the request of numerous lawyers and agencies, the Constitution of the United States with index is printed in Volume III.

COURT RULES, INTEGRATION RULES AND CODE OF ETHICS

The court rules, integration rules and code of ethics have been omitted from this edition. They have been printed both by the Supreme Court through West Publishing Company, and by the Florida Bar for distribution to attorneys, and this omission will eliminate a very substantial and unnecessary cost of duplication.

STATUTORY REVISION

Statutory revision technique works primarily with form rather than substance. The Statutory Revision Department of the Attorney General's Office often suggests a revision of chapters where improvements are desirable, but no change in an existing statute is made without legislative approval. The initiation of actual revision of substantive law should be sponsored by attorneys, judges, legislators, or administrators through specialized committees whose members are in close touch with the practice or enforcement of present law. The revisors always assist when called upon, and are interested in all projects and suggestions which eliminate unnecessary statutes, repetition of words and technical defects in the statutes.

Continuous revision places responsibility for ferreting out conflicts, duplications, and eliminating verbosity, circumlocution, obsolete sections, ambiguities, and many other technical faults generally found in session laws. Revision includes constant and continuous work toward the reclassification and consolidation of subject matter. It aims toward changing the wording of a law so

that essential clearness and harmony will exist in order that logical arrangement and compactness of the statutes may be obtained. Continuous revision aims toward simplicity in statement and understanding of meaning by the use of, and arrangement of, words and phrases. It helps avoid rhetorical flourishes and ornamentations as existed under the common law, and aims toward setting forth in clear cut and understandable language the present up-to-date law.

The revisor's office is a clearing house where lawyers, judges, legislators, and administrators may help make better statutory law. Persons calling attention to errors, omissions, conflicts and other defects found in the law, can materially help this department to improve our Florida Statutes.

Much valuable time can be saved in original research by reference to the improved General Index in the official Florida Statutes for subject matter reference and then reading the latest up-to-date complete statutory law on the subject in the volumes of the "Florida Statutes."

The said board shall be charged with the uniform and thorough enforcement of the law throughout the state and shall from time to time recommend any additional legislation that may be necessary for this purpose.

382.02 Central bureau; clerical assistance; compensation.—The central bureau of vital statistics, which is authorized to be established by said board, shall be under the imme-

History.—§2, ch. 6892, 1915; RGS 2069; CGL 3269.

382.04 Appointment of local registrars; terms of office; vacancies; penalty.—The state registrar shall appoint a local registrar of vital statistics for each registration district in the state. The term of office of each local registrar so appointed shall be four years, and until his successor has been appointed and has qualified, unless such office shall sooner become vacant by death, disqualification, operation of law, or other causes; provided, that in incorporated towns or cities where health officers or other officials are, in the judgment of the state registrar, conducting effective registration of births and deaths under local ordinances, such officials may be appointed as registrars in and for such incorporated towns or cities, and shall be subject to the instructions of the state registrar, and to all of the provisions of this chapter. A stillbirth certificate in the form prescribed by the national agency in charge of vital statistics shall be filed with the local registrar in the same manner as a certificate of death. The medical certificate of the cause of stillbirth shall be signed by the attending physician, if any, and shall state the cause of the stillbirth, if known, whether a premature delivery and the period of gestation, if known, and a burial or removal permit of the prescribed form shall be required. Midwives shall not sign certificates for stillborn children; but such cases and stillbirths occurring without medical attendance of a physician shall be treated as deaths without medical attendance as provided for in §382.10.

Indefinite and unsatisfactory terms, denoting only symptoms of disease or conditions resulting from disease, will not be held sufficient for the issuance of a burial or removal permit; and any certificate containing only such terms, as defined by the state registrar, shall be returned to the physician or person making the medical certificate for correction and more definite statement. Causes of death which may be the result of either disease or violence shall be carefully defined; and if from violence, the means of injury shall be stated, and whether (probably) accidental, suicidal, or homicidal. And for deaths in hospitals, institutions, or of non-residents, transients, or recent residents, the physician shall supply the information required under this head, if he is able to do so, and may state where, in his opinion, the disease was contracted.

registrar in order properly to classify the death.

History.—§8, ch. 6892, 1915; RGS 2077; CGL 3277.

382.11 Duty of undertaker.—The undertaker or person acting as undertaker, shall file the certificate of death or stillbirth with the local registrar of the district in which the death or stillbirth occurred and obtain a burial, removal, or other permit prior to any disposition of the body. He shall obtain the required personal and statistical particulars from the person best qualified to supply them over the signature and address of his informant. He shall then present the certificate to the attending physician, if any, or to the health officer or coroner, as directed by the local registrar, for the medical certificate of the cause of death or stillbirth and other particulars necessary to complete the record, as specified in §§382.08-382.10; and he shall then state the facts required relative to the date and place of burial, other disposition, or removal, over his signature and with his address, and present the complete certificate to the local registrar in order to obtain a permit for burial, removal, or other disposition of the body. The undertaker shall deliver the burial permit to the person in charge of the place of burial, before interring or otherwise disposing of the body; or shall attach the removal and transit permit to the box containing the corpse, when shipped by any transportation company; said permit to accompany the corpse to its destination, where, if within the state, the removal permit shall be delivered to the person in charge of the place of burial.

382.12 Casket dealers to make monthly reports.—Every person selling a casket shall keep a record showing the name of the purchaser, purchaser's post office address, name of deceased, date of death, place of death, and color or race of deceased, which record shall be open to inspection of the state registrar at all times. On the first day of each month the person selling caskets shall report to the state registrar each sale for the preceding month, on a blank provided for that purpose; provided, however, that no person selling caskets to dealers or undertakers only shall be required to keep such record, nor shall such report be required from undertakers when they have direct charge of the disposition of a dead body.

Every person selling a casket at retail, and not having charge of the disposition of the body, shall inclose within the casket a notice furnished by the state registrar calling attention to the requirements of the law, and a blank certificate of death.

History.—§9, ch. 6892, 1915; RGS 2079; CGL 3279.

382.13 Form of burial or removal permit.—If the interment, or other disposition of the body is to be made within the state, the wording of the burial or removal permit may be limited to a statement by the registrar, and over

History.—§10, ch. 6892, 1915; RGS 2080; CGL 3280.

382.14 Interment prohibited without burial permit; records of bodies interred.—No person in charge of any premises on which interments, or other dispositions are made shall inter or permit the interment or other disposition of any body unless it is accompanied by a burial, other disposition, or removal permit as herein provided. Any such person shall endorse upon the permit the date of interment, or other disposition, over his signature, and shall return all permits so endorsed to the local registrar of his district within ten days from the date of interment or other disposition. He shall keep a record of all bodies interred or otherwise disposed of on the premises under his charge in each case stating the name and color or race of each deceased person, place of death, date of burial or disposal, and name and address of the undertaker; which record shall at all times be open to official inspection; provided, that the undertaker or person acting as such, when burying a body in a cemetery or burial grounds having no person in charge, shall sign the burial or removal permit, giving the date of burial, and shall write across the face of the permit the words "No person in charge," and file the burial or removal permit within ten days with the registrar of the district in which the cemetery is located. Permits filed with the local registrar under the provisions of this section may be destroyed by the official custodian after the expiration of three years from the date of such filing.

In such case and in case the physician, midwife, or person acting as midwife, in attendance upon the birth is

unable, by diligent inquiry, to obtain any item or items of information on the certificate of birth, the local registrar shall secure from the person so reporting, or from any other person having knowledge, such information as will enable him to prepare the certificate of birth herein contemplated, and the person reporting the birth or who may be interrogated in relation thereto shall answer correctly and to the best of his knowledge all questions put to him by the local registrar which may be calculated to elicit any information needed to make the complete record of the birth as contemplated, and the informant as to any statement made in accordance herewith shall verify such statement by his signature.

To assist in later identification, information concerning the place and circumstances under which the said child was found shall be filed on the portion of the original birth certificate relating to legitimacy status and medical details. In the event said child is identified to the satisfaction of the registrar, at any subsequent time a new birth certificate shall be prepared which will bear the same number as the original certificate and the original certificate shall, thereupon, be sealed and filed and shall not be opened to inspection nor shall certified copies of the same be issued to any person other than the registrant, if of legal age, or upon the order of any court of competent jurisdiction.

(3) All original, new or amendatory certificates of birth shall be identical in form, color, size, wording and arrangement of items, except delayed certificates of birth which shall be on such form as the state registrar may provide. No distinction shall be made between the birth certificate of a legitimate, illegitimate, adopted or unknown parentage child.

The names and statistical particulars shall be entered as of the date of birth but as though the parents were married at that time. The question of legitimacy shall be answered in the affirmative.

(4) **DUTY OF STATE REGISTRAR UPON RECEIPT OF REPORTS ON CHILDREN NOT BORN IN THIS STATE.**—Upon receipt of a report of an adoption, legitimation or annulment of an adoption from a clerk of the court, as hereinbefore provided for, in which report it affirmatively appears that the person involved was born in a state other than the state of Florida, it shall be the duty of the state registrar to forward a copy of such report to the state registrar or comparable official of the state in which said person was born.

Thereafter, when a certified copy of the certificate of birth of such person or portion thereof is issued, it shall be a copy of the new certificate of birth or portion thereof, except when an order, judgment or decree of a court of competent jurisdiction shall require the issuance of a copy or certified copy or the original certificate of birth, or except when such copy of the original certificate shall be requested by the person whose birth is the subject of the said certificate, such person having first furnished satisfactory evidence of identity as is hereinabove provided.

(3) **RIGHT TO RELEASE ON APPLICATION.**—

(a) A voluntary patient who requests his release or whose release is requested in writing by his legal guardian, parent, spouse, or adult next of kin, shall be released forthwith, except that

3. If the head of the hospital, within the hours of the ensuing business day, from the receipt of the request, files in the office of the county judge in the county where such patient is situate certification that in his opinion the release of the patient would be unsafe for the patient or others, release may be postponed for as long as the county judge determines to be necessary for the commencement of proceedings for judicial hospitalization, but in no event for more than five days; provided however, that in the event it becomes necessary that a voluntary patient in a state hospital be judicially committed after admission therein, as provided in this section, the costs incident to such commitment proceedings shall be borne by the county of the patient's residence.

(b) Notwithstanding any other provision of this chapter, judicial proceedings for hospitalization shall not be commenced with respect to a voluntary patient unless release of the patient has been requested by himself or by a duly authorized person, as provided by paragraph (a) herein, or such proceedings are recommended by the head of the hospital.

394.22 Adjudication of persons mentally or physically incompetent; procedure.—**(1) PETITION FOR EXAMINATION OF PERSONS BELIEVED TO BE MENTALLY OR PHYSICALLY INCOMPETENT; PETITION.—**

Whenever any person within this state is believed to be incompetent by reason of mental illness, sickness, drunkenness, excessive use of drugs, insanity, or other mental or physical condition, so that he is incapable of caring for himself or managing his property, or is likely to dissipate or lose his property or become the victim of designing persons, or inflict harm on himself or others, application by written petition, under oath, may be made to the county judge of the county wherein the alleged incompetent resides or may be found, or, in the absence or disability of the county judge, to the judge of the circuit court of the county wherein such petition is filed, for a judicial inquiry as to the mental or physical condition, or both, of the alleged incompetent.

(2) WHO MAY FILE PETITION.—The petition may be filed by:

(a) The mother, father, brother, sister, husband, wife, child or next of kin of the alleged incompetent;

(b) Any three citizens of the state of Florida;

(c) The sheriff of the county where such alleged incompetent resides, if none of the persons named in paragraphs (a) and (b) file such petition;

(d) Any citizen of this state who requests the examination of himself, provided he presents a certificate of a physician authorized to practice medicine in this state, certifying that he believes such petitioner to be incompetent for any one or more of the reasons specified in subsection (1) of this section.

(e) In addition to the persons set forth and described in paragraphs (a)-(d), who may file a petition for the examination of a person believed to be incompetent as contemplated by this section, the superintendent of the state prison farm in Union county, and the superintendent of the branch thereof in Marion county, are hereby authorized to file such a petition with respect to any person at said institution.

(3) NECESSARY ALLEGATIONS.—Every petition shall allege the name, approximate age, address, if known, and nature of the disability of such alleged incompetent, and shall name all the members of his family with their addresses, if known to petitioner, and shall pray for an examination of such alleged incompetent as provided by law and for an order adjudging such person to be incompetent.

(4) NOTICE; HEARING.—Whenever a petition is filed the county judge, or, in his absence or disability, a circuit judge, shall set a date for an immediate or a very early hearing on the petition. Reasonable notice shall then be given in writing to the alleged incompetent and to one or more members of his

family, if any (other than petitioner) are known to the county judge to be residing within his jurisdiction, notifying them that application has been made for an inquiry into either the mental or the physical condition, or both, of the alleged incompetent and that a hearing on such application will be had before the judge having jurisdiction at the time and place to be specified in said notice. The hearings shall be conducted in as informal a manner as may be consistent with orderly procedure and in a physical setting not likely to have a harmful effect on the mental health of the proposed patient. The court shall receive all relevant and material evidence which may be offered and shall not be bound by the rules of evidence. An opportunity to be represented by counsel shall be afforded to every proposed patient, and if neither he nor others provide counsel, the court may appoint counsel.

(5) DETENTION OF ALLEGED INCOMPETENT.—

(a) If it appears, before the date of the hearing, from evidence produced before the judge, by affidavit or otherwise, that it is for the best interest of the alleged incompetent or others that he be detained for observation and examination, said judge may order that said alleged incompetent be placed in the protective custody of the spouse or of one or more of the near relatives of the incompetent or in the protective custody of any other responsible citizen of the state.

(b) The judge may, if in his opinion the public safety or the safety of the alleged incompetent requires it, direct that the sheriff forthwith confine said alleged incompetent in some specified place until the further proceedings herein provided for have been had, or until his further order; the judge may also order the detention of said person for such reasonable time as may be necessary for proper medical observation and examination, not to exceed fifteen days, unless extended for good cause; provided, that in all such cases, there shall first be filed with said judge an affidavit setting forth facts which make such detention necessary.

(6) EXAMINING COMMITTEE.—

(a) The judge shall appoint an examining committee consisting of a responsible citizen of this state and two practicing physicians of good professional standing, each of whom shall be a graduate of a school of medicine recognized by the American medical association; provided, however, the two doctors appointed shall not be permanently associated with each other in the practice of medicine and the citizen appointed shall not be associated with or employed by either doctor. The examining committee, within a reasonable time after notice of their appointment, shall proceed to make such examination of said person as will enable it to ascertain thoroughly his mental and physical condition as of the time of the examination. No petitioner shall serve as a member of the examining committee; provided,

however, the provisions of this section shall not apply in those counties where there are not more than four resident practicing physicians. The provisions of this section shall not apply to resident physicians under the jurisdiction of the division of mental health.

(b) If the examining committee considers the person under examination to be incompetent, it shall determine whether the condition is acute or chronic, what the apparent cause is, and what hallucinations, if any, he has, and what the age and propensities of the person examined are. The report shall cover specifically the findings of the committee; it shall be on the form hereinafter prescribed, shall be signed by each member of the examining committee, and shall be transmitted immediately to the judge. If the report of the designated examiners is to the effect that the proposed patient is not mentally ill, the court may without taking any further action terminate the proceedings and dismiss the application.

(7) INDIGENCY OF INCOMPETENT; ATTORNEY'S FEES; WITNESSES.—

(a) The judge shall ascertain, or direct the examining committee to ascertain whether the person being examined is indigent or possesses sufficient available means for his support. This investigation may extend to the possibilities of acquiring property in the future.

(b) At any state of the proceeding the judge may, upon the application of any alleged incompetent who is indigent, appoint an attorney to represent said person, and the compensation of said attorney shall be fixed by the court in an amount not to exceed fifty dollars and shall be paid by the county commissioners out of the general fund of the county.

(c) If the alleged incompetent person is found to be indigent and unable to procure the attendance of witnesses in his behalf, the judge shall upon written application therefor, summon a reasonable number of witnesses for such person, and the witness and mileage fees of said witnesses shall be paid by the county commissioners of the county from its general fund.

(8) NOTICE; PROCESS; TESTIMONY.— In any trial or proceeding under this section, notice of hearing, service of notice or process, the taking of depositions, summoning of witnesses, and the taking of testimony shall be governed by rules pertaining to such matters in the general guardianship law of this state except as otherwise specified in this section.

(9) JUDGMENT.—If the judge, from the report of the examining committee and the hearing, finds that the person under investigation is incompetent, mentally or physically or both, he shall so adjudge, and his judgment shall set forth the nature and extent of the incompetency; but, if he finds that such person is not incompetent he shall dismiss the cause and discharge said person.

(10) EFFECT OF JUDGMENT.—

(a) After the judgment adjudicating a per-

son to be mentally incompetent is filed in the office of the county judge, such person shall be presumed to be incapable, for the duration of such incompetency, of managing his own affairs or of making any gift, contract, or any instrument in writing which is binding on him or his estate. The filing of said judgment shall be notice of such incapacity.

(b) After a judgment adjudicating a person to be physically incompetent is filed in the office of the county judge, such person shall be presumed to be incapable, for the duration of such incompetency, of making any gift inter vivos or any contract which will bind him or his estate. The filing of said judgment shall be notice of such incapacity.

(11) COMMITMENT.—

(a) Whenever any person who has been adjudged mentally incompetent requires confinement or restraint to prevent self-injury or violence to others, the said judge shall direct that such person be committed to the sheriff for safekeeping and the sheriff shall proceed as provided in §394.09.

(b) The order of commitment shall be accompanied by a copy of the report of the examining committee, the judgment of mental incompetency, and copies of such other instruments and records as may be required by the board of commissioners of state institutions; said copies to be forwarded to the director of mental health.

(c) Where, however, the judge finds, from the report of the examining committee or otherwise, that such person does not require confinement or restraint to prevent self-injury or violence to others and that treatment in the Florida state hospital is unnecessary or would be without benefit to such person, he may further adjudge and decree that such person is harmless and that confinement or restraint of such person is unnecessary, and that he be delivered to a guardian of his person or to any responsible person who may offer to assume the care and custody of such harmless person, without cost to the state or county, or, if he is also found indigent and without funds for self-support, that he be delivered to the county commissioners of the county of his residence, for care and maintenance in the manner provided for paupers.

(d) After adjudication and commitment and before admission to the Florida state hospital the county judge for good cause shown may revoke said commitment and discharge the alleged incompetent.

(12) TEMPORARY HOSPITALIZATION AND CONFINEMENT; PROCEDURE FOR ADJUDICATION OF MENTAL INCOMPETENCY; DISCHARGE; TEMPORARY GUARDIAN.—

(a) Any person under a petition for examination to determine his mental competency before the county judge of any county in this state, as provided in this section, upon the recommen-

dation of the examining committee, appointed by the county judge as provided in this section, that such person is, in the opinion of said examining committee, only temporarily incompetent and through specialized care and treatment may speedily be restored to competency, or upon good cause shown to said county judge at the hearing provided for in this section that said person is only temporarily incompetent and through specialized care and treatment may be speedily restored to competency may, by order of the county judge, be certified to an approved county, city or privately operated hospital, with the consent of said county, city or private hospital, or to the director, division of mental health, for admission to one of the state hospitals, and there be subject to intensive care, treatment and observation for a period not to exceed six months.

(b) If at any time prior to the expiration of the six month period it is the opinion of the staff of the hospital where a person admitted pursuant to this subsection is a patient that said person is mentally competent, or that he has regained his status of mental competency, or that said person will not benefit from further hospitalization, the head of the hospital may discharge said person from said hospital and immediately notify the county judge issuing the order of certification in writing, stating the reason for said discharge. Upon receipt of the notice of discharge, the county judge shall file and record the same. The filing and recording thereof in the office of said county judge shall constitute a discharge of the alleged incompetent and terminate the proceedings thereon.

(c) If at any time prior to the expiration of the six month period it is the opinion of the staff of the hospital where a person admitted pursuant to this subsection is a patient, that said person is mentally incompetent and requires further hospitalization and confinement to prevent self-injury or violence to others, the head of the said hospital shall notify the county judge issuing the order of certification to that effect and shall deliver to said county judge a report, signed by not less than two members of the hospital staff, containing their findings of said person's mental condition, prognosis and recommendation that said person be adjudicated incompetent. Upon receipt of such report, said county judge shall forthwith notify the person or persons who filed the original petition upon which the certificate was based, or in his or their absence, such next of kin or legal guardian of such person as may be found in the jurisdiction of the county judge, that said report has been filed and the notice to such person or persons shall state that the mental competency of such person shall be determined from the report of the hospital staff and the report of the original examining committee unless a hearing and the further examination of the alleged incompetent by an examining committee is requested in writing within ten days of receipt of said notice. A

copy of the report of the medical staff of the said hospital shall accompany said notice and a copy of the notice and the report of the medical staff of the hospital shall be delivered to the alleged incompetent. The notice herein required to be given to the person or persons who filed the original petition, or in their absence, to next of kin or guardian of the alleged incompetent, shall be by registered or certified mail.

If the head of the hospital is of the opinion that release of the patient at the expiration of the six month period would be unsafe to the patient or others, and if a report praying for the adjudication of said patient is filed, the release of said patient by said hospital may be postponed for a period not to exceed fifteen days, during which time the adjudication proceedings shall be commenced as herein provided, and when commenced, release of said patient shall be postponed until the cause is determined before the county judge.

(d) If a hearing and further examination of the alleged incompetent is requested as herein provided, the county judge shall proceed with the adjudication and commitment procedure as set forth in this section. If a hearing and further examination of the alleged incompetent is not requested within the time allowed by law, they shall be deemed waived and the county judge shall determine from the report of the hospital staff, together with the original petition and the report of the original examining committee, whether or not the alleged incompetent is incompetent and in need of further hospitalization and treatment.

(e) If the judge finds the alleged incompetent to be incompetent he shall so adjudge; but if he finds such person is not incompetent he shall dismiss the cause and order such person immediately discharged. A judgment of incompetency shall have the same effect as that specified in subsection (10). Once a judgment of incompetency has been entered, the judge shall follow the provisions of subsection (11) as regarding the commitment of said incompetent.

(f) The head of a state hospital may, upon filing the report as provided in this subsection, include in such report a request that in the event any hearing is requested on such report that the cause be transferred to the county judge of the county in which the hospital at which the patient is confined is located. Upon receipt of such request the county judge shall, except for good cause shown, forthwith transmit the entire file and record to the proper county judge of the county where the hospital wherein the alleged incompetent is confined is located; provided that all costs and fees incident to such proceedings shall be borne by the county from which the original order of certification was issued.

(g) No person who is senile, addicted to the use of drugs, mentally retarded, addicted to the use of alcohol, convulsively disordered, a nonresident or subject to pending criminal

charges shall be certified to a state hospital under the provisions of this subsection.

(h) After the entry and filing of the order certifying a person for admission to a hospital, such person shall be presumed to be incapable, for the duration of such hospitalization, of managing his own affairs or of making any gift, contract, or any instrument in writing which is binding on him or his estate. Such civil rights of said person are suspended for the period of such hospitalization. The filing of said order of certification shall be notice of such incapacity and suspension of civil rights. Provided that upon the discharge of said person from the hospital, his civil rights shall be deemed automatically restored.

(i) *Temporary guardian.*—

1. After the entry and filing of an order certifying any person to a hospital, the county judge, upon application of any party, may appoint a temporary guardian of the property of such person. Such appointment shall be made only after notice to said person or to one or more members of his family or next of kin as may be required in the discretion of the county judge.

2. From and after the rendition of the order appointing a temporary guardian of the property of such person, the general guardianship laws of this state shall apply to all subsequent proceedings thereon. Any temporary guardian of the property appointed as a result of the filing of such application shall qualify to serve as such by filing his oath, furnishing bond, and making such accounting as shall be required by order of the county judge. The general guardianship laws of this state shall apply to such guardian of the property.

3. Upon the discharge of such person for whom a temporary guardian of the property has been appointed by the hospital as in paragraph (b) provided, the temporary guardian shall forthwith file his final account and, upon approval of the same and surrender of the assets in the hands of the temporary guardian of the property, as ordered by the county judge shall be discharged.

4. Any person for whom a temporary guardian of the property has been appointed, thereafter adjudicated incompetent as in paragraph (c), may have a guardian of the property, or of the person, or of both, appointed under the general guardianship law of this state. Upon such adjudication of incompetency and the appointment of a guardian of the property of such person, the temporary guardian shall forthwith file his final account in the office of the county judge and upon its approval by the county judge and the surrender of the assets in the hands of the temporary guardian as directed by order of the county judge, the temporary guardian shall be discharged.

(13) **PAYMENT FOR THE CARE OF COMMITTED INCOMPETENTS.**—Reasonable charges and expenses for the care, maintenance and treatment of committed incompetents un-

der any provision of this section and reimbursement for such charges and expenses that may be advanced by the state or any political subdivision thereof, shall be a lawful charge against the person and estate or property, real, tangible or intangible, of said incompetent in this state. Such charges and expenses may lawfully be paid from the estate of the said incompetent by any authorized personal representative, parent, or legal guardian of said incompetent; provided, however, that the payment thereof, in advance or otherwise, shall never be a prerequisite to the care, maintenance and treatment of any committed incompetent under any circumstances whatsoever. In cases of commitments to state hospitals or institutions, such charges and expenses shall be fixed or approved by the board of commissioners of state institutions of Florida. In the case of commitments to private hospitals or to public hospitals or institutions other than state hospitals or institutions, such charges and expenses shall be fixed or approved by the board of county commissioners of the county wherein the patient is or has been committed. Any suit or action instituted by the state or any political subdivision thereof for the recovery of such charges and expenses against the person or his duly authorized personal representative, parent, or legal guardian, shall be brought by the state attorney of the judicial circuit in which said incompetent was committed, or by the office of the attorney general or both such state attorney and office of the attorney general, as the case may be, as party plaintiff.

(14) **HOSPITALIZATION BY AN AGENCY OF THE UNITED STATES.**—If an individual ordered to be hospitalized pursuant to the previous section is eligible for hospital care or treatment by any agency of the United States, the court, upon receipt of such advice from such agency showing that facilities are available and that the individual is eligible for care or treatment therein, may order him to be placed in the custody of such agency for hospitalization. When any such individual is admitted pursuant to the order of such court to any hospital or institution operated by any agency of the United States within or without the state, he shall be subject to the rules and regulations of such agency. The chief officer of any hospital or institution operated by such agency and in which the individual is so hospitalized, shall with respect to such individual be vested with the same powers as the heads of hospitals within this state with respect to detention, custody, transfer, conditional release, or discharge of patients.

An order of a court of competent jurisdiction of another state, or of the district of Columbia, authorizing hospitalization of an individual by any agency of the United States shall have the same force and effect as to the individual while in this state as in the jurisdiction in which is situated the court entering the order; and the courts of the state or district

issuing the order shall be deemed to have retained jurisdiction of the individual so hospitalized for the purpose of inquiring into his mental condition and of determining the necessity for continuance of his hospitalization, as is provided in this section with respect to individuals ordered hospitalized by the courts of this state. Consent is hereby given to the application of the law of the state or district in which is located the court issuing the order for hospitalization with respect to the authority of the chief officer of any hospital or institution operated in this state by any agency of the United States to retain custody, transfer, conditionally release, or discharge the individual hospitalized.

(15) RESTORATION TO MENTAL COMPETENCY; PROCEDURE.—

(a) In all cases where any person who has been heretofore, or hereafter may be adjudged incompetent, whether such person be confined in the Florida state hospital or has been discharged therefrom, or is in the custody of any person, persons, or committee, it shall be lawful for any relative, husband or wife, or next friend of such person as the case may be, to apply by petition to the county judge of the county where the alleged incompetent was adjudged incompetent, or where such person may be living at the date of such application, to have the mental status of such adjudged incompetent inquired into, as to whether such person is still incompetent and unable to manage his or her affairs; provided, however, that when the alleged incompetent is confined in the Florida state hospital, or any branch thereof, the proceedings shall be brought in the county in which said institution is located.

(b) Such petition shall contain all the facts upon which an order restoring such person to a judicially sound mental condition or status of competency is prayed, and shall be under oath. Such proceeding shall be ex parte and without respondent being named therein; provided however, that service of a copy of said petition shall be served upon the state attorney of the judicial circuit embracing the county in which the cause is brought, and he shall represent the state in such cases. In the event a legal guardian, as provided under the laws of Florida, has been appointed, of the person or property of said adjudicated incompetent, that then and in that event service of a copy of said petition for restoration shall be made upon said legally appointed guardian of the person or property of the adjudicated incompetent. Proof of service of copies of the notice, certificates, and petition shall be by affidavit or acknowledgment to be filed with the court.

(c) Upon the filing of such petition, the county judge of such county shall cause the adjudicated incompetent to be brought before him at an early date, after reasonable notice to the state attorney and legal guardian of said adjudicated incompetent; the time of said notice to be fixed by the county judge, at which time the issue in the said petition shall

be tried, unless for the cause of justice the time shall be enlarged in the discretion of the court. In all other respects the hearing before the county judge on said petition shall be had in the same manner as the hearing provided in subsection (4) of this section.

(d) If upon the hearing of such cause it shall appear to the court that the adjudicated incompetent is of sound mind and is capable of managing his or her own affairs, the county judge hearing such cause shall immediately issue his order herein, which order shall be to the following effect:

1. That said person is of sound mind judicially and is capable of managing his own affairs.

2. That said person be immediately restored to his personal liberty.

3. That the guardian, committee, or custodian, as the case may be, of such person, shall, within thirty days, or such time as the county judge may fix, make full settlement with such person so restored to the status of judicial competency of all his or her property in their or his hands, custody or control, as the case may be, under penalty of contempt of court and the punishment thereof.

(e) The county judge entering such order shall forthwith cause a certified copy thereof to be forwarded to the office of the county judge of the county where said incompetent was originally committed, and said certified copy of order of restoration shall be filed in the original proceedings of record in said county; and a certified copy thereof shall be forwarded to the office of the superintendent of the Florida state hospital.

(f) The petitioner shall be entitled to an appeal to the appropriate district court of appeal in the time and in the manner prescribed by the Florida appellate rules, or to the supreme court if authorized by §4, Art. V of the state constitution from a final order of the county judge entered pursuant to this subsection or subsections (9), (12), (16) or (17) of this section.

(16) RESTORATION TO MENTAL COMPETENCY; BY CERTIFICATE.—

(a) *Certificate.* When a person because of mental incompetency has been committed to the Florida state hospital, or to any institution known as a United States veterans bureau hospital, mentioned in §293.16, and when said person has been under observation at the said hospital or institution for a period of thirty days or more, if a majority of the medical staff of said hospital or institution who are graduates of schools recognized by the American medical association, are of the opinion that said person has recovered his reason and is capable of managing his own affairs, then the superintendent or the manager of said hospital or institution may issue to him a certificate so stating, signed by the three members of the medical staff of the said hospital or institution. Said certificate shall be attested by the superintendent or manager of the said hospital

or institution or someone designated by such superintendent or manager, and said certificate shall be admissible in evidence in any hearing for the restoration to sanity of such person and shall be prima facie proof that such person is sane.

(b) *Automatic restoration.*—Upon issuing the certificate as provided in the foregoing paragraph, the original of said certificate shall be sent to the office of the county judge where said patient to whom said certificate was issued was originally committed. Upon receipt of said certificate it shall be docketed and filed in the file of said person and the county judge shall notify the legally appointed guardian of said discharged person, if there be one appointed, and the state attorney of the judicial circuit embracing the county that said person has been discharged from the state hospital with a certificate of competency and said state attorney shall represent the state in this matter. The state attorney shall file any objections he might have to the restoration to competency of the person named in the certificate within twenty days of his receiving notice of said discharge; provided, the state attorney may prior to the expiration of the twenty day period file a waiver of objection. If no objections are filed within the time allowed herein or if a waiver of objection is filed, the person named in said certificate shall automatically be restored to competency on the basis of said certificate and an order to that effect shall forthwith be entered by the county judge. Provided, however, no fee shall be charged by the county judge for such proceedings. In the event an objection to such restoration is made by the state attorney, a copy of said objections shall be served by registered or certified mail upon the person named in said certificate or upon his next of kin, if known, or legal guardian if one has been appointed, together with a notice that said person or his next of kin, if known, or legal guardian if one has been appointed must institute restoration proceedings which shall be the same in substance as those proceedings provided in subsection (15) of this section.

(c) *Attorneys.* In cases of indigency the court, upon application of the incompetent, may appoint an attorney to represent faithfully such incompetent before the court. The attorney shall be entitled to a reasonable fee not to exceed fifty dollars, to be allowed by the county judge and paid by the county commissioners of the county from the county's general fund.

(17) REMOVAL OF PHYSICAL INCOMPETENCY.—

(a) *Petition.* After a judgment of physical incompetency has been entered, if the person affected thereby shall at any time thereafter become able to care for his property, he or one or more of his family or any of his next of kin may petition the court having jurisdiction of his case, setting forth the recovery of such incompetent and the reasons why he should be restored to his former status.

(b) *Notice and hearing.* The judge shall set a time for the hearing of such petition, and reasonable notice of the hearing shall be given to the incompetent, if he is not the petitioner, and to one or more of the members of his family, if any, and, if he has no family, or next of kin, known to the county judge to be within his jurisdiction, then such notice shall be given as the judge may direct.

(c) *Order.* After the hearing, if the judge shall find that such person has regained the ability to care for his property, an order to that effect shall be entered, and thereupon, such person, so far as his person and property are concerned, shall occupy the same status as though he had never been adjudicated incompetent. If a guardian has been appointed for him during such physical incompetency, such guardian shall immediately render his accounting to the court having jurisdiction and apply for his discharge as provided by the general guardianship laws of this state.

(18) *FORMS.*—The board of commissioners of state institutions shall cause to be prepared and prescribe forms for applications, notices, medical reports, orders of commitment, and such other forms as may be found necessary or convenient, in administering this law. The board of commissioners of state institutions shall cause said forms to be printed and distributed to the county judges of this state.

(19) *APPLICATION OF THIS SECTION.*—The provisions of this section shall be cumulative to all other laws on the restoration of sanity.

(20) *CRIMINAL COMMITMENTS.*—All persons committed to any of the state hospitals by order of any criminal court shall be liable for the payment of care and maintenance charges in the same manner and at the same rate as persons who have been committed by a county judge in a noncriminal proceeding. Such charges shall be paid from the estate of such mentally ill person admitted under a criminal court order and shall be a lawful charge against the estate or property, real, tangible or intangible, of said mentally ill person where-soever situate; provided, however, the provisions of this subsection shall be applicable only to persons committed by a court having criminal jurisdiction prior to entry of any order of sentence, but shall not apply to persons who have been committed to the state hospitals while serving a criminal sentence.

Provided, however, that every application shall be signed by the parent or legal guardian of the applicant or in absence of such, the person or agency having custody of said applicant and the application shall be accompanied by a certificate of at least one licensed physician of good professional standing and a graduate of a school of medicine recognized by the American medical association, and shall state that the applicant has been examined by said physician and it is the opinion of said physician that the applicant is severely emotionally disturbed or psychotic and is in need of and will benefit from intensive care and treatment at the children's center. Said certificate shall also contain a diagnosis and history of the applicant's condition. Provided the certificate shall be based on an examination conducted not less than fifteen days prior to the date of the application.

(2) Upon receipt of the application the director of division of mental health or his designated authority shall, on the basis of the certificate of examination, reject or accept the applicant as a patient at the center. If the ap-

plication is accepted, the applicant shall be admitted to the center as space and facilities shall become available. The director of division of mental health or his designated authority shall have the sole discretion of determining the order of admissions of applicants based on the type of case, the urgency, and facilities available. Provided, however, the ability to pay shall never be a prerequisite to admissions or care and treatment at the center.

(3) Any child admitted to the center under this section whose parent or legal guardian requests his release in writing shall be forthwith released except that if a majority of the medical staff of the center is of the opinion that the release of the child would be unsafe for the child or others, the superintendent may file a petition in the office of the county judge of the county where the patient is situated requesting the certification of said child to the center pursuant to the procedure set forth in this law, and said petition shall be so filed within the next succeeding business day after the request for release is made. Upon filing said petition the patient's release shall be determined by final order of said court.

History.—§7, ch. 59-383.

394.57 Admissions, involuntary, procedure, etc.—

(1) **PETITION.**—Whenever any child in this state is believed to be severely emotionally disturbed or psychotic a written petition under oath may be made to the county judge of the county wherein said child resides or may be found for judicial inquiry into the mental condition of said child. Every petition so filed shall be accompanied by a report of at least one qualified physician of good professional standing and a graduate of a school of medicine recognized by the American medical association, stating that the child named in the petition has been examined by said physician and said report shall contain the results of the examination, a diagnosis and history of the child's mental and physical condition, and a statement of belief that the child would benefit from intensive care and treatment at the children's division of the south Florida state hospital.

(2) **WHO MAY FILE PETITION.**—The petition may be filed by: the mother, father or legal guardian of the said child; any three citizens of the state who are acquainted with the child, provided one such citizen shall be a qualified physician who has examined the mental condition of the child named in the petition.

(3) **NECESSARY ALLEGATIONS.**—Every petition shall allege the name, approximate age, address, and nature of the disability of the alleged mentally ill child. It shall also allege the names and addresses of his parents or legal guardian, if such be known, and shall pray for an order certifying said child for admission to the children's division of the south Florida hospital.

(4) **NOTICE, HEARING.**—Whenever a pe-

tition is filed the county judge shall set an immediate or very early hearing on the petition. Reasonable notice shall be given in writing to the petitioner and to one or more of the parents or legal guardian, if such be known, of the child named in said petition, notifying them that said hearing will be held at the time and place specified in said notice. All hearings shall be conducted in an informal manner, as may be consistent with orderly procedure and in a physical setting not likely to have a harmful effect on the mental health of the child. The court will receive all relevant evidence and the child and his parents or legal guardian shall have an opportunity to be represented by counsel and if no counsel is provided the court may appoint counsel.

(5) **EXAMINATION.**—The parents or legal guardian at any time before the hearing or the judge may request further examination of the alleged severely emotionally disturbed or psychotic child and if such request is made the judge shall appoint an examining committee composed of two practicing physicians of good professional standing, each of whom shall be a graduate of a school of medicine recognized by the American medical association. Within a reasonable time after their appointment the committee shall examine the child named in the petition and upon the completion of said examination forthwith file a written report of said examination. Said report shall contain the results of the examination, a diagnosis and history of the child's mental and physical condition and a statement as to whether or not the committee believes said child will benefit from intensive care and treatment at the children's division.

(6) **CERTIFICATION.**—On the basis of the petition and original examination report and examining committee's report, if any, and such other evidence and testimony as may be presented, the judge shall determine whether or not the child named in the petition is severely emotionally disturbed or psychotic and will benefit from intensive care and treatment at the children's division. If the judge finds the child is severely emotionally disturbed or psychotic and will benefit from intensive care and treatment at the center, he shall certify the child for admission to the center; provided, however, no child shall be admitted to the center without the consent of the director of the children's division; if he finds said child is not severely emotionally disturbed or psychotic and will not benefit from intensive care and treatment at the center, said judge may dismiss the cause or make such other order as he may deem in the best interest of said child.

History.—§8, ch. 59-383.

394.58 Records.—The order of certification shall be forwarded to the director of the division of mental health or his designated authority, together with a copy of all medical examinations.

History.—§9, ch. 59-383.

394.59 Payment for care of certified children.—Whenever the parent, guardian or estate of the child is able to do so, the cost of care and maintenance in whole or in part shall be borne by said parent, guardian or estate; the amount and payment thereof to be determined and arranged by the board of commissioners of state institutions from time to time as conditions and circumstances may warrant. All payments hereunder shall be made to the superintendent and remitted by him to the state treasurer at stated intervals and deposited to general revenue fund. The expenses of certification and transportation to and from and admission to the center shall be borne by the county from which the child is admitted, except in cases of paying children in which case such expenses shall be borne by the parent, guardian or estate of said child. Whether or not a child is admitted to the center on a paying basis shall in no way influence the treatment of said child; every child at the center is to be treated solely on his merits and according to his mental and physical condition.

History.—§10, ch. 59-383.

394.60 Transfer of patients.—When it is made to appear to the director of the division of mental health that any child at the center is not responding to or benefiting from the intensive care and treatment at the center and that such child is in need of further care and treatment and would be more suitably treated and cared for at one of the Florida state hospitals or sunland training center, said director of mental health may order such child transferred from the center to sunland training center or to one of the state hospitals, as the case may be, and thereupon said child shall be received and treated and cared for in Florida state hospital or sunland training center, as the case may be. Provided, however,

all transfers to sunland training center shall first be approved by the board of commissioners of state institutions.

History.—§11, ch. 59-383.

394.61 Discharge.—

(1) When a child has been a patient at the center and there subject to care and treatment, if the director upon advice of his medical staff is of the opinion that said child is cured or sufficiently improved or for other reasons will no longer benefit from care and treatment at the center, the director may issue a certificate of discharge and discharge said child from the center. The original of said certificate shall be forwarded to the county judge who originally certified said child and copy shall be sent by registered or certified mail to the parent or guardian of the child. Upon the filing and docketing said certificate, the case shall be terminated. In the event the parent or legal guardian cannot be found or refuses to accept custody of said discharged child, the child shall be placed in the care and custody of the juvenile court of the county from which the child was originally admitted, as a dependant child.

(2) In addition to the discharge procedure contained in subsection (1), the director of the division of mental health, together with the superintendent of the south Florida state hospital, may make such rules and regulations as they deem necessary to provide for the trial visits or vacation leaves of patients at the center who are not sufficiently improved to be discharged from the center.

398.18 Affidavits as to drug addicts; examination; commitment for treatment.—

(1) Whenever an affidavit, duly verified by any narcotic officer of the bureau of narcotics of the state board of health or any other person claiming to have knowledge of the fact and setting forth that any person named or described therein habitually uses any narcotic drugs as defined by the narcotic drug laws of Florida, so as to endanger the public morals, health, safety and welfare, or who is or has been so addicted to the use of narcotic drugs as to have lost the power of self control with reference to such addiction, shall be filed with the state attorney of any judicial circuit of any county in which such habitual user of narcotic drugs is or may be found, such state attorney shall issue a notice requiring the person so named or described to appear before

a circuit judge of the judicial circuit of which said county is a part, at a time and place specified in such notice, and shall cause a copy thereof to be served upon the person so named or described by any narcotic officer, or other officer duly qualified to serve process in civil and criminal cases. Copy of affidavit and notice shall be furnished the state board of health. The affidavit, and original notice shall be filed with the clerk of the circuit court at or before the time specified for such appearance, but the same and all other records shall be open for inspection only to the person named or described therein or his counsel or by narcotic officers. In the event it should be made to appear to said circuit judge at the time or after filing said affidavit with the clerk of the circuit court that the person named or described in said affidavit should be restrained or taken into custody, said circuit judge shall issue an order directing the sheriff or other officer authorized to serve process in civil or criminal cases in said county to take and hold said person without bail until after the said hearing or any and all other hearings in said cause.

(2) The hearing on the affidavit and notice in said cause shall be held not more than ten days from the date of service of notice on the person named or described in said affidavit; provided, however, that the court, in its discretion, may postpone such hearing from time to time.

(3) Upon receipt of a copy of the notice of hearing in said cause by the state board of health, the bureau of narcotics of the state board of health shall immediately cause an investigation to be made of the matters and things set forth in said affidavit by one or more of its narcotic officers, who shall file with the circuit judge before whom said hearing is to be held a report of his or their findings before or at the time of said hearing. The narcotic officers who make such investigation and report shall be present at said hearing for examination by the state attorney and the person named or described in said affidavit, or his attorney.

(4) At the time and place specified in the notice, the judge shall hear and consider the evidence presented and the report of the narcotic officer or officers, and may, if he deems necessary, appoint a commission of two physicians who shall examine such person and certify to the court as to whether such person is an habitual user of narcotic drugs, as defined by §398.02. Upon being satisfied that the allegations of the affidavit are true, the judge shall make and file an order requiring the person so named or described to forthwith take and continue such treatment for the cure or withdrawal of such drug addiction at the hospital of the state prison, and shall commit said person to the hospital of the state prison until cured or free of the habit of using narcotic drugs, and the sheriff of the county shall take such person into custody and transmit such person to the state prison where the terms of such commitment and order of court shall be carried out. Such treatment shall be designed to rehabilitate

and restore such person to mental and physical health, and all such persons committed for treatment shall be classified by the hospital of the state prison as "narcotic patients." The superintendent of the state prison shall have full supervision and authority over such narcotic patients necessary to carry out the intention of this law, including the right to confine such narcotic patients. The order of commitment shall require monthly reports to be made to the court and to the state board of health by the superintendent of the state prison as to the effect and progress of such treatment. The superintendent of the state prison, the chief physician of the hospital of the state prison, together with the director of the bureau of narcotics of the state board of health, shall make such rules and regulations as they deem best and necessary for the treatment and discipline of narcotic patients. All persons shall be held for treatment until discharged by the court committing them. It shall be the duty of the superintendent of the state prison and the director of the bureau of narcotics of the state board of health to make a report in writing to the court when the mental and physical condition of such narcotic patient is such as to entitle said narcotic patient to discharge; and the court, upon determining that it is to the best interest of said narcotic patient, may make an order releasing said narcotic patient from such commitment, either finally or upon such conditions as the court may determine for the public interest and the welfare of the narcotic patient.

(5) All narcotic officers, agents and inspectors shall have authority to administer oaths in connection with their official duties, and any person making a false statement under oath before such officers, agents, inspectors and representatives of the state board of health shall be deemed guilty of perjury and subject to the same punishment as prescribed for perjury. The bureau of narcotics of the state board of health shall adopt a seal which shall be used on any and all papers and documents of an official nature.

(6) It shall be unlawful for any person to interfere with any narcotic officer, agent, or inspector in the performance of his official duties. And it shall be unlawful for any person to falsely represent himself to be a representative of the state bureau of narcotics, or to falsely represent that he is an officer of or authorized to enforce the narcotic laws of the state, the United States, or any other state, and any person so doing shall be punished as provided for in §398.22.

(7) Upon the recommendation of a duly licensed physician or public health official that a person habitually uses narcotic drugs as contemplated in subsection (1), a circuit judge of the county in which such person is then living, may commit to the hospital of the Florida state prison a person making voluntary application for treatment for drug addiction. Such person shall be discharged from the hospital of the

Florida state prison in the manner provided for same in subsection (4) hereof.

(8) Any person who shall fail, refuse, or neglect to comply with the terms or conditions of any order of court duly issued and served in accordance with this section shall be deemed in contempt of court and shall be proceeded against accordingly.

(4) Certificates of competency may be revoked by the commission for cause, after a hearing is afforded the holder thereof before the full commission.

(5) A certificate of competency may be issued to an applicant therefor without examination when such applicant shall furnish to the commission satisfactory evidence that he is employed as an inspector of elevators by an insurance company authorized to do business in this state, by a manufacturer or dealer in elevators, or by a municipality, and such applicant is otherwise qualified as provided in this chapter.

399.05 Inspection and tests of new, moved or altered installations.—

(1) The operation or use of any new, altered or moved elevator, is prohibited until such equipment has passed tests and inspection as required by this article and a certificate to this effect has been issued in accordance with §399.07.

(2) The person or firm installing, moving or altering elevators, shall notify the industrial commission in writing, at least three days before completion of the work and shall, in the presence of a representative of the commission, subject the new, moved, or altered portions of the equipment to tests required to show that such equipment meets the requirements of this chapter. Where the industrial commission grants specific permission, such tests and inspection may be made without the presence of the commission's representative, provided a certified copy of the test is furnished to such official.

399.06 Registering of existing installations, reports of inspectors.—

(1) The owner or user of any elevator in this state shall register with the Florida industrial commission every elevator operated by him, giving the type, capacity and description, name of manufacturer and purpose for which each is used on or before ninety days after this chapter becomes effective. Such registration shall be made on a form to be furnished by the commission.

(2) Every inspector shall forward to the commission a full report of each inspection made of any elevator, as required to be made by him under the provisions of §399.05, showing the exact condition of the said elevator. If this report indicates that the said elevator is in a safe condition to be operated, the commission shall issue a certificate of operation for a capacity not to exceed that named in the said report of inspection, which certificate shall be valid for one year after the date of inspection unless the certificate is suspended or revoked by the commission. No elevator may lawfully be operated on or after

January 1, 1948, without having such a certificate conspicuously posted thereon; where there is an elevator cab it shall be posted conspicuously therein.

(3) If any elevator be found which, in the judgment of an inspector, is dangerous to life and property, or is being operated without the operating certificate required by §399.07, such inspector may require the owner or user of such elevator to discontinue its operation, and the inspector shall place a notice to that effect conspicuously on or in such elevator. Such notice shall designate and describe the alteration or other change necessary to be made in order to insure safety of operation, date of inspection, and time allowed for such alteration or change. Such inspector shall immediately report all facts in connection with such elevator to the commission. In the event a certificate has been issued for such elevator, the said certificate shall be suspended and not renewed until such elevator has been placed in safe condition. In such case, where an elevator has been placed out of service, the owner or user of such elevator shall not again operate the same until repairs have been made and authority given by the commission to resume operation of the said elevator.

(4) Before any permanent elevator shall be erected, removed to a different location, or whenever any changes or repairs are made which alter its construction or the classification, grade or rating lifting capacity thereof, detailed plans and specifications of the said apparatus, in duplicate, shall be submitted to the commission for approval. Except in those municipalities which maintain their own elevator inspection departments, in which event, such plans and specifications shall be submitted to the elevator department of such municipality for its approval, and if approved a permit for the erection or repair of such elevator shall be issued by the municipality. Where plans and specifications are submitted to, and approved by the commission, a permit for the erection or repair of such elevator shall be issued by the commission. A final inspection shall be made of the apparatus when installed or repairs completed, before final approval shall be given by the commission. The elevator shall not be operated until such final inspection and approval be given, unless a temporary permit be granted by the said commission.

(2) Certificates shall be printed on a six inch wide by nine inch high card and suitably framed in metal with a glass cover.

(3) Certificates shall show the serial number of the elevator for which it is issued, as required in subsection (5) of §399.02.

(4) The required certificate shall be posted in a conspicuous location in the elevator car, and on, near, or plainly visible from the dumbwaiter, escalator, amusement device or special equipment.

(5) The industrial commission may permit the temporary use of any elevator, dumbwaiter, or escalator, for passenger or freight service during the installation or alteration, under the authority of a limited certificate, issued by them for each class of service. Such limited certificate shall not be issued until the elevator shall have been tested under contract load, and the car safety and terminal stopping equipment for construction purposes.

(6) Limited certificates shall be issued for a period not to exceed thirty days. Such certificates may be renewed at the discretion of the commission.

(7) Where a limited certificate is issued, a notice bearing the information that the equipment has not been finally approved shall be conspicuously posted on, near, or visible from each entrance to such elevator, dumbwaiter or escalator.

399.08 Routine inspections, tests and maintenance.—

(1) Passenger and freight elevators shall be inspected by an inspector and tested by the owner in the presence of the inspector at least once each calendar year.

(2) Whenever the commission shall, from inspection of any elevator, determine that in the interest of the public safety such elevator or any part or appliance thereof, is out of order and in an unsafe condition contrary to the requirements of this chapter they shall have the power to order the discontinuance of the use of any such elevator and to compel the person, firm, or corporation having control or possession or use thereof to discontinue such use until such elevator or part or appliance thereof, has been satisfactorily repaired or replaced so that the said elevator is in a safe and proper condition as required by this chapter.

(3) The Florida industrial commission shall certify the inspection of each elevator which, after inspection, is judged to be in conformity with the requirements of this chapter. This certification shall be in the form of an endorsement of the certificate required in §399.07, and shall include the date of the inspection and the signature of the inspector.

History.—§8, ch. 24096, 1947.

The state department of public welfare, hereinafter referred to as the department, shall be administered by a state welfare board, hereinafter referred to as the state board, consisting of nine citizens of the state who shall be appointed by the governor and confirmed by the senate for terms of four years each, appointments to fill vacancies to be for the unexpired term. One member shall be appointed from each of the congressional districts of the state as constituted on January 1, 1959, and one member from the state at large, the term of the present member of the state board from the state at large to continue until the expiration of his term on July 2, 1960, the members from districts one, three and six to continue until July 2, 1959, and the member from district

five to continue until July 2, 1961. The initial term of the new member from district seven created by this law shall expire on July 2, 1960, and that of the new member from district eight on July 2, 1961. The existing state board as thus supplemented shall assume the duties and functions of the state board under the provisions of this chapter. Each member of the state board under this chapter shall have been a citizen and elector of this state for not less than five years immediately preceding the date of his appointment. Each member shall furnish a surety bond, payable to the governor and his successors in office, in the sum of ten thousand dollars. Premiums on qualifying bonds and fees for the issuance of commissions shall be an expense of the department.

No federal, state, county, or municipal officer or employee shall be eligible to serve as a member of the state board during his term as such official.

When any additional congressional district shall be created in this state, a member from that district shall be provided according to the provisions of this section. The initial term of such additional member shall expire with the terms of the smallest group of members whose terms expire together.

409.18 Dependent children.—

(1) Assistance shall be granted to any de-

pendent child living in a suitable home with its parents, relatives, or guardians, or in some other suitable family home meeting the standards of care and health fixed by the laws of this state and the rules and regulations of the state board, who:

(a) Has resided in the state for one year preceding the application for such aid; or

(b) If under one year of age, the parent or other relative with whom the child is living has resided in the state for one year immediately preceding application.

(2) Provided, however, that if aid to dependent children shall be claimed or applied for on the ground of physical or mental disability of parent or other person liable for the support of the dependent child, such aid shall not be granted unless the parent or other person liable for the support of the child be examined by a physician and a certificate of disability shall be signed by said physician and filed with the department. Where such physician certifies to the disability of the parent or other person liable for the support of the dependent child, re-examination as to disability shall be made annually, if said disability is not obvious, and aid to the dependent child shall be discontinued if at any such examination a physician shall certify that the parent or other person liable for support of the child is able to provide such support.

(3)(a) The state board shall, during the initial and any subsequent determination of eligibility, evaluate the suitability of the home in which the dependent child lives, consideration to be given, but not limited, to physical care and supervision provided in the home; social, educational, and religious opportunities for the child; the child's physical and mental health and emotional security; special needs occasioned by the child's physical handicaps or illnesses, if any; the extent to which desirable factors outweigh the undesirable in the home; and the apparent possibility for improving undesirable conditions in the home; provided, however, that the state board shall find the home unsuitable if any of the following conditions are found to exist:

1. Abuse of the child physically or mentally by beating, overwork, or other cruel treatment; or by improper relations with the child.

2. Exploitation of the child by having it beg on the streets, sell or make contacts for the sale of illegal products, or engage in prostitution.

3. Repeated conviction of the parent or other relative for disorderly conduct, alcoholism, prostitution, or other violations of law evincing a weakness or lack of moral structure in the home.

4. Neglect of the needs of the child by failing to provide proper food and clothing where this results, not from lack of income, but from use of the income or grant for purposes other than the procurement of necessities, or neglect of the child by failure to assist it in maintaining a satisfactory school attendance record when not prevented by factors outside the control of the parent or relative.

5. Neglect in care of the child by reason of the absence of the parents or relatives who leave the child alone in the home, on the streets, or in the homes of neighbors, where such absence is not due to employment or other valid requirements, but to engagement in social activities or undesirable pursuits.

6. Feeble-mindedness or disability of the parents or relatives to such extent that the parent cannot give the child the minimum care necessary to protect his physical and mental health.

7. Failure of the parent or relative to provide a stable moral environment for the child, by engaging in promiscuous conduct either in or outside the home, or by having an illegitimate child after receiving an assistance payment from the department, or by otherwise failing to demonstrate an intent to establish a stable home.

(b) If it be determined by the state board that the parents of any child have placed their child with any other person for the purpose of enabling such other person to receive aid for the child to which he would not otherwise be entitled under this section, then both the home of the parents and the home of such other person shall be deemed unsuitable, provided, however, that this paragraph shall not be construed to apply to any home wherein the child has been placed by order of court or by the state board.

(c) The parents or relatives with whom the child is living shall make a written declaration to the state board setting forth their marital status, and shall notify the state board of any change therein. If married, they shall furnish to the state board documentary evidence of their marriage.

(d) If the home in which the child lives is found to be unsuitable, but there is reason to believe that elimination of the undesirable conditions can be effected, and the child is otherwise eligible for aid, a grant shall be initiated or continued for such time as the state board and the family require to complete the improvements.

(e) When intensive efforts over a reasonable period have failed to improve the home conditions, the state board shall determine if any other relatives specified by the social security act are maintaining a suitable home and are willing to take custody and care for the child in their home. Upon an affirmative finding the state board shall, if the parents or relatives with whom the child is living consent, take the necessary steps for placement of the child with such other relatives, but if the parents or relatives with whom the child lives refuse their consent to the placement, then the state board shall file a petition in the appropriate juvenile court for a decree adjudging the home unsuitable and placing the dependent child with such other relatives.

(f) If a diligent search reveals no other relatives as specified in the social security act maintaining a suitable home and willing to

take custody of the child, then the state board may file a petition in the appropriate juvenile court for placement of the child according to the law relating to dependent children.

(g) Notwithstanding the provisions of this section a child otherwise eligible for aid shall not be denied such assistance where a relative as specified in the social security act is unavailable or refuses to accept custody and the appropriate circuit court or juvenile court fails to enter an order removing the child from the custody of the parent, relative or guardian then having custody.

History.—§19, ch. 18285, 1937; CGL 1940 Supp. 4139(19). Former section was repealed by §34, ch. 26937, 1951; present section was reenacted and comp. §15, ch. 26937, 1951.

409.182 Dependent children; support by relatives.—No application to the department for any aid to dependent children which is within its power to grant shall be approved unless such applicant shall first have instituted in the proper court, and in good faith prosecutes, an action for support from persons liable for the support of applicant's dependent child, as the case may be, whenever such cause of action exists. The department shall assist applicants in bringing proceedings to enforce support by such persons who may be liable for the support under the laws of this state; and such assistance shall be by consultation and arrangements with legal aid societies and bureaus established by local bar associations, if there be such legal aid societies able and willing to act, otherwise through the county attorney, county prosecuting attorney or county solicitor, as the case may be, having charge of the prosecution of misdemeanors in the county in which said action may properly be instituted, or, in the event of his absence, disability or disqualification, then through the state attorney of the circuit in which such county is located. It shall be the duty of said public officers when so requested to diligently prosecute such actions. Assistance shall in due course be granted persons otherwise eligible pending the institution and during the prosecution of such action, but payments may be terminated whenever in the opinion of the director the action is not being prosecuted in good faith through the fault of the recipient of public assistance or the fault of the person receiving assistance on behalf of dependent children.

History.—Comp. §12, ch. 26937, 1951.

409.183 Assistance for dependent children; registration of common law marriages.—When called into question in any matter pertaining to the payment of welfare for dependent children of this state, the existence of a valid common law marriage shall not be subject to proof on behalf of either of the parties to such marriage unless the same shall be registered in the office of the county judge of the county wherein the parties reside. Such registration shall be on forms provided by the county judge setting forth under oath substantially the same facts required on the application for a mar-

riage license, shall be subject to the payment of the same fees and shall be signed by both parties to the marriage. Upon receipt of the completed registration and fees the county judge shall cause the marriage to be recorded in a register to be known as Register of Common-Law Marriages. Provided, however, that nothing contained herein shall affect any right, title or interest of any person not a party to such marriage, but whose right, title, or interest depends upon the validity of such marriage relation; and providing further that the provisions of this section shall apply only to matters concerning the application for or receipt of aid by any child under the welfare laws of this state or the inclusion of needs of such child in any welfare budget.

History.—§1, ch. 59-472.

409.19 Opportunity for hearing and appeal.—

(1) If an application for public assistance is not acted upon by the district board within a reasonable time after the filing of the application, or is denied in whole or in part, or if an award of assistance is modified or canceled under any provision of this chapter, the applicant or recipient may appeal to the state board in the manner and form prescribed by the state board. The state board shall, upon receiving such appeal, give the applicant or recipient reasonable notice and opportunity for a fair hearing.

(2) The state board may also, upon its own motion, review any decision of a district board and may consider any application upon which a decision has not been made by the district board within a reasonable time. The state board may make such additional investigations as it may deem necessary, and shall make such decision as to the grant of assistance and the amount of assistance to be granted the applicant as in its opinion is justified and in conformity with the provisions of this chapter. Applicants or recipients affected by such decisions of the state board shall, upon request, be given reasonable notice and opportunity for a fair hearing by the state board.

(3) All decisions of the state board shall be final and shall be binding upon the district boards involved and shall be complied with by the district boards.

(2) The department shall also make such reports, in such forms and containing such information, as the federal government, its agencies and instrumentalities, may from time

to time require, and shall comply with such provisions as the said agencies may from time to time find necessary to insure the correctness and verification of such reports.

409.21 Federal cooperation.—The department shall cooperate fully with the United States government, its agencies and instrumentalities, and the state board shall prescribe such rules and regulations for the administration of this law as shall meet with the requirements of said federal agencies, when not inconsistent with the laws of Florida, to the end that the department may receive the benefit of all federal financial allotments and assistance possible to carry out the purposes of this law.

History.—§22, ch. 18285, 1937; CGL 1940 Supp. 4139(22). Former section repealed by §34, ch. 26937, 1951; present section relating to the same subject matter was comp. §18, ch. 26937, 1951.

409.24 Department may sell certain property and accept certain fees.—

(1) The department is hereby authorized to sell any real or personal property that it may acquire or may heretofore have acquired by way of donation, gift, contribution, bequest or devise from any person, persons or organizations, when such real or personal property is, in the judgment of the state board, upon recommendation of the director, not necessary for use in connection with the work of the department, and all proceeds derived from the sale of such property shall be transmitted to the state treasury to be credited to the department.

(2) The department is authorized to use for public aid and social welfare purposes any moneys realized from the sale of real or personal property sold pursuant to the authorization hereby given; it being expressly declared to be the intention of the legislature that such moneys are hereby appropriated to the department and may be used by it for public aid and social welfare purposes; provided, however, that such money shall be withdrawn in accordance with law. Such moneys are hereby appropriated to the use of the department in addition to other funds which have been or may otherwise be appropriated for public aid and social welfare purposes.

(3) The department may charge and accept fees for adoption placement costs, for other adoption services and for the investigation of adoptions where the child is not related to the petitioners and has not been placed by the department or a licensed child-placing agency. All such fees charged by the department shall be established by the state welfare board, except that in investigations of adoptions where the child has not been placed by the department or a licensed child-placing agency the fee shall be subject to approval of the court. All money from fees shall be placed in a special fund in the state treasury to be used toward

the expense of the adoption services of the department.

409.30 Public assistance; payment on death.—

(1) Upon the death of any person receiving public assistance in the state through the department, all public assistance accrued to such person from the date of last payment to date of death shall be paid to the person who shall have been designated by the person entitled to receive such public assistance; said designation to be under oath and on a form prescribed by the state board and filed with the department during the lifetime of the person making such designation. In the event no designation is made, or the person so designated is no longer living, or cannot be found, then payment shall be made to such person as may be designated by the county judge of the county where the public assistance recipient resided. Such designation by the county judge may be made on a form provided by the state board or by letter or memorandum to the comptroller. No filing or recordation of such designation shall be required and the county judge shall receive no compensation for such service. If a warrant has not been issued and forwarded prior to notice by the department of such recipient's death, upon notice thereof the state board shall promptly requisition the state comptroller to issue a warrant in the amount of such accrued assistance payable to the person designated to receive it and shall attach to such requisition the original designation, or if none, the original designation made by the county judge, as well as a notice of such death, and the comptroller shall issue a warrant in the appropriate amount payable as aforesaid.

(2) If a warrant or warrants have been issued and not cashed by the recipient payee prior to his death, such warrant or warrants shall be promptly returned to the department, together with notice of the death of the recipient, and thereupon the original warrant or warrants shall be endorsed on the back thereof by an employee or employees of the department to be designated by the state board, which endorsement shall be on a form to be prescribed by the state board and approved by the comptroller of the state and shall be in substance as follows: It shall contain the name of the deceased recipient; a statement of his death; the date thereof, and in compliance with this law, pay to the order of the designated beneficiary, without recourse, and signed by the authorized employee or employees of the department, and thereupon such warrant shall be payable to the designated beneficiary as fully and completely as if issued to and payable to such designated beneficiary. The department shall furnish each month to the comptroller of the state a list of such

deceased recipients, the designated beneficiaries or persons to whom such warrants are endorsed and a description of such warrants as herein provided. The state board shall cause all persons now and hereafter receiving public assistance through it to make the designations herein provided for as soon as conveniently may be, and shall preserve such designations in a safe place for use as hereinbefore provided for.

409.33 Appropriation to the state welfare board and transfer of surplus funds.—Whenever any appropriation heretofore or hereafter made to the department either for old age assistance, aid to dependent children, or aid to the blind, shall be insufficient to fully provide such assistance to all persons lawfully entitled thereto, and there should then exist a surplus in the appropriation for any other of said aids over and above the amount required to provide such assistance to all persons lawfully entitled thereto, the state budget commission shall determine the amount of such surplus appropriation and shall, by a majority vote of its members, with the approval of the governor, and on application by the department, transfer so much of such surplus to said insufficient appropriation as they may find necessary to provide assistance to persons lawfully entitled to aid therefrom; provided, however, that any funds thus transferred shall be retransferred by the budget commission if unforeseen or subsequent events should disclose need for additional money in the appropriation from which the transfer was made. Funds which have been thus transferred are hereby appropriated to the department for the aid or assistance for which the transfer was made and shall be disbursed and expended in the same manner as if originally appropriated for such aid. This law shall be liberally construed to the end that old age assistance, aid to dependent children, and aid to the blind may be fully maintained, and if necessary, by transfer of funds under the circumstances and in the manner herein authorized.

(1) The department is hereby authorized to destroy correspondence, documents and records relating to surplus commodities which are more than two years old, if permission is obtained from the federal government.

(2) The state board, in its discretion, and in pursuance of appropriate resolution, may authorize the destruction of any other correspondence, documents, or records where the matters or things therein involved have been closed or terminated and the department is not required by federal laws, rules or regulations to preserve such correspondence, documents or

records, but no agent, employee or servant of the department shall destroy any of said correspondence, documents or records unless such authority is given by a resolution, rule or regulation duly adopted by the state board.

(2) Photographs or microphotographs in the form of film or prints of any records made in compliance with the provisions of this section shall have the same force and effect as the originals thereof would have, and shall be treated as originals for the purpose of their admissibility in evidence. Duly certified or authenticated reproductions of such photographs or microphotographs shall be admitted in evidence in the same manner, the same extent, and with the same effect as duly certified or authenticated copies of the original document of record might have been admitted in evidence.

(1) Whoever knowingly obtains, or attempts to obtain, or aids or abets any person in obtaining or attempting to obtain, by means of a false statement or representation or by false impersonation, or by other fraudulent device, assistance or service to which he is not entitled, or assistance or service greater than that to which he is justly entitled, or whoever willfully makes any unauthorized disposition of any food commodity donated under any program of the federal or state government, or whoever, not being an authorized recipient thereof, willfully converts to his own use or benefit any such food commodity, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined not more than \$500.00 nor less than \$50.00, or imprisoned in the county jail for not more than 12 months, or both.

(2) Upon becoming aware that any applicant or recipient has, by mis-statement, or by withholding facts, violated or attempted to

violate, knowingly, any provision of this law which violation or attempted violation resulted in, or if undiscovered, would have resulted in the applicant or recipient receiving assistance or service, or in receiving more assistance or service than that to which he was otherwise or would have been justly entitled under the provisions of this law, it shall be the duty of each officer of any board, committee, council, authorized or created by this act, or any employee of the department, of the state board, or any council or committee provided by this law, or any other person having any duties with respect to the administration or enforcement of this law, or any part thereof, promptly to make a written report, with complete details of such facts, to the department.

The department shall within thirty days after receipt of this report forward a copy to the district welfare board in the welfare district in which the applicant or recipient who is the subject of the report resides. It shall be the duty of the district welfare board promptly to conduct an investigation into the facts and circumstances set out in such report and to obtain such additional facts as are required and to conduct a hearing, if the same is deemed advisable; provided, however, the applicant or recipient involved in the suspected fraud be given, by registered mail, an eight day notice of said hearing.

to the approval of the governing body of such municipality or county.

Money received for such purpose, unless otherwise provided by the terms of the gift or bequest, shall be deposited with the treasurer of such municipality or county to the account of the playground and recreation board or commission or other body having charge of such work, and the same may be withdrawn and paid out by such body in the same manner as money appropriated for recreation purposes.

421.01 Short title.—This chapter may be referred to as the "Housing Authorities Law."

History.—§1, ch. 17981, 1937; CGL 1940 Supp. 7100(3-a).

421.02 Finding and declaration of necessity.—It is hereby declared:

(1) that there exist in the state insanitary or unsafe dwelling accommodations and that persons of low income are forced to reside in such insanitary or unsafe accommodations; that within the state there is a shortage of safe or sanitary dwelling accommodations available at rents which persons of low income can afford and that such persons are forced to occupy overcrowded and congested dwelling accommodations; that the aforesaid conditions cause an increase in and spread of disease and crime and constitute a menace to the health, safety, morals and welfare of the residents of the state and impair economic values; that these conditions necessitate excessive and disproportionate expenditures of public funds for crime prevention and punish-

ment, public health, welfare and safety, fire and accident protection, and other public services and facilities; (2) that slum areas in the state cannot be cleared, nor can the shortage of safe and sanitary dwellings for persons of low income be relieved, through the operation of private enterprise, and that the construction of housing projects for persons of low income (as herein defined) would therefore not be competitive with private enterprise; (3) that the clearance, replanning and reconstruction of the areas in which insanitary or unsafe housing conditions exist and the providing of safe and sanitary dwelling accommodations for persons of low income (including the acquisition by a housing authority of property to be used for or in connection with housing projects or appurtenant thereto) are exclusively public uses and purposes for which public money may be spent and private property acquired and are governmental functions of public concern; (4) that the necessity in the public interest for the provisions hereinafter enact-

ed, is hereby declared as a matter of legislative determination.

History.—§2, ch. 17981, 1937; CGL 1940 Supp. 7100(3-b).

421.03 Definitions.—The following terms, wherever used or referred to in this chapter, shall have the following respective meanings for the purposes of this chapter, unless a different meaning clearly appears from the context:

(1) "Authority" or "housing authority" shall mean any of the public corporations created by §421.04.

(2) "City" shall mean any city or town of the state having a population of more than two thousand five hundred (according to the last preceding federal or state census). "The city" shall mean the particular city for which a particular housing authority is created.

(3) "Governing body" shall mean the city council, the commission, or other legislative body charged with governing the city (as the case may be).

(4) "Mayor" shall mean the mayor of the city or the officer thereof charged with the duties customarily imposed on the mayor or executive head of the city.

(5) "Clerk" shall mean the clerk of the city or the officer of the city charged with the duties customarily imposed on the clerk thereof.

(6) "Area of operation": (a) in the case of a housing authority of a city having a population of less than twenty-five thousand, shall include such city and the area within five miles of the territorial boundaries thereof; and (b) in the case of a housing authority of a city having a population of twenty-five thousand or more shall include such city and the area within ten miles from the territorial boundaries thereof; provided however, that the area of operation of a housing authority of any city shall not include any area which lies within the territorial boundaries of some other city as herein defined.

(7) "Federal government" shall include the United States, the Federal Emergency Administration of Public Works or any other agency or instrumentality, corporate or otherwise, of the United States.

(8) "Slum" shall mean any area where dwellings predominate which, by reason of dilapidation, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitary facilities, or any combination of these factors, are detrimental to safety, health and morals.

(9) "Housing project" shall mean any work or undertaking: (a) to demolish, clear or remove buildings from any slum area; such work or undertaking may embrace the adaption of such area to public purposes, including parks or other recreational or community purposes; or (b) to provide decent, safe and sanitary urban or rural dwellings, apartments or other living accommodations for persons of low income; such work or undertaking may include buildings, land, equipment, facilities and other real or personal property for necessary, convenient or desirable appurtenances, streets,

sewers, water service, parks, site preparation, gardening, administrative, community, health, recreational, educational, welfare or other purposes; or (c) to accomplish a combination of the foregoing. The term "housing project" also may be applied to the planning of the buildings and improvements, the acquisition of property, the demolition of existing structures, the construction, reconstruction, alteration and repair of the improvements and all other work in connection therewith.

(10) "Persons of low income" shall mean persons or families who lack the amount of income which is necessary (as determined by the authority undertaking the housing project) to enable them, without financial assistance, to live in decent, safe and sanitary dwellings, without overcrowding.

(11) "Debentures" shall mean any notes, interim certificates, debentures, revenue certificates, or other obligations issued by an authority pursuant to this chapter.

(12) "Real property" shall include all lands, including improvements and fixtures thereon, and property of any nature appurtenant thereto, or used in connection therewith, and every estate, interest and right, legal or equitable, therein, including terms for years and liens by way of judgment, mortgage or otherwise and the indebtedness secured by such liens.

(13) "Obligee of the authority" or "obligee" shall include any holder of debentures, trustee or trustees for any such holders, or lessor demising to the authority property used in connection with a housing project, or any assignee or assignees of such lessor's interest or any part thereof, and the federal government when it is a party to any contract with the authority.

History.—§3, ch. 17981, 1937; CGL 1940 Supp. 7100(3-c); §1, ch. 20219, 1941; sub. § (2) am. §1, ch. 28061, 1953; (10) by §24, ch. 57-1.

421.04 Creation of housing authorities.—(1) In each city (as herein defined) there is hereby created a public body corporate and politic to be known as the "Housing Authority" of the city; provided, however, that such authority shall not transact any business or exercise its powers hereunder until or unless the governing body of the city by proper resolution shall declare that there is need for an authority to function in such city. The determination as to whether there is such need for an authority to function (a) may be made by the governing body on its own motion or (b) shall be made by the governing body upon the filing of a petition signed by twenty-five residents of the city asserting that there is need for an authority to function in such city and requesting that the governing body so declare.

(2) The governing body may adopt a resolution declaring that there is need for a housing authority in the city if it shall find (a) that insanitary or unsafe inhabited dwelling accommodations exist in such city or (b) that there is a shortage of safe or sanitary dwelling accommodations in such city available to persons of low income at rentals they can afford. In determining whether dwelling accommodations

are unsafe or insanitary said governing body may take into consideration the degree of overcrowding, the percentage of land coverage, the light, air, space and access available to the inhabitants of such dwelling accommodations, the size and arrangement of the rooms, the sanitary facilities, and the extent to which conditions exist in such buildings which endanger life or property by fire or other causes.

(3) In any suit, action or proceeding involving the validity or enforcement of or relating to any contract of the authority, the authority shall be conclusively deemed to have become established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution by the governing body declaring the need for the authority. Such resolution or resolutions shall be sufficient if it declares that there is such need for an authority and finds in substantially the foregoing terms (no further detail being necessary) that either or both of the above enumerated conditions exist in the city. A copy of such resolution duly certified by the clerk shall be admissible in evidence in any suit, action or proceeding.

History.—§4, ch. 17981, 1937; CGL 1940 Supp. 7100(3-d).
cf.—§1.01 for general definitions.
§421.52, Agreements and contracts.

421.05 Appointment, qualifications and tenure of commissioners.—When the governing body of a city adopts a resolution as aforesaid, the mayor with the approval of the governing body shall promptly appoint five persons as commissioners of the authority created for said city. Three of the commissioners who are first appointed shall be designated to serve for terms of one, two and three years respectively; and the remaining two of such commissioners shall be designated to serve for terms of four years each, from the date of their appointment. Thereafter commissioners shall be appointed as aforesaid for a term of four years except that all vacancies shall be filled for the unexpired term. No commissioner of an authority may be an officer or employee of the city for which the authority is created. A commissioner shall hold office until his successor has been appointed and has qualified. A certificate of the appointment or reappointment of any commissioner shall be filed with the clerk and such certificate shall be conclusive evidence of the due and proper appointment of such commissioner. A commissioner shall receive no compensation for his services, but he shall be entitled to the necessary expenses, including traveling expenses, incurred in the discharge of his duties.

The powers of each authority shall be vested in the commissioners thereof in office from time to time. Three commissioners shall constitute a quorum of the authority for the purpose of conducting its business and exercising its powers and for all other purposes. Action may be taken by the authority upon a vote of a majority of the commissioners present, unless in any case the by-laws of the authority shall require a larger number. The mayor with the

concurrence of the governing body shall designate which of the commissioners appointed shall be the first chairman, but when the office of the chairman of the authority thereafter becomes vacant, the authority shall select a chairman from among its commissioners. An authority shall select from among its commissioners a vice-chairman, and it may employ a secretary (who shall be executive director), technical experts and such other officers, agents and employees, permanent and temporary, as it may require, and shall determine their qualifications, duties and compensation. For such legal services as it may require, an authority may call upon the chief law officer of the city or may employ its own counsel and legal staff. An authority may delegate to one or more of its agents or employees such powers or duties as it may deem proper.

History.—§5, ch. 17981, 1937; CGL 1940 Supp. 7100(3-e).
§1, ch. 59-413.

421.06 Interested commissioners or employees.—No commissioner or employee of an authority shall acquire any interest, direct or indirect, in any housing project or in any property included or planned to be included in any project, nor shall he have any interest, direct or indirect, in any contract or proposed contract for materials or services to be furnished or used in connection with any housing project. If any commissioner or employee of an authority owns or controls an interest, direct or indirect, in any property included or planned to be included in any housing project, he shall immediately disclose the same in writing to the authority and such disclosure shall be entered upon the minutes of the authority. Failure so to disclose such interest shall constitute misconduct in office.

History.—§6, ch. 17981, 1937; CGL 1940 Supp. 7100(3-f).

421.07 Removal of commissioners.—For inefficiency or neglect of duty or misconduct in office, a commissioner of an authority may be removed by the mayor with the concurrence of the governing body, but a commissioner shall be removed only after he shall have been given a copy of the charges at least ten days prior to the hearing thereon and had an opportunity to be heard in person or by counsel. In the event of the removal of any commissioner, a record of the proceedings, together with the charges and findings thereon, shall be filed in the office of the clerk.

History.—§7, ch. 17981, 1937; CGL 1940 Supp. 7100(3-g).

421.08 Powers of authority.—An authority shall constitute a public body corporate and politic, exercising the public and essential governmental functions set forth in this chapter, and having all the powers necessary or convenient to carry out and effectuate the purpose and provisions of this chapter, including the following powers in addition to others herein granted:

(1) To sue and be sued; to have a seal and to alter the same at pleasure; to have perpetual succession; to make and execute contracts

and other instruments necessary or convenient to the exercise of the powers of the authority; and to make and from time to time amend and repeal by-laws, rules and regulations, not inconsistent with this chapter, to carry into effect the powers and purposes of the authority.

(2) Within its area of operation, to prepare, carry out, acquire, lease and operate housing projects; to provide for the construction, reconstruction, improvement, alteration or repair of any housing project or any part thereof.

(3) To arrange or contract for the furnishing by any person or agency, public or private, of services, privileges, works, or facilities for, or in connection with, a housing project or the occupants thereof; provided, however, that notwithstanding any other power or provision in this chapter, the authority shall not construct, lease, control, purchase or otherwise establish in connection with or as a part of any housing project or any other real or any other property under its control, any system, work, facilities, plants or other equipment for the purpose of furnishing utility service of any kind to such projects or to any tenant or occupant thereof in the event that a system, work, facility, plant or other equipment for the furnishing of the same utility service is being actually operated by a municipality or private concern in the area of operation or the city or the territory immediately adjacent thereto; provided, further, that nothing herein shall be construed to prohibit the construction or acquisition by the authority of any system, work, facilities or other equipment for the sole and only purpose of receiving utility services from any such municipality or such private concern and then distributing such utility services to the project and to the tenants and occupants thereof; and (notwithstanding anything to the contrary contained in this chapter or in any other provision of law) to include in any contract let in connection with a project, stipulations requiring that the contractor and any subcontractors comply with requirements as to minimum wages and maximum hours of labor, and comply with any conditions which the federal government may have attached to its financial aid of the project.

(4) To lease or rent any dwellings, houses, accommodations, lands, buildings, structures or facilities embraced in any housing project and (subject to the limitations contained in this chapter) to establish and revise the rents or charges therefor; to own, hold and improve real or personal property; to purchase, lease, obtain options upon, acquire by gift, grant, bequest, devise, or otherwise any real or personal property or any interest therein; to acquire by the exercise of the power of eminent domain any real property; to sell, lease, exchange, transfer, assign, pledge or dispose of any real or personal property or any interest therein; to insure or provide for the insurance of any real or personal property or operations of the authority against any risks or hazards; to procure or agree to the procurement of insurance

or guarantees from the federal government of the payment of any debts or parts thereof (whether or not incurred by said authority), including the power to pay premiums on any such insurance.

(5) To invest any funds held in reserves or sinking funds, or any funds not required for immediate disbursement, in property or securities in which savings banks may legally invest funds subject to their control; to purchase its debentures at a price not more than the principal amount thereof and accrued interest, all debentures so purchased to be canceled.

(6) Within its area of operation: to investigate into living, dwelling and housing conditions and into the means and methods of improving such conditions; to determine where slum areas exist or where there is a shortage of decent, safe and sanitary dwelling accommodations for persons of low income; to make studies and recommendations relating to the problem of clearing, replanning and reconstruction of slum areas, and the problem of providing dwelling accommodations for persons of low income, and to cooperate with the city, the county, the state or any political subdivision thereof in action taken in connection with such problems; and to engage in research, studies and experimentation on the subject of housing.

(7) Acting through one or more commissioners or other person or persons designated by the authority; to conduct examinations and investigations and to hear testimony and take proof under oath at public or private hearings on any matter material for its information; to administer oaths, issue subpoenas requiring the attendance of witnesses or the production of books and papers and to issue commissions for the examination of witnesses who are outside of the state or unable to attend before the authority, or excused from attendance; to make available to appropriate agencies (including those charged with the duty of abating or requiring the correction of nuisances or like conditions, or of demolishing unsafe or insanitary structure within its area of operation) its findings and recommendations with regard to any building or property where conditions exist which are dangerous to the public health, morals, safety or welfare.

(8) To exercise all or any part or combination of powers herein granted. No provisions of law with respect to acquisition, operation or disposition of property by other public bodies shall be applicable to an authority unless the legislature shall specifically so state.

History.—§8, ch. 17981, 1937; CGL 1940 Supp. 7100(3-h).

See: Adams v. Housing authority of city of Daytona Beach,
60 So. 2d 663.

421.09 Operation not for profit.—It is the policy of this state that each housing authority shall manage and operate its housing projects in an efficient manner so as to enable it to fix the rentals for dwelling accommodations at the lowest possible rates consistent with its

providing decent, safe and sanitary dwelling accommodations, and that no housing authority shall construct or operate any such project for profit, or as a source of revenue to the city.

To this end an authority shall fix the rentals for dwellings in its project at no higher rate than it shall find to be necessary in order to produce revenues which (together with all other available moneys, revenue, income and receipts of the authority from whatever sources derived) will be sufficient (1) to pay, as the same shall become due, the principal and interest on the debentures of the authority; (2) to meet the cost of, and to provide for, maintaining and operating the projects (including the cost of any insurance) and the administrative expenses of the authority; and (3) to create (during not less than the six years immediately succeeding its issuance of any debentures) a reserve sufficient to meet the largest principal and interest payments which will be due on such debentures in any one year thereafter, and to maintain such reserve.

History.—§9, ch. 17981, 1937; CGL 1940 Supp. 7100(3-1).

421.091 Financial accounting and investments.—A complete and full financial accounting and audit shall be made annually by a certified public accountant, and a copy of said report shall be filed with the governing body not less than ninety days after the close of each fiscal year. Provided, however, that it shall not be necessary to make a financial accounting and audit of federal funds furnished housing authorities by the federal government and which are audited annually by said federal government if a copy of such federal audit is furnished to the governing body.

History.—§3, ch. 59-413.

421.10 Rentals and tenant selection.—In the operation or management of housing projects an authority shall at all times observe the following duties with respect to rentals and tenant selection: (1) it may rent or lease the dwelling accommodations therein only to persons of low income and at rentals within the financial reach of such persons of low income; (2) it may rent or lease to a tenant dwelling accommodations consisting of the number of rooms (but no greater number) which it deems necessary to provide safe and sanitary accommodations to the proposed occupants thereof, without overcrowding; and (3) it shall not accept any person as a tenant in any housing project if the person or persons who would occupy the dwelling accommodations have an annual net income in excess of five times an annual rental of the quarters to be furnished such person or persons, except that in case of families with three or more minor dependents, such ratio shall not exceed six to one; in computing the rental for this purpose of selecting tenants, there shall be included in the rental the average annual cost (as determined by the authority) to occupants of heat, water, electricity, gas, cooking range and other necessary services or facilities, whether or not the charge

for such services and facilities is in fact included in the rental.

Nothing contained in this section or §421.09 shall be construed as limiting the power of an authority to vest in an obligee the right, in the event of a default by the authority, to take possession of a housing project or cause the appointment of a receiver thereof, free from all the restrictions imposed by this or the preceding section.

History.—§10, ch. 17981, 1937; §1, ch. 19510, 1939; CGL 1940 Supp. 7100(3-j); am. §7, ch. 22858, 1945.

421.101 False representations to obtain lower rent in housing accommodations; penalty.—Whoever makes a false statement or representation, knowing it to be false, or knowingly fails to disclose a material fact in order to obtain a lower rent for housing accommodations in a low rent housing development operated pursuant to chapter 421, than the rental such person is required to pay pursuant to federal or state statutes, schedule of rents or rules and regulations as determined and fixed by housing authorities created pursuant to chapter 421, aforesaid, shall be punished by a fine of not less than \$50.00 nor more than \$500.00, or by imprisonment for not more than six months in the county jail, or both such fine and imprisonment; and each such false statement or representation or failure to disclose a material fact as aforesaid shall constitute a separate offense.

History.—§1, ch. 61-468.

421.11 Cooperation of authorities.—Any two or more housing authorities may join or cooperate with one another in the exercise, either jointly or otherwise, of any or all of their powers for the purpose of financing (including the issuance of bonds, debentures, notes or other obligations and giving security therefor), planning, undertaking, owning, constructing, operating or contracting with respect to a housing project or projects located within the area of operation of any one or more of said authorities. For such purpose, an authority may by resolution prescribe and authorize any other housing authority or authorities, so joining or cooperating with it, to act on its behalf with respect to any or all such powers. Any authorities joining or cooperating with one another may by resolutions appoint from among the commissioners of such authorities an executive committee with full power to act on behalf of such authorities with respect to any or all of their powers, as prescribed by resolutions of such authorities.

History.—§11, ch. 17981, 1937; CGL 1940 Supp. 7100(3-k); am. §1, ch. 21699, 1943.

421.12 Eminent domain.—An authority shall have the right to acquire by the exercise of the power of eminent domain any real property which it may deem necessary for its purposes under this chapter after the adoption by it of a resolution declaring that the acquisition of the real property described therein is necessary for such purposes. An authority may exercise the power of eminent domain in the manner provided in chapters 73 and 74. Prop-

erty already devoted to a public use may be acquired in like manner, provided that no real property belonging to the city, the county, the state or any political subdivision thereof may be acquired without its consent.

History.—§12, ch. 17981, 1937; CGL 1940 Supp. 7100(3-1). cf.—§74.13 Rights of authority after taking.

421.13 Planning, zoning and building laws.

—All housing projects of an authority shall be subject to the planning, zoning, sanitary and building laws, ordinances and regulations applicable to the locality in which the housing project is situated. In the planning and location of any housing project, an authority shall take into consideration the relationship of the project to any larger plan or long-range program for the development of the area in which the housing authority functions.

History.—§13, ch. 17981, 1937; CGL 1940 Supp. 7100(3-x).

421.14 Debentures.—An authority may issue debentures from time to time in its discretion, for any of its corporate purposes. An authority may also issue refunding debentures for the purpose of paying or retiring debentures previously issued by it. An authority may issue such types of debentures as it may determine, including debentures on which the principal and interest are payable; (1) exclusively from the income and revenues of the housing project financed with the proceeds of such debentures, or with such proceeds together with a grant from the federal government in aid of such project; (2) exclusively from the income and revenues of certain designated housing projects whether or not they were financed in whole or in part with the proceeds of such debentures; or (3) from its revenues generally. Any of such debentures may be additionally secured by a pledge of any revenues of any housing project, projects or other property of the authority.

Neither the commissioners of an authority nor any person executing the debentures shall be liable personally on the debentures by reason of the issuance thereof. The debentures and other obligations of an authority (and such debentures and obligations shall so state on their face) shall not be a debt of the city, the county, the state or any political subdivision thereof, and neither the city or the county, nor the state or any political subdivision thereof shall be liable thereon, nor in any event shall such debentures or obligations be payable out of any funds or properties other than those of said authority. The debentures shall not constitute an indebtedness within the meaning of any constitutional or statutory debt or bond limitation or restriction.

History.—§14, ch. 17981, 1937; CGL 1940 Supp. 7100(3-y).

421.15 Form and sale of debentures.—Debentures of an authority shall be authorized by its resolution and may be issued in one or more series and shall bear such dates, mature at such times, bear interest at such rates, not exceeding six per cent per annum, be in such denominations, be in such form, either coupon or registered, carry such conversion or registra-

tion privileges, have such rank or priority, be executed in such manner, be payable in such medium of payment, at such places and be subject to such terms of redemption (with or without premium) as such resolution or its trust indenture may provide.

The debentures may be sold at not less than par at public sale held after notice published once at least five days prior to such sale in a newspaper having a general circulation in the city and in a financial newspaper published in the city of Chicago, Illinois, or in the city of New York, New York, provided, however, that such debentures may be sold at not less than par to the federal government at private sale without any public advertisement.

In case any of the commissioners or officers of the authority whose signatures appear on any debentures or coupons shall cease to be such commissioners or officers before the delivery of such debentures, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such commissioners or officers had remained in office until such delivery. Any provision of any law to the contrary notwithstanding, any debentures issued pursuant to this chapter shall be fully negotiable.

In any suit, action or proceedings involving the validity or enforceability of any debenture of an authority or the security therefor, any such debenture reciting in substance that it has been issued by the authority to aid in financing a housing project to provide dwelling accommodations for persons of low income shall be conclusively deemed to have been issued for a housing project of such character and said project shall be conclusively deemed to have been planned, located and constructed in accordance with the purposes and provisions of this chapter.

History.—§15, ch. 17981, 1937; CGL 1940 Supp. 7100(3-z).

421.16 Provisions of debentures and trust indentures.—In connection with the issuance of debentures or the incurring of obligations under leases and in order to secure the payment of such indentures or obligations, an authority, in addition to its other powers, shall have power:

(1) To pledge all or any part of its gross or net rents, gross or net fees or gross or net revenues to which its right then exists or may thereafter come into existence.

(2) To covenant against pledging all or any part of its rents, fees and revenues, or against mortgaging all or any part of its real or personal property, to which its right or title then exists or may thereafter come into existence or against permitting or suffering any lien on such revenues or property; to covenant with respect to limitations on its rights to sell, lease or to otherwise dispose of any housing project or any part thereof; and to covenant as to what other, or additional debts or obligations may be incurred by it.

(3) To covenant as to the debentures to be issued and as to the issuance of such debentures.

tures in escrow or otherwise, and as to the use and disposition of the proceeds thereof; to provide for the replacement of lost, destroyed or mutilated debentures; to covenant against extending the time for the payment of its debentures or interest thereon; and to redeem the debentures, and to covenant for their redemption and to provide the terms and conditions thereof.

(4) To covenant (subject to the limitations contained in this chapter) as to the rents and fees to be charged in the operation of a housing project or projects, the amount to be raised each year or other period of time by rents, fees and other revenues, and as to the use and disposition to be made thereof; to create or to authorize the creation of special funds for moneys held for construction or operating costs, debt service, reserves, or other purposes, and to covenant as to the use and disposition of the moneys held in such funds.

(5) To prescribe the procedure, if any, by which the terms of any contract with the holders of debentures may be amended or abrogated, the amount of debentures the holders of which must consent thereto, and the manner in which such consent may be given.

(6) To covenant as to the use of any or all of its real or personal property; and to covenant as to the maintenance of its real and personal property, the replacement thereof, the insurance to be carried thereon and the use and disposition of insurance moneys.

(7) To covenant as to the rights, liabilities, powers and duties arising upon the breach by it of any covenant, condition, or obligation, and to covenant and prescribe as to events of default and terms and conditions upon which any or all of its debentures or obligations shall become or may be declared due before maturity, and as to the terms and conditions upon which such declaration and its consequences may be waived.

(8) To vest in a trustee or trustees or the holders of debentures or any proportion of them the right to enforce the payment of the debentures or any covenants securing or relating to the debentures; to vest in a trustee or trustees the right, in the event of a default by said authority, to take possession and use, operate and manage any housing project or part thereof, and to collect the rents and revenues arising therefrom and to dispose of such moneys in accordance with the agreement of the authority with said trustee; to provide for the powers and duties of a trustee or trustees and to limit the liabilities thereof; and to provide the terms and conditions upon which the trustee or trustees or the holders of debentures or any proportion of them may enforce any covenant or rights securing or relating to the debentures.

(9) To exercise all or any part or combination of the powers herein granted.

History.—§16, ch. 17981, 1937; CGL 1940 Supp. 7100(3-aa).

421.17 Validation of debentures and proceedings.—A housing authority shall have the

right, if it deems it expedient, to determine its authority to issue any debentures, and the legality of all proceedings had or taken in connection therewith, in the same manner and to the same extent (except as otherwise provided in this section) as provided in chapter 75 for the determination by a county, municipality, taxing district, or other political district or subdivision of its authority to incur bonded debt or to issue certificates of indebtedness and of the legality of all proceedings had or taken in connection therewith.

The petition to validate such debentures, and the proceedings had or taken in connection therewith, shall be filed by the housing authority in the circuit court for the county in which is located the city for which said housing authority was created, except that whenever it appears that a housing authority is empowered to function in more than one county the circuit court of any county in the whole or any part of which the housing authority is empowered to function shall have jurisdiction of the cause in the same manner as provided in said chapter whenever a municipality, taxing district or other political district or subdivision shall extend into more than one county.

The notice required by §75.06 shall be addressed to the taxpayers and citizens of the city for which such housing authority has been created and of the county (or counties, in the event such housing authority is empowered to function in more than one county) in the whole or any part of which the housing authority is empowered to function; and by the publication of such notice as required by said chapter 75 all taxpayers and citizens of such city and such county or counties, as the case may be, shall be considered as parties defendant to such proceedings, and the circuit court in which the proceeding is brought shall have jurisdiction of all of the same as if they were named defendants in the petition filed pursuant to said chapter and personally served with process.

In the event no appeal is taken within the time prescribed by said chapter, or if taken, and the decree validating said debentures is affirmed by the supreme court, the decree of the circuit court validating and confirming the issuance of the debentures of the housing authority shall be forever conclusive as to the validity of said debentures against the housing authority and against all taxpayers and citizens of the city for which said housing authority was created and of the county or counties in the whole or part of which the housing authority is empowered to function; and the validity of said debentures shall never be called in question in any court in this state. Debentures of a housing authority, when issued under the provisions of said chapter, shall have stamped or written thereon by the proper officers of the housing authority issuing the same, the words: "Validated and confirmed by decree of the circuit court" (specifying the date when such decree was rendered

and the court in which it was rendered), which shall be signed by the clerk of the circuit court in which the decree was rendered, which entry shall be original evidence of said decree in any court in this state.

421.18 Remedies of an obligee of authority.—An obligee of an authority shall have the right in addition to all other rights which may be conferred on such obligee, subject only to any contractual restrictions binding upon such obligee:

(1) By mandamus, suit, action or proceeding at law or in equity to compel said authority and the commissioners, officers, agents or employees thereof to perform each and every term, provision and covenant contained in any contract of said authority with or for the benefit of such obligee, and to require the carrying out of any or all such covenants and agreements of said authority and the fulfillment of all duties imposed upon said authority by this chapter.

(2) By suit, action or proceeding in equity, to enjoin any acts or things which may be unlawful, or the violation of any of the rights of such obligee of said authority.

History.—§18, ch. 17981, 1937; CGL 1940 Supp. 7100(3-cc).

421.19 Additional remedies conferrable by authority.—An authority shall have power by its resolution, trust indenture, lease or other contract to confer upon any obligee holding or representing a specified amount in debentures, or holding a lease, the right (in addition to all rights that may otherwise be conferred), upon the happening of an event of default as defined in such resolution or instrument, by suit, action or proceeding in any court of competent jurisdiction:

(1) To cause possession of any housing project or any part thereof to be surrendered to any such obligee.

(2) To obtain the appointment of a receiver of any housing project of said authority or any part thereof and of the rents and profits therefrom. If such receiver be appointed, he may enter and take possession of such housing project or any part thereof and operate and maintain same, and collect and receive all fees, rents, revenues, or other charges thereafter arising therefrom, and shall keep such moneys in a separate account or accounts and apply the same in accordance with the obligation of said authority as the court shall direct.

(3) To require said authority and the commissioners thereof to account as if it and they were the trustees of an express trust.

History.—§19, ch. 17981, 1937; CGL 1940 Supp. 7100(3-dd).

421.20 Exemption of property from execution sale.—All real property of an authority shall be exempt from levy and sale by virtue of an execution, and no execution or other judicial process shall issue against the same nor shall any judgment against an authority

be a charge or lien upon its real property; provided, however, that the provisions of this section shall not apply to or limit the right of obligee to pursue any remedies for the enforcement of any pledge given by an authority on its rents, fees or revenues.

History.—§20, ch. 17981, 1937; CGL 1940 Supp. 7100(3-ee).

421.21 Aid from federal government; tax exemptions.—

(1) In addition to the powers conferred upon an authority by other provisions of this chapter, an authority is empowered to borrow money or accept grants or other financial assistance from the federal government for or in aid of any housing project within its area of operation, to take over or lease or manage any housing project or undertaking constructed or owned by the federal government, and to these ends, to comply with such conditions and enter into such trust indentures, leases or agreements as may be necessary, convenient or desirable. It is the purpose and intent of this chapter to authorize every authority to do any and all things necessary or desirable to secure the financial aid or cooperation of the federal government in the undertaking, construction, maintenance or operation of any housing project by such authority.

(2) In addition to the powers conferred upon an authority by subsection (1) and other provisions of this chapter, an authority is empowered to borrow money or accept grants or other financial assistance from the federal government under section 202 of the housing act of 1959 (P. L. 86-372, 86th congress) or any law or program of the housing and home finance agency, which provides for direct federal loans in the maximum amount, as defined therein, for the purpose of assisting certain non-profit corporations to provide housing and related facilities for elderly families and elderly persons.

(a) Housing authorities created under this section are authorized to execute mortgages, notes, bills or other forms of indebtedness together with any agreements, contracts or other instruments required by the housing and home finance agency of the United States government in connection with loans made for the purposes set forth in subsection (2).

(b) This provision relating to housing facilities for the elderly is cumulative and in addition to the powers given to housing authorities under this chapter. All powers granted generally by law to housing authorities in Florida relating to issuance of trust indentures, debentures and other methods of raising capital shall apply also to housing authorities in connection with their participation in programs of the housing and home finance agency.

(3) It is the legislative intent that the tax exemption of housing authorities provided by chapter 423, shall specifically apply to any housing authority created under this section.

History.—§21, ch. 17981, 1937; CGL 1940 Supp. 7100(3-ff);
§§1, 2, ch. 61-197.

421.22 Reports.—At least once a year, an authority shall file with the clerk a report of its activities for the preceding year, and shall make recommendations with reference to such additional legislation or other action as it deems necessary in order to carry out the purposes of this chapter.

History.—§22, ch. 17981, 1937; CGL 1940 Supp. 7100(3-gg).

421.23 Liabilities of authority.—In no event shall the liabilities, whether *ex contractu* or *ex delicto*, of an authority arising from the operation of its housing projects, be payable from any funds other than the rents, fees or revenues of such projects and any grants or subsidies paid to such authority by the federal government.

History.—§23, ch. 17981, 1937; CGL 1940 Supp. 7100(3-hh); am. §7, ch. 22858, 1945.

421.24 Organization and establishment.—The establishment and organization of housing authorities in the state under the provisions of the housing authorities law of this state, together with all proceedings, acts and things heretofore undertaken, performed or done with reference thereto, are hereby validated, ratified, confirmed, approved and declared legal in all respects, notwithstanding any defect or irregularity therein or any want of statutory authority.

History.—§1, ch. 19511, 1939; CGL 1940 Supp. 7100(3-kk).

421.25 Contracts and undertakings.—All contracts, agreements, obligations, and undertakings of such housing authorities heretofore entered into relating to financing or aiding in the development, construction, maintenance or operation of any housing project or projects or to obtaining aid therefor from the United States Housing Authority, including (without limiting the generality of the foregoing) loan and annual contributions, contracts and leases with the United States Housing Authority, agreements with municipalities or other public bodies (including those which are pledged or authorized to be pledged for the protection of the holders of any notes or bonds issued by such housing authorities or which are otherwise made a part of the contract with such holders of notes or bonds) relating to cooperation and contributions in aid of housing projects, payments (if any) in lieu of taxes, furnishing of municipal services and facilities, and the elimination of unsafe and insanitary dwellings, and contracts for the construction of housing projects, together with all proceedings, acts and things heretofore undertaken, performed or done with reference thereto, are hereby validated, ratified, confirmed, approved and declared legal in all respects, notwithstanding any defect or irregularity therein or any want of statutory authority.

421.26 Notes and bonds.—All proceedings, acts and things heretofore undertaken, performed or done in or for the authorization, issuance, execution and delivery of notes and bonds by housing authorities for the purpose

of financing or aiding in the development or construction of a housing project or projects, and all notes and bonds heretofore issued by housing authorities are hereby validated, ratified, confirmed, approved and declared legal in all respects, notwithstanding any defect or irregularity therein or any want of statutory authority.

History.—§3, ch. 19511, 1939; CGL 1940 Supp. 7100(3-mm).

421.261 Continuance of municipal housing authorities when municipality abolished; counties in excess of 400,000.—Whenever a municipality in any county having a population in excess of four hundred thousand according to the most recent official census has been or hereafter shall be abolished, wherein at the time of such abolishment a housing authority of such municipality was or is in existence, such housing authority shall continue to function in all respects; provided, however, that the name of such housing authority shall thenceforth be such as may be determined by the county commissioners of the county wherein it functions. Each such housing authority and the commissioners thereof, within the area of operation of such housing authority as hereinafter defined, shall have the same functions, rights, powers, duties, immunities and privileges provided for housing authorities created for cities. Each such housing authority shall continue to operate and prosecute all projects operated or initiated by it prior to the abolishment of the municipality, and shall be entitled to all benefits and privileges thereafter conferred upon housing authorities for cities. The commissioners of each such housing authority shall continue in office after the abolishment of the particular municipality for the remainder of their respective terms. Their successors shall be appointed by resolution of the commissioners of the county. As used in the housing authorities law, the terms "mayor" and "governing body" shall be construed as meaning "county commissioners", the term "city" as used therein shall be construed as meaning "county", and the term "clerk" as used therein shall be construed as meaning "clerk of the circuit court of the county", unless different meanings clearly appear from the contents. The area of operation of any such housing authority shall continue to be the same as that before the abolishment of the municipality, unless extended by resolution of the county commissioners, provided that no such extension shall include any territory lying within a city as defined in the housing authorities law.

History.—Comp. §1, ch. 28305, 1953.

421.27 Housing authorities in counties.—In each county of the state there is hereby created a public body corporate and politic to be known as the "housing authority" of the county; provided, however, that such housing authority shall not transact any business or exercise its powers hereunder until or unless the governing body of such county, by proper resolution shall declare at any time hereafter that there is need for a housing authority to function in and for such

county, which declaration shall be made by such governing body for such county in the same manner and subject to the same conditions as the declaration of the governing body of a city required by section 421.04 for the purpose of authorizing a housing authority created for a city to transact business and exercise its powers (except that the petition referred to in said section 421.04 shall be signed by twenty-five residents of such county).

Upon notification of the adoption of such resolution the commissioners of a housing authority created for a county (who shall be qualified electors of such county) shall be appointed by the governor in the same manner as the commissioners of a housing authority created for a city may be appointed by the mayor; and except as otherwise provided herein, each housing authority created for a county and the commissioners thereof, within the area of operation of such housing authority as hereinafter defined, shall have the same functions, rights, powers, duties, immunities and privileges provided for housing authorities created for cities and the commissioners of such housing authorities, in the same manner as though all the provisions of law applicable to housing authorities created for cities were applicable to housing authorities created for counties; provided, that for such purposes the term "mayor" as used in the Housing Authorities Law shall be construed as meaning "governor," the term "governing body" as used therein shall be construed as meaning "county commissioners," the term "city" as used therein shall be construed as meaning "county," and the term "clerk" as used therein shall be construed as meaning "county clerk" (as herein defined), unless a different meaning clearly appears from the context; and provided further that the governor may appoint any persons as commissioners of a housing authority created for a county who are qualified electors in such county; and provided further that such commissioners may be removed or suspended in the same manner and for the same reasons as other officers appointed by the governor.

The area of operation of a housing authority created for a county shall include all of the county for which it is created except that portion of the county which lies within the territorial boundaries of any city as defined in the housing authorities law, as amended.

History.—§1, (27) ch. 20220, 1941.

421.28 Creation of regional housing authority.—(1) If the governing body of each of two or more contiguous counties by resolution declares that there is a need for one housing authority to be created for all of such counties to exercise powers and other functions herein prescribed in such counties, a public body corporate and politic to be known as a regional housing authority shall thereupon exist for all of such counties and exercise its powers and other functions in such counties; and thereupon each housing authority created by section 421.27 for each of such counties shall cease to exist except for the purpose of winding up its affairs and ex-

ecuting a deed to the regional housing authority as hereafter provided; provided that the governing body of a county shall not adopt a resolution as aforesaid if there is a housing authority created for such county which has any obligations outstanding unless first (a) all obligees of such county housing authority and parties to the contracts, bonds, notes and other obligations of such county housing authority agree with such county housing authority to the substitution of such regional housing authority in lieu of such county housing authority on all such contracts, bonds, notes or other obligations, and (b) the commissioners of such county housing authority adopt a resolution consenting to the transfer of all the rights, contracts, obligations and property, real and personal, of such county housing authority to such regional housing authority as hereinafter provided; and provided further that when the above two conditions are complied with and such regional housing authority is created and authorized to exercise its powers and other functions, all rights, contracts, agreements, obligations and property of such county housing authority shall be in the name of and vest in such regional housing authority, and all obligations of such county housing authority shall be the obligations of such regional housing authority and all rights and remedies of any person against such county housing authority may be asserted, enforced and prosecuted against such regional housing authority to the same extent as they may have been asserted, enforced and prosecuted against such county housing authority.

(2) When any real property of a county housing authority vests in a regional housing authority as provided above, the county housing authority shall execute a deed of such property to the regional housing authority which thereupon shall file such deed with the recorder of deeds of the county where such real property is, provided that nothing contained in this sentence shall affect the vesting of property in the regional housing authority as provided above.

(3) The governing body of each of two or more contiguous counties shall by resolution declare that there is a need for one regional housing authority to be created for all of such counties to exercise powers and other functions herein prescribed in such counties, if such governing body finds (and only if it finds) (a) that insanitary or unsafe inhabited dwelling accommodations exist in such county or there is a shortage of safe and sanitary dwelling accommodations in such county available to persons of low income at rentals they can afford and (b) that a regional housing authority would be a more efficient or economical administrative unit than the housing authority of such county to carry out the purposes of this Housing Authorities Law in such county.

(4) In any suit, action or proceeding involving the validity or enforcement of or relating to any contract of the regional housing authority, the regional housing authority shall be conclusively deemed to have become created as a public

body corporate and politic and to have become established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution by the governing body of each of the counties creating the regional housing authority declaring the need for the regional housing authority. Each such resolution shall be deemed sufficient if it declares that there is need for a regional housing authority and finds in substantially the foregoing terms (no further detail being necessary) that the conditions enumerated above in (a) and (b) of subsection (3) exist. A copy of such resolution of the governing body of a county, duly certified by the county clerk of such county, shall be admissible in evidence in any suit, action or proceeding.

History.—§1, (28) ch. 20220, 1941.

421.29 Area of operation of regional housing authority.—(1) The area of operation of a regional housing authority shall include all of the counties for which such regional housing authority is created and established except such portions of the counties which lie within the territorial boundaries of cities, as defined in the housing authorities law, as amended.

(2) The area of operation of a regional housing authority shall be increased from time to time to include one or more additional counties not already within a regional housing authority (except such portion or portions of such additional county or counties which lie within the territorial boundaries of any city, as defined) if the governing body of each of the counties then included in the area of operation of such regional housing authority, the commissioners of the regional housing authority and the governing body of each such additional county or counties each adopt a resolution declaring that there is a need for the inclusion of such additional county or counties in the area of operation of such regional housing authority. Upon the adoption of such resolutions, the county housing authority created by §421.27 for each such additional county shall cease to exist except for the purpose of winding up its affairs and executing a deed to the regional housing authority as hereinafter provided; provided, however, that such resolutions shall not be adopted if there is a county housing authority created for any such additional county which has any obligations outstanding unless first (a) all obligees of any such county housing authority and parties to the contracts, bonds, notes and other obligations of any such county housing authority agree with such county housing authority and the regional housing authority to the substitution of such regional housing authority in lieu of such county housing authority on all such contracts, bonds, notes or other obligations, and second (b) the commissioners of such county housing authority and the commissioners of such regional housing authority adopt resolutions consenting to the transfer of all the rights, contracts, obligations and property, real and personal, of such county housing authority to such regional housing authority as

hereinafter provided, and provided further, that when the above two conditions are complied with and the area of operation of such regional housing authority is increased to include such additional county, as hereinabove provided, all rights, contracts, agreements, obligations and property of such county housing authority shall be in the name of and vest in such regional housing authority, all obligations of such county housing authority shall be the obligations of such regional housing authority and all rights and remedies of any person against such county housing authority may be asserted, enforced and prosecuted against such regional housing authority to the same extent as they may have been asserted, enforced and prosecuted against such county housing authority.

(3) When any real property of a county housing authority vests in a regional housing authority as provided above, the county housing authority shall execute a deed of such property to the regional housing authority which thereupon shall file such deed with the recorder of deeds of the county where such real property is, provided that nothing contained in this sentence shall affect the vesting of property in the regional housing authority as provided above.

(4) The governing body of each of the counties in the regional housing authority, the commissioners of the regional housing authority and the governing body of each such additional county or counties shall by resolution declare that there is a need for the addition of such county or counties to the regional housing authority, if (a) the governing body of each of such additional county or counties finds that insanitary or unsafe inhabited dwelling accommodations exist in such county or there is a shortage of safe or sanitary dwelling accommodations in such county available to persons of low income as rentals they can afford and (b) the governing body of each of the counties then included in the area of operation of the regional housing authority, the commissioners of the regional housing authority and the governing body of each such additional county or counties find that the regional housing authority would be a more efficient or economical administrative unit to carry out the purposes of this housing authorities law if the area of operation of the regional housing authority shall be increased to include such additional county or counties.

(5) In determining whether dwelling accommodations are unsafe or insanitary under this or the preceding section, the governing body of a county shall take into consideration the safety and sanitation of the dwellings, the light and air space available to the inhabitants of such dwellings, the degree of overcrowding, the size and arrangement of the rooms and the extent to which conditions exist in such buildings which endanger life or property by fire or other causes.

(6) In connection with the issuance of bonds or the incurring of other obligations a regional housing authority may covenant as to limita-

tions on its right to adopt resolutions relating to the increase of its area of operation.

(7) No governing body of a county shall adopt any resolution authorized by this or the preceding section unless a public hearing has first been held. The clerk of such county shall give notice of the time, place and purpose of the public hearing at least ten days prior to the day on which the hearing is to be held, in a newspaper published in such county, or if there is no newspaper published in such county, then in a newspaper published in the state and having a general circulation in such county. Upon the date fixed for such public hearing an opportunity to be heard shall be granted to all residents of such county and to all other interested persons.

History.—§1, (29) ch. 20220, 1941.

421.30 Commissioners of regional authorities.—

(1) When a regional housing authority has been created as provided above, the governor shall thereupon appoint one qualified elector from each county included in such regional housing authority as a commissioner of the regional housing authority. When the area of operation of a regional housing authority is increased to include an additional county or counties as herein provided, the governor shall thereupon appoint one qualified elector from each such additional county as a commissioner of the regional housing authority. If any county is excluded from the area of operation of a regional housing authority, the office of the commissioner of such regional housing authority appointed as provided above for such county, shall be thereupon abolished.

(2) If the area of operation of a regional housing authority consists at any time of an even number of counties, the governor shall appoint one additional commissioner (who shall be a qualified elector from one of the counties in such area of operation) whose term of office shall be as herein provided for a commissioner of a regional housing authority, except that such term shall end at any earlier time that the area of operation of the regional housing authority shall be changed to consist of an odd number of counties.

(3) A certificate of the appointment of any commissioner of a regional housing authority shall be filed with the county clerk of the county from which the commissioner is appointed, and such certificate shall be conclusive evidence of the due and proper appointment of such commissioner. The commissioners of a regional housing authority shall be appointed for terms of four years, except that all vacancies shall be filled for the unexpired terms. Each commissioner shall hold office until his successor has been appointed and has qualified, except as otherwise provided herein. The governor shall thereafter appoint the successor of each commissioner of a regional housing authority.

(4) The commissioners appointed as aforesaid shall constitute the regional housing authority, and the powers of such authority shall be

vested in such commissioners in office from time to time.

(5) The commissioners of a regional housing authority shall elect a chairman from among the commissioners and shall have power to select or employ such other officers and employees as the regional housing authority may require. A majority of the commissioners of a regional housing authority shall constitute a quorum of such authority for the purpose of conducting its business and exercising its powers and for all other purposes.

421.31 Powers of regional housing authority; definitions.—Except as otherwise provided herein, a regional housing authority and the commissioners thereof shall, within the area of operation of such regional housing authority, have the same functions, rights, powers, duties, privileges and immunities provided for housing authorities created for cities or counties and the commissioners of such housing authorities in the same manner as though all the provisions of law applicable to housing authorities created for cities or counties were applicable to regional housing authorities; provided that for such purposes the term "mayor" as used in the housing authorities law shall be construed as meaning "governor," the term "governing body" as used therein shall be construed as meaning "county commissioners," the term "city" as used therein shall be construed as meaning "county" and the term "clerk" as used therein shall be construed as meaning "county clerk" (as herein defined), unless a different meaning clearly appears from the context; and provided further that the governor may appoint any person as commissioner of a regional housing authority who is a qualified elector in the county from which he is appointed; and provided further that any commissioner of a regional housing authority may be removed or suspended in the same manner and for the same reason as other officers appointed by the governor. A regional housing authority shall have power to select any appropriate corporate name.

History.—§1, (31) ch. 20220, 1941.

421.32 Rural housing projects. — County housing authorities and regional housing authorities are specifically empowered and authorized to borrow money, accept grants and exercise their other powers to provide housing for farmers of low income. In connection with such projects, any such housing authority may enter into such leases or purchase agreements, accept such conveyances and rent or sell dwellings forming part of such projects to or for farmers of low income, as such housing authority deems necessary in order to assure the achievement of the objectives of this law. Such leases, agreements or conveyances may include such covenants as the housing authority deems appropriate regarding such dwellings and the tracts of land described in any such instrument, which covenants shall be deemed to run with the land where the housing authority deems it necessary and

the parties to such instrument so stipulate. In providing housing for farmers of low income, county housing authorities and regional housing authorities shall not be subject to the limitations provided in subsection (3) of §421.10 and subsection (3) of §421.08. Such applications shall be received and examined by housing authorities in connection with the formulation of projects or programs to provide housing for farmers of low income. Provided, however, that if it becomes necessary for an applicant under this paragraph to convey any portion of his then homestead in order to take advantages as provided herein, then in that event, the parting with title to a portion of said homestead shall not affect the remaining portion of same, but all rights that said owner may have in and to same under and by virtue of the Constitution of the state or any law passed pursuant thereto, shall be deemed and held to apply to such remaining portion of said land, the title of which remains in said applicant; it being the intention of the legislature to permit the owner of any farm operated or worked upon by farmers of low income in need of safe and sanitary housing to take advantage of the provisions of this law without jeopardizing their rights in their then homestead by reason of any requirement that may be necessary in order for them to receive the benefits herein provided; and no court shall ever construe that an applicant who has taken advantage of this law has in any manner, shape or form abandoned his rights in any property that is his then homestead by virtue of such action upon his part, but it shall be held, construed and deemed that such action upon the part of any applicant hereunder was not any abandonment of his then homestead, and that all rights that he then had therein shall be and remain as provided by the Constitution and any law enacted pursuant thereto.

History.—§1, ch. 20220, 1941.

421.37 Defense housing; finding and declaration of necessity.—It is hereby found and declared that the national defense program involves large increases in the military forces and personnel of this state, a great increase in the number of workers in already established manufacturing centers and the bringing of a large number of workers and their families to new centers of defense industries in the state; that there is an acute shortage of safe and sanitary dwellings available to such persons and their families in this state which impedes the national defense program; that it is imperative that action be taken immediately to assure the availability of safe and sanitary dwellings for such persons to enable the rapid expansion of national defense activities in this state and to avoid a large labor turnover in defense industries which would seriously hamper their production; that the provisions hereinafter enacted are necessary to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities which otherwise would not be provided at this time; and that such provisions are for the public use and purpose of facilitating the national defense program in this state. It is further declared to be the purpose of this law to authorize housing authorities to do any and all things necessary or desirable to secure the financial aid of the federal government, or to cooperate with or act as agent of the federal government, in the expeditious development and the administration of projects to assure the availability when needed of safe and sanitary dwellings for persons engaged in national defense activities.

History.—§1, ch. 20221, 1941.

421.38 Defense housing by authorities.—

(1) Any housing authority may undertake the development and administration of projects to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities whom the housing authority determines would not otherwise be able to secure safe and sanitary dwellings within the vicinity

thereof, but no housing authority shall initiate the development of any such project pursuant to this law after the termination of the existing war by the signing of a definitive treaty of peace, or by the proclamation of the President of the United States that hostilities have ceased or that the emergency in justification of extraordinary wartime powers no longer exists, whichever shall first occur.

(2) In the ownership, development or administration of such projects, a housing authority shall have all the rights, powers, privileges and immunities that such authority has under any provision of law relating to the ownership, development or administration of slum clearance and housing projects for persons of low income, in the same manner as though all the provisions of law applicable to slum clearance and housing projects for persons of low income were applicable to projects developed or administered to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities as provided in this law, and housing projects developed or administered hereunder shall constitute "housing projects" under the housing authorities law, as that term is used therein; provided, that during the period (herein called the "national defense period") that a housing authority finds (which finding shall be conclusive in any suit, action or proceeding) that within its area of operation (as defined in the housing authorities law), or any part thereof, there is an acute shortage of safe and sanitary dwellings which impedes the national defense activities, any project developed or administered by such housing authority (or by any housing authority cooperating with it) in such area pursuant to this law, with the financial aid of the federal government (or as agents for the federal government as hereinafter provided), shall not be subject to the limitations provided in §421.10 and the second sentence of §421.09; and provided, further, that during the national defense period, a housing authority may make payments in such amounts as it finds necessary or desirable for any services, facilities, works, privileges or improvements furnished for or in connection with any such projects. After the national defense period, any such projects owned and administered by a housing authority shall be administered for the purposes and in accordance with the provisions of the housing authorities law.

In order to assure the availability of safe and sanitary housing for persons engaged in national defense activi-

ties, a housing authority may sell (in whole or in part) to the federal government any housing project developed for persons of low income but not yet occupied by such persons; such sale shall be at such price and upon such terms as the housing authority shall prescribe and shall include provision for the satisfaction of all debts and liabilities of the authority relating to such project.

History.—§3, ch. 20221, 1941.

421.40 Cooperation by public bodies on defense housing.—Any state public body, as defined in the Housing Cooperation Law shall have the same rights and powers to cooperate with housing authorities, or with the federal government, with respect to the development or administration of projects to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities that such state public body has pursuant to such law for the purpose of assisting the development or administration of slum clearance or housing projects for persons of low income.

History.—§6, ch. 20221, 1941.

421.43 Removal of restrictions for defense housing.—This law shall constitute an independent authorization for a housing authority to undertake the development or administration of projects to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities as provided in this law and for a housing authority to cooperate with, or act as agent for, the federal government in the development or administration of similar projects by the federal government. In acting under this authorization, a housing authority shall not be subject to any limitations, restrictions or requirements of other laws (except those relating to land acquisition) prescribing the procedure or action to be taken in the de-

velopment or administration of any public works, including slum clearance and housing projects for persons of low income or undertakings or projects of municipal or public corporations or political subdivisions or agencies of the state. A housing authority may do any and all things necessary or desirable to cooperate with, or act as agent for, the federal government, or to secure financial aid, in the expeditious development or in the administration of projects to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities and to effectuate the purposes of this law.

 422.02 Finding and declaration of necessity.
 422.03 Definitions.
 422.04 Cooperation in undertaking housing projects.

History.—§1, ch. 17982, 1937; CGL 1940 Supp. 7100(3-oo).

422.02 Finding and declaration of necessity.—It has been found and declared in the housing authorities law that there exist in the state unsafe and insanitary housing conditions and a shortage of safe and sanitary dwelling accommodations for persons of low income; that these conditions necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health, welfare and safety, fire and accident protection, and other public services and facilities; and that the public interest requires the remedying of these conditions. It is hereby found and declared that the assistance herein provided for the remedying of the conditions set forth in the housing authorities law constitutes a public use and purpose and an essential governmental function for which public moneys may be spent and other aid given; that it is a proper public purpose for any state public body to aid any housing authority operating within its boundaries or jurisdiction or any housing project located therein, as the state public body derives immediate benefits and advantages from such an authority or project; and that the provisions hereinafter enacted are necessary in the public interest.

History.—§2, ch. 17982, 1937; CGL 1940 Supp. 7100(3-pp).

(1) Dedicate, sell, convey or lease any of its property to a housing authority or the federal government;

(2) Cause parks, playgrounds, recreational, community, educational, water, sewer or drainage facilities or any other works, which it is otherwise empowered to undertake, to be furnished adjacent to or in connection with housing projects;

(6) Do any and all things, necessary or convenient to aid and cooperate in the planning, undertaking, construction or operation of such housing projects;

(7) Purchase or legally invest in any of the debentures of a housing authority and exercise all of the rights of any holder of such debentures;

(8) With respect to any housing project which a housing authority has acquired or taken over from the federal government and which the housing authority by resolution has found and declared to have been constructed in a manner that will promote the public interest and afford necessary safety, sanitation and other protection, no state public body shall require any changes to be made in the housing project or the manner of its construction or take any other action relating to such construction;

(9) In connection with any public improvements made by a state public body in exercising the powers herein granted, such state public body may incur the entire expense thereof.

Any law or statute to the contrary notwithstanding, any sale, conveyance, lease or agree-

ment provided for in this section may be made by a state public body without appraisal, public notice, advertisement or public bidding.

History.—§5, ch. 17982, 1937; CGL 1940 Supp. 7100(3-ss).

—When any housing authority which is created for any city becomes authorized to transact business and exercise its powers therein, the governing body of the city, shall immediately make an estimate of the amount of money

necessary for the administrative expenses and overhead of such housing authority during the first year thereafter, and shall appropriate such amount to the authority out of any moneys in such city treasury not appropriated to some other purposes. The moneys so appropriated shall be paid to the authority as a donation. Any city, town or county located in whole or in part within the area of operation of a housing authority shall have the power from time to time to lend or donate money to the authority or to agree to take such action. The housing authority, when it has money available therefor, shall make reimbursements for all such loans made to it.

History.—§6, ch. 17982, 1937; CGL 1940 Supp. 7100(3-tt).

CHAPTER 423

TAX EXEMPTION OF HOUSING AUTHORITIES

423.01 Finding and declaration of property of tax exemption for housing authorities.

423.02 Housing projects exempted from taxes and assessments; payments in lieu thereof.

423.01 Finding and declaration of property of tax exemption for housing authorities.—It has been found and declared in the housing authorities law and the housing cooperation law (1) that there exist in the state housing conditions which constitute a menace to the health, safety, morals and welfare of the residents of the state; (2) that these conditions necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health, welfare and safety, fire and accident prevention, and other public services and facilities; (3) that the public interest requires the remedying of these conditions by the creation of housing authorities to undertake projects for slum clearance and for providing safe and sanitary dwelling accommodations for persons who lack sufficient income to enable them to live in decent, safe and sanitary dwellings without overcrowding; and (4) that such housing projects (including all property of a housing authority used for or in connection therewith or appurtenant thereto) are exclusively for public uses and municipal purposes and not for profit, and are governmental functions of state concern. As a matter of legislative determination, it is hereby found and declared that the property and debentures

423.03 Housing debentures exempted from taxation.

of a housing authority are of such character as may be exempt from taxation.

History.—§1, ch. 17983, 1937; CGL 1940 Supp. 7100(3-xx).

The board shall begin such action or proceeding by a petition and complaint to the said court of chancery, alleging the violation complained of and praying for appropriate relief by way of mandatory injunction. It shall thereupon be the duty of the court to specify the time, not exceeding twenty days after service of a copy of the petition and complaint, within which the corporation complained of must answer the petition and complaint.

In case of default in answer or after answer the court shall immediately inquire into the facts and circumstances in such manner as the court shall direct without other or formal pleadings, and without respect to any technical requirements. Such other persons or corporations as it shall seem to the court necessary or proper to join as parties in order to make its order or judgment effective, may be joined as parties. The final judgment in any such action or proceeding shall either dismiss the action or proceeding or direct that a mandatory injunction be issued as prayed for in the petition

and complaint or in such modified or other form as the court may determine will afford appropriate relief.

History.—§8, ch. 16028, 1933; CGL 1936 Supp. 4151(140).

424.10 Incorporation; purpose; shares; articles.—Any number of natural persons not less than three, a majority of whom are citizens of the United States, may become a corporation by subscribing, acknowledging and filing in the office of the secretary of state, articles of incorporation, hereinafter called "articles," setting forth the information required by §608.03, except as herein modified or changed.

(1) The purpose for which a limited dividend housing company is to be formed shall be as follows: To acquire, construct, maintain and operate housing projects when authorized by and subject to the supervision of the board of housing.

424.11 Dividends limited.—No stockholder in any company formed hereunder shall receive any dividend, or other distribution based on stock ownership, in any one year in excess of six per cent per annum except that when in any preceding year dividends in the amount prescribed in the articles of incorporation shall not have been paid on the said stock, the stockholders may be paid such deficiency without interest out of any surplus earned in any succeeding years.

History.—§10, ch. 16028, 1933; CGL 1936 Supp. 4151(142).

424.12 No free securities to be issued.—No limited dividend housing company incorporated under this chapter shall issue stock, bonds or income debentures, except for money, services or property actually received for the use and lawful purpose of the corporation. No stock, bonds or income debentures shall be issued for property or services except upon a valuation approved by the board of housing and such valuation shall be used in computing actual or estimated cost.

424.13 Income debenture certificates; exchange for stock.—The articles of incorporation may authorize the issuance of income debenture certificates bearing no greater interest than six per cent per annum. After the incorporation of a limited dividend housing company, the directors thereof may, with the consent of two-thirds of the holders of any preferred stock that may be issued and outstanding, offer to the stockholders of the company the privilege of exchanging their preferred and common stock in such quantities and at such times as may be approved by the board of housing for such income debenture certificates, whose face value shall not exceed the par value of the stock exchanged therefor.

History.—§12, ch. 16028, 1933; CGL 1936 Supp. 4151(144).

424.14 Limitations on powers of housing companies.—No limited dividend housing company incorporated under this chapter shall:

(1) Acquire any real property or interest therein unless it shall first have obtained from the board a certificate that such acquisition is necessary or convenient for the public purpose defined in this chapter.

(2) Sell, transfer, assign or lease any real property without first having obtained the consent of the board, provided, however, that leases conforming to the regulations and rules of the board and for actual occupancy by the lessees may be made without the consent of the board. (3) Pay interest returns on its mortgage indebtedness and its income debenture certificates at a higher rate than six per cent per annum.

(4) Issue its stock, debentures and bonds covering any project undertaken by it in an amount greater in the aggregate than the total actual final cost of such project, including the lands, improvements, charges for financing and supervision approved by the board and interest and other carrying charges during construction.

(5) Mortgage any real property without first having obtained the consent of the board.

(6) Issue any securities or evidences of indebtedness without first having obtained the approval of the board.

(7) Use any building erected or acquired by it for other than housing purposes, except that when permitted by law the story of the building above the cellar or basement and the space below such story may be used for stores, commercial, cooperative or community purposes, and when permitted by law the roof may be used for cooperative or community purposes.

(8) Charge or accept any rental, purchase price or other charge in excess of the amounts prescribed by the board.

(9) Enter into contracts for the construction of housing projects, or for the payments of salaries to officers or employees except subject to the inspection and revision of the board

under such regulations as the board from time to time may prescribe.

(11) Make any guaranty without approval of the board.

History.—§13, ch. 16028, 1933; CGL 1936 Supp. 4151(145).
cf.—Ch. 608 Corporation law.

424.15 Bonds and mortgages of housing companies.—Any company formed under this chapter may, subject to the approval of the board, borrow funds and secure the repayment thereof by bonds and mortgages or by an issue of bonds under trust indenture. The bonds so issued and secured and the mortgage or trust indentures relating thereto, may create a first or senior lien and a second or junior lien upon the real property embraced in any project. Such bonds and mortgages may contain such other clauses and provisions as shall be approved by the board, including the right to assignment of rents and entry into the possession in case of default; but the operation of the housing projects in the event of such entry by mortgagee or receiver shall be subject to the regulations of the board under this chapter. Provisions for the amortization of the bonded indebtedness of companies formed under this chapter shall be subject to the approval of the board.

The amount of such surplus shall not exceed fifteen per cent of the outstanding capital stock and income debentures of the corporation, but the surplus so limited shall not be deemed to include any increase in assets due to the reduction of mortgage or amortization or similar payments. On dissolution of any limited dividend housing company, the stockholders and income debenture certificate holders shall in no event receive more than the par value of their stock and debentures plus accumulated, accrued and unpaid dividends or interest, less any payments or distributions theretofore made other than by dividends provided in §424.11, and any remaining surplus or other undistributed earnings shall be paid into the general fund of the state, or shall be disposed of in such other manner as the board may direct and the then governor may approve.

History.—§15, ch. 16028, 1933; CGL 1936 Supp. 4151(147).

424.17 Reduction of rentals with excess earnings.—If in any calendar or fiscal year the gross receipts of any company formed hereunder should exceed the payments or charges specified in §424.08, the sums necessary to pay dividends, interest accrued or unpaid on any stock or income debentures, and the authorized transfer to surplus, the balance shall, unless the board of directors with the approval of the board of housing shall deem such balance

too small for the purposes, be applied to the reduction of rentals.

History.—§16, ch. 16028, 1933; CGL 1936 Supp. 4151(148).

424.18 Foreclosure actions; judicial sales.—In any foreclosure action the board shall be made a party defendant; and such board shall take all steps in such action necessary to protect the interest of the public therein, and no costs shall be awarded against the board. Foreclosure shall not be decreed unless the court to which application therefor is made shall be satisfied that the interests of the lienholder or holders cannot be adequately secured or safeguarded except by the sale of the property. In any such proceeding, the court may make an order increasing the rental to be charged for the housing accommodations in the project involved in such foreclosure, or appoint a receiver of the property or grant such other and further relief as may be reasonable and proper. In the event of a foreclosure sale or other judicial sale, the property shall, except as provided in the next succeeding paragraph of this section, be sold to a limited dividend housing corporation organized under this chapter, provided such corporation shall bid and pay a price for the property sufficient to pay court costs and all liens on the property with interest. Otherwise the property shall be sold free of all restrictions imposed by this chapter.

Notwithstanding the foregoing provision of this section, wherever it shall appear that a corporation, subject to the supervision either of the state insurance department or state banking department, or the federal government or any agency or department of the federal government, shall have loaned on a mortgage which is a lien upon any such property, such corporation shall have all the remedies available to a mortgagee under the laws of the state, free from any restrictions contained in this section, except that the board shall be made a party defendant and that such board shall take all steps necessary to protect the interest of the public and no costs shall be awarded against it.

History.—§17, ch. 16028, 1933; CGL 1936 Supp. 4151(149).

History.—§18, ch. 16028, 1933; CGL 1936 Supp. 4151(150).

424.20 Sales under judgments against housing companies.—In the event of a judgment against a limited dividend housing corporation in any action not pertaining to the collection

of a mortgage indebtedness, there shall be no sale of any of the real property of such corporation except upon sixty days' written notice to the board. Upon receipt of such notice the board shall take such steps as in its judgment may be necessary to protect the rights of all parties.

History.—§19, ch. 16028, 1933; CGL 1936 Supp. 4151(151).

424.21 Fees for services of state housing board.—The board may charge and collect from a limited dividend housing corporation, incorporated under this chapter, reasonable fees in accordance with rates to be established by the rules of the board for the examination of plans and specifications and the supervision of construction in an amount not to exceed one-half of one per cent of the cost of the project; for the holding of a public hearing upon application of a housing corporation an amount sufficient to meet the reasonable cost of advertising the notice thereof and of the transcript of testimony taken thereat; for any examination or investigation made upon application of a housing corporation and for any act done by

the board, or any of its employees, in performance of their duties under this chapter an amount reasonably calculated to meet the expense of the board incurred in connection therewith. In no event shall any part of the expenses of the board ever be paid out of the state treasury. The board may authorize a housing corporation to include such fees as part of the cost of a project, or as part of the charges specified in §424.08 pursuant to rules to be established by the board.

History.—§20, ch. 16028, 1933; CGL 1936 Supp. 4151(152).

424.22 Duration of corporate existence.—The corporate existence of any corporation authorized hereunder shall not extend beyond twenty-five years from the date of incorporation, and promptly upon such termination the corporation shall be liquidated and its assets distributed as provided herein, unless the incorporation board, by approval of the state board of housing, should grant an extension for an additional period of time.

History.—§22, ch. 16028, 1933; CGL 1936 Supp. 4151(154).

History.—§7, ch. 19138, 1939; CGL 1940 Supp. 6494(50).

425.09 Members.—

(1) No person who is not an incorporator shall become a member of a cooperative unless such person shall agree to use electric energy furnished by the cooperative when such electric energy shall be available through its facilities. The by-laws of a cooperative may provide that any person, including an incorporator, shall cease to be a member thereof if he shall fail or refuse to use electric energy made available by the cooperative or if electric energy shall not be made available to such person by the cooperative within a specified time after such person shall have become a member thereof. Membership in the cooperative shall not be transferable, except as provided in the by-laws. The by-laws may prescribe additional qualifications and limitations in respect to membership.

(2) An annual meeting of the members shall be held at such time as shall be provided in the by-laws.

(3) Special meeting of the members may be called by the board of trustees, by any three trustees, by not less than ten per cent

of the members, or by the president.

(5) Except as hereinafter otherwise provided, written or printed notice stating the time and place of each meeting of members and, in the case of a special meeting, the purpose or purposes for which the meeting is called, shall be given to each member, either personally or by mail, not less than ten nor more than twenty-five days before the date of the meeting.

If less than a quorum is present at any meeting, a majority of those present in person may adjourn the meeting from time to time without further notice.

(7) Each member shall be entitled to one vote on each matter submitted to a vote at a meeting. Voting shall be in person, but, if the by-laws so provide, may also be by proxy or by mail, or both. If the by-laws provide for voting by proxy or by mail, they shall also prescribe the conditions under which proxy or mail voting shall be exercised. The by-laws shall prescribe the number of trustees, their qualifications, other than those provided for in this chapter, the manner of holding meetings of the board of trustees and of the election of successors to trustees who shall resign, die, or otherwise be incapable of acting. The by-laws may also provide for the removal of trustees from office and for the election of their successors. Without approval of the members, trustees shall not receive any salaries for their services as trustees and, except in emergencies, shall not be employed by the cooperative in any capacity involving compensation. The by-laws may, however, provide that a fixed fee and expenses of attendance, if any, may be allowed to each trustee for attendance at each meeting of the board of trustees.

(2) The trustees of a cooperative named in any articles of incorporation, consolidation, merger or conversion, as the case may be, shall hold office until the next following annual meeting of the members or until their successors shall have been elected and qualified. At each annual meeting or, in case of

failure to hold the annual meeting as specified in the by-laws, at a special meeting called for that purpose, the members shall elect trustees to hold office until the next following annual meeting of the members, except as hereinafter otherwise provided. Each trustee shall hold office for the term for which he is elected or until his successor shall have been elected and qualified.

(3) The by-laws may provide that, in lieu of electing the whole number of trustees annually, the trustees may be divided into three classes at the first or any subsequent annual meeting, each class to be as nearly equal in number as possible, with the term of office of the trustees of the first class to expire at the next succeeding annual meeting and the term of the second class to expire at the second succeeding annual meeting and the term of the third class to expire at the third succeeding annual meeting. At each annual meeting after such classification a number of Trustees equal to the number of the class whose term expires at the time of such meeting shall be elected to hold office until the third succeeding annual meeting.

(4) A majority of the board of trustees shall constitute a quorum.

(5) If a husband and wife hold a joint membership in a cooperative, either one, but not both, may be elected a trustee.

In any such case the by-laws shall prescribe the manner in which such voting districts and the members thereof, and the delegates and trustees, if any, elected therefrom shall function and the powers of the delegates, which may include the power to elect trustees. No member at any voting district meeting and no delegate at any meeting shall vote by proxy or by mail.

No person shall continue to hold any of the above offices after he shall have ceased to be a trustee. The offices of secretary and of treasurer may be held by the same person. The board of trustees may also elect or appoint

such other officers, agents, or employees as it shall deem necessary or advisable and shall prescribe the powers and duties thereof. Any officer may be removed from office and his successor elected in the manner prescribed in the by-laws.

The clerk of any county, upon receipt of any such certified copy, shall file and index the same in the records of his office, but the failure of the secretary of state or of a clerk of a county to comply with the provisions of this section shall not invalidate such articles. The provisions of this section shall also apply to certificates of election to dissolve and affidavits of compliance executed pursuant to subsection (2) (b) of §425.19.

Recordation of any such mortgage, deed of trust or other instrument shall cause the lien thereof to attach to all after-acquired property of the mortgagor of the nature therein described as being mortgaged or pledged thereby immediately upon the acquisition of such property by the mortgagor, and such lien shall be superior to all claims of creditors of the mortgagor and purchasers of such property and to all other liens, except liens of prior record and tax liens, affecting such property.

440.02 Definitions.—When used in this chapter, unless the context clearly requires otherwise—

(1) "Employment."

(a) "Employment," subject to the other provisions of this chapter, means any service performed by an employee for the person employing him.

(b) The term "employment" shall include:

1. Employment by the state and all political subdivisions thereof and all public and quasi-public corporations therein; and

(c) The term "employment" shall not include service performed by or as:

1. Officers elected at the polls;

2. Domestic servants in private homes;

(b) The term "employee" shall include any person who is an officer of a corporation and who performs services for remuneration for such corporation within this state, whether or not such services are continuous. Services shall be presumed to have been rendered the corporation in cases where such officer is compensated by other than dividends upon shares of stock of such corporation owned by him.

(c) The term "employee" shall not include:

1. Independent contractors; or

2. Persons whose employment is both casual and not in the course of the trade, business, profession or occupation of the employer.

(3) The term "casual" as used in this section shall be taken to refer only to employments where the work contemplated is to be completed in not exceeding ten working days, without regard to the number of men employed, and where the total labor cost of such work is less than one hundred dollars.

(4) The term "employer" means the state and all political subdivisions thereof, all public and quasi-public corporations therein, every person carrying on any employment, and the legal representative of a deceased person or the receiver or trustees of any person.

(5) The term "person" means individual, partnership, association or corporation, including any public service corporation.

(6) The term "injury" means personal injury or death by accident arising out of and in the course of employment, and such diseases or infection as naturally or unavoidably result from such injury.

(7) The term "carrier" means any person or fund authorized under §440.38 to insure under this chapter and includes self-insurers.

In employment where an employee receives consideration other than cash as a portion of this compensation the value of such compensation shall be subject to the determination of the commission.

(13) "Child" shall include a posthumous child, a child legally adopted prior to the injury of the employee, and a step-child or acknowledged illegitimate child dependent upon the deceased, but does not include married children unless wholly dependent on him. "Grandchild" means a child as above defined of a child as above defined. A mental or nervous injury due to fright or excitement only or disability or death due to the accidental acceleration or aggravation of a venereal disease or of a disease due to the habitual use of alcohol or narcotic drugs, shall be deemed not to be an injury by accident arising out of the employment. Where a pre-existing disease is accelerated or aggravated by accident arising out of and in the course of the

employment, only acceleration of death or the acceleration or aggravation of disability reasonably attributable to the accident shall be compensable.

(20) The term "registered mail" includes certified mail and any mail service which provides for a receipt to the sender and a record of delivery at the office of address.

History.—§3, ch. 17481, 1935; CGL 1936 Supp. 5966(3).

440.04 Waiver of exemption.—

(1) An employer or employee who has exempted himself by proper notice from the operation of this chapter may at any time waive such exemption and thereby accept the provisions of this chapter by giving notice as provided in §440.05.

(2) Every employer having in his employment any employee not included in the definition "employee" or excluded or exempted from the operation of this chapter may at any time waive such exclusion or exemption and accept the provisions of this chapter by giving notice thereof as provided in §440.05, and by so doing be as fully protected and covered by the provisions of this chapter as if such exclusion or exemption had not been contained herein.

(3) When any policy or contract of insurance specifically secures the benefits of this chapter to any person not included in the definition of "employee" or whose services are not included in the definition of "employment" or who is otherwise excluded or exempted from the operation of this chapter, the acceptance of such policy or contract of insurance by the insured and the writing of same by the carrier shall constitute a waiver of such exclusion or exemption and an acceptance of the provisions of this chapter with respect to such person, notwithstanding the provision of §440.05 with respect to notice.

History.—§4, ch. 17481, 1935; CGL 1936 Supp. 5966(4); §2, ch. 18413, 1937; sub §(3) comp. §2, ch. 29778, 1955.

440.05 Notice of nonacceptance and waiver of exemption.—Notice of nonacceptance of this chapter and notice of waiver of exemption heretofore referred to shall be given in accordance with the following provisions:

(1) Every employer who elects not to accept the provisions of this chapter or who waives such exemption as the case may be, shall post and keep posted in a conspicuous place or places in and about his place or places of business typewritten or printed notices to

such effect in accordance with a form to be prescribed by the commission. He shall file a duplicate of such notice with the commission.

(2) Every employee who elects not to accept the provisions of this chapter or who waives such exemption, as the case may be, shall deliver to the employer or shall send to him by mail addressed to him at his office, notice to such effect in accordance with a form to be prescribed by the commission. He shall file a duplicate of such notice with the commission.

(3) Such notice shall be given thirty days prior to any injury, provided, however, that if the injury occurs less than thirty days after the date of employment, such notice given at the time of employment shall be sufficient notice.

History.—§5, ch. 17481, 1935; CGL 1936 Supp. 5966(5).

440.06 When employer rejects chapter; effect.—Every employer who elects not to operate under this chapter by giving proper notice as provided in §440.05 may not, in any suit brought against him by an employee subject to this chapter to recover damages for injury or death, defend such a suit on the grounds that the injury was caused by the negligence of a fellow servant, nor that the employee assumed the risk of his employment, nor that the injury was due to the contributory negligence of the employee.

History.—§6, ch. 17481, 1935; CGL 1936 Supp. 5966(6).

440.07 When employee rejects chapter; effect.—Every employee who elects not to operate under this chapter, in any action to recover damages for injury or death brought against an employer who accepts the provisions of this chapter shall proceed as at common law and the employer in such suit may avail himself of the defense of negligence of fellow servant, assumption of risk and contributory negligence, as such defense exists at common law.

History.—§7, ch. 17481, 1935; CGL 1936 Supp. 5966(7).

440.08 When employer and employee reject chapter; effect.—When both employer and employee elect not to operate under this chapter the liability of the employer shall be the same as though he alone rejected the terms of this chapter and in any action brought against him by such employee, he may not plead as a defense that the injury was caused by the negligence of a fellow servant, nor that the employee assumed the risk of his employment, nor that the injury was due to contributory negligence of the employee.

History.—§8, ch. 17481, 1935; CGL 1936 Supp. 5966(8).

440.09 Coverage.—

(1) Compensation shall be payable under this chapter in respect of disability or death of an employee if the disability or death results from an injury arising out of and in the course of employment. Death resulting from an operation by a surgeon furnished by the employer for the cure of hernia as required in subsection (6) of §440.15 shall for the purpose of this chapter be considered as a death resulting from the accident causing the hernia. Where an accident happens while the employee is employed else-

where than in this state, which would entitle him or his dependents to compensation if it had happened in this state, the employee or his dependents shall be entitled to compensation, if the contract of employment was made in this state, and if the employer's place of business is in this state or if the residence of the employee is in this state, provided, his contract of employment was not expressly for service exclusively outside of the state; provided, however, that if an employee shall receive compensation or damages under the laws of any other state, nothing herein contained shall be construed so as to permit a total compensation for the same injury greater than is provided herein.

(2) No compensation shall be payable in respect of the disability or death of any employee of a common carrier by railroad or express company engaged in intrastate, interstate or foreign commerce.

(3) No compensation shall be payable if the injury was occasioned primarily by the intoxication of the employee or by the willful intention of the employee to injure or kill himself or another. Where injury is caused by the willful refusal of the employee to use a safety appliance or observe a safety rule required by statute or lawfully required or approved by the commission, and brought prior to the accident to his knowledge, the compensation as provided in this chapter shall be reduced twenty-five per cent.

(4) When any employee of the state or of any political subdivision thereof or of any public or quasi-public corporation therein, or any person entitled thereto on account of dependency upon such employee, receives compensation under the provisions of this chapter by reason of the disability or death of such employee resulting from an injury arising out of and in the course of employment with such employer, and such employee or dependent is entitled to receive any sum from any pension or other benefit fund to which the same employer may contribute, the amount of any payment from such pension or benefit fund allocable to any week with respect to which such employee or dependent receives compensation under this chapter shall be reduced by the amount of the compensation for such week; provided that if the amount of the payment from such pension or benefit fund allocable to any week is less than the amount of such compensation for such week only the amount of the pension or benefit payment allocable to such week shall be affected and the amount of the difference between the compensation and the pension or benefit payment allocable to one week shall not reduce the pension or benefit payment allocable to any subsequent week.

History.—§9, ch. 17481, 1935; CGL 1936 Supp. 5966(9); §3, ch. 18413, 1937; sub. § (4) am. §1, ch. 28236, 1953; (3) by §1, ch. 57-293.

440.10 Liability for compensation.—

(1) Every employer coming within the provisions of this chapter, including any brought within the chapter by waiver of exclusion or of

exemption, shall be liable for and shall secure the payment to his employees of the compensation payable under §§440.13, 440.15 and 440.16. In case a contractor sublets any part or parts of his contract work to a subcontractor or subcontractors, all of the employees of such contractor and subcontractor or subcontractors engaged on such contract work shall be deemed to be employed in one and the same business or establishment, and the contractor shall be liable for and shall secure the payment of compensation to all such employees, except to employees of a subcontractor who has secured such payment.

(2) Compensation shall be payable irrespective of fault as a cause for the injury, except as provided in subsection (3) of §440.09.

History.—§10, ch. 17481, 1935; CGL 1936 Supp. 5966(10); §4, ch. 18413, 1937.

440.11 Exclusiveness of liability.—The liability of an employer prescribed in §440.10 shall be exclusive and in place of all other liability of such employer to the employee, his legal representative, husband or wife, parents, dependents, next of kin, and anyone otherwise entitled to recover damages from such employer at law or in admiralty on account of such injury or death, except that if an employer fails to secure payment of compensation as required by this chapter an injured employee, or his legal representative, in case death results from the injury, may elect to claim compensation under this chapter, or to maintain an action at law or in admiralty for damages on account of such injury or death. In such action the defendant may not plead as a defense that the injury was caused by negligence of a fellow servant, nor that the employee assumed the risk of his employment, nor that the injury was due to the contributory negligence of the employee.

History.—§11, ch. 17481, 1935; CGL 1936 Supp. 5966(11).

440.12 Time for commencement and limits on weekly rate of compensation.—

(1) No compensation shall be allowed for the first seven days of the disability, except benefits provided for in §440.13; provided, however, that if the injury results in disability of more than twenty-one days compensation shall be allowed from the commencement of the disability.

(2) Compensation for disability resulting from injuries which occur after June 30, 1959, shall not exceed forty-two dollars per week nor be less than eight dollars per week; provided, however, that if the employee's wages at the time of injury are less than eight dollars per week he shall receive his full weekly wages.

(3) The provisions of this section as amended effective July 1, 1951, shall govern with respect to disability due to injuries suffered prior to July 1, 1959.

History.—§12, ch. 17481, 1935; CGL 1936 Supp. 5966(12); §5, ch. 18413, 1937; am. §1, ch. 21824, 1943. Am. §§1, 3, ch. 26876, 1951; §1, ch. 59-151.

440.13 Medical services and supplies; penalty for violations; limitations.—

(1) Subject to the limitations specified in

subsection (3)(b) the employer shall furnish to the employee such remedial treatment, care and attendance under the direction and supervision of a qualified physician or surgeon, or other recognized practitioner, nurse or hospital, and for such period, as the nature of the injury or the process of recovery may require, including medicines, crutches, artificial members, and other apparatus. If the employer fails to provide the same after request by the injured employee, such injured employee may do so at the expense of the employer, the reasonableness and the necessity to be approved by the commission. The employee shall not be entitled to recover any amount expended by him for such treatment or service unless he shall have requested the employer to furnish the same and the employer shall have failed, refused or neglected to do so, or unless the nature of the injury required such treatment, nursing and services and the employer or his superintendent or foreman having knowledge of such injury shall have neglected to provide the same; nor shall any claim for medical, surgical or other remedial treatment be valid and enforceable unless within ten days following the first treatment (except in cases where first aid only is rendered) and thereafter at such intervals as the commission by regulation may prescribe the physician or other recognized practitioner giving such treatment or treatments furnish to the commission and to the employer a report of such injury and treatment on forms prescribed by the commission, provided that the commission for good cause may excuse the failure of the physician or other recognized practitioner to furnish any report within the period prescribed and may order the payment to him of such remuneration for treatment or service rendered as the commission finds equitable. The physician shall also furnish to the injured employee on demand a copy of each such report.

(2) If an injured employee objects to the medical attendance furnished by the employer, it shall be the duty of the employer to select another physician to treat the injured employee unless the commission determines that a change in medical attendance is not for the best interests of the injured employee; provided that the commission may at any time, for good cause shown, in its discretion order a change in such remedial attention, care, or attendance. It shall be unlawful for any employer or representative of any insurance company or insurer to coerce or attempt to coerce a sick or injured employee in the selection of a physician, or surgeon or other attendant or remedial treatment, nursing or hospital care, or any other service that the sick or injured employee may require; and any employer or representative of any insurance company or insurer who violates this provision shall be guilty of a misdemeanor and upon conviction therefor shall be fined not less than twenty-five dollars and not more than one hundred dollars for each and every offense.

(3)(a) All fees and other charges for such treatment or service shall be limited to such

charges as prevail in the same community for similar treatment of injured persons of like standard of living, and shall be subject to regulations by the commission, who shall adopt schedules of charges for such treatment or services.

(b) All rights for remedial attention under this section shall be barred unless a claim therefor is filed with the commission within two years after the time of injury, except that if payment of compensation has been made or remedial attention has been furnished by the employer without an award on account of such injury a claim may be filed within two years after the date of the last payment of compensation or within two years after the date of the last remedial attention furnished by the employer; and all rights for remedial attention under this section pursuant to the terms of an award shall be barred unless a further claim therefor is filed with the commission within two years after the entry of such award, except that if payment of compensation has been made or remedial attention has been furnished by the employer under the terms of the award a further claim may be filed within two years after the date of the last payment of compensation or within two years after the date of the last remedial attention furnished by the employer.

History.—§13, ch. 17481, 1935; CGL 1936 Supp. 5066(13); §6, ch. 18413, 1937; CGL 1940 Supp. 8135(14-a); §2, ch. 20672, 1941; §2, ch. 21824, 1943; §1, ch. 22814, 1945; §1, ch. 25244, 1949; (1)-(3) §1, ch. 28241, 1953; (1) §2, ch. 57-225; (1), (3) §§1, 2, ch. 63-91.

440.14 Determination of pay.—Except as otherwise provided in this chapter, the average weekly wages of the injured employee at the time of the injury shall be taken as the basis upon which to compute compensation and shall be determined subject to limitations of subsection (2) of §440.12 as follows:

(1) If the injured employee shall have worked in the employment in which he was working at the time of the injury, whether for the same or another employer, during substantially the whole of thirteen weeks immediately preceding the injury, his average weekly wage shall be one-thirteenth of the total amount of wages earned in such employment during the said thirteen weeks.

(2) If the injured employee shall not have worked in such employment during substantially the whole of thirteen weeks immediately preceding the injury, the wages of a similar employee in the same employment who has worked substantially the whole of such thirteen weeks shall be used in making the determination under the preceding paragraph.

(3) If either of the foregoing methods cannot reasonably and fairly be applied the full-time weekly wages of the injured employee shall be used, except as otherwise provided in subsections (4) or (5) of this section.

(4) If it be established that the injured employee was a minor when injured, and that under normal conditions his wages should be expected to increase during the period of dis-

ability the fact may be considered in arriving at his average weekly wages.

(5) If it be established that the injured employee was a part-time worker at the time of the injury, that he had adopted part-time employment as his customary practice, and that under normal working conditions he probably would have remained a part-time worker during the period of disability, these factors shall be considered in arriving at his average weekly wages. For the purpose of this subsection the term part-time worker means an individual who customarily works less than the full-time hours or full-time work week of a similar employee in the same employment.

(6) If compensation is due for a fractional part of the week, the compensation for such fractional part shall be determined by dividing the weekly compensation rate by the number of days employed per week to compute the amount due for each day.

History.—§14, ch. 17481, 1935; CGL 1936 Supp. 5966(14); §3, ch. 20672, 1941; §2, ch. 28241, 1953; (5) §1, ch. 63-160.

440.15 Compensation for disability.—

Compensation for disability shall be paid to the employee, subject to the limits provided in subsection (2) of §440.12 as follows:

(1) PERMANENT TOTAL DISABILITY.—

(a) In case of total disability adjudged to be permanent, sixty per cent of the average weekly wages shall be paid to the employee during the continuance of such total disability.

(b) Loss of both hands, or both arms, or both feet, or both legs, or both eyes, or of any two thereof shall, in the absence of conclusive proof to the contrary, constitute permanent total disability. In all other cases permanent total disability shall be determined in accordance with the facts.

(c) In cases of permanent total disability resulting from injuries which occurred prior to July 1, 1955, such payments shall not be made in excess of seven hundred weeks.

(d) If an employee who is being paid compensation for permanent total disability shall become rehabilitated to the extent that he shall establish an earning capacity by employment he shall be paid during the period of such employment, instead of the compensation provided in paragraph (a) of this subsection, sixty per cent of the difference between his average weekly wages at the time the total disability was incurred and his wage earning capacity as determined by his actual earnings in such employment.

(2) TEMPORARY TOTAL DISABILITY.—

In case of disability total in character but temporary in quality, sixty per cent of the average weekly wages shall be paid to the employee during the continuance thereof, not to exceed three hundred and fifty weeks except as provided in subsection (1) of §440.12.

(3) PERMANENT PARTIAL DISABILITY.—In case of disability partial in character but permanent in quality the compensation shall, in addition to that provided by subsection (2) of this section, be sixty per cent of the aver-

age weekly wages, and shall be paid to the employee as follows:

(a) Arm lost, two hundred weeks' compensation.

(b) Leg lost, two hundred weeks' compensation.

(c) Hand lost, one hundred and seventy-five weeks' compensation.

(d) Foot lost, one hundred and seventy-five weeks' compensation.

(n) Phalanges: Compensation for loss of more than one phalange of a digit shall be the same as for loss of the entire digit. Compensation for loss of the first phalange shall be one-half of the compensation for the loss of the entire digit.

(o) Amputated arm or leg: Compensation for an arm or leg, if amputated at or above the elbow or the knee, shall be the same as for the loss of the arm or leg, but, if amputated between the elbow and the wrist, or the knee and the ankle, shall be the same as for loss of hand or foot.

(p) Per cent of vision: Compensation for loss of eighty per cent or more of the vision of an eye shall be the same as for the loss of the eye.

(q) Two or more digits: Compensation for loss of two or more digits or one or more phalanges of two or more digits, of a hand or foot may be proportioned to the loss of use of the hand or foot occasioned thereby, but shall not exceed the compensation for loss of a hand or foot.

(r) Total loss of use: Compensation for permanent total loss of use of a member shall be the same as for loss of the member.

(s) Partial loss or partial loss of use: Compensation for permanent partial loss or loss of use of a member may be for proportionate loss or loss of use of the member.

(t) Disfigurement: The commission shall award proper and equitable compensation for serious facial or head disfigurement, not to exceed two thousand dollars; provided, that in such award the commission shall consider only the effect such disfigurement shall have on the

future earning capacity of the injured employee.

(u) Other cases: In all other cases in this class of disability the compensation shall be sixty per cent of the injured employee's average weekly wage for such number of weeks as the injured employee's percentage of disability is of three hundred fifty weeks.

(4) **TEMPORARY PARTIAL DISABILITY.**—In case of temporary partial disability resulting in decrease of earning capacity the compensation shall be sixty per cent of the difference between the injured employee's average weekly wages before the injury and his wage-earning capacity after the injury in the same or other employment, to be paid during the continuance of such disability, but shall not be paid for a period exceeding five years.

(5) **SUBSEQUENT INJURY.**—

(a) If any employee receives any injury for which compensation is payable while he is still receiving or entitled to receive compensation for a previous injury in the employ of the same employer, he shall not at the same time be entitled to compensation for both injuries, unless the latter injury be a permanent injury such as specified in this section; but he shall be entitled to compensation for that injury and from the time of that injury which will cover the longest period and the largest amount payable under this chapter.

(b) If any employee receives a permanent injury as specified in this section, after having previously sustained another permanent injury in the employ of the same employer, he shall be entitled to compensation for both injuries, but the total compensation shall be paid by extending the period and not by increasing the amount of weekly compensation. When the previous and subsequent injuries received in the same employment result in permanent total disability, compensation shall be payable for permanent total disability.

(c) The fact that an employee has suffered previous disability or received compensation therefor shall not preclude him from benefits for a later injury nor preclude benefits for death resulting therefrom; but in determining compensation for the later injury or death his average weekly wages shall be such sum as will represent his earning capacity at the time of the later injury, provided, however, that an employee who is suffering from a previous disability shall not receive compensation for a later injury in excess of the compensation allowed for such injury when considered by itself and not in conjunction with the previous disability.

(6) **HERNIA.**—In all claims for compensation for hernia resulting from injury by an accident arising out of and in the course of his employment it must be definitely proved to the satisfaction of the commission:

(a) That there was an injury resulting in hernia.

(b) That the hernia appeared suddenly.

(c) That it was accompanied by pain.

(d) That the hernia immediately followed an accident.

(e) That the hernia did not exist prior to the accident for which compensation is claimed.

(f) All hernia, inguinal, femoral, or otherwise, so proved to be the result of an injury by accident arising out of and in the course of the employment, shall be treated at the expense of the employer in a surgical manner by radical operation. Compensation shall be paid for a period of six weeks from the date of the operation. In case the injured employee refuses to undergo the radical operation for the cure of said hernia, no compensation will be allowed during the time of refusal. This shall not apply to those who by religious belief do not use medical or surgical treatment. If, however, it is shown that the employee had some chronic disease, or is otherwise in such physical condition that the commission considers it unsafe for the employee to undergo said operation, the compensation shall be paid as otherwise provided in subsection (4) of §440.15, but not for exceeding thirty weeks. Compensation shall be allowed for temporary total disability as provided by subsection (2) of this section for such disability before the operation.

(7) **EMPLOYEE REFUSES EMPLOYMENT.**—If an injured employee refuses employment suitable to his capacity, offered to or procured for him, he shall not be entitled to any compensation at any time during the continuance of such refusal unless at any time in the opinion of the commission such refusal is justifiable.

(8) **EMPLOYEE LEAVES EMPLOYMENT.**—If an injured employee, when receiving compensation for temporary partial disability, leaves the employment of the employer by whom he was employed at the time of the accident for which such compensation is being paid, he shall, upon securing employment elsewhere, give to such former employer an affidavit in writing containing the name of his new employer, the place of employment and the amount of wages being received at such new employment and until he gives such affidavit the compensation for temporary partial disability will cease. The employer by whom such employee was employed at the time of the accident for which such compensation is being paid may also at any time demand of such employee additional affidavit in writing containing the name of his employer, the place of his employment and the amount of wages he is receiving, and if the employee, upon such demand, fails or refuses to make and furnish such affidavit, his right to compensation for temporary partial disability shall cease until such affidavit is made and furnished.

(9) **EMPLOYEE BECOMES INMATE OF INSTITUTION.**—In case an employee who is permanently and totally disabled becomes an inmate of a public institution, then no compensation shall be payable unless he has dependent upon him for support a person or persons defined as dependents elsewhere in this chapter, whose dependency shall be determined as if the employee were deceased and to whom compensation would be paid in case of death and such

compensation as is due said employee shall be paid such dependents during the time he remains such inmate.

440.151 Occupational diseases.—

(1) (a) Where the employer and employee are subject to the provisions of the workmen's compensation law, the disablement or death of an employee resulting from an occupational disease as hereinafter defined shall be treated as the happening of an injury by accident, notwithstanding any other provisions of this chapter, and the employee or, in case of death, his dependents shall be entitled to compensation as provided by this chapter, except as hereinafter otherwise provided; and the practice and procedure prescribed by this chapter shall apply to all proceedings under this section, except as hereinafter otherwise provided. Provided, however, that in no case shall an employer be liable for compensation under the provisions of this section unless such disease has resulted from the nature of the employment in which the employee was engaged under such employer and was actually contracted while so engaged, meaning by "nature of the employment" that to the occupation in which the employee was so engaged there is attached a particular hazard of such disease that distinguishes it from the usual run of occupations and is in excess of the hazard of such disease in such employment, or, in case of death, unless death follows continuous disability from such disease, commencing within the period above limited, for which compensation has been paid or awarded or timely claim made as provided in this section, and results within three hundred fifty weeks after such last exposure.

(b) No compensation shall be payable for an occupational disease if the employee, at the time of entering into the employment of the employer by whom the compensation would otherwise be payable, falsely represents himself in writing as not having previously been disabled, laid off or compensated in damages or otherwise, because of such disease.

(c) Where an occupational disease is aggravated by any other disease or infirmity, not itself compensable, or where disability or death from any other cause, not itself compensable, is aggravated, prolonged, accelerated or in anywise contributed to by an occupational disease, the compensation payable shall be reduced and limited to such proportion only of the compensation that would be payable if the occupational disease were the sole cause of the disability or death as such occupational disease, as a causative factor, bears to all the causes of such disability or death, such reduction in compensation to be effected by reducing the number of weekly or monthly payments or the amounts of such payments, as under the circumstances of

the particular case may be for the best interest of the claimant or claimants.

(d) No compensation for death from an occupational disease shall be payable to any person whose relationship to the deceased, which under the provisions of this workmen's compensation law would give right to compensation, arose subsequent to the beginning of the first compensable disability save only to after-born children of a marriage existing at the beginning of such disability.

(e) The presumptions in favor of claimants established by §440.26 of this workmen's compensation law shall not apply to a claim for compensation for an occupational disease under this section.

(f) No compensation shall be payable for disability or death resulting from tuberculosis arising out of and in the course of employment by the state tuberculosis board at a state tuberculosis hospital, or aggravated by such employment, when the employee had suffered from said disease at any time prior to the commencement of such employment.

(2) Whenever used in this section the term "occupational disease" shall be construed to mean only a disease which is due to causes and conditions which are characteristic of and peculiar to a particular trade, occupation, process or employment, and to exclude all ordinary diseases of life to which the general public is exposed.

(3) Except as hereinafter otherwise provided in this section, "disablement" means the event of an employee's becoming actually incapacitated, partially or totally, because of an occupational disease, from performing his work in the last occupation in which injuriously exposed to the hazards of such disease; and "disability" means the state of being so incapacitated.

(4) This section shall not apply to cases of occupational disease in which the last injurious exposure to the hazards of such disease occurred before this section shall have taken effect.

(5) Where compensation is payable for an occupational disease, the employer in whose employment the employee was last injuriously exposed to the hazards of such disease, and the insurance carrier, if any, on the risk when such employee was last so exposed under such employer, shall alone be liable therefor, without right to contribution from any prior employer or insurance carrier; and the notice of injury and claim for compensation, as hereinafter required, shall be given and made to such employer; provided, however, that in case of disability from any dust disease the only employer and insurance carrier liable shall be the last employer in whose employment the employee was last injuriously exposed to the hazards of the disease for a period of at least sixty days.

(6) (a) Disability from silicosis, asbestosis or any dust disease shall be caused only from the characteristic fibrotic condition of the lungs caused from the inhalation of dust and shall be

allowed only when the employee is incapacitated from performing any remunerative employment.

(b) In the absence of conclusive evidence in favor of the claim, disability or death from silicosis or asbestosis shall be presumed not to be due to the nature of any occupation within the provisions of this section, unless during the ten years immediately preceding the date of disablement the employee has been exposed to the inhalation of silica dust or asbestos dust over a period of not less than five years, two years of which shall have been in this state, under a contract of employment existing in this state; provided, however, that if the employee shall have been employed by the same employer during the whole of such five-year period, his right to compensation against such employer shall not be affected by the fact that he had been employed during any part of such period outside of this state.

(c) Except as in this section otherwise provided, compensation for disability from uncomplicated silicosis or asbestosis shall be payable in accordance with the provisions of this workmen's compensation law; provided, however, that no compensation shall be payable for partial disability from silicosis or asbestosis; and provided, further, that during a transitory period, the aggregate compensation payable to employees and their dependents for disability and death from uncomplicated silicosis or asbestosis shall be limited as follows: If disablement occurs or, in case of no claim for prior disablement, if death occurs in the calendar month in which this section becomes effective, the total compensation and death benefits payable shall not exceed the sum of five hundred dollars. If disablement occurs or, in case of no claim for prior disablement, if death occurs during the next calendar month, the total compensation and death benefits payable shall not exceed five hundred and fifty dollars. Thereafter the total amount of the compensation and death benefits payable for disability and death shall increase at the rate of fifty dollars per month, the aggregate payable in each case to be limited according to the foregoing formula for the month in which disability occurs, or, in case of no claim for prior disablement, in which death occurs. Such progressive increase in the limits to the aggregate compensation and benefits for disability and death shall continue until the limit upon such benefits fixed in this workmen's compensation law is reached.

(7) The time for notice of injury or death provided in §440.18 (1) shall be extended in case of occupational diseases to a period of ninety days.

440.152 Commission to make study of occupational diseases, etc.—

(1) The workmen's compensation division of the Florida industrial commission shall make a study of occupational diseases and the ways and means for their control and prevention;

shall make and enforce necessary regulations for such control. For this purpose the division is authorized to cooperate with employers, employees and carriers and with the state board of health.

(2) The result of the above study, together with its recommendations, shall be reported by the division to the governor and the legislature.

History.—§2, ch. 22852, 1945; am. §1, ch. 23921, 1947.

440.16 Compensation for death.—If death results from the accident within one year thereafter or follows continuous disability and results from the accident within five years thereafter, the employer shall pay:

(1) Actual funeral expenses not to exceed five hundred dollars.

(2) Compensation, in addition to the above, in the following percentages of the average weekly wages to the following persons entitled thereto on account of dependency upon the deceased and in the following order of preference (subject to the limitation provided in paragraph (c) of §440.16(2) below), but such compensation shall be subject to the limits provided in subsection (2) of §440.12 and shall not exceed a period of three hundred fifty weeks; and may be less than, but shall not exceed, for all dependents or persons entitled to compensation, sixty per cent of the average wages.

(a) To the widow if there is no child, thirty-five per cent of the average weekly wage, said compensation to cease upon her death or remarriage.

(b) To the widower if there is no child, thirty-five per cent during the continuance of dependency, said compensation to cease upon death, remarriage or the termination of dependency.

(c) To the widow or widower if there is a child or children, the compensation payable under subsection (a) or (b) hereof, and, in addition, fifteen per cent on account of each child; and in case of the death or remarriage of such a widow or widower or the termination of dependency of the widower, twenty-five per cent for each child: Provided, however, where the deceased is survived by a widow or widower and also a child or children, whether such child or children be the product of the union existing at the time of death or of a former marriage or marriages, the commission may provide for the payment of compensation in such manner as to it may appear just and proper and for the best interests of the respective parties and in so doing may provide for the entire compensation to be paid exclusively to the child or children.

(d) To the child or children, if there is no widow or widower, twenty-five per cent for each child.

(e) To the parents, twenty-five per cent to each, such compensation to be paid during the continuance of dependency.

(f) To the brothers, sisters and grandchildren, fifteen per cent for each brother, sister or grandchild.

(3) For the purpose of this chapter the dependence of a widow or widower of a deceased employee shall terminate with remarriage. The dependence of a child, except a child physically or mentally incapacitated from earning a livelihood, shall terminate with the attainment of eighteen years of age, or upon marriage.

(4) Where, because of the limitation in subsection (2), a person or class of persons cannot receive the percentage of compensation specified as payable to or on account of such person or class, there shall be available to such person or class that proportion of such percentage as, when added to the total percentage payable to all persons having priority of preference, will not exceed a total of said sixty per cent, which proportion shall be paid (a) to such person, or (b) to such class share and share alike unless the commission determines otherwise in accordance with the provisions of subsection (5).

(5) If the commission determines that payments in accordance with clause (b) of subsection (4) would provide no substantial benefit to any person of such class, it may provide for the payment of such compensation to the person or persons within such class whom it considers will be most benefited by such payment.

(6) Upon the cessation of compensation under this section to any person, the compensation of the remaining persons entitled to compensation, for the unexpired part of the period during which their compensation is payable, shall be that which such persons would have received if they had been the only persons entitled to compensation at the time of the decedent's death.

(7) Relationship to the deceased giving right to compensation under the provisions of this section must have existed at the time of the accident, save only in the case of after-born children of the deceased.

(8) Compensation under this chapter to aliens not residents (or about to become non-residents) of the United States or Canada shall be the same in amount as provided for residents, except that dependents in any foreign country shall be limited to surviving wife and child or children, or if there be no surviving wife or child or children, to surviving father or mother whom the employee has supported, either wholly or in part, for the period of one year prior to the date of the injury, and except that the commission may, at its option, or upon the application of the insurance carrier, commute all future installments of compensation to be paid to such aliens by paying or causing to be paid to them one-half of the commuted amount of such future installments of compensation as determined by the commission, and provided further that compensation to dependents referred to in this

paragraph shall in no case exceed one thousand dollars.

440.17 Guardian for minor or incompetent.

—The commission may require the appointment by a court of competent jurisdiction, for any person who is mentally incompetent or a minor, of a guardian or other representative to receive compensation payable to such person under this chapter and to exercise the powers granted to or to perform the duties required of such person under this chapter; provided, however, the commission in its discretion may designate in the compensation award a person to whom payment of compensation may be paid for a minor or incompetent, in which event payment to such designated person shall discharge all liability for such compensation.

History.—§17, ch. 17481, 1935; CGL 1936 Supp. 5966(17); §8, ch. 18413, 1937.

440.18 Notice of injury or death.—

(1) Notice of an injury or death in respect to which compensation is payable under this chapter shall be given within thirty days after the date of such injury or death (a) to the commission, (b) to the employer; provided, however, that in the event of any injury which results in the death of the injured employee within twenty-four hours of the time of such injury immediate notice shall be given to the commission by telegraph or telephone. Such immediate notice shall be in addition to any other notice provided for in this section; and, provided further, that such special notice shall not be required where the death results subsequent to the submission to the commission of a previous notice of such injury which did not result in immediate death.

(2) Such notice shall be in writing, shall contain the name and address of the employee and a statement of the time, place, nature, and cause of the injury or death, and shall be signed by the employee or by some person on his behalf or in case of death, by any person claiming to be entitled to compensation for such death or by a person on his behalf.

(3) Notice shall be given to the commission by delivering same to it or sending same by mail addressed to its office, and to the employer, by delivering same to him or by sending same by mail addressed to him at his last known place of business. If the employer is a partnership, such notice may be given to any partner, or if a corporation, such notice may be given to any agent or officer thereof upon whom legal process may be served or who is in charge of the business in the place where the injury occurred.

(4) Failure to give such notice shall not bar any claim under this chapter (a) if the employer (or his agent in charge of the business in the place where the injury occurred) or the carrier had knowledge of the injury or

death and the commission determines that the employer or carrier has not been prejudiced by failure to give such notice, or (b) if the commission excuses such failure on the ground that for some satisfactory reason such notice could not be given; nor unless objection to such failure is raised before the commission at the first hearing of a claim for compensation in respect of such injury or death. Provided, in case the delay in giving notice is so excused, no compensation shall be payable for aggravation of the injury caused by want of "first aid" or proper medical treatment during such delay, and every presumption shall be against the validity of the claim.

History.—§18, ch. 17481, 1935; CGL 1936 Supp. 5966(18). Am. (1) by §1, ch. 57-245.

440.19 Time and procedure for filing claims.—

(1) (a) The right to compensation for disability under this chapter shall be barred unless a claim therefor is filed within two years after the time of injury, except that if payment of compensation has been made or remedial treatment has been furnished by the employer without an award on account of such injury a claim may be filed within two years after the date of the last payment of compensation or after the date of the last remedial treatment furnished by the employer.

(b) The right to compensation for death under this chapter shall be barred unless a claim therefor is filed within two years after the death, except that if payment of compensation has been made without an award on account of such death a claim may be filed within two years after the date of the last payment.

(c) Such claim shall be filed with the commission and shall contain the name and address of the employee, the name and address of the employer, and a statement of the time, place, nature and cause of the injury or such fairly equivalent information as will put the commission and the employer on notice with respect to the identity of the parties and the nature of the claim.

(2) Notwithstanding the provisions of subsection (1) failure to file claim within the period prescribed in such subdivision shall not be a bar to such right unless objection to such failure is made at the first hearing of such claim in which all parties in interest are given reasonable notice and opportunity to be heard.

(3) If a person who is entitled to compensation under this chapter is mentally incompetent or a minor, the provisions of subsection (1) shall not be applicable so long as such person has no guardian or other authorized representative, but shall be applicable in the case of a person who is mentally incompetent or a minor from the date of appointment of such guardian or other representative, or in the case of a minor, if no guardian is appointed before he becomes of age, from the date he becomes of age.

(4) Where recovery is denied to any person, in a suit brought at law or in admiralty to re-

cover damages in respect of injury or death, on the ground that such person was an employee and that the defendant was an employer within the meaning of this chapter and that such employer had secured compensation to such employee under this chapter, the limitation of time prescribed in subsection (1) shall begin to run only from the date of termination of such suit, but in such an event the employer shall be allowed a credit of his actual cost of defending said suit in a sum not exceeding two hundred and fifty dollars, which shall be deducted from any compensation allowed or awarded to said employee under this chapter.

History.—§19, ch. 17481, 1935; CGL 1936 Supp. 5966(19); §1, ch. 23908, 1947; sub §(1) am. §10, ch. 26484, 1951; sub §(1) am. §4, ch. 29778, 1955; (1) (a) by §1, ch. 57-192.

440.20 Payment of compensation.—

(1) Compensation under this chapter shall be paid periodically, promptly in the usual manner and directly to the person entitled thereto, without an award, except where liability to pay compensation is controverted by the employer.

(2) The first installment of compensation shall become due on the fourteenth day after the employer has knowledge of the injury or death, on which date all compensation then due shall be paid. Thereafter, compensation shall be paid in installments semimonthly except where the commission determines that payment in installments should be made monthly or at some other period.

(3) Upon making the first payment, and upon suspension of payment for any cause, the employer shall immediately notify the commission, in accordance with a form prescribed by the commission, that payment of compensation has begun or has been suspended, as the case may be.

(4) If the employer controverts the right to compensation he shall file with the commission on or before the twenty-first day after he has knowledge of the alleged injury or death, a notice in accordance with a form prescribed by the commission, stating that the right to compensation is controverted, the name of the claimant, the name of the employer, the date of the alleged injury or death, and the grounds upon which the right to compensation is controverted.

(5) If any installment of compensation payable without an award is not paid within fourteen days after it becomes due, as provided in subsection (2) of this section, there shall be added to such unpaid installment an amount equal to ten per cent thereof, which shall be paid at the same time as, but in addition to, such compensation, such installment, unless notice is filed under subsection (4) of this section, or unless such nonpayment is excused by the commission after a showing by the employer that owing to conditions over which he had no control such installment could not be paid within the period prescribed for the payment.

(6) If any compensation, payable under the terms of an award, is not paid within fourteen

days after it becomes due, there shall be added to such unpaid compensation an amount equal to twenty per cent thereof, which shall be paid at the same time as, but in addition to such compensation, unless review of the compensation order making such award is had as provided in §440.27.

(7) Within thirty days after final payment of compensation has been made, the employer shall send to the commission a notice, in accordance with a form prescribed by the commission stating that such final payment has been made, the total amount of compensation paid, the name of the employee and of any other person to whom compensation has been paid, the date of the injury or death, and the date to which compensation has been paid.

If the employer fails to so notify the commission within such time the commission may assess against such employer a civil penalty in an amount not over one hundred dollars.

(8) The commission (a) may upon its own initiative at any time in a case in which payments are being made without an award, and (b) shall in any case where right to compensation is controverted, or where payments of compensation have been stopped or suspended, upon receipt of notice from any person entitled to compensation, or from the employer, that the right to compensation is controverted, or that payments of compensation have been stopped or suspended, make such investigations, cause such medical examination to be made, or hold such hearings, and take such further action as it considers will properly protect the rights of all parties.

(9) Whenever the commission deems it advisable it may require any employer to make a deposit with the state treasurer to secure the prompt and convenient payments of such compensation, and payments therefrom upon any awards shall be made upon order of the commission.

(10) Upon the application of any party in interest and after giving due consideration to the interests of all interested parties, if he finds that it is for the best interests of the person entitled to compensation a deputy commissioner may enter a compensation order requiring that the liability of the employer for compensation shall be discharged by the payment of a lump sum equal to the present value of all future payments of compensation, computed at four per cent true discount compounded annually, or requiring that the employer make advance payment of a part of the compensation for which he is liable by the payment of a lump sum equal to the present value of such part of the compensation computed at four per cent true discount compounded annually. Upon joint petition of all interested parties and after giving due consideration to the interests of all interested parties, if he finds that it is for the best interests of the person entitled to compensation a deputy commissioner may enter a compensation order approving and authorizing the discharge of the

liability of the employer for both compensation and remedial treatment, care and attendance by the payment of a lump sum equal to the present value of all future payments for both compensation and remedial treatment, care and attendance; and a compensation order so entered upon joint petition of all interested parties shall not be subject to modification or review under §440.28. The probability of the death of the injured employee or other person entitled to compensation before the expiration of the period during which he is entitled to compensation shall in the absence of special circumstances making such course improper be determined in accordance with a standard experience table of mortality approved by the commission. The probability of the happening of any other contingency affecting the amount of duration of the compensation except the possibility of the remarriage of a widow shall be disregarded. As a condition of approving a lump sum payment to a widow the deputy commissioner in his discretion may require security which will insure that in the event of the remarriage of such widow any unaccrued future payments so paid may be recovered or recouped by the employer or carrier. Such applications shall be considered and determined in accordance with §§440.25 and 440.27 and the rules of procedure prescribed by the commission.

(11) If the employer has made advance payments of compensation, he shall be entitled to be reimbursed out of any unpaid installment or installments of compensation due.

(12) An injured employee, or in case of death his dependents or personal representative, shall give receipts of payment of compensation to the employer paying the same and such employer shall produce the same for inspection by the commission whenever required.

440.21 Invalid agreements; penalty.—

(1) No agreement by an employee to pay any portion of premium paid by his employer to a carrier or to contribute to a benefit fund or department maintained by such employer for the purpose of providing compensation or medical services and supplies as required by this chapter shall be valid, and any employer who makes a deduction for such purpose from the pay of any employee entitled to the benefits of this chapter shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than five hundred dollars.

(2) No agreement by an employee to waive his right to compensation under this chapter shall be valid, unless he has rejected the chapter as provided in §440.05.

440.22 Assignment and exemption from claims of creditors.—No assignment, release,

or commutation of compensation or benefits due or payable under this chapter except as provided by this chapter, shall be valid, and such compensation and benefits shall be exempt from all claims of creditors, and from levy, execution and attachments, or other remedy for recovery or collection of a debt, which exemption may not be waived.

440.23 Compensation a lien against assets.—Compensation shall have the same preference of lien against the assets of the carrier or employer without limit of an amount as is now or may hereafter be allowed by law to the claimant for unpaid wages or otherwise.

History.—§23, ch. 17481, 1935; CGL 1936 Supp. 5966(23).

440.24 Enforcement of compensation orders; penalties.—

(1) In case of default by the employer or carrier in the payment of compensation due under any compensation order of a deputy commissioner or order of the full commission or other failure by the employer or carrier to comply with such order for a period of ten days after the order has become final, any circuit court of this state within the jurisdiction of which the employer or carrier resides or transacts business shall upon application by the commission or any beneficiary under such order, have jurisdiction to issue a rule nisi directing such employer or carrier to show cause why a writ of execution, or such other process as may be necessary to enforce the terms of such order, shall not be issued, and unless such cause is shown, the said court shall have jurisdiction to issue a writ of execution or such other process or final order as may be necessary to enforce the terms of such order of the deputy commissioner or full commission.

(2) In any case where the employer is insured and the carrier fails to comply with any compensation order of a deputy commissioner or order of the full commission for a period of ten days after such order has become final, the commission shall notify the state treasurer of such failure, and the state treasurer shall thereupon suspend the license of such carrier to do an insurance business in this state, until such carrier has complied with such order.

(3) In any case where the employer is a self-insurer and fails to comply with any compensation order of a deputy commissioner or order of the full commission for a period of ten days after such order has become final, the commission may suspend or revoke any authorization previously given to the employer to become a self-insurer, and the commission will be authorized to sell such of the securities deposited by such self-insurer with the commission as may be necessary to satisfy such order.

History.—§24, ch. 17481, 1935; CGL 1936 Supp. 5966(24); §10, ch. 18413, 1937; am. §7, ch. 28241, 1953.

440.25 Procedure in respect to claims.—

(1) Subject to the provisions of §440.19, claim for compensation may be filed with the

commission in accordance with regulations prescribed by the commission at any time after the first seven days of disability following any injury or at any time after the death, and the commission shall have full power and authority to hear and determine all questions in respect to such claims.

(2) Within ten days after such claim is filed the commission, in accordance with regulations prescribed by it, shall notify the employer and any other person (other than the claimant), whom the commission considers an interested party, that a claim has been filed. Such notice may be served personally upon the employer or other person, or sent to such employer or person by regular mail.

(3) (a) The commission shall make or cause to be made such investigations as it considers necessary in respect of the claim, and upon application of any interested party shall order a hearing thereof. If a hearing on such claim is ordered, the commission shall give the claimant and other interested parties at least ten days' notice of such hearing served personally upon the claimant and other interested parties by registered mail.

(b) The hearing shall be held in the county where the injury occurred, if the same occurred in this state, unless otherwise agreed to between the parties and authorized by the commission. If the injury occurred without the state, and is one for which compensation is payable under this chapter, then the hearing above referred to may be held in the county of the employer's residence or place of business, or in any other county of the state which will, in the discretion of the commission, be the most convenient for a hearing. The hearing shall be conducted by a deputy commissioner, who shall within twenty days after such hearing determine the dispute in a summary manner. At such hearing the claimant and employer may each present evidence in respect of such claim and may be represented by any attorney authorized in writing for such purpose. When there is a conflict in the medical evidence submitted at the hearing the deputy commissioner may designate a disinterested doctor to submit a report or to testify in the proceeding, after such doctor has reviewed the medical reports and evidence, examined the claimant, or otherwise made such investigation as appropriate. The report or testimony of any doctor so designated by the deputy commissioner shall be made a part of the record of the proceeding and shall be given the same consideration by the deputy commissioner as is accorded other medical evidence submitted in the proceeding; and all costs incurred in connection with such examination and testimony may be assessed as costs in the proceeding, subject to the provisions of §440.13 (3) (a).

(c) The order rejecting the claim or making an award (referred to in this chapter as a compensation order) shall set forth a statement of the findings of fact and other matters pertinent

to the questions at issue and shall be filed in the office of the commission at Tallahassee. A copy of such compensation order shall be sent by registered mail to the claimant and to the employer at the last known address of each, with the date of mailing noted thereon.

(4) (a) The compensation order rendered by the deputy commissioner shall become final twenty days after the date copies of same are mailed to the parties at the last known address of each, unless within said time any interested party shall make and file with the commission or a deputy commissioner an application for a review thereof by the full commission in accordance with the provisions of this subsection; provided, however, that an employer who has not secured the payment of compensation under this chapter in compliance with §440.38 shall, as a condition of filing such application for a review by the full commission, file with his application for review a good and sufficient bond, as provided in §59.13 of chapter 59, conditioned to pay the amount of the award, interests and costs payable under the terms of the order of the full commission, if the application shall be dismissed or the order thereon shall affirm or make an award of benefits in any amount, and upon failure of such employer to file such bond with his application for review the commission shall dismiss the application for review. The application must state concisely and particularly the grounds upon which the appellant relies, and the consideration of the commission thereof will be confined solely to the grounds so presented. A copy of all applications for review shall be served on all interested parties, and proof of service thereof shall accompany all applications when filed.

(b) The appellant shall have prepared, in accordance with such rules as the commission may prescribe, a transcript of the proceedings before the deputy commissioner, certified by the deputy commissioner, which transcript must be filed with the full commission within forty-five days from the date of the filing of the application for review, unless the commission for good cause shown by verified petition presented prior to the expiration of said period shall extend the time therefor. The appellant shall have a copy of the transcript served on the opposing party or parties or their counsel and evidence of such service shall be filed with the transcript when filed with the commission. Upon failure of the appellant to file a transcript of the proceedings with the commission, together with evidence of service of a copy thereof on the opposing party or parties, within the time specified or within such time as allowed by the commission pursuant to petition for an extension of time as aforesaid, the commission shall dismiss the application for review.

(c) Within ten days after the appellant has filed his application for review, any other interested party who desires review of any adverse ruling by the deputy commissioner must file his cross-application for review with

the commission or a deputy commissioner. The cross-application for review must state concisely and particularly the grounds upon which the cross-appellant relies, and the consideration of the commission thereof will be confined solely to the grounds so presented. A copy of all cross-applications for review shall be served on all interested parties, and proof of service thereof shall accompany all cross-applications when filed.

(d) Unless the application for review is withdrawn with its permission or is dismissed as aforesaid, the commission shall consider the matter upon the record as certified by the deputy commissioner, and shall thereafter affirm, reverse or modify said compensation order, or remand the claim for further proceedings before a deputy commissioner, who shall proceed as the full commission may direct. The order of the full commission shall be filed in the office of the commission at Tallahassee, and a copy of such order shall be sent by registered or certified mail to each interested party at his last known address. The order of the full commission shall become final upon expiration of the period within which any interested party may file a petition for writ of certiorari requesting review of such order by the supreme court unless within said time any interested party shall file a petition for writ of certiorari in accordance with §440.27.

(5) An award of compensation for disability may be made after the death of an injured employee.

(6) An injured employee claiming or entitled to compensation shall submit to such physical examination by a duly qualified physician designated or approved by the commission as the commission may require. The place or places shall be reasonably convenient for the employee. Such physician or physicians as the employee, employer or carrier may select and pay for may participate in an examination if the employee, employer or carrier so requests. Proceedings shall be suspended and no compensation be payable for any period during which the employee may refuse to submit to examination. Any interested party shall have the right in any case of death to require an autopsy, the cost thereof to be borne by the party requesting it; and the commission shall have authority to order and require an autopsy and may in its discretion withhold its findings and award until an autopsy is held.

440.26 Presumptions.—In any proceeding for the enforcement of a claim for compensation under this chapter it shall be presumed, in the absence of substantial evidence to the contrary:

- (1) That the claim comes within the provisions of this chapter.
- (2) That sufficient notice of such claim has been given.
- (3) That the injury was not occasioned primarily by the intoxication of the injured employee.
- (4) That the injury was not occasioned by the willful intention of the injured employee to injure or kill himself or another.

440.27 Review of compensation orders.—

(1) Orders of the full commission entered pursuant to §440.25 shall be subject to review only by petition for writ of certiorari to the supreme court. The petition shall be filed in accordance with rules of procedure prescribed by the supreme court of Florida for review of such orders. The Florida industrial commission shall be made a party respondent to every such proceeding.

(2) The commission may grant a supersedeas or stay upon petitioner giving a good and sufficient bond, as provided in §59.13, conditioned to pay the amount of the award, interest and costs, if the petition shall be denied by the court; provided, however, that if the employer has secured the payment of benefits of this chapter to his employees no bond is required.

440.28 Modification of orders.—Upon their own initiative or upon the application of any party in interest, on the ground of a change in condition or because of a mistake in a determination of fact the commission may at any time prior to two years after the date of the last payment of compensation pursuant to any compensation order, or at any time prior to two years after the date copies of an order rejecting a claim are mailed to the parties at the last known address of each, review a compensation case in accordance with the procedure prescribed in respect of claims in §440.25 and in accordance with such section, issue a new compensation order which may terminate, continue, reinstate, increase, or decrease such compensation, or award compensation. Such new order shall not affect any compensation previously paid, except that an award increasing the compensation rate may be made effective from the date of the injury, and if any part of the compensation due or to become due is unpaid, an award decreasing the compensation rate may be made effective from the date of the injury, and any payment made prior thereto in excess of such decreased rate shall be deducted from any unpaid compensation, in such manner and by such method as may be determined by the commission.

440.29 Procedure before the commission.—

(1) In making an investigation or inquiry or conducting a hearing the commission shall not be bound by technical or formal rules of procedure, except as provided by this chapter; but may make such investigation or inquiry, or conduct such hearing in such manner as to best ascertain the rights of the parties. Declaration of a deceased employee concerning the injury in respect of which the investigation or inquiry is being made or the hearing conducted shall be received in evidence and shall, if corroborated by other evidence, be sufficient to establish the injury.

(2) Hearings before the commission shall be open to the public and shall be reported, and the commission is authorized to contract for the reporting of such hearings. The commission shall by regulation provide for the preparation of a record of the hearings and other proceedings before it and shall be permitted to charge for transcripts of testimony and copies of any instrument the same fees as are allowed by law to reporters and clerks of courts of this state for like services.

Such deposition may be taken before any notary public, court reporter or deputy, and the fees of the officer taking the same and the fees of the witnesses attending the same, including expert witness fees as provided by law or court rule, shall be the same as in depositions taken for such circuit courts. Such fees may be taxed as costs and recovered by the claimant, if successful in such workmen's compensation proceedings.

(2) If any person in proceedings before the commission disobeys or resists any lawful order or process, or misbehaves during a hearing or so near the place thereof as to obstruct the same, or neglects to produce, after having been ordered to do so, any pertinent book, paper, or document, or refuses to appear after having been subpoenaed, or upon appearing refuses to take oath as a witness, or after having taken the oath refuses to be examined according to law, the commission shall certify the facts to the court having jurisdiction in the place in which it is sitting which shall thereupon in a summary manner hear the evidence as to the acts complained of, and, if the evidence so warrants, punish such person in the same manner and to the same extent as for a contempt committed before the court, or commit such person upon the same conditions as if the doing of the forbidden act had occurred with reference to the process of or in the presence of the court.

approved by the commission which may be paid direct to the attorney for the claimant in a lump sum. If any proceedings are had for review of any claim, award or compensation order before any court, the court may allow or increase the attorney's fees, in its discretion, which fees shall be in addition to the compensation paid the claimant, and shall be paid as the court may direct.

(2) There shall be further assessed against such employer or carrier, as costs in said claim, such fees and mileages for witnesses attending the hearing at the instance of claimant, as would be allowed such witnesses in cases at law.

(3) Any person (a) who receives any fees, other consideration, or any gratuity on account of services so rendered, unless such consideration or gratuity is approved by the commission or such court, or (b) who makes it a business to solicit employment for a lawyer or for himself in respect of any claim or award for compensation, shall be guilty of a misdemeanor, and upon conviction thereof, shall, for each offense, be punished by a fine of not more than five hundred dollars or by imprisonment not to exceed one year, or by both such fine and imprisonment.

440.38 Security for compensation.—

(1) Every employer shall secure the payment of compensation under this chapter:

(a) By insuring and keeping insured the payment of such compensation with any stock company or mutual company or association or exchange, authorized to do business in the state, or

(b) By furnishing satisfactory proof to the commission of his financial ability to pay such compensation and receiving an authorization from the commission to pay such compensation directly. The commission may, as a condition to such authorization, require such employer to deposit in a depository designated by the commission either an indemnity bond or securities (at the option of the employer) of a kind and in an amount determined by the commission, and subject to such conditions as the commission may prescribe, which shall include authorization to the commission in case of default to sell any such securities sufficient to pay compensation awards or to bring suit upon such bonds, to procure prompt payment of compensation under this chapter. Any employer securing compensation in accordance with the provisions of this paragraph shall be known as a self-insurer, and shall be classed as a carrier of his own insurance.

(2) The license of any stock company or mutual company or association or exchange authorized to do insurance business in the state may, upon recommendation of the commission be suspended, or revoked by the state treasurer for good cause shown after a hearing at which the carrier shall be entitled to be heard in person or by counsel and to present evidence. No suspension or revocation shall affect the liability of any carrier already incurred.

(3) The commission may suspend or revoke any authorization to a self-insurer for a good cause shown after a hearing at which the self-insurer shall be entitled to be heard in person

or by counsel and to present evidence. No suspension or revocation shall affect the liability of any self-insurer already incurred.

(4) (a) No carrier of insurance, including the parties to any mutual, reciprocal or other association, shall write any compensation insurance under this chapter without a permit from the insurance commissioner. Such permit shall be given upon application therefor to any insurance or mutual or reciprocal insurance association upon the said commissioner being satisfied of the solvency of such corporation or association and its ability to perform all its undertakings. The said commissioner may revoke any permit so issued for violation of any provision of this chapter.

(b) Any insurer, rating bureau, agent or other representative or employee of any insurer or rating bureau failing to comply with or which is guilty of a violation of any of the provisions of this chapter, or of any order or ruling of the insurance commissioner made hereunder, shall be punished by a fine of not less than fifty nor more than five hundred dollars. In addition thereto, the license of any insurer, agent or broker guilty of such violation may be revoked or suspended by the department.

(5) The state, its boards, bureaus, departments and agencies and all its political subdivisions who employ labor shall be deemed self-insurers under the terms of this chapter unless they elect to procure and maintain insurance to secure the benefits of this chapter to their employees and they are hereby authorized to pay the premiums for the said insurance.

440.39 Compensation for injuries where third persons are liable.—

(1) If an employee, subject to the provisions of the Florida workmen's compensation law, is injured or killed in the course of his employment by the negligence or wrongful act of a third party tort-feasor, such injured employee, or in the case of his death his dependents, may accept compensation benefits under the provisions of this law, and at the same time such injured employee, his dependents or personal representatives may pursue his remedy by action at law or otherwise against such third party tort-feasor.

(2) If the employee or his dependents shall accept compensation or other benefits under this law or begin proceedings therefor, the employer or, in the event the employer is insured against liability hereunder then the insurer, shall be subrogated to the rights of the employee or his dependents against such third party tort-feasor, to the extent of the amount of compensation benefits paid or to be paid as provided by subsection (3) of this section.

(3) (a) In all claims or actions at law against a third party tort-feasor, the employee,

or his dependents, or those entitled by law to sue in the event he is deceased, shall sue for the employee individually, and for the use and benefit of the employer if a self-insurer, or employer's insurance carrier, in the event compensation benefits are claimed or paid, and such suit may be brought in the name of the employee or his dependents or those entitled by law to sue in the event he is deceased, as plaintiff or, at the option of such plaintiff may be brought in the name of such plaintiff and for the use and benefit of the employer or insurance carrier, as the case may be. Upon suit being filed the employer or the insurance carrier, as the case may be, may file in the suit a notice of payment of compensation and medical benefits to the employee or his dependents, which said notice shall be recorded and the same shall constitute a lien upon any judgment recovered to the extent that the court may determine to be their pro rata share for compensation benefits paid or to be paid under the provisions of this law, based upon such equitable distribution of the amount recovered as the court may determine, less their pro rata share of all court costs expended by the plaintiff in the prosecution of the suit including reasonable attorney's fees for plaintiff's attorney, such proration of court costs and attorney's fees to be made by the judge of the trial court upon application therefor and notice to adverse party. Notice of suit being filed and notice of payment of compensation benefits shall be served upon the compensation carrier and upon all parties to the suit, or their attorneys of record.

(b) If the employer or insurance carrier has given written notice of his rights of subrogation to the third party tort-feasor, and, thereafter, settlement of any such claim or action at law is made, either before or after suit is filed, and the parties fail to agree on the proportion to be paid to each, the circuit court of the county in which the cause of action arose shall determine the amount to be paid to each by such third party tort-feasor in accordance with the provisions of paragraph (a) above.

(4) (a) If the injured employee or his dependents, as the case may be, shall fail to bring suit against such third party tort-feasor within one year after the cause of action thereof shall have accrued, the employer if a self-insurer, and if not, the insurance carrier, may institute suit against such third party tort-feasor either in his own name or as provided by subsection (3) of this section, and in the event suit is so instituted, shall be subrogated to and entitled to retain from any judgment recovered against or settlement made with such third party, the following: All amounts paid as compensation and medical benefits under the provisions of this law and the present value of all future compensation benefits payable, to be reduced to its present value, and to be retained as a trust fund from which future payments of compensation are to be made, together with all

court costs, including attorney's fees expended in the prosecution of such suit, to be prorated as provided by subsection (3) of this section. The remainder of the moneys derived from such judgment or settlement to be paid to the employee or his dependents, as the case may be.

(b) If the carrier or employer does not bring suit within two years following the accrual of the cause of action against a third party tort-feasor, the right of action shall revert to the employee (or in the case of his death, those entitled by law to sue), and in such event the provisions of subsection (3) shall apply.

(5) In all cases under subsection (4) of this section involving third party tort-feasors, where compensation benefits under this law are paid, or are to be paid, settlement either before or after suit is instituted shall not be made except upon agreement of the injured employee or his dependents and the employer or his insurance carrier, as the case may be.

(6) Any amounts recovered under this section by the employer or his insurance carrier shall be credited against the loss-experience of said employer.

440.40 Compensation notice.—Every employer who has secured compensation under the provisions of this chapter shall keep posted in a conspicuous place or places in and about his place or places of business typewritten or printed notices, in accordance with a form prescribed by the commission, stating that such employer has secured the payment of compensation in accordance with the provisions of this chapter. Such notices shall contain the name and address of the carrier, if any, with whom the employer has secured payment of compensation and the date of the expiration of the policy.

History.—§40, ch. 17481, 1935; CGL 1936 Supp. 5966(39).

440.41 Substitution of carrier for employer.—In any case where the employer is not a self-insurer, in order that the liability for compensation imposed by this chapter may be most effectively discharged by the employer, and in order that the administration of this chapter in respect of such liability may be facilitated, the commission shall by regulation provide for the discharge, by the carrier for such employer, of such obligations and duties of the employer in respect of such liability, imposed by this chapter upon the employer, as it considers proper in order to effectuate the provisions of this chapter. For such purposes (1) notice to or knowledge of an employer of the occurrence of the injury shall be notice to or knowledge of the carrier, (2) jurisdiction of the employer by the commission or any court under this chapter shall be jurisdiction of the carrier, and (3) any requirement by the commission, or any court under any compensation order, finding, or decision shall be binding up-

on the carrier in the same manner and to the same extent as upon the employer.

History.—§41, ch. 17481, 1935; CGL 1936 Supp. 5966(40).

440.42 Insurance policies; liability.—

(1) Every policy or contract of insurance issued under authority of this chapter shall contain (a) a provision to carry out the provisions of §440.41, and (b) a provision that insolvency or bankruptcy of the employer and discharge therein shall not relieve the carrier from payment of compensation for disability or death sustained by an employee during the life of such policy or contract.

(2) No contract or policy of insurance issued by a carrier under this chapter shall be cancelled prior to the date specified in such contract or policy for its expiration until at least thirty days have elapsed after a notice of cancellation has been sent to the commission and to the employer in accordance with the provisions of §440.18(3); provided, however, that when duplicate or dual coverage exists by reason of two different carriers having issued policies of insurance to the same employer securing the same liability one of the policies may be cancelled instantaneously upon filing a notice of cancellation with the commission and serving a copy thereof upon the employer, in such manner as the commission by regulation may prescribe.

(3) When there is any controversy as to which of two or more carriers is liable for the discharge of the obligations and duties of one or more employers with respect to a claim for compensation, remedial treatment or other benefits under this chapter the commission shall have jurisdiction to adjudicate such controversy; and if one of the carriers either voluntarily or pursuant to a compensation order makes payments in discharge of such liability pending determination thereof by a deputy commissioner or pending review thereof by the full commission or the court and it is finally determined that another carrier is liable for all or any part of such obligations and duties with respect to such claim the carrier which has made payments either voluntarily or in compliance with the compensation order shall be entitled to reimbursement from the carrier finally determined liable, and the commission shall have jurisdiction to order such reimbursement.

440.43 Penalty for failure to secure payment of compensation.—Any employer required to secure the payment of compensation under this chapter who fails to secure such compensation shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than five hundred dollars, or by imprisonment for not more than one year. This section shall not affect any other liability of the employer under this chapter.

The other two members of the commission shall receive, in addition to the moneys authorized in chapter 443, one thousand eight hundred dollars each per annum. They shall also be reimbursed for traveling expenses as provided in §112.061. Such per diem and expense allowance shall be payable out of the fund established in §440.50.

(3) **DIRECTOR; EXPENSES; ETC.**—(a) Under the direction and supervision of the commission the workmen's compensation division shall be administered by a full time salaried director appointed in accordance with the provisions of subsection (4) of this section. Such director shall, at the commission's expense, furnish a fidelity surety bond to the commission in the sum of ten thousand dollars.

(b) The commission shall make such expenditures including expenditures for personal services and rent at the seat of government and elsewhere, for law books, books of reference, periodicals, equipment and supplies and for printing and binding as may be necessary in the administration of this chapter. All expenditures of the commission in the administration of this chapter shall be allowed and paid as provided in §440.50 upon the presentation of itemized vouchers therefor approved by the commission.

(4) **MERIT SYSTEM PRINCIPLE OF PERSONNEL ADMINISTRATION.**—(a) In

order to assure the effective and economical administration of the workmen's compensation law, and provide an equal opportunity for all qualified persons to compete for positions in the workmen's compensation division, the industrial commission shall, within sixty days after the effective date of this chapter, classify positions under this chapter and shall establish salary schedules and minimum personnel standards for the positions so classified; it shall provide for the holding of examinations to determine the qualifications of applicants for the positions so classified and except for temporary appointments of not to exceed six months in duration such personnel shall be appointed on the basis of efficiency and fitness as determined in such examinations. The commission shall establish and enforce fair and reasonable rules and regulations for the appointment, promotions, and demotions for the entire personnel of this division based upon rating of efficiency and fitness; and no employee of the department may be discharged or removed except for cause. No person shall be appointed as director or deputy commissioner who is not an attorney at law admitted to practice in this state; provided, however, that no deputy commissioner shall accept any employment as an attorney for an insurance company, employer or claimant to prosecute or defend any action that may arise, directly or indirectly, out of a compensation matter.

(c) With the exception of the members of the commission appointed by the governor, no full time employee of the commission shall, during his or her service under the commission, actively engage in any other business or profession; nor shall they serve as the representative of any political party, or any executive committee or other governing body thereof, or as an executive officer or employee of any political committee, organization, or association, or be engaged on the behalf of any candidate for public office in the solicitation of votes.

The office shall be furnished and equipped by

the commission. The commission or the director or any deputy commissioner may hold sessions and conduct hearings at any place within the state.

(6) SEAL.—The commission shall have a seal for authentication of its orders, awards and proceedings, upon which shall be inscribed the words "Industrial commission—Florida—seal" and it shall be judicially noticed.

(7) DESTRUCTION OF OBSOLETE RECORDS.—The commission is expressly authorized to provide by regulation for and to destroy obsolete records of the commission.

(8) ADVISORY COUNCIL.—The commission may designate the state advisory council appointed pursuant to §443.12(5), to aid the commission in formulating policies, discussing problems, and in assuring impartiality and freedom from political influence in the solution of such problems, related to the administration of this chapter and/or any other law administered by the commission. The members of such advisory council shall receive no compensation for such services, but shall be reimbursed for traveling expenses as provided in §112.061.

440.45 Deputy commissioners; delegation of authority.—

(1) The commission with the approval of the governor shall appoint as many full-time deputy commissioners as may be necessary to effectually perform the duties prescribed for them under this chapter and the rules and regulations promulgated by the commission pursuant to this chapter; provided, however, that the number of deputy commissioners shall not exceed twenty during the fiscal year beginning July 1, 1963, and shall not exceed twenty-one during the fiscal year beginning July 1, 1964, and thereafter. No person shall be appointed as a full-time deputy commissioner who has not had three years experience in the practice of law in this state; and no deputy commissioner during his term of office shall actively engage in the private practice of law.

(2) Each full-time deputy commissioner shall be appointed for a term of four years and until his successor is appointed and qualified, but during his term of office may be removed by the commission for cause.

(3) Each full-time deputy commissioner shall receive a salary of thirteen thousand dollars per year, payable out of the fund established in §440.50.

(4) The commission may designate any attorney employed by it to serve as a deputy commissioner pro hac vice in the absence or disqualification of any full-time deputy commissioner or to serve upon a temporary basis as an additional deputy commissioner in any area of the state in which it determines that a need exists therefor, but an attorney so designated shall not be paid any additional compensation

for services performed as a deputy commissioner.

440.46 Investigations by the commission; refusal to admit, penalty.—

(1) (a) The commission shall make studies and investigations with respect to safety provisions and the causes of injuries in employments covered by this chapter, and shall from time to time make to the legislature and employers and carriers such recommendations as it may deem proper as to the best means of preventing injuries. In making such studies and investigations the commission is authorized (a) to cooperate with any agency of the United States charged with the duty of enforcing any law securing safety against injury in any employment covered by this chapter, or any agency or department of the state engaged in enforcing any laws to assure safety for employees, and (b) to permit any such agency or department to have access to the records of the commission.

(b) The commission and its authorized representatives shall have the power and authority to enter and inspect any place of employment at any reasonable time for the purpose of investigating compliance with this chapter and making inspections for the proper enforcement of this chapter. Any employer or owner who refuses to admit any member of the commission or its authorized representative to any place of employment or to permit investigation and inspection pursuant to this paragraph shall be guilty of a misdemeanor and upon conviction thereof shall be fined not less than \$20.00 nor more than \$100.00, or shall be imprisoned for not exceeding 6 months.

(2) Should an accidental injury occur to any inspector or employee of the industrial commission while engaged in his official duties, the industrial commission shall be considered an employer under the provisions of this chapter and shall compensate such injured employee or his dependents in accordance with the provisions hereof.

(3) No other claim on account of such accidental injury may be maintained by any person against any employer who has accepted the terms of this chapter, except as herein provided.

440.47 **Traveling expenses.**—The commission and other employees of the commission shall be reimbursed for traveling expenses as

provided in §112.061. Such expenses shall be sworn to by the person who incurred the same and shall be allowed and paid as provided in §440.50 upon the presentation of vouchers therefor approved by the commission.

440.48 **Annual report.**—Annually on or before the fifteenth day of March the commission under the oath of at least two of its members shall make to the governor a report of the administration of this chapter for the preceding calendar year, including a detailed statement of the receipts of and expenditures from the fund established in §440.50, a statement of the causes of the accidents leading to the injuries for which the awards were made, together with such recommendations as the commission deems advisable.

440.49 Rehabilitation of injured employees; special disability fund.—

(1) In cases in which it appears that disability probably will be permanent the commission shall assist injured employees to obtain appropriate training, education and employment and may cooperate with federal and state agencies for vocational education and with any public or private agency cooperating with such federal or state agencies in the vocational rehabilitation of injured employees. The commission may, and it is authorized to, expend moneys from the special fund established by §440.50, for the purpose of assisting such injured employees to obtain appropriate training, education and employment in connection with their vocational rehabilitation.

(2) Whenever the commission determines that there is a reasonable probability that with appropriate training or education a person entitled to compensation for total or partial disability which is or is likely to be permanent may be rehabilitated to the extent that he will require less care and attendance or to the extent that he can become gainfully employed or increase his earning capacity and that it is for the best interests of such person to undertake such training or education, if the injured employee without reasonable cause refuses to undertake the training or educational program determined by the commission to be suitable for him, the commission may in its discretion suspend, reduce or limit the compensation otherwise payable to such person under this chapter, any provisions of this chapter to the contrary notwithstanding.

(3) In cases involving total disability adjudged to be permanent, within two years after a disability has been so adjudged, the commission shall determine whether there is a reasonable probability that with appropriate training or education the injured employee may be rehabilitated to the extent that he can become gainfully employed and whether it is for the best interests of such person to undertake such training or education; and whenever the

commission determines that there is a reasonable probability that the injured employee may be so rehabilitated and that it is for his best interests, if the injured employee without reasonable cause refuses to undertake the training or educational program determined by the commission to be suitable for him, the commission shall suspend or reduce by not less than fifty per cent the compensation otherwise payable to such employee under this chapter, any provisions of this chapter to the contrary notwithstanding.

(4) LIMITATION OF LIABILITY FOR SUBSEQUENT INJURY THROUGH SPECIAL DISABILITY FUND.—

(a) *Legislative intent.*—It is the purpose of this subsection to encourage the employment of the physically handicapped by protecting employers from excess liability for compensation and medical expense when an injury to a handicapped worker merges with his pre-existing permanent physical impairment to cause a greater disability than would have resulted from the injury alone. It shall not be construed to create or provide any benefits for injured employees or their dependents not otherwise provided by this chapter. The entitlement of an injured employee or his dependents to compensation under this chapter shall be determined without regard to this subsection, the provisions of which shall be considered only in determining whether an employer or carrier who has paid compensation under this chapter is entitled to reimbursement from the special disability fund.

(b) *Definition.*—As used in this subsection, permanent physical impairment means any permanent condition due to previous accident or disease or any congenital condition which is or is likely to be a hindrance or obstacle to employment and which was known to the employer prior to the occurrence of the subsequent injury or occupational disease.

(c) *Permanent disability after other permanent physical impairment.*—If an employee who has a total or partial loss or loss of use of one hand, one arm, one foot, one leg or one eye, or who has other permanent physical impairment incurs a subsequent permanent disability from injury or occupational disease arising out of and in the course of his employment which merges with the pre-existing permanent physical impairment to cause a permanent disability that is materially and substantially greater than that which would have resulted from the subsequent injury or occupational disease alone, the employer shall in the first instance pay all benefits provided by this chapter, but subject to the limitations specified in paragraph (f) such employer shall be reimbursed from the special disability fund created by this paragraph for all compensation for permanent disability paid in excess of that allowed for such injury or occupational disease when considered by itself and not in conjunction with the previous permanent physical impairment.

(d) *When death results.*—If death results

from the subsequent disability contemplated in paragraph (c) within one year after the subsequent injury or within five years after the subsequent injury when disability has been continuous since the subsequent injury, and it shall be determined that the death would not have occurred except for such pre-existing permanent physical impairment, the employer shall in the first instance pay the funeral expenses and the death benefits prescribed by this chapter, but subject to the limitations specified in paragraph (f) he shall be reimbursed from the special disability fund created by this subsection for all compensation for death payable in excess of the compensation which otherwise would have been payable for acceleration of death reasonably attributable to the subsequent injury or occupational disease when considered by itself and not in conjunction with the previous permanent physical impairment.

(e) Subject to the limitations specified in paragraph (f) an employer entitled to reimbursement from the special disability fund for compensation paid for permanent disability or death shall be reimbursed from said fund for a pro rata share of the amounts paid as compensation for temporary disability and paid pursuant to §440.13 for the same injury, such pro rata share to be in the same proportion as the ratio of the reimbursement of compensation for permanent disability or death is to the total compensation payable for such permanent disability or death.

(f) No reimbursement shall be allowed under this subsection unless the total amount otherwise reimbursable to the employer with respect to any case is one thousand five hundred dollars or more.

(g) *Reimbursement of employer.*—The right to reimbursement as provided in this subsection shall be barred unless notice of claim of the right to such reimbursement is filed by the employer or carrier entitled to such reimbursement with the commission at Tallahassee within sixty days after the date copies of the order awarding the compensation with respect to which such reimbursement is claimed are mailed to the employer and carrier at the last known address of each, or, if payment of such compensation is made by the employer or carrier without an award, within sixty days after the date the first payment of compensation for the permanent disability was made. The notice of claim shall contain such information as the commission by rule or regulation may require; and the employer or carrier claiming reimbursement shall furnish such evidence in support of the claim as the commission reasonably may require. If the special disability fund through its representative denies or controverts the claim, the right to such reimbursement shall be barred unless an application for a hearing thereon is filed with the commission at Tallahassee within sixty days after notice to the claimant of such denial or controversion. When such application for a hearing is timely filed, the claim shall be heard and determined in accordance with the procedure prescribed in §440.25, to the

extent that same is applicable, and the rules of procedure prescribed by the commission. In such proceeding on a claim for reimbursement no findings of fact made with respect to the claim of the injured employee or his dependents for compensation shall be res judicata, and the special disability fund shall be made the party respondent. When it has been determined that an employer or carrier is entitled to reimbursement in any amount the employer or carrier shall be reimbursed periodically every six months from the special disability fund for the compensation and medical benefits paid by him for which he is entitled to reimbursement, upon filing request therefor and submitting evidence of such payment in accordance with rules prescribed by the commission.

(h) 1. *Special disability fund.*—There is established in the state treasury a special fund to be known as the special disability fund, which shall be available only for the purposes stated in this subsection, and the assets thereof shall not at any time be appropriated or diverted to any other use or purpose. The state treasurer shall be the custodian of such fund and all moneys and securities in such fund shall be held in trust by such treasurer and shall not be the money or property of the state. The state treasurer is authorized to disburse moneys from such fund only when approved by the commission and upon the order of the comptroller, countersigned by the governor. The state treasurer shall deposit any moneys paid into such fund into such depository banks as the commission may designate and is authorized to invest any portion of the fund which, in the opinion of the commission, is not needed for current requirements, in the same manner and subject to all the provisions of the law with respect to the deposits of state funds by such treasurer. All interest earned by such portion of the fund as may be invested by the state treasurer shall be collected by him and placed to the credit of such fund.

2. *Payments to special disability fund.*—The special disability fund shall be maintained by annual assessments upon the insurance companies writing compensation insurance in the state and the self-insurers under this chapter, commencing with the fiscal year beginning July 1, 1963, which assessments shall become due and be paid on a quarterly basis at the same time and in addition to the assessments provided in §440.51. The commission shall estimate annually in advance the amount necessary for the administration of this subsection and the maintenance of this fund and shall make such assessment in the manner hereinafter provided. The annual assessment shall be calculated to produce during the ensuing fiscal year an amount which—when combined with that part of the balance in the fund on June 30 of the current fiscal year which is in excess of one hundred thousand dollars—is equal to the sum of disbursements from the fund during the immediate past three calendar years. Such amount shall be prorated among the insurance companies writing compensation insurance in the state and self-insurers. The gross premi-

ums collected by the companies on workmen's compensation premiums in this state and the amount of premiums a self-insurer would have to pay in this state if insured are the basis for computing the amount to be assessed as a percentage of gross premiums. Such payments shall be made by each insurance company and self-insurer to the commission for the special disability fund, in accordance with such regulations as the commission may prescribe. The state treasurer is hereby authorized to receive and credit to such special disability fund any sum or sums that may at any time be contributed to the state by the United States under any act of congress, or otherwise, to which the state may be or become entitled by reason of any payments made out of such fund.

(i) The commission shall administer the special disability fund with authority to allow, deny, compromise, controvert and litigate claims made against it, upon its own initiative or upon the application of any party in interest to review in accordance with the procedure prescribed in §440.25 orders of deputy commissioners by which the fund may be adversely affected, and to designate an attorney to represent it in proceedings involving claims against the fund, including negotiation and consummation of settlements, hearings before deputy commissioners and the full commission, and judicial review. The commission or the attorney designated by it shall be given notice of all hearings and proceedings involving the rights or obligations of such fund; and shall have authority to make expenditures for such medical examinations, expert witness fees, depositions, transcripts of testimony, and the like, as may be necessary to the proper defense of any claim. The commission shall appoint an advisory committee composed of representatives of management, compensation insurance carriers, and self-insurers to aid it in formulating policies with respect to conservation of the fund, who shall serve without compensation for such terms as specified by it, but be reimbursed for traveling expenses as provided in §112.061. All expenditures made in connection with conservation of the fund, including the salary of the attorney designated to represent it and necessary travel expenses, shall be allowed and paid from the special disability fund as provided in this subsection upon the presentation of itemized vouchers therefor approved by the commission.

(j) *Effective dates.*—The provisions of this subsection shall not be applicable to any case in which the accident causing the subsequent injury or death or the disablement or death from a subsequent occupational disease shall have occurred prior to July 1, 1955; and the provisions of paragraphs (e) and (f) of this subsection shall not be applicable to any case in which the accident causing the subsequent injury or death or the disablement or death from a subsequent occupational disease shall have occurred prior to July 1, 1963.

440.50 Workmen's compensation administration trust fund.—

(1) (a) There is established in the state treasury a special fund to be known as the workmen's compensation administration trust fund for the purpose of providing for the payment of all expenses in respect to the administration of this chapter, including the vocational rehabilitation of injured employees as provided in §440.49. Such fund shall be administered by the commission. The state treasurer shall be the custodian of such funds and all moneys and securities in such fund shall be held in trust by such treasurer and shall not be the money or property of the state.

(b) The commission is authorized to transfer as a loan an amount not in excess of two hundred and fifty thousand dollars from such special fund to the special disability trust fund established by §440.15(5), which amount shall be repaid to said special fund in annual payments equal to not less than ten per cent of moneys received for such special disability trust fund.

(2) The state treasurer is authorized to disburse moneys from such fund only when approved by the commission and upon the order of the comptroller, countersigned by the governor. He shall be required to give bond in an amount to be approved by the commission conditioned upon the faithful performance of his duty as custodian of such fund.

(3) The state treasurer shall deposit any moneys paid into such fund into such depository banks as the commission may designate and is authorized to invest any portion of the fund which, in the opinion of the commission, is not needed for current requirements, in the same manner and subject to all the provisions of the law with respect to the deposit of state funds by such treasurer. All interest earned by such portion of the fund as may be invested by the state treasurer shall be collected by him and placed to the credit of such fund.

(4) All civil penalties provided in this chapter, if not voluntarily paid, may be collected by civil suit brought by the commission and shall be paid into such fund.

440.51 Expenses of administration.—

(1) The commission shall estimate annually in advance the amounts necessary for the administration of this chapter, in the following manner.

(a) The commission shall as soon as practicable after the first day of July in each year, determine the expense of administration of this chapter for the preceding fiscal year. The expense of administration for such preceding fiscal year shall be used as the basis for determining the amount to be assessed against each carrier in order to provide for the expenses of the administration of this chapter for the current fiscal year.

(b) The total expenses of administration shall be prorated among the insurance companies writing compensation insurance in the

state, and self-insurers. The gross premiums collected by the companies and the amount of premiums a self-insurer would have to pay if insured are the basis for computing the amount to be assessed. This amount may be assessed as a specific amount or as a percentage of gross premiums payable as the commission may direct, provided, however, such amount so assessed shall not exceed four per cent of such gross premiums.

(2) The commission shall provide by regulation for the collection of the amounts assessed against each carrier. Such amounts shall be paid within thirty days from the date that notice is served upon such carrier. If such amounts are not paid within such period, there may be assessed for each thirty days the amount so assessed remains unpaid, a civil penalty equal to ten per cent of the amount so unpaid, which shall be collected at the same time and a part of the amount assessed.

(3) If any carrier fails to pay the amounts assessed against him under the provisions of this section within sixty days from the time such notice is served upon him, the state treasurer, upon being advised by the commission may suspend or revoke the authorization to insure compensation in accordance with the procedure in §440.38(2).

(4) All amounts collected under the provisions of this section shall be paid into the fund established in §440.50.

(5) Any amount so assessed against and paid by an insurance carrier shall be allowed as a deduction against the amount of any other tax levied by the state upon the premiums, assessments or deposits for workmen's compensation insurance on contracts or policies of said insurance carrier.

(6) (a) The commission may require from each carrier, at such time and in accordance with such regulations as the commission may prescribe, reports in respect to all gross earned premiums and of all payments of compensation made by such carrier during each prior period, and may determine the amounts paid by each carrier and the amounts paid by all carriers during such period.

(b) The commission may require from each self-insurer, at such time and in accordance with such regulations as the commission may prescribe, reports in respect to wages paid, the amount of premiums such self-insurer would have to pay if insured, and all payments of compensation made by such self-insurer during each prior period, and may determine the amounts paid by each self-insurer and the amounts paid by all self-insurers during such period. For the purposes of this section the payroll records of each self-insurer shall be open to annual inspection and audit by the commission or its authorized representative, during regular business hours; and if any audit of such records of a self-insurer discloses a deficiency in the amounts reported to the commission or in the amounts paid to the commission by such self-insurer pursuant to this

section, the commission may assess the cost of such audit against such self-insurer.

(7) The commission shall keep accumulated cost records of all injuries occurring within the state coming within the purview of this chapter on a policy and calendar year basis. For the purpose of this chapter, a "calendar year" is defined as the year in which the injury is reported to the commission; "policy year" is defined as that calendar year in which the policy becomes effective and the losses under such policy shall be chargeable against the policy year so defined.

(8) The commission shall assign an account number to each employer under this chapter and an account number to all insurance carriers authorized to write workmen's compensation insurance in the state, and it shall be the duty of the commission under the account number so assigned to keep the cost experience of each carrier and the cost experience of each employer under the account number so assigned by calendar and policy year as above defined.

(9) In addition to the above, it shall be the duty of the commission to keep the accident experience, as classified by the commission, by industry as follows:

- (a) Cause of the injury;
- (b) Nature of the injury, and
- (c) Type of disability.

(10) In every case where the duration of disability exceeds thirty days, the carrier shall establish a sufficient reserve to pay all benefits to which the injured employee, or in case of death, his dependents, may be entitled to under the law. In establishing the reserve, consideration shall be given to the nature of the injury, the probable period of disability, and the estimated cost of medical benefits.

(11) The commission shall furnish to any employer or carrier, upon request, its individual experience. The commission shall furnish to the state insurance commissioner, upon request, the Florida experience as developed under policy year and/or calendar year.

(12) In addition to any other penalties provided by this law, the failure to submit any report or other information required by this law shall be just cause to suspend the right of a self-insurer to operate as such; or, upon certification by the commission to the state insurance commissioner that a carrier has failed or refused to furnish such reports shall be just cause for the insurance commissioner to suspend or revoke the license of such carrier.

440.53 Effect of unconstitutionality.—If any part of this chapter is adjudged unconstitutional by the courts, and such adjudication has the effect of invalidating any payment of compensation under this chapter, the period intervening between the time the injury was sustained and the time of such adjudication shall not be computed as a part of the time prescribed by law for the commencement of any action against the employer in respect of such injury; but the amount of any compensation paid under this chapter on account of such injury shall be deducted from the amount of damages awarded in such action in respect of such injury.

History.—§53, ch. 17481, 1935; CGL 1936 Supp. 5966(51).

440.54 Violation of child labor law.—If the commission determines that the injured employee at the time of the accident is a minor employed, permitted or suffered to work in violation of any of the provisions of the child labor laws of Florida, the employer shall, in addition to the normal compensation and death benefits provided by this chapter, pay such additional compensation as the commission may determine according to the circumstances of the case or the seriousness of the violation, provided that the total compensation so payable shall not exceed double the amount otherwise payable under this chapter. The employer alone and not the insurance carrier shall be liable for the increased compensation or increased death benefits provided for by this section. Any provision in an insurance policy undertaking to protect an employer from such increased liability shall be void.

440.56 Safety rules and provisions; penalty.—

(1) Every employer, as defined in the workmen's compensation law, including employers who have elected not to accept the workmen's compensation law, shall furnish employment which shall be safe for the employees therein and shall furnish and use safety devices and safeguards, and shall adopt and use methods and processes reasonably adequate to render such an employment and place of employment safe, and shall do every other thing reasonably necessary to protect the life, health and safety

of such employees; provided that as used in this section the terms "safe" and "safety" as applied to any employment or place of employment shall mean such freedom from danger as is reasonably necessary for the protection of the life, health and safety of employees or the public, including conditions and methods of sanitation and hygiene; and provided further that safety devices and safeguards required to be furnished by the employer by the provisions of this section or by the commission under authority of this section shall not include personal apparel and protective devices that replace personal apparel normally worn by employees during regular working hours.

(2) The commission shall have the power, jurisdiction and authority:

(a) To investigate and prescribe what safety devices, safeguards or other means of protection shall be adopted for the prevention of accidents in every employment or place of employment, and to determine what suitable devices, safeguards, or other means of protection for the prevention of industrial or occupational diseases shall be adopted or followed in any or all such employments, or places of employment, and to make, amend or repeal reasonable rules for the prevention of accidents and the prevention of industrial or occupational diseases.

(b) To ascertain, fix, and order such reasonable standards and rules for the construction, repair and maintenance of places of employment as shall render them safe.

(3) Before any such rule or requirement is adopted, amended or repealed, a public hearing shall be held and not less than ten days before the hearing a notice thereof shall be published in such newspapers as the commission may prescribe. Such rule, amendment or repeal shall be promptly published in such manner as the commission may prescribe and shall take effect thirty days after such publication.

(4) If there shall be practical difficulties or unnecessary hardships in carrying out a rule or requirement of the commission, the commission may, after public hearing, make a variation from the rule or requirement if the spirit of the rule and law shall be observed. Any person affected by such rule, or his agent, may petition the commission for such variation stating the grounds therefor. The commission shall fix a day for a hearing on such petition and give reasonable notice thereof to the petitioner. A properly indexed record of all variations made shall be kept in the office of the commission and open to public inspection.

(5) The commission and its authorized representatives shall have the power and authority to enter at any reasonable time any place of employment for the purpose of examining any tool, appliance or machinery used in such employment and of making inspections for the proper enforcement of this section. No employer or owner shall refuse to admit any member of the commission or its authorized representatives to any place of employment.

(6) The provisions of §440.33 shall be applicable to all proceedings arising under this section, and it shall be the duty of the court having jurisdiction in the place in which the commission is sitting, upon application of the commission or its authorized representatives, to compel obedience to such provisions in proceedings arising under this section in the same manner as provided in §440.33 for proceedings in respect of compensation claims.

(7) Any person aggrieved by a rule made pursuant to the provisions of this section may commence an action in any court of competent jurisdiction against the industrial commission as defendant to set aside such rule on the ground that such rule is unlawful and unreasonable. Such action and pleadings therein shall be governed by the laws and rules of practice applicable to other civil actions in such court. All rules and variations of the commission shall be prima facie lawful and reasonable, and shall not be held invalid because of any technical defect, provided there is substantial compliance with the provisions of this section.

(8) (a) If any employer violates or fails or refuses to comply with any reasonable rule or variation adopted by the commission pursuant to this section for the prevention of accidents or industrial or occupational diseases or any lawful order of the commission in connection with the provisions of this section or fails or refuses to furnish or adopt any safety device, safeguard or other means of protection prescribed by the commission pursuant to this section for the prevention of accidents or industrial or occupational diseases, after he has been given reasonable notice in writing by the commission or its authorized representative, not less than fifteen days prior thereto, of the specific violation, omission, failure or refusal charged by the commission, or its authorized representative, the commission after notice and hearing as herein provided, may assess against such employer a civil penalty of not less than \$20.00 nor more than \$100.00; and each day such violation, omission, failure or refusal continues after the employer has given notice thereof in writing as herein provided shall be deemed a continuing violation and the penalty may not exceed \$1,000.00. The commission shall give the employer at least ten days notice of such hearing by personal service or registered mail, and the hearing shall be held in the county where the violation, omission, failure or refusal is alleged to have occurred, unless otherwise agreed to by the employer and authorized by the commission. The hearing shall be conducted by a deputy commissioner, and at such hearing the commission and the employer may each present evidence in respect of such charge or charges and may be represented by counsel. No record of the hearing shall be required but either the commission or the employer may have the proceeding reported and transcribed at its or his own expense. The deputy commissioner within twenty days after such hearing shall enter the order of the commission assessing the penalty or penalties or

dismissing the charges. The order shall set forth a statement of his findings of fact and the reasons for his decision and shall be filed in the office of the commission at Tallahassee. A copy of the order shall be sent by registered mail to the employer at his last known address.

The order shall become final twenty days after the date copy of same is mailed to the employer unless within said time the employer shall take and file an appeal to the circuit court of the judicial circuit in which the hearing before the deputy commissioner was held. The appeal shall operate as a supersedeas. The proceeding on such appeal shall be governed by chapter 59, unless the employer requests a hearing de novo before the circuit court. The circuit court, when so requested by the employer, shall proceed to hear, try and determine the charges de novo as though the proceeding had been originally commenced in that court, and render final judgment therein.

Any provision of this subsection to the contrary notwithstanding, the commission shall after public notice and hearing, establish rules and procedures defining the type or types of violations constituting an emergency requiring expeditious compliance, the type and method of notice to the employer to expedite compliance, the time and method of emergency hearing and appearances, the penalty for noncompliance and method of effecting compliance with the decision; and the decision of the commission shall be subject to review by certiorari to the circuit court.

(b) Upon petition of the commission the circuit courts shall under and pursuant to the general laws of Florida applicable to such relief and upon reasonable notice have power to issue restraining orders, injunctions, writs of mandamus, and all writs necessary or proper to the enforcement of this section and to the enforcement of any reasonable rule, standard, variation or order adopted, prescribed, or made by the commission pursuant to this section.

(9) In estimating the amounts necessary for the administration of this chapter, in accordance with §440.51, the industrial commission

shall also include estimates of the amounts necessary for the administration of this section which shall be made in the manner set forth in §440.51; and such amounts as may be needed to administer this section shall be disbursed from the fund established pursuant to §440.50 in the manner therein provided. If this subsection or the application of such funds to the administration of this section be declared invalid for any reason, the validity of §§440.50 and 440.51 as applied to the provisions of this chapter other than this section shall not be affected thereby.

(10) The commission shall appoint and fix the salary of a full time chief of industrial safety, who shall be appointed in accordance with the provisions of §440.44 (4)(a); provided, however, that no person shall be appointed to such position unless he either has a degree from a recognized college of engineering and the equivalent of eight full years experience in safety engineering or has had the equivalent of ten full years experience in safety engineering. It shall be the duty of the chief of industrial safety, under the direction and supervision of the director of the workmen's compensation division, to enforce the safety provisions of this chapter and all rules and regulations adopted by the commission pursuant to this section.

(11) The industrial commission shall cooperate with the federal government so that duplicate inspections will be avoided yet assure safe places of employment for the citizens of this state.

443.01 Short title.—This chapter shall be known and may be cited as the "Unemployment Compensation law."

History.—§2, ch. 18402, 1937; CGL 1940 Supp. 4151(488).

443.02 Declaration of public policy.—As a guide to the interpretation and application of this chapter, the public policy of this state is declared to be as follows: Economic insecurity due to unemployment is a serious menace to the health, morals, and welfare of the people of this state. Unemployment is therefore a subject of general interest and concern which requires appropriate action by the legislature to prevent its spread and to lighten its burden which now so often falls with crushing force upon the unemployed worker and his family. The achievement of social security requires protection against this greatest hazard of our economic life. This objective can be furthered by operating free public employment offices in affiliation with a nationwide system of employment services, by devising appropriate methods for reducing the volume of unemployment and by the systematic accumulation of funds during the periods of employment from which benefits may be paid for periods of unemployment thus maintaining purchasing power and limiting the serious social consequences of unemployment. The legislature, therefore, declares that in its considered judgment the public good, and the general welfare of the citizens of this state require the enactment of this measure, under the police power of the state, for the establishment and maintenance of free public employment offices and for the compulsory setting aside of unemployment reserves to be used for the benefit of persons unemployed through no fault of their own, subject, however, to the specific provisions of this chapter.

History.—§1, ch. 18402, 1937; CGL 1940 Supp. 4151(489); §1, ch. 20685, 1941.

443.03 Definitions.—As used in this chapter, unless the context clearly requires otherwise:

(1) "Base period" means the first four of the last five completed calendar quarters immediately preceding the first day of an individual's benefit year.

(2) "Benefits" means the money payable to an individual, as provided in this chapter, with respect to his unemployment.

(3) "Benefit year," with respect to any individual, means the one-year period beginning with the first day of the first week with respect to which the individual first files a valid claim for benefits, and thereafter, the one-year period beginning with the first day of the first week with respect to which the individual next files a valid claim for benefits, after the termination of his last preceding benefit year. Any claim for benefits made in accordance with §443.07(2) shall be deemed to be a "valid claim" for the purposes of this subsection if the individual has been paid wages for insured work in accordance with the provision of §443.05(5) and is unemployed as defined in §443.03 (12) (a) at the time of the filing of such claim. Provided, however, that the commission may in its discretion provide by regulation for the establishment of a uniform benefit year for all workers in one or more groups or classes of service or within a particular industry when and if it has been determined by the commission, after notice to the industry and to the workers in such industry and an opportunity to be heard in the matter, that such groups or classes of workers in a particular industry periodically experience unemployment resulting from layoffs or shutdowns for limited periods of time.

(4) "Calendar quarter" means the period of three consecutive calendar months ending on March 31, June 30, September 30, and December 31, excluding, however, any calendar quarter or portion thereof which occurs prior to January 1, 1938, or the equivalent thereof as the commission may by regulation prescribe.

(5) "Employment" means: (a) "Employment," subject to the other provisions of this chapter, means any service performed by an employee for the person employing him.

(b) The term "employment" shall include an individual's entire service, performed within or both within and without this state if:

1. The service is localized in this state; or
2. The service is not localized in any state

but some of the service is performed in this state and

a. The base of operations, or, if there is no base of operations, then the place from which such service is directed or controlled, is in this state, or

b. The base of operations or place from which such service is directed or controlled is not in any state in which some part of the service is performed but the individual's residence is in this state.

(c) Services not covered under §443.03(5)(b)2. and performed entirely without this state, with respect to no part of which contributions are required and paid under an unemployment compensation law of any other state or of the federal government, shall be deemed to be employment subject to this chapter if the individual performing such services is a resident of this state and the commission approves the election of the employing unit for whom such services are performed that the entire service of such individual shall be deemed to be employment subject to this chapter.

(d) Service shall be deemed to be localized within a state if:

1. The service is performed entirely within such state; or

2. The service is performed both within and without such state, but the service performed without such state is incidental to the individual's service within the state; for example, it is temporary or transitory in nature or consists of isolated transactions.

(e) The term "employment" shall include services covered by an arrangement pursuant to §443.18 between the commission and the agency charged with the administration of any other state or federal unemployment compensation law, pursuant to which all services performed by an individual for an employing unit are deemed to be performed entirely within this state, if the commission has approved an election of the employing unit for which such services are performed, pursuant to which the entire service of such individual during the period covered by such election is deemed to be insured work.

(f) The term "employment" shall also include all service performed by an officer or member of the crew of an American vessel or American aircraft on or in connection with such vessel or aircraft, provided that the operating office, from which the operations of such vessel or aircraft operating within or within and without the United States is ordinarily and regularly supervised, managed, directed and controlled, is within this state.

The term "American vessel" means any vessel documented or numbered under the laws of the United States; and includes any vessel which is neither documented or numbered under the laws of the United States nor documented under the laws of any foreign country, if its crew is employed solely by one or more citizens or residents of the United States or corporations organized under the laws of the

United States or of any state; and the term "American aircraft" means an aircraft registered under the laws of the United States.

(g) The term "employment" shall not include:

1. Agricultural labor; the term "agricultural labor" includes all services performed:

a. On a farm, in the employ of any person in connection with cultivating the soil, or in connection with raising or harvesting any agricultural or horticultural commodity, including the raising, shearing, feeding, caring for, training, and management of livestock, bees, poultry, and fur-bearing animals and wildlife.

b. In the employ of the owner or tenant or other operator of a farm, in connection with the operation, management, conservation, improvement, or maintenance of such farm and its tools and equipment, or in salvaging timber or clearing land or brush and other debris left by a hurricane, if the major part of such service is performed on a farm.

c. In connection with the production or harvesting of maple syrup or maple sugar or any commodity defined as an agricultural commodity in §15 (g) of the agricultural marketing act, as amended, or in connection with the raising or harvesting of mushrooms, or in connection with the hatching of poultry, or in connection with the ginning of cotton, or in connection with the operation or maintenance of ditches, canals, reservoirs, or waterways used exclusively for supplying and storing water for farming purposes.

d. In handling, planting, drying, packing, packaging, processing, freezing, grading, storing, or delivering to storage or to market or to a carrier for transportation to market, any agricultural or horticultural commodity; but only if such service is performed as an incident to ordinary farming operations or, in the case of fruits and vegetables, as an incident to the preparation of such fruits and vegetables for market. The provisions of this paragraph shall not be deemed to be applicable with respect to service performed in connection with commercial canning or commercial freezing or in connection with any agricultural or horticultural commodity after its delivery to a terminal market for distribution for consumption or in connection with grading, packing, packaging, or processing fresh citrus fruits.

3. Casual labor not in the course of the employer's trade or business. For the purposes of

this subsection "casual labor" shall mean labor which is occasional, incidental, or irregular, not exceeding two hundred man hours in total duration. Duration shall mean the period of time from the commencement to the completion of the particular job or project; provided, however, services performed by an employee for his employer during a period of one calendar month or any two consecutive calendar months shall be deemed to be casual labor only if such service is performed on not more than ten calendar days, whether or not such days are consecutive. If any of the services of an individual on a particular labor project are not casual labor as defined then none of the services of such individual on such job or project shall be deemed casual labor. "Not in the course of the employer's trade or business" shall mean that which does not promote or advance the trade or business of the employer. In order for services to be exempt under this subsection such services shall constitute casual labor, as defined, and not in the course of the employer's trade or business, as defined;

5. Service performed by an individual in (or as an officer or member of the crew of a vessel while it is engaged in) the catching, taking, harvesting, cultivating, or farming of any kind of fish, shellfish, crustacea, sponges, seaweeds, or other aquatic forms of animal and vegetable life (including service performed by any such individual as an ordinary incident to any such activity), except: (a) Service performed in connection with the catching or taking of salmon or halibut, for commercial purposes, and, (b) Service performed on or in connection with a vessel of more than ten net tons (determined in the manner provided for determining the register tonnage of merchant vessels under the laws of the United States);

a. Wholly or partially owned by the United States, or

b. Exempt from the tax imposed by §3301 of the internal revenue code by virtue of any provision of federal law which specifically refers to such section (or the corresponding section of prior law) in granting such exemption; except that to the extent that the congress shall permit states to require any instrumentalities of the United States to make payments into an unemployment fund under a

state unemployment compensation law, all of the provisions of this law shall be applicable to such instrumentalities, and to services performed for such instrumentalities, in the same manner, to the same extent and on the same terms as to all other employers, employing units, individuals, and services; provided that if this state shall not be certified for any year by the secretary of labor under §3304 of the federal internal revenue code, the payments required of such instrumentalities with respect to such year shall be refunded by the commission from the fund in the same manner and within the same period as is provided in §443.15 (6) with respect to contributions erroneously collected;

8. Service performed in the employ of a state, or any political subdivision thereof, or any instrumentality of any one or more of the foregoing which is wholly owned by one or more states or political subdivisions; and any service performed in the employ of any instrumentality of one or more state or political subdivisions to the extent that the instrumentality is, with respect to such service, immune under the constitution of the United States from the tax imposed by §3301 of the internal revenue code;

12. Services performed in the employ of a foreign government (including service as a consular or other officer or employee or a non-diplomatic representative);

13. Service performed in the employ of an instrumentality wholly owned by a foreign government:

a. If the service is of a character similar to that performed in foreign countries by employees of the United States government or of an instrumentality thereof; and

b. The secretary of state shall certify to the secretary of the treasury that the foreign government, with respect to whose instrumentality exemption is claimed, grants an equivalent exemption with respect to similar service per-

formed in the foreign country by employees of the United States government and of instrumentalities thereof;

14. Service performed as a student nurse in the employ of a hospital or a nurses' training school by an individual who is enrolled and is regularly attending classes in a nurses' training school chartered or approved pursuant to a state law; and service performed as an interne in the employ of a hospital by an individual who has completed a four years' course in a medical school chartered or approved pursuant to state law;

19. Services performed by high school or college students as a part of their training in connection with the diversified cooperative training program or cooperative program under the supervision of the school or college (university) authorities in which such students are enrolled.

20. Service performed by an individual for a person as a barber if all such service performed by such individual for such person is performed for remuneration solely by way of commission.

(h) If the services performed during one-half or more of any pay period by an employee for the person employing him constitute employment, all the services of such employee for such period shall be deemed to be employment; but if the services performed during more than one

half of any such pay period by an employee for the person employing him do not constitute employment, then none of the services of such employee for such period shall be deemed to be employment. As used in this subsection the term "pay period" means a period (of not more than thirty-one consecutive days) for which a payment of remuneration is ordinarily made to the employee by the person employing him. This subsection shall not be applicable with respect to services performed in a pay period by an employee for the person employing him, where any of such service is excepted by paragraph 10 of subsection (g).

(a) Each individual employed to perform or to assist in performing the work of any agent or employee of an employing unit shall be deemed to be employed by such employing unit for all the purposes of this chapter, whether such individual was hired or paid directly by such employing unit or by such agent or employee, provided the employing unit had actual or constructive knowledge of the work.

(b) All individuals performing services within this state for any employing unit which maintains two or more separate establishments within this state shall be deemed to be performing services for a single employing unit for all the purposes of this chapter.

(c) Any person who is an officer of a corporation and who performs services for such corporation within this state, whether or not such services are continuous, shall be deemed an employee of the corporation during all of each week of his tenure of office, regardless of whether or not he is compensated for such services. Services shall be presumed to have been rendered the corporation in cases where such officer is compensated by other than dividends upon shares of stock of such corporation owned by him.

(7) "Employer" means:

(a) Any employing unit which for some portion of a day, but not necessarily simultaneously, in each of twenty different calendar weeks, whether or not such weeks are or were consecutive, within either the current or the preceding calendar year (and for the purpose of this definition, if any week includes both December 31 and January 1, the days up to January 1 shall be deemed one calendar week and the days beginning January 1 another such week) has or had in employment four or more individuals (irrespective of whether the same individuals are or were employed in each such day).

(b) An individual or employing unit which

acquired the organization, trade or business, or substantially all the assets thereof, of another which at the time of such acquisition was an employer subject to this chapter or which acquired a part of the organization, trade, or business of another which at the time of such acquisition was an employer subject to this chapter, provided such other would have been an employer under paragraph (a) or (h) of this subsection if such part had constituted its entire organization, trade or business.

(c) Any individual or employing unit which acquired the organization, trade or business, or substantially all the assets thereof, of another employing unit if the employment record of the predecessor prior to such acquisition together with the employment record of such individual or employing unit subsequent to such acquisition, both within the same calendar year, would be sufficient to render an employing unit subject to this chapter as an employer under paragraph (a) or (h) of this subsection.

(d) An employing unit which has become an employer under paragraphs (a), (b), (c), and has not ceased to be an employer subject to this chapter, as provided in §443.09, hereof;

(e) For the effective period of its election, any other employing unit which has elected to become fully subject to this chapter under the rules and regulations of the commission.

(f) Any employing unit not an employer by reason of any other paragraph of this subsection for which services in employment are performed with respect to which such employing unit is liable for any federal tax against which credit may be taken for contributions required to be paid into a state unemployment compensation fund; but services performed for such employing units shall constitute employment for the purposes of this chapter only to the extent that such services constitute employment with respect to which such federal tax is payable.

(g) Any employing unit which fails to keep the records of employment required by this chapter and by the regulations of the commission shall be presumed to be an employer liable for the payment of contributions pursuant to the provisions of this chapter, regardless of the number of individuals employed by such employing unit; provided, however, that the commission shall make written demand that such employing unit keep and maintain required payroll records and such demand shall have been made not less than six months before assessing contributions against any employing unit determined to have become an "employer" solely by reason of this paragraph.

(h) 1. Any employing unit which in either the current or the preceding calendar year,

a. Has paid wages in any calendar quarter in excess of six thousand dollars, and

b. Has or had in employment four or more individuals for some portion of a day, but not necessarily simultaneously, in each of eight different calendar weeks in the same calendar year, whether or not such weeks are or were consecutive. Any employing unit becoming an employer pursuant to this paragraph

shall be liable for the payment of contributions upon all wages paid for the entire calendar year during which it becomes an employer and for the calendar year subsequent thereto and until terminated pursuant to §443.09 upon a showing that in the preceding calendar year there was no calendar quarter in which it paid wages in excess of six thousand dollars and that there were not eight different days, each day being in a different calendar week, in such preceding calendar year within which such employing unit had in employment four or more individuals.

2. The term "wages" as used in this paragraph means gross wages and is not limited by the definition of that term in subsection (13) (b).

(12) "Unemployment": (a) An individual shall be deemed "totally unemployed" in any week during which he performs no services and with respect to which no wages are payable to him, or "partially unemployed" in any week of less than full-time work if the wages payable to him with respect to such week are less than his weekly benefit amount. The commission shall prescribe regulations applicable to unemployed individuals making such distinctions in the procedures as to total unemployment, part-time unemployment, partial unemployment of individuals attached to their regular jobs, and other forms of short-time work, as the commission deems necessary.

(b) An individual's week of unemployment shall be deemed to commence only after his registration at an employment office, except as the commission may by regulations otherwise prescribe.

(13) "Wages": (a) "Wages" means all remuneration paid for services from whatever source, including commissions and bonuses and the cash value of all remuneration paid in any medium other than cash. The reasonable cash value of remuneration in any medium other than cash shall be estimated and determined in accordance with rules prescribed by the commission.

(b) The term "wages" shall not include:

1. That part of remuneration which, after remuneration equal to three thousand dollars has been paid in a calendar year to an indivi-

dual by an employer or his predecessor with respect to employment during any calendar year, is paid to such individual by such employer during such calendar year, unless that part of the remuneration is subject to a tax, under a federal law imposing the tax, against which credit may be taken for contributions required to be paid into a state unemployment fund. For the purposes of this subsection the term "employment" shall include services constituting employment under any employment security law of another state or of the federal government.

2. The amount of any payment with respect to services performed, to, or on behalf of, an individual in its employ under a plan or system established by an employing unit which makes provision for individuals in its employ generally or for a class or classes of such individuals (including any amount paid by an employing unit for insurance or annuities, or into a fund, to provide for any such payment), on account of

- a. Retirement, or
- b. Sickness or accident disability, or
- c. Medical and hospitalization expenses in connection with sickness or accident disability, or
- d. Death, provided the individual in its employ

(I) Has not the option to receive, instead of provision for such death benefit, any part of such payment or, if such death benefit is insured, any part of the premiums (or contributions to premiums) paid by his employing unit, and

(II) Has not the right, under the provisions of the plan or system or policy of insurance providing for such death benefit, to assign such benefit or to receive cash consideration in lieu of such benefit either upon his withdrawal from the plan or system providing for such benefit or upon termination of such plan or system or policy of insurance or of his services with such employing unit;

3. The payment by an employing unit (without deduction from the remuneration of the individual in its employ) of the tax imposed upon an individual in its employ under §3101 of the federal internal revenue code with respect to services performed after June 30, 1941.

(14) "Week" means such period of seven consecutive days as the commission may by regulation prescribe. The commission may by regulation prescribe that a week shall be deemed to be "in," "within," or "during," that benefit year which includes the greater part of such week.

443.04 Payment of benefits.—

(1) **MANNER OF PAYMENT.**—On and after January 1, 1939, benefits shall become payable from the fund. All benefits shall be paid through employment offices in accordance with such regulations as the commission may prescribe.

(2) WEEKLY BENEFIT AMOUNT.—

(a) An individual's "weekly benefit amount" shall be an amount equal to one-half of his average weekly wages, but not less than ten dollars nor more than thirty-three dollars. Such weekly benefit amount if not a multiple of one dollar shall be rounded off to the next higher multiple of one dollar.

(b) The average weekly wages of such individual shall be computed by dividing his total base period wages by the number of weeks in such base period in which he was paid wages for insured work, provided however, that any individual shall be deemed to have been paid wages in the total number of weeks of his base period indicated in the reports submitted to the commission by his base period employers but not more than thirteen weeks in any calendar quarter.

(c) The provisions of this subsection as herein amended apply only to benefit years beginning on and after July 1, 1960; provided, that no individual currently eligible for benefits shall be redetermined ineligible pursuant to this section.

(d) Notwithstanding the provisions of paragraphs (a), (b), and (c) of this subsection, the weekly benefit amount, the average weekly wages, and total amount of benefits available with respect to all benefit years beginning on and after July 1, 1959, but prior to July 1, 1960, shall be determined and shall be payable in accordance with the following:

1. The weekly benefit amount shall be one-half of the average weekly wages of the claimant, but not more than thirty-three dollars. The average weekly wages shall be one-thirtieth of the total wages paid to the claimant in that calendar quarter of his base period in which his wages for insured employment were highest. Such weekly benefit amount, if not a multiple of one dollar, shall be rounded off to the next higher multiple of one dollar.

2. The total weeks of employment of any claimant shall be the quotient obtained by dividing his total wages for insured employment in his base period by his average weekly wages, as determined in paragraph (d) 1. Provided, that when there is a fractional portion of a week as a remainder equal to one-half or more it shall be increased to the next higher number of weeks, and when such fraction is less than one-half it shall be decreased to the next lower number of weeks.

3. Any otherwise eligible individual shall be entitled during the benefit year established

pursuant to a claim filed during the one-year period beginning July 1, 1959, to a total amount of benefits equal to the product of his weekly benefit amount and one-half the total number of weeks of employment in his base period in which he was paid wages for insured work.

4. The total available credits and weekly benefit amounts determined with respect to benefit years established pursuant to the authority of subparagraphs 1., 2., and 3., of this proviso shall be applicable throughout such benefit year.

(3) **WEEKLY BENEFIT FOR UNEMPLOYMENT.**—(a) *Total.*—Each eligible individual who is totally unemployed in any week shall be paid with respect to such week a benefit in an amount equal to his weekly benefit amount.

(b) *Partial.*—Each eligible individual who is partially unemployed in any week shall be paid with respect to such week a benefit in an amount equal to his weekly benefit less that part of the wages (if any) payable to him with respect to such week which is in excess of five dollars. Such benefits, if not a multiple of one dollar, shall be computed to the next higher multiple of one dollar.

(4) **DURATION OF BENEFITS.**—(a) Any otherwise eligible individual shall be entitled during any benefit year to a total amount of benefits equal to the product of his weekly benefit amount and one-half the number of weeks in his base period in which he was paid wages for insured work; provided, that such total amount of benefits, if not a multiple of one dollar shall be rounded off to the next higher multiple of one dollar.

For the purposes of this subsection, wages shall be counted as "wages for insured work" for benefit purposes with respect to any benefit year only if such benefit year begins subsequent to the date on which the employing unit by whom such wages were paid has satisfied the conditions of this chapter with respect to becoming an employer.

The provisions of this subsection as herein amended apply only to the benefit years beginning after June 30, 1960.

(b) If the remuneration of an individual is not based upon a fixed period or duration of time or if the individual's wages are paid at irregular intervals or in such manner as not to extend regularly over the period of employment, the wages for any week or for any calendar quarter for the purpose of computing an individual's right to employment benefits only shall be determined in such manner as may by regulations be prescribed. Such regulations, so far as possible, secure results reasonably similar to those which would prevail if the individual were paid his wages at regular intervals.

443.05 Benefit eligibility conditions.—An unemployed individual shall be eligible to re-

ceive benefits with respect to any week only as the commission finds that:

(1) He has made a claim for benefits with respect to such week in accordance with such regulations as the commission may prescribe.

(2) He has registered for work at, and thereafter continued to report at, an employment office in accordance with such regulations as the commission may prescribe; except, that the commission may, by regulation not inconsistent with the purposes of this law, waive or alter either or both of the requirements of this subsection as to individuals attached to regular jobs; provided, that no such regulation shall conflict with §443.04(1).

(3) He is able to work and is available for work.

(4) He has been unemployed for a waiting period of one week. No week shall be counted as a week of unemployment for the purposes of this subsection:

(a) Unless it occurs within the benefit year which includes the week with respect to which he claims payment of benefits.

(b) If benefits have been paid with respect thereto.

(c) Unless the individual was eligible for benefits with respect thereto as provided in §§443.05 and 443.06 except for the requirements of this subsection and of §443.06(5).

(5) He has been paid wages for insured work equal to twenty times his average weekly wages during his base period; provided, that no unemployed individual shall be eligible to receive benefits if his average weekly wage is less than twenty dollars.

(6) In the event of national emergency, in the course of which the federal emergency unemployment payment plan is, at the request of the governor, invoked for all or any part of the state, such plan shall supersede the procedures prescribed by this chapter, and by regulations thereunder, and the Florida industrial commission shall act as the Florida agency for the United States department of labor in the administration of such plan.

443.06 Disqualification for benefits.—An individual shall be disqualified for benefits:

(1) For the week in which he has voluntarily left his employment without good cause attributable to his employer or in which he has been discharged by his employing unit for misconduct connected with his work, if so found by the commission, and for not more than the twelve weeks which immediately follow such week, as determined by the commission in each case according to the circumstances in each case or the seriousness of the misconduct. Provided, however, that disqualification under this subsection shall continue for the full period of unemployment next ensuing after he has left his work voluntarily without good cause or has been discharged for misconduct connected with

his work and until such individual has become re-employed and has earned wages equal to or in excess of ten times his weekly benefit amount, and provided, further, that good cause as used in this subsection shall include only such cause as is attributable to the employer or consists of illness or disability of the individual, other than pregnancy, requiring separation from his employment.

(2) If the commission finds that the individual has failed without good cause either to apply for available suitable work when so directed by the employment office or the commission, or to accept suitable work when offered to him by employment office, commission, or employing unit (employing unit offering the work shall notify the commission in writing within the time prescribed by the commission) or to return to his customary self-employment (if any) when so directed by the commission, such disqualification shall continue for the week in which such failure occurred and for not more than five weeks immediately following such week, and/or a reduction by not more than three weeks from the duration of benefits as determined by the commission in each case. Provided, however, that disqualification under this subsection shall continue for the full period of unemployment next ensuing after he has failed without good cause either to apply for available suitable work, or to accept suitable work, or to return to his customary self-employment, pursuant to this subsection, and until such individual has become re-employed and has earned wages equal to or in excess of ten times his weekly benefit amount.

(a) In determining whether or not any work is suitable for an individual, the commission shall consider the degree of risk involved to his health, safety, and morals, his physical fitness and prior training, his experience and prior earnings, his length of unemployment and prospects for securing local work in his customary occupation, and the distance of the available work from his residence.

(b) Notwithstanding any other provisions of this chapter, no work shall be deemed suitable and benefits shall not be denied under this chapter to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

1. If the position offered is vacant due directly to a strike, lockout, or other labor dispute;

2. If the wages, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality;

3. If as a condition of being employed, the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organization.

(3) For any week with respect to which he is receiving or has received remuneration in the form of:

(a) Wages in lieu of notice;

(b) Compensation for temporary partial

disability under the workmen's compensation law of any state or under a similar law of the United States.

Provided, that if the remuneration referred to in subparagraphs (a) and (b) of this subsection is less than the benefits which would otherwise be due under this chapter, he shall be entitled to receive for such week, if otherwise eligible, benefits reduced by the amount of such remuneration.

(4) For any week with respect to which the commission finds that his total or partial unemployment is due to a labor dispute in active progress which exists at the factory, establishment or other premises at which he is or was last employed; provided, that this subsection shall not apply if it is shown to the satisfaction of the commission that:

(a) He is not participating in or financing, or directly interested in the labor dispute which is in active progress; provided, however, that the payment of regular union dues shall not be construed as financing a labor dispute within the meaning of this section; and

(b) He does not belong to a grade or class of workers of which immediately before the commencement of the labor dispute there were members employed at the premises at which the labor dispute occurs any of whom are participating in, or financing, or directly interested in the dispute; provided, that if in any case separate branches of work which are commonly conducted as separate businesses in separate premises, or are conducted in separate departments of the same premises, each department shall, for the purpose of this subsection be deemed to be a separate factory, establishment or other premises.

(5) For any week with respect to which or a part of which he has received or is seeking unemployment benefits under an unemployment compensation law of another state or of the United States; provided, that if the appropriate agency of such other state or of the United States finally determines that he is not entitled to such unemployment benefits, this disqualification shall not apply.

(6) For a period of not to exceed one year from the date of the discovery by the commission of the making of any false or fraudulent representation for the purpose of obtaining benefits contrary to the provisions of this chapter, constituting a violation within the intent of §443.22 hereof; provided, that any such disqualification may be appealed from in the same manner as from any other disqualification imposed hereunder; and provided further that a conviction by any court of competent jurisdiction in this state of the offense prohibited or punished by §443.22 herein shall be conclusive upon the appeals referee and the board of review of the making of such false or fraudulent representation for which disqualification is imposed hereunder.

(7) (a) If the commission finds that the individual is not a citizen of the United States and is residing in this state as a place of

refuge, temporarily or without formal visa, and that such individual has failed without good cause to register with an appropriate federal or state agency having jurisdiction of such individual for the purposes of registration or relocation or resettlement pursuant to the rules or regulations of such agency or of the commission. Such disqualification shall continue for the duration of such failure and for not more than ten weeks immediately following the week in which such individual registers, or a reduction by not more than five weeks from the duration of benefits as determined by the commission in each case.

(b) If the commission finds that said individual has refused without good cause an offer of resettlement or relocation, which offer provides for suitable employment for such individual notwithstanding the distance of such relocation, resettlement or employment from the current location of such individual in this state, such disqualification shall continue for the week in which such failure occurred and for not more than ten weeks immediately following such week, or a reduction by not more than five weeks from the duration of benefits as determined by the commission in each case.

History.—§6, ch. 18402, 1937; §4, ch. 19637, 1939; CGL 1940 Supp. 4151(493); §6, ch. 20685, 1941; am. §4, ch. 21983, 1943; §1, ch. 24083, 1947; (6) §3, ch. 28242, 1953; (1) §1, ch. 63-327; (7) n. §1, ch. 63-157.

443.07 Procedure concerning claims.—

(1) **POSTING OF INFORMATION.**—Each employer shall post and maintain in places readily accessible to individuals in his employ printed statements concerning benefit rights, claims for benefits and such other matters relating to the administration of this chapter as the commission may by regulation prescribe. Each employer shall supply to such individuals copies of such printed statements or other materials relating to claims for benefits when and as the commission may by regulations prescribe. Such printed statements and other materials shall be supplied by the commission to each employer without cost to the employer.

(2) **FILING OF CLAIM.**—Claims for benefits shall be made in accordance with such regulations as the commission may prescribe.

(3) **DETERMINATION.**—

(a) *In general.*—An initial determination upon a claim filed pursuant to §443.07 (2) shall be made promptly by an examiner designated by the commission and shall include a statement as to whether and in what amount claimant is entitled to benefits and, in the event of a denial, shall state the reasons therefor. A determination with respect to the first week of a benefit year shall also include a statement as to whether the claimant has been paid the wages required under §443.05 (5), and if so, the first day of the benefit year, his weekly benefit amount, and the maximum total amount of benefits payable to him with respect to a benefit year. The claimant, his most recent employing unit, and all employers whose accounts would be charged with benefits pursuant to such determination, shall be promptly notified of such

initial determination, and such determination shall be final unless within ten days after the mailing of such notices to the parties' last known addresses, or in the absence of such mailing, within ten days after the delivery of such notice, appeal or written request for reconsideration is filed by the claimant or other party entitled to such notice.

(b) *Determinations in labor dispute cases.*—Whenever any claim involves the application of the provisions of §443.06 (4), the examiner handling the claim shall, if so directed by the commission, promptly transmit such claim to a special examiner designated by the commission to make a determination upon the issues involved under that subsection or upon such claims. Such special examiner shall make the determination thereon after such investigation as he deems necessary, and after affording the parties entitled to notice an opportunity for a fair hearing in accordance with the provisions of this section with respect to hearings and determinations of appeals referees. The parties shall be promptly notified of the determination, together with the reason therefor, and such determination shall be deemed to be the final decision on the claim, unless within ten days after the mailing of notices to the parties' last known addresses, or, in the absence of such mailing, within ten days after the delivery of such notice, appeal is filed with the board of review or notice of review is entered by that body.

(c) *Redeterminations.*—

1. The commission may reconsider a determination whenever it finds that an error has occurred in connection therewith, or whenever new evidence or information pertinent to such determination has been discovered subsequent to any previous determination or redetermination. No such redetermination shall be made after one year from the date the claim was filed, unless it appears that the disqualification imposed by §443.06(6) is applicable, in which case the redetermination may be made at any time within two years from the date of the making of such false or fraudulent representation. Notice of redetermination shall be promptly given to the claimant and to any employers entitled to notice thereof in the manner prescribed in this section with respect to notice of an initial determination. If the amount of benefits is increased upon such redetermination an appeal therefrom solely with respect to the matters involved in such increase may be filed in the manner and subject to the limitations provided in subsection (4) of this section. If the amount of benefits is decreased upon such redetermination, the matters involved in such decrease shall be subject to review in connection with an appeal by claimant from any determination upon a subsequent claim for benefits which may be affected in amount or duration by such redetermination. Subject to the same limitations and for the same reasons, the commission may reconsider its determination in any case in which the final decision has been rendered by

an appeals referee, the board of review, or a court, and may apply to the body or court which rendered such final decision to issue a revised decision.

2. In the event that an appeal involving an original determination is pending as of the date a redetermination thereof is issued, such appeal unless withdrawn, shall be treated as an appeal from such redetermination.

(d) *Notice of determination or redetermination pursuant to §443.06.*—Notice of any determination or redetermination which involves the application of the provisions of §443.06, together with the reasons therefor, shall be promptly given to the claimant and to any employer entitled to notice thereof, such notice to be given in the manner provided in subsection (3) hereof, provided that the commission shall by regulation prescribe the manner and procedure pursuant to which employers within the base period of a claimant may become entitled to such notice.

(4) APPEALS.—

(a) *Appeals referees.*—The commission shall appoint one or more impartial salaried appeals referees selected in accordance with subsection (4) of §443.12 to hear and decide appealed and/or disputed claims. Such appeals referees shall have such qualifications as may be established by the merit system council upon the advice and consent of the commission. No person shall participate on behalf of the commission as an appeals referee in any case in which he is an interested party. The commission may designate alternates to serve in the absence or disqualification of any appeals referee upon a temporary basis and pro hac vice which alternate shall be possessed of the same qualifications required of appeals referees. The commission shall provide the board of review and the appeals referees with proper facilities and assistance for the execution of their functions.

(b) *Filing and hearing.*—

1. The claimant or any other party entitled to notice of a determination as herein provided, may file an appeal from such determination with an appeals referee within ten days after the date of mailing of the notice to his last known address or if such notice is not mailed, within ten days after the date of delivery of such notice.

2. Unless the appeal is withdrawn with his permission or is removed to the board of review, the appeals referee, after affording the parties reasonable opportunity for a fair hearing, shall make findings and conclusions and on the basis thereof affirm, modify, or reverse such determination; provided, however, that whenever an appeal involves a question as to whether services were performed by claimant in employment or for an employer, the referee shall give special notice of such issue and of the pendency of the appeal to the employing unit and to the commission, both of whom shall thenceforth be parties to the proceeding and be afforded reasonable opportunity to adduce evidence bearing on such question.

3. The parties shall be promptly notified of such referee's decision and shall be furnished with a copy of the decision and the findings and conclusions in support thereof and such decisions shall be final unless, within ten days after the date of mailing of notice thereof to the party's last known address, or in the absence of such mailing, within ten days after the delivery of such notice, further review is initiated pursuant to paragraph (c) of this subsection.

(c) *Review by board of review.*—The board of review may, on its own motion, within the time specified in paragraph (b) of this subsection, initiate a review of the decision of an appeals referee or determination of a special examiner or may allow an appeal from such decision on application filed within such time by any party entitled to notice of such decision. An appeal filed by any such party shall be allowed as of right if the examiner's determination was not affirmed by the appeals referee. Upon review on its own motion or upon appeal, the board may on the basis of the evidence previously submitted in such case, or upon the basis of such additional evidence as it may direct be taken, affirm, modify or reverse the findings and conclusions of the appeals referee. The board may remove to itself or transfer to another appeals referee the proceedings on any claim pending before an appeals referee. Any proceeding so removed to the board prior to the completion of a fair hearing shall be heard by the board in accordance with the requirement of this subsection with respect to proceedings before an appeals referee. The board of review shall promptly notify the parties to any proceeding before it of its decision, including its findings and conclusions in support thereof, and such decision shall be final unless within the time prescribed by Florida appellate rules a proceeding for judicial review is initiated pursuant to paragraph (e) of this subsection; provided, however, that upon denial by the board of an application for appeal from the decision of an appeals referee, the decision of the appeals referee shall be deemed to be a decision of the board of review within the meaning of this paragraph for purposes of judicial review and shall be subject to judicial review within the time and in the manner provided for with respect to decisions of the board, except that the time for initiating such review shall run from the date of notice of the order of the board of review denying the application for appeal.

(d) *Procedure.*—The manner in which appealed claims shall be presented, and the conduct of hearings and appeals shall be in accordance with regulations prescribed by the board of review for determining the rights of the parties, whether or not such regulations conform to common law or statutory rules of evidence or other technical rules of procedure. When the same or substantially similar evidence is relevant and material to the matters in issue in claims by more than one individual or in claims by a single individual with respect to two or more weeks of un-

employment, the same time and place for considering each such claim may be fixed, hearing thereon jointly conducted, a single record of the proceedings made, and evidence introduced with respect to one proceeding considered as introduced in the others, provided that in the judgment of the examiner or referee having jurisdiction of the proceeding, such consolidation would not be prejudicial to any party. No person shall participate on behalf of the commission or the board of review in any case in which he has a direct or indirect interest. A record shall be kept of all testimony and proceedings before special examiners or in connection with an appeal, but the testimony need not be transcribed unless further review is initiated. Witnesses subpoenaed pursuant to this section shall be allowed fees at a rate fixed by the commission and fees of witnesses subpoenaed on behalf of the commission or any claimant shall be deemed part of the expense of administering this chapter.

(e) *Judicial review.*—Orders of the board of review entered pursuant to paragraph (c) of this subsection shall be subject to review only by petition for writ of certiorari to the district court of appeal in the appellate district in which the issues involved were decided by an appeals referee and the Florida industrial commission shall be made a party respondent to every such proceeding.

(5) **PAYMENT OF BENEFITS.**—

(a) Benefits shall be promptly paid in accordance with a determination or redetermination except that, if such determination or redetermination is upon the first claim with respect to a benefit year, or if the record of the proceeding on the claim indicates that a disqualification has been alleged or may exist, such benefits shall not be paid prior to the expiration of the period for appeal. If pursuant to a determination or redetermination benefits are payable in any amount as to which there is no dispute, such amount of benefits shall be promptly paid regardless of any appeal.

(b) The commencement of a proceeding for judicial review pursuant to subsection (4) (e) of this section shall not operate as a supersedeas or stay unless the board of review shall so order and the filing of a petition for judicial review by the commission from a decision of the board of review which awarded benefits shall not authorize the board or any court to direct the denial of any benefits which would have been payable under the board of review's decision. If a determination allowing benefits is affirmed in any amount by an appeals referee, or is so affirmed by the board of review or if a decision of an appeals referee, allowing benefits is affirmed in any amount by the board of review, such benefits shall be promptly paid regardless of any further appeal, and no injunction, supersedeas, stay, or other writ or process suspending the payment of such benefits shall be issued by any court but if such decision is finally reversed, no employer's account shall be charged with benefits so paid pursuant to the erroneous determination and benefits shall not be paid for

any subsequent weeks of unemployment involved in such reversal.

(6) **RECOVERY AND RECOUPMENT.**—

(a) Any person who, by reason of his fraud has received any sum as benefits under this chapter to which he was not entitled shall be liable to repay such sum to the commission for and on behalf of the trust fund, or, in the discretion of the commission, to have such sum deducted from future benefits payable to him under this chapter, provided a finding of the existence of such fraud has been made by a redetermination or decision pursuant to this section within two years from the commission of such fraud, and provided no such recovery or recoupment of such sum may be effected after five years from the date of such redetermination or decision.

(b) If any person other than by reason of his fraud has received any sum as benefits under this chapter to which, under a redetermination or decision pursuant to this section, he has been found not entitled, he shall in the discretion of the commission be liable to have such sum deducted from any future benefits payable to him with respect to unemployment occurring within one year from the date of such redetermination or decision.

(c) No recoupment from future benefits shall be had if such sum was received by such person without fault on his part and such recoupment would defeat the purpose of this chapter or would be against equity and good conscience.

(d) In any case in which under this section a claimant is liable to repay to the commission any sum for the fund, such sum shall be collectible without interest by a deduction from benefits pursuant to a redetermination as above provided, or by civil action in the name of the commission.

443.08 Contributions.—

(1) **WHEN PAYABLE.**—Contributions shall accrue and become payable by each employer for each calendar quarter in which he is subject to this chapter, with respect to wages paid during such calendar quarter for employment. Such contributions shall become due and be paid by each employer to the commission for the fund, in accordance with such regulations as the commission may prescribe. Contributions shall not be deducted, in whole or in part, from the wages of individuals in such employer's employ. In the payment of any contributions, a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent.

(2) **RATES.**—Each employer is required to pay contributions equal to the following per-

centages of wages paid by him with respect to employment.

(a) 1.8 per centum with respect to employment during the calendar year 1937.

(b) 2.7 per centum with respect to employment after December 31, 1937, except as otherwise determined by experience rating provisions of this Chapter; provided that for the purposes of this Section the total wages on which contributions have been paid by a single employer or his predecessor to an individual in any state within a single calendar year shall be counted to determine whether more remuneration than constitutes "wages" as defined by subsection 443.03(13)(b)1. has been paid to such individual by such employer or his predecessor in one calendar year.

(c) Should the congress either amend or repeal the Wagner-Peyser act, the federal unemployment tax act, the social security act or subtitle C of the internal revenue code, or any act or acts supplemental to or in lieu thereof, or any part or parts of either or all of said laws, or should either or all of said laws, or any part or parts thereof, be held invalid, to the end and with such effect that appropriations of funds by the said congress and grants thereof to Florida for the payment of costs of administration of the Florida state employment service and the unemployment compensation division of the commission become no longer available for such purposes, or should employers in Florida subject to the payment of tax under the federal unemployment tax act be granted full credit upon such a tax for contributions or taxes paid to the unemployment compensation trust fund, then in such case, beginning with the effective date of such change in liability for payment of such federal tax, and for each year thereafter, the standard contribution rate under this chapter shall be three per cent per annum of each such employer's payroll subject to contributions. With respect to each such employer having a reduced rate of contribution for such year pursuant to terms of subsection (3) hereof, to the rate of contribution, as determined for such year in which such change occurs, shall be added three-tenths of one per cent.

The amount of the excess of tax for which such employer is or may become liable, by reason of this subsection, over the amount which such employer would pay or become liable for except for the provisions of this subsection, shall be paid and transferred into the employment security administration trust fund to be disbursed and paid out under the same conditions and for the same purposes as are other moneys provided to be paid into such fund; provided, that if the commission shall determine that as of the first day of January of any year, there is an excess in said fund over the moneys and funds required to be disbursed therefrom for the purposes thereof for such year, then, and in such cases an amount equal to such excess, as determined by the commission, shall be transferred to and become a part of the unemployment compensation trust fund,

and such funds shall be deemed to be and are hereby appropriated for the purposes set out in this chapter.

(d) In the event that the federal unemployment tax act is amended to permit credit against such tax in excess of 2.7 per cent with respect to any calendar year, payment of the amount of contributions necessary to qualify an employer for such additional credit shall be deemed to be required under this chapter.

(3) CONTRIBUTION RATES BASED ON BENEFIT EXPERIENCE.—

(a) The benefit payments made to any eligible individual shall be charged to the employment record of each employer who paid such individual wages equal to forty dollars or more within the base period of said individual in the proportion to which wages paid by each such employer to such individual within the base period bears to total wages paid by all such employers to such individual within the base period. Provided, that no benefit charges shall be made to the employment record of any employer who has furnished part-time work to an individual who, because of loss of employment with one or more other employers, becomes eligible for partial benefits while still being furnished part-time work by such employer on substantially the same basis and in substantially the same amount as has been made available to such worker during his base period. Provided, further, that benefit payments will not be charged to the accounts of employers when such employers have furnished the commission with such notices regarding separations of individuals from work and the refusal of individuals to accept offers of suitable work as are required by the provisions of this chapter and the regulations of the commission, if one or more of the following conditions are found to be applicable:

1. When an individual has left his job without good cause attributable to his employer or has been discharged by his employer for misconduct connected with his work, no benefits subsequently paid to him on the basis of wages paid to such individual by such employer prior to such separation shall be charged to such employer's account.

2. Benefits which are paid to any individual subsequent to the refusal without good cause by such individual of an offer of suitable employment from an employer will not be charged to the account of such employer when all or any part of such benefits are upon the basis of wages paid to such individual by such employer prior to the refusal by such individual to accept such offer of suitable work. (The commission shall determine with respect to the payment of all benefits whether this proviso shall be applied without regard to whether a disqualification pursuant to the provisions of §443.06 has or may be invoked against a claimant or claimants for benefits.)

(b) 1. On and after January 1, 1958, the commission shall, notwithstanding the provisions of paragraph (d) of this subsection, compute a benefit ratio for each employer not previously eligible therefor whose unemploy-

ment record has been chargeable with benefit payments for at least twelve calendar quarters immediately preceding the calendar quarter for which the benefit ratio is computed. Such employer's benefit ratio shall be the quotient obtained by dividing the total benefit payments chargeable to his employment record during the twelve completed calendar quarters immediately preceding the calendar quarter for which the benefit ratio is computed by the total of his annual payrolls (as defined in paragraph (f) of this subsection) for the first twelve of the thirteen completed calendar quarters immediately preceding the calendar quarter for which the benefit ratio is computed. Such benefit ratio shall be computed to the fifth decimal place, and rounded to the fourth decimal place, and shall be applicable only for the remainder of the calendar year in which it becomes effective, after which the benefit ratio of such employer shall be computed as provided in subparagraph 2. hereof. Variation from the standard rate of contribution shall be assigned on a quarterly basis to such employers eligible therefor in like manner as assignments made for a calendar year under paragraph (e) of this subsection.

2. The commission shall, for each calendar year, compute a benefit ratio for each employer whose employment record has been chargeable with benefit payments for at least three calendar years immediately preceding the calendar year for which the benefit ratio is computed. An employer's benefit ratio shall be the quotient obtained by dividing the total benefit payments chargeable to his employment record during the three-year period ending December 31 of the preceding calendar year by the total of his annual payrolls (as defined in paragraph (f) of this subsection) for the three-year period ending September 30 of the preceding calendar year. Such benefit ratio shall be computed to the fifth decimal place and rounded to the fourth decimal place.

(c) The standard rate of contributions payable by each employer shall be 2.7 per centum.

(d) Employers shall be eligible for rate variations from the standard rate of contributions, as hereinafter described, in any calendar year, only if their employment records have been chargeable with benefit payments throughout the three consecutive calendar years ending on December 31, of the preceding calendar year.

*(e) 1. Variations from the standard rate of contributions shall be assigned with respect to each calendar year to employers eligible therefor. In determining the contribution rate, varying from the standard rate, to be assigned each employer, adjustment factors provided for in subparagraphs a.-c. of this subparagraph will be added to the benefit ratio. This addition will be accomplished in two steps by adding a variable adjustment factor and a final adjustment factor as defined below. The sum of these adjustment factors provided for in subparagraphs a.-c. of this subparagraph will

first be algebraically summed. The sum of these adjustment factors will then be divided by a gross benefit ratio to be determined as follows: total benefit payments for the previous three calendar years charged to employers eligible to be assigned a contribution rate different from the standard rate minus excess payments for the same period divided by taxable payroll entering into the computation of individual benefit ratios for the current calendar year. The ratio of the sum of the adjustment factors provided for in subparagraphs a.-c. of this subparagraph to the gross benefit ratio will be multiplied by each individual benefit ratio below the maximum tax rate to obtain variable adjustment factors; except that in any instance in which the sum of an employer's individual benefit ratio and variable adjustment factor exceeds the maximum tax rate, the variable adjustment factor will be reduced so that the sum equals the maximum tax rate. The variable adjustment factor of each such employer will be multiplied by his taxable payroll entering into the computation of his benefit ratio. The sum of these products will be divided by the taxable payroll of such employers that entered into the computation of their benefit ratios. The resulting ratio will be subtracted from the sum of the adjustment factors provided for in subparagraphs a.-c. of this subparagraph to obtain the final adjustment factor. The variable adjustment factors and the final adjustment factor will be computed to five decimal places and rounded to the fourth decimal place. This final adjustment factor will be added to the variable adjustment factor and benefit ratio of each employer and the sum rounded to one-tenth of one per cent to obtain each employer's contribution rate; provided that no employer's contribution rate shall be less than one-tenth of one per cent nor more than the maximum contribution rate provided for in subparagraph d. of this subsection.

a. An adjustment factor for noncharge benefits will be computed to the fifth decimal place, and rounded to the fourth decimal place, by dividing the amount of benefit payments noncharged in the three preceding calendar years by the taxable payroll of employers eligible to be considered for assignment of a contribution rate different from the standard rate that have a benefit ratio for the current year less than the maximum contribution rate, except that in computing the adjustment factor for 1964 the two preceding calendar years of noncharged benefits will be used. The taxable payroll of such employers will be the taxable payrolls for the three years ending September 30 of the preceding calendar year that had been reported to the commission by December 31 of the same calendar year except that in computing the adjustment factor for 1964 the two preceding years of taxable payrolls will be used. Noncharge benefits for the purpose of this section shall be defined as benefit payments to an individual which were paid from the unemployment compensation

trust fund but which were not charged to the unemployment record of any employer.

b. An excess payments adjustment factor will be computed to the fifth decimal place, and rounded to the fourth decimal place, by dividing the total excess payments during the three preceding calendar years by the taxable payroll of employers eligible to be considered for assignment of a contribution rate different from the standard rate that have a benefit ratio for the current year less than the maximum contribution rate, except that in computing the adjustment factor for 1964 the two preceding years' excess payments will be used. The taxable payroll of such employers will be the same as used in computing the noncharge adjustment factor as described in subparagraph 1. a. Excess payments for the purpose of this section shall be defined as the amount of benefit payments charged to the employment record of an employer during the three preceding calendar years less the product of the maximum contribution rate and his taxable payroll for the three years ending September 30 of the preceding calendar year that had been reported to the commission by December 31 of the same calendar year, except that in computing excess payments for use in 1964 contribution rate determination the two preceding years will be used. Total excess payments shall be defined as the sum of the individual employer excess payments for those employers that were eligible to be considered for assignment of a contribution rate different from the standard rate.

c. If the balance in the unemployment compensation trust fund as of December 31 of the calendar year immediately preceding the calendar year for which the contribution rate is being computed is less than four per cent of the taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the commission by December 31 of that calendar year, a positive adjustment factor will be computed. Such adjustment factor shall be computed annually to the fifth decimal place, and rounded to the fourth decimal place, by dividing the sum of the total taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the commission by December 31 of such calendar year into a sum equal to one fourth of the difference between the amount in the fund as of December 31 of such preceding calendar year and the sum of five per cent of the total taxable payrolls for that year. Such adjustment factor will remain in effect in subsequent years until a balance in the unemployment compensation trust fund as of December 31 of the year immediately preceding the effective date of such contribution rate equals or exceeds four per cent of the taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the commission by December 31 of that calendar year. If the balance in the unemployment compensation trust fund as of December 31 of the year immediately preceding the calendar year for which

the contribution rate is being computed exceeds five per cent of the taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the commission by December 31 of that calendar year, a negative adjustment factor will be computed. Such adjustment factor shall be computed annually to the fifth decimal place, and rounded to the fourth decimal place, by dividing the sum of the total taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the commission by December 31 of such calendar year into a sum equal to one fourth of the difference between the amount in the fund as of December 31 of such preceding calendar year and five per cent of the total taxable payrolls of such year. Such adjustment factor will remain in effect in subsequent years until the balance in the unemployment compensation trust fund as of December 31 of the year immediately preceding the effective date of such contribution rate is less than five per cent but more than four per cent of the taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the commission by December 31 of that calendar year.

d. The maximum contribution rate that can be assigned to any employer shall be two and nine tenths per cent with respect to the calendar year 1963, three and five tenths per cent with respect to the calendar year 1964, four per cent with respect to the calendar year 1965, and four and five tenths per cent with respect to the calendar year 1966 and subsequent calendar years.

2. In the event of the transfer of employment records to an employing unit pursuant to paragraph (g) of this subsection which, prior to such transfer, was an employer the commission shall recompute a benefit ratio for the successor employer on the basis of the combined employment records, and reassign an appropriate contribution rate to such successor employer as of the beginning of the calendar quarter immediately following the effective date of such transfer of employment records.

(f) As used in paragraph (b) 2. of this subsection, the term "annual payroll" means the total amount of wages for insured employment paid by an employer during the 12-month period ending on September 30 of any calendar year with respect to which contributions have been paid on or before the date on which they become due and payable; and as used in paragraph (b) 1. of this subsection, the term "annual payroll" means the total amount of wages for insured employment paid by an employer during a period of four consecutive calendar quarters with respect to which contributions have been paid on or before the date on which they became due and payable.

(g) 1. For the purposes of this subsection, two or more employers who are parties to a transfer of business or the subject of a merger, consolidation, or other form of reorganization, effecting a change in legal identity of

form, shall be deemed to be a single employer and shall be considered as one employer with a continuous employment record if the commission finds that the successor employer continues to carry on the employing enterprises of the predecessor employer or employers, and that the successor employer has assumed liability for all contributions required of and due from the predecessor employer or employers.

2. Whether or not there is a transfer of employment record as contemplated in this paragraph, the predecessor shall in the event he again employs persons be treated as a new employing unit.

3. The commission may provide by regulation for partial transfer of experience rating (except that the partial transfer of records authorized in this subparagraph shall be construed to allow computation and fixing of contribution rates effective only on and after July 1, 1947), where an employer has transferred at any time an identifiable and segregable portion of his payrolls and business to a successor employing unit. As a condition of such partial transfer of experience, the regulations shall require an application by the successor, agreement by predecessor, and such evidence as the commission may prescribe of the experience and payrolls attributable to the transferred portion up to the date of the transfer. The regulations shall provide that the successor employing unit, if not already an employer, shall become an employer as of the date of the transfer and that the experience of the transferred portion of the predecessor's account shall be removed from the experience-rating record of the predecessor and for each calendar year following the date of the transfer of the employment record on the books of the commission, the commission shall compute the rate of contribution payable by the successor on the basis of his experience, if any, combined with the experience of the portion of the record transferred. The regulation may also provide what rates shall be payable by the predecessor and successor employers for the period between the date of the transfer of the employment record of the transferred unit on the books of the commission and the first day of the next calendar year.

(h) No reduction in contribution rate shall be allowed under the provisions of this section unless the employer entitled thereto shall have at least one "annual payroll" as defined in paragraph (f) of this subsection and unless such employer is eligible for additional credit under the provisions of the federal unemployment tax act; and in the event the federal unemployment tax act shall be revised, amended or repealed, then and in that event this section shall be applicable only to the extent that additional credit may be allowed against the payment of the tax imposed by said federal unemployment tax act.

(i) The commission:

1. Shall promptly notify each employer of

his rate of contributions as determined for any calendar year pursuant to this section. Such determination shall become conclusive and binding upon the employer unless within fifteen days after the mailing of notice thereof to his last known address, or, in the absence of mailing, within fifteen days after the delivery of such notice, the employer files an application for review and redetermination setting forth his reasons therefor. If the commission grants such review, the employer shall be promptly notified thereof and shall be afforded an opportunity for a fair hearing, but no employer shall be allowed, in any proceeding involving his rate of contributions or contribution liability, to contest the chargeability to his account of any benefits paid in accordance with a determination, redetermination or decision pursuant to §443.07, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for him and then only in the event that he was not a party to such determination, redetermination or decision or to any other proceedings provided for in this chapter in which the character of such services was determined. The employer shall be promptly notified of the commission's denial of this application, or of the commission's redetermination, both of which shall become final unless within fifteen days after the mailing of notice thereof to his last known address or in the absence of mailing, within fifteen days after the delivery of such a petition for writ of certiorari is filed in the district court of appeal of the district in which the petitioner resides or in the district court of appeal for the first district of Florida.

2. May provide by regulation for periodic notification to employers of benefits paid and chargeable to their accounts and/or of the status of such accounts, and any such notification, in the absence of an application for redetermination filed in such manner and within such period as the commission may prescribe, shall become conclusive and binding upon the employer for all purposes of this chapter. Such redetermination, made after notice and opportunity for hearing, and the commission's finding of fact in connection therewith, may be introduced in any subsequent administrative or judicial proceedings involving the determination of the rate of contributions of any employer for any calendar year and shall be entitled to the same finality as is provided in this subsection with respect to the findings of fact made by the commission in proceedings to redetermine the contribution rate of an employer.

(j) If the commission finds that an employer's business is closed solely because of the entrance of one or more of the owners, officers, partners, or the majority stockholder into the armed forces of the United States, or any of its allies, or of the United Nations after June 30, 1950, such employer's experience-rating record shall not be terminated; and, if the business is resumed within two years after the discharge or release from active

duty in the armed forces of such person or persons, the employer's experience shall be deemed to have been continuous throughout such period. The benefit ratio of any such employer for the calendar year in which he resumed business and the three calendar years immediately following shall be a percentage equal to the total of his benefit charges (including charges of benefits paid to any individual during the period the employer was in the armed forces based upon wages paid by him prior to his entrance into such forces) for the three most recently completed calendar years divided by that part of his total pay roll, with respect to which contributions have been paid to the commission, for the three most recent calendar years during the whole of which, respectively, such employer has been in business.

Provided, that no cash refund shall be made with respect to any adjustment required hereunder, but such refund shall be made by credit memorandum only.

443.09 Employing units affected.—

(1) (a) Any employing unit which is or becomes an employer subject to this chapter as defined in §443.03(7)(a) within any calendar year shall be subject to this chapter during the whole of such calendar year.

(b) Any employing unit which is or becomes an employer subject to this chapter solely by reason of the provisions of §443.03(7)(b) shall be subject to this chapter only during its operation of the business acquired.

(c) Any employing unit which is or becomes an employer subject to this chapter solely by reason of the provisions of §443.03(7)(c) shall be subject to this chapter only with respect to employment occurring subsequent to the date of such acquisition.

(2) Except as otherwise provided in subsections (3) and (4) of this section, an employing unit shall cease to be an employer subject to this chapter as of the first day of January of any calendar year only if it files with the commission by April 30 of the year for which termination is requested, a written application for termination of coverage, and the commission finds that there were no twenty different days, each day being in a different week within the preceding calendar year, within which such employing unit employed four or more individuals in employment subject to this chapter and that the employment and payrolls of such employing unit during such calendar year were insufficient to have rendered such employing unit an employer under §443.03(7)(h). Provided, however, that the above prescribed time limitation for the filing of such

written application may be waived by the commission in cases where such time limitation had expired prior to the establishment in the records of the commission of the liability of such employing unit. For the purposes of this subsection, the two or more employing units mentioned in §443.03(7)(b)(c)(d) shall be treated as a single employing unit.

(3) (a) An employing unit, not otherwise subject to this chapter, which files with the commission its written election to become an employer subject hereto for not less than one calendar year, shall, with the written approval of such election by the commission, become an employer subject hereto to the same extent as all other employers, as of the date stated in such approval, and shall cease to be subject hereto as of January 1 of any calendar year subsequent to the first calendar year of its election, only if by April 30 of such subsequent year such employing unit has filed with the commission a written notice to that effect. Provided, however, that at the expiration of the calendar year of such election the commission may reconsider such voluntary election of coverage and may in its discretion notify such employer that such employer will not be carried upon the records of the commission as an employer and thereupon such employer shall cease to be an employer under the provisions of this chapter as of the first of the year next succeeding the last calendar year during which it was an employer under this chapter.

(b) Any employing unit, including this state or any political subdivision thereof, or any instrumentality of any one or more of the foregoing which is wholly owned by this state or by one or more of its political subdivisions, for which services that do not constitute employment as defined in this chapter are performed, may file with the commission a written election that all such services performed by individuals in its employ in one or more distinct establishments or places of business shall be deemed to constitute employment for all the purposes of this chapter for not less than one calendar year. Upon the written approval of such election by the commission, such services shall be deemed to constitute employment subject to this chapter from and after the date stated in such approval. Such services shall cease to be deemed employment subject hereto as of January 1 of any calendar year subsequent to such calendar year only if by April 30 of such subsequent year such employing unit has filed with the commission a written notice to that effect.

(4) Notwithstanding the provisions of §443.09(2), if the commission finds that an employer has become inactive and has ceased to be an employing unit as defined by this chapter for a complete calendar year the commission may automatically terminate the account of such employer, and such employer shall be notified by registered mail directed to the last address of such employer as contained in the files of the commission of the action of the commis-

sion in terminating such account as of the first of January of any year following a complete calendar year in which such employer has ceased to be an employing unit, and thereupon such employer shall cease to be an employer subject to the provisions of this chapter.

443.10 Unemployment compensation trust fund; establishment and control.—

(1) There is hereby established as a special fund separate and apart from all public moneys or funds of this state, an employment compensation trust fund, which shall be administered by the commission exclusively for the purposes of this chapter. This fund shall consist of (a) all contributions collected under this chapter; (b) interest earned upon any moneys in the fund; (c) any property or securities acquired through the use of moneys belonging to the fund, (d) all earnings of such property or securities; and (e) all money credited to this state's account in the unemployment compensation trust fund pursuant to §903 of the social security act as amended. All moneys in the fund shall be mingled and undivided.

(2) The state treasurer shall be the ex-officio treasurer and custodian of the fund and shall administer such fund in accordance with the directions of the commission. All payments from the fund shall be approved by the commission or by a duly authorized agent and shall be made by the treasurer upon warrants issued by the comptroller and countersigned by the governor except as hereinafter provided. The treasurer shall maintain within the fund three separate accounts: (a) a clearing account, (b) an unemployment compensation trust fund account, and (c) a benefit account. All moneys payable to the fund, upon receipt thereof by the commission, shall be forwarded to the treasurer who shall immediately deposit them in the clearing account. Refunds payable pursuant to §443.15 may be paid from the clearing account upon warrants issued by the comptroller as above set forth. After clearance thereof, all other moneys in the clearing account shall be immediately deposited with the secretary of the treasury of the United States to the credit of the account of this state in the unemployment compensation trust fund, established and maintained pursuant to §904 of the social security act, as amended, any provisions of the law in this state relating to the deposit, administration, release or disbursement of moneys in the possession or custody of this state to the contrary notwithstanding. The benefit account shall consist of all moneys requisitioned from this state's account in the unemployment compensation trust fund. Except as herein otherwise provided, moneys in the clearing and benefit accounts may be deposited by the treasurer, under the direction of the commission, in any bank or public depository in which general funds of the state may be deposited, but no

public deposit insurance charge or premium shall be paid out of the fund. The treasurer shall be liable on his official bond for the faithful performance of his duties as custodian of the fund.

(3) Moneys shall be requisitioned from the state's account in the unemployment compensation trust fund solely for the payment of benefits and in accordance with regulations prescribed by the commission, except that money credited to this state's account pursuant to §903 of the social security act as amended shall be used exclusively as provided in §443.10(5). The commission, through the treasurer, shall from time to time requisition from the unemployment compensation trust fund such amounts, not exceeding the amounts standing to this state's account therein, as it deems necessary for the payment of benefits for a reasonable future period. Upon receipt thereof the treasurer shall deposit such moneys in the benefit account in the state treasury and warrants for the payment of benefits shall be drawn by the comptroller upon the order of the commission against such benefit account. All warrants for benefits shall be payable directly to the ultimate beneficiary. Expenditures of such moneys in the benefit account and refunds from the clearing account shall not be subject to any provisions of law requiring specific appropriations or other formal release by state officers of money in their custody. All warrants issued for the payment of benefits and refunds shall bear the signature of the comptroller and the counter-signature of the governor as above set forth. Any balance of moneys requisitioned from the unemployment compensation trust fund which remains unclaimed or unpaid in the benefit account after the expiration of the period for which such sums were requisitioned shall either be deducted from estimates for, and may be utilized for the payment of benefits during succeeding periods, or, in the discretion of the commission, shall be redeposited with the secretary of the treasury of the United States, to the credit of this state's account in the unemployment compensation trust fund, as provided in subsection (2) of this section.

(4) The provisions of subsections (1), (2), and (3), to the extent that they relate to the unemployment compensation trust fund, shall be operative only so long as such unemployment trust fund continues to exist and so long as the secretary of the treasury of the United States continues to maintain for this state a separate book account of all funds deposited therein by this state for benefit purposes, together with this state's proportionate share of the earnings of such unemployment compensation trust fund, from which no other state is permitted to make withdrawals. If and when such unemployment compensation trust fund ceases to exist, or such separate book account is no longer maintained, all moneys, properties, or securities therein, belonging to the unemployment compensation trust fund of this state shall be transferred to the treasurer of the unemployment compensation trust fund, who shall

hold, invest, transfer, sell, deposit, and release such moneys, properties, or securities in a manner approved by the commission in accordance with the provisions of this chapter; provided that such moneys shall be invested in the following readily marketable classes of securities: Bonds or other interest-bearing obligations of the United States or of the state. Provided further, that such investment shall at all times be so made that all the assets of the fund shall always be readily convertible into cash when needed for the payment of benefits. The treasurer shall dispose of securities or other properties belonging to the unemployment compensation trust fund only under the direction of the commission.

(5) MONEY CREDITED UNDER SECTION 903 OF THE SOCIAL SECURITY ACT.—

(a) Money credited to the account of this state in the unemployment compensation trust fund by the secretary of the treasury of the United States pursuant to §903 of the social security act may not be requisitioned from this state's account or used except for the payment of benefits and for the payment of expenses incurred for the administration of this law. Such money may be requisitioned pursuant to §443.10 (3) for the payment of benefits. Such money may also be requisitioned and used for the payment of expenses incurred for the administration of this law but only pursuant to a specific appropriation by the legislature and only if the expenses are incurred and the money is requisitioned after the enactment of an appropriation law which:

1. Specifies the purposes for which such money is appropriated and the amounts appropriated therefor,
2. Limits the period within which such money may be obligated to a period ending not more than two years after the date of the enactment of the appropriation law, and
3. Limits the amount which may be obligated during any twelve-month period beginning on July 1 and ending on the next June 30 to an amount which does not exceed the amount by which the aggregate of the amounts credited to the account of this state pursuant to §903 of the social security act during the same twelve-month period and the four preceding twelve-month periods, exceeds the aggregate of the amounts obligated for administration and paid out for benefits and charged against the amounts credited to the account of this state during such five twelve-month periods.

(b) Amounts credited to this state's account in the unemployment compensation trust fund under §903 of the social security act which are obligated for administration or paid out for benefits shall be charged against equivalent amounts which were first credited and which are not already so charged; except that no amount obligated for administration during a twelve-month period specified herein may be charged against any amount credited during such a twelve-month period earlier than the fourth

preceding such period. Any amount credited to the state's account under §903 which has been appropriated for expenses of administration, whether or not withdrawn from the unemployment compensation trust fund, shall be excluded from the unemployment compensation trust fund balance for the purposes of §443.08(3).

(c) Money appropriated as provided herein for the payment of expenses of administration shall be requisitioned as needed for the payment of obligations incurred under such appropriation and, upon requisition, shall be deposited in the employment security administration trust fund from which such payments shall be made. Money so deposited shall, until expended, remain a part of the unemployment compensation trust fund and, if it will not be expended, shall be returned promptly to the account of this state in the unemployment compensation trust fund.

(6) APPROPRIATIONS:

(a) There is hereby appropriated the sum of one million five hundred forty thousand dollars out of the funds made available to this state under the employment security administrative financing act of 1954, chapter 657, Pub. Law 567, 83rd congress, 2nd session, as amended; the said sum hereby appropriated to be divided among the locations hereinafter stated in the following manner:

1. Cocoa, an amount not to exceed two hundred fifty thousand dollars.
2. Jacksonville (in addition to amounts previously appropriated therefor), an amount not to exceed one hundred fifty thousand dollars.
3. Fort Lauderdale, an amount not to exceed five hundred thousand dollars.
4. West Palm Beach, an amount not to exceed five hundred thousand dollars.
5. Gainesville, an amount not to exceed one hundred forty thousand dollars.

(b) The sums herein appropriated are to be expended solely for the acquisition of land, and the construction thereon of appropriate offices to be used exclusively for the employment security activities of the Florida industrial commission, and for all necessary expenses incidental thereto, and said sums shall be obligated for the purposes herein appropriated not later than the two year period following the date of the enactment hereof. Of the amount hereinabove appropriated the commission may not obligate of said appropriations during the fiscal year ending June 30, 1964, an amount to exceed the total of the sums credited to Florida under the provisions of said employment security administrative financing act of 1954, for such fiscal year and the four preceding fiscal years, less the aggregate of the amounts which have been obligated for administration and paid out for benefits and charged against said sums during such five fiscal years. Nor shall the amount which may be obligated by said commission under this appropriation during the fiscal year ending June 30, 1965, exceed the total of the sums credited to this state under provisions of said employment se-

curity administrative financing act of 1954 for such fiscal year and the four preceding fiscal years, less the aggregate of the amounts which have been obligated for administration and paid out for benefits and charged against said sum during such five fiscal years.

(c) The commission is authorized to withdraw from this state's account in the unemployment trust fund referred to in said employment security administrative financing act of 1954 as amended, such sums as are from time to time needed for payment of obligations incurred under the provisions hereof, but not to exceed at any time either the amount in said fund made available by said employment security administrative financing act of 1954, as amended, or the specific appropriation made for a particular location.

(d) Any moneys requisitioned and withdrawn by the commission under the provisions of paragraph (c) shall be deposited in a separate account of this state's employment security administration trust fund, but such moneys until expended shall remain a part of the unemployment compensation trust fund. The commission shall maintain a separate record of the deposit, obligation and expenditure of such funds.

(e) The commission shall have complete authority to carry out the purposes of this section and is expressly authorized and empowered to employ necessary appraisers, architects, engineers and contractors, and to execute all contracts necessary to effectuate the declared purposes of this section, including the acquisition of the necessary real estate for said offices, which real property shall be acquired in the name of the Florida industrial commission and shall be used exclusively thereafter for providing facilities for the employment security activities of the Florida industrial commission.

(f) Money so withdrawn from the unemployment compensation trust fund shall be repaid from federal funds periodically allocated to the commission for rental of local employment office space in the named municipalities. Such money as may be used for the purposes of this subsection (including any unrepaid portion thereof) shall continue to be deemed part of the unemployment compensation trust fund for the purposes of §443.08 (3)(e)1.c., and such temporary use shall not be construed to have reduced the total of such fund for tax rate computation purposes, including interest which would have been added to such total if none of such fund had been used as authorized by this subsection.

443.11 Administrative organization.—

(1) **DIVISIONS.**—There are hereby created and established in the Florida industrial commission two coordinate divisions, the Florida state employment service division, established pursuant to §443.13, and a division to be known

as the unemployment compensation division. Each of said divisions shall be administered by a full-time salaried director.

The chairman of the Florida industrial commission shall be paid for the additional duties involved in the administration of this chapter such sum as may be agreed upon between the said chairman and the federal bureau of employment security. Each other member of the commission shall be paid for the additional duties involved in the administration of this chapter the sum of one thousand eight hundred dollars per annum and shall be reimbursed for traveling expenses as provided in §112.061. Each division shall be responsible for the discharge of its distinctive functions.

Each division shall be a separate administrative unit except insofar as the commission may find that such separation is impracticable. Each division shall pay its proportionate part of the administrative costs for the members and the secretary of the commission.

(2) BOARD OF REVIEW.—

(a) There is hereby created within the Florida industrial commission a board of review which shall consist of the chairman of the Florida industrial commission, who shall serve as chairman of such board, and the members of the commission, each of whom shall serve ex officio and receive no additional compensation for services performed as a member of such board.

(b) Any hearing, inquiry, or investigation required or authorized to be conducted or made by the board of review may be conducted or made by an individual member thereof, and the order, decision, or determination of such member shall be deemed the order, decision or determination of the board of review from the date of the filing thereof in the commission unless the board, on its own motion, or by application duly made to it, modifies or rescinds such order, decision, or determination.

(3) **OBSOLETE RECORDS.**—The commission is expressly authorized to provide by regulation for and to destroy obsolete records of the commission.

(4) **ADVANCES.**—The commission is authorized and directed to apply for an advance to the state unemployment compensation trust fund and to accept responsibility for the repayment of such advance in accordance with the conditions specified in title XII of the social security act as amended, in order to secure to this state and its citizens the advantages available under the provisions of said title XII of the social security act.

443.12 Commission; powers, duties, etc.; rules and regulations; personnel; advisory councils; records and reports; cooperation, etc.—

(1) DUTIES AND POWERS OF COMMIS-

SION.—It shall be the duty of the commission to administer this chapter; and it shall have power and authority to adopt, amend, or rescind such rules and regulations, to employ such persons, make such expenditures, require such reports, make such investigations, and take such other action as it deems necessary or suitable to that end. Such rules and regulations shall be effective upon publication in the manner, not inconsistent with the provisions of this chapter, which the commission shall prescribe. The commission shall determine its own organization and methods of procedure in accordance with the provisions of this chapter and shall have an official seal which shall be judicially noticed. Not later than the 15th day of March of each year, the commission shall submit to the governor a report covering the administration and operation of this chapter during the preceding calendar year and shall make such recommendations for amendment to this chapter as it deems proper. Such report shall include a balance sheet of the monies in the fund in which there shall be provided, if possible, a reserve against the liability of future years to pay benefits in excess of the then current contributions, which reserve shall be set up by the commission in accordance with accepted actuarial principles on the basis of statistics of employment, business activity, and other relevant factors for the longest possible period. Whenever the commission believes that a change in contribution or benefit rates will become necessary to protect the solvency of the fund, it shall promptly so inform the governor and the legislature, and make recommendations with respect thereto.

(2) **REGULATIONS AND GENERAL AND SPECIAL RULES.**—General and special rules may be adopted, amended, or rescinded by the commission only after public hearing or opportunity to be heard thereon, of which proper notice has been given. General rules shall become effective ten days after filing with the secretary of state and publication in one or more newspapers of general circulation in this state. Special rules shall become effective ten days after notification to or mailing to the last known address of the individuals or concerns affected thereby. Regulations may be adopted, amended, or rescinded by the commission and shall become effective in the manner and at the time prescribed by the commission.

(3) **PUBLICATION OF ACTS AND RULES AND REGULATIONS.**—The commission shall cause to be printed and distributed to the public the text of this chapter, the regulations and rules it adopts, its annual report to the governor, and any other matter the commission deems relevant and suitable, and shall furnish this information to any person upon application therefor; provided that the printing of any pamphlet, rules, circulars or reports required by this chapter shall contain no matter except the actual data necessary to complete same or the actual language of the said rule or regulation, together with proper notices thereof; and provided further, where the amount involved ex-

ceeds two hundred dollars that in advance of any such printing being done or contracted for, sealed written bids therefor shall be asked for by the commission and the lowest and best bid therefor shall be accepted.

(4) **PERSONNEL.**—Subject to other provisions of this chapter, the commission is authorized to appoint, fix the compensation, and prescribe the duties and powers of such employees, accountants, attorneys, experts, and other persons as may be necessary in the performance of its duties under this chapter. Provided, however, that the commission shall pay no employee appointed pursuant to the provisions of this subsection any compensation in excess of amounts paid for comparable services performed for other state departments. The commission may delegate to any such person such power and authority as it deems reasonable and proper for the effective administration of this chapter, and may in its discretion bond any person handling monies or signing checks hereunder; the cost of such bonds shall be paid from the employment security administration trust fund. The commission shall classify positions under this chapter and shall establish salary schedules and minimum personnel standards for the positions so classified. It shall provide for the holding of examinations to determine the qualifications of applicants for the positions so classified, and except for temporary appointments of not to exceed six months in duration, such personnel shall be appointed on the basis of efficiency and fitness as determined in such examinations. Provided, however, that appointments of persons who have not participated in an examination may be continued for a period in excess of six months when such persons have been certified as possessing the necessary training and experience for admittance to an examination for the position to which appointed and such appointments may be continued until the establishment of an appropriate register for such position pursuant to the holding of an examination therefor. The commission shall establish and enforce fair and reasonable regulations for appointments, promotions, and demotions based upon rating of efficiency and fitness and for terminations for cause.

(5) **ADVISORY COUNCILS.**—The commission shall appoint a state advisory council and may appoint local or industry advisory councils, composed in each case of an equal number of employer representatives and employee representatives who may fairly be regarded as representative because of their vocation, employment, or affiliations, and of such members representing the general public as the commission may designate. Such councils shall aid the commission in formulating policies and discussing problems related to the administration of this chapter and in assuring impartiality and freedom from political influence in the solution of such problems. Such advisory councils shall serve for such terms as specified by the commission, without compensation, but shall be reimbursed for traveling expenses as provided in §112.061.

(6) **EMPLOYMENT STABILIZATION.**—The commission with the advice and aid of advisory councils, and through the appropriate divisions, shall take all appropriate steps to reduce and prevent unemployment; to encourage and assist in the adoption of practical methods of vocational training, retraining and vocational guidance; to investigate, recommend, advise, and assist in the establishment and operation, by municipalities, counties, school districts and the state of reserves for public works to be used in times of business depression and unemployment; to promote the reemployment of the unemployed workers throughout the state in every other way that may be feasible; and to these ends to carry on and publish the results of investigations and research studies.

(7) **RECORDS AND REPORTS.**—Each employing unit shall keep true and accurate work records, containing such information as the commission may prescribe. Such records shall be open to inspection and be subject to being copied by the commission or its authorized representatives at any reasonable time and as often as may be necessary. The commission, the board of review, or an appeals referee may require from any employing unit any sworn or unsworn reports, with respect to persons employed by it, which any of them deem necessary for the effective administration of this chapter. Information thus obtained, or obtained from any individual pursuant to the administration of this chapter, shall, except to the extent necessary for the proper presentation of a claim, be held confidential and shall not be published or be open to public inspection (other than to public employees in the performance of their public duties), in any manner revealing the individual's or employing unit's identity, but any claimant (or his legal representative) at a hearing before an appeals referee or the board of review shall be supplied with information from such records to the extent necessary for the proper presentation of his claim. Any employee or member of the board of review or any employee of the commission who violates any provision of this subsection shall be fined not less than twenty dollars nor more than two hundred dollars, or imprisoned for not longer than ninety days, or both. Provided, however, the commission may furnish to any employer copies of any report previously submitted by such employer, upon the request of such employer, and the commission is authorized to charge therefor such reasonable fee as it may by regulations prescribe not to exceed the actual reasonable cost of the preparation of such copies. Fees received by the commission for copies as herein provided shall be deposited to the credit of the employment security administration trust fund.

(8) **OATHS AND WITNESSES.**—In the discharge of the duties imposed by this chapter, the commission, the appeals referees, the members of the board of review, and any duly authorized representative of any of them shall have power to administer oaths and affirmations, take depositions, certify to official acts, and issue subpoenas to compel the attendance of wit-

nesses and the production of books, papers, correspondence, memoranda, and other records deemed necessary as evidence in connection with a disputed claim or the administration of this chapter.

(9) **SUBPOENAS.**—In case of contumacy by, or refusal to obey a subpoena issued to any person, any court of this state within the jurisdiction of which the inquiry is carried on, or within the jurisdiction of which said person guilty of contumacy or refusal to obey is found or resides, or transacts business, upon application by the commission, the board of review, an appeals referee, or any duly authorized representative of any of them shall have jurisdiction to issue to such person an order requiring such person to appear before the commission, the board of review, an appeals referee or any duly authorized representative of any of them, there to produce evidence if so ordered or there to give testimony touching on the matter under investigation or in question; and any failure to obey such order of the court may be punished by said court as a contempt thereof. Any person who shall without just cause fail or refuse to attend and testify or to answer any lawful inquiry or to produce books, papers, correspondence, memoranda, and other records, if it is in his power to do so, in obedience to a subpoena of the commission, the board of review, an appeals referee, or any duly authorized representative of any of them, shall be punished by a fine of not less than two hundred dollars or by imprisonment for not longer than sixty days, or by both such fine and imprisonment, and each day such violation continues shall be deemed to be a separate offense.

(10) **PROTECTION AGAINST SELF INCRIMINATION.**—No person shall be excused from attending and testifying, or from producing books, papers, correspondence, memoranda, and other records before the commission, the board of review, an appeals referee, or any duly authorized representative of any of them, or in obedience to the subpoena of any of them in any cause or proceeding before the commission, the board of review, or any appeals referee, on the ground that the testimony or evidence, documentary or otherwise, required of him may tend to incriminate him or subject him to a penalty or forfeiture; but no individual shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he is compelled, after having claimed his privilege against self incrimination, to testify or produce evidence, documentary or otherwise, except that such individual so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying.

(11) **STATE-FEDERAL COOPERATION.**—

(a) In the administration of this chapter, the commission shall cooperate to the fullest extent consistent with the provisions of this chapter with the bureau of employment security or other authorized federal agencies, and is authorized and directed to take such action, through the adoption of appropriate

rules, regulations, administrative methods and standards, as may be necessary to secure to this state and its citizens all advantages available under the provisions of the social security act, the federal unemployment tax act, and the act of congress entitled "An act to provide for the establishment of a national employment system and for cooperation with states in the promotion of such system, and for other purposes," approved June 6, 1933, as amended. The commission shall comply with the regulations of the bureau of employment security relating to the receipt or expenditure by this state of moneys granted under any of such acts and shall make such reports, in such form and containing such information, as the bureau of employment security may from time to time require, and shall comply with such provisions as the bureau of employment security may from time to time find necessary to assure the correctness and verification of such reports.

(b) The commission may afford reasonable cooperation with every agency of the United States charged with the administration of any unemployment insurance law.

(c) The commission shall fully cooperate with the agencies of other states, and shall make every proper effort within its means, to oppose and prevent any further action which would in its judgment tend to effect complete or substantial federalization of state unemployment compensation funds or state employment security programs. The commission may make, and may cooperate with other appropriate agencies in making, studies as to the practicability and probable cost of possible new state-administered social security programs, and the relative desirability of state (rather than federal) action in any such field.

(12) DISCLOSURE OF INFORMATION.—Subject to such restrictions as the commission may by regulation prescribe, such information may be made available to any agency of this or any other state, or any federal agency, charged with the administration of any unemployment compensation law or the maintenance of a system of public employment offices, or the bureau of internal revenue of the United States department of the treasury, and information obtained in connection with the administration of the employment service may be made available to persons or agencies for purposes appropriate to the operation of a public employment service. Upon request therefor the commission shall furnish any agency of the United States charged with the administration of public works or assistance through public employment, and may furnish to any state agency similarly charged, the name, address, ordinary occupation, and employment status of each recipient of benefits and such recipient's rights to further benefits under this chapter. The commission may request the comptroller of the currency of the United States to cause an examination of the correctness of any return or report of any national banking association ren-

dered pursuant to the provisions of this chapter, and may in connection with such request transmit any such report or return to the comptroller of the currency of the United States as provided in §3305 (c) of the federal internal revenue code.

443.13 State employment service.—

(1) The Florida state employment service is hereby established in the Florida industrial commission as a division. The commission, through such division, shall establish and maintain free public employment offices in such number and in such places as may be necessary for the proper administration of this chapter and for the purposes of performing such duties as are within the purview of the act of congress entitled "An act to provide for the establishment of a national employment system and for cooperation with the states in the promotion of such system and for other purposes," approved June 6, 1933 (48 Stat. 113; U. S. C., Tit. 29, §49 (c)), as amended. It shall be the duty of the division to cooperate with any official or agency of the United States having power or duties under the provisions of the act of congress, as amended, and to do and perform all things necessary to secure to this state the benefits of said act of congress, as amended, in the promotion and maintenance of a system of public employment offices. The provisions of the said act of congress, as amended, are hereby accepted by this state, in conformity with §4 of said act, and this state will observe and comply with the requirements thereof. The Florida industrial commission is hereby designated and constituted the agency of this state for the purpose of said act. The commission is authorized and directed to appoint sufficient employees to carry out the purposes of this section. The commission may cooperate with or enter into agreements with the railroad retirement board with respect to the establishment, maintenance, and use of free employment service facilities.

(2) FINANCING.—All moneys received by this state under the said act of congress, as amended, shall be paid into the employment security administration trust fund, and said moneys are hereby made available to the commission to be expended as provided by this chapter and by said act of congress. For the purpose of establishing and maintaining free public employment offices, the commission is authorized to enter into agreements with the railroad retirement board or any other agency of the United States charged with the administration of an unemployment compensation law, with any political subdivision of this state, or with any private, non-profit organization, and as a part of any such agreement the commission may accept moneys, services, or quarters as a

contribution to the employment security administration trust fund.

443.14 Employment security administration trust fund; appropriation; reimbursement.—

(1) **EMPLOYMENT SECURITY ADMINISTRATION TRUST FUND.**—There is hereby created in the state treasury a special fund to be known as the employment security administration trust fund. All moneys which are deposited or paid into this fund shall be continuously available to the commission for expenditure in accordance with the provisions of this chapter, and shall not lapse at any time or be transferred to any other fund. All moneys in this fund which are received from the federal government or any agency thereof or which are appropriated by this state for the purposes described in §§443.12 and 443.13 except money received pursuant to §443.12(5)(c) shall be expended solely for the purposes and in the amounts found necessary by the authorized cooperating federal agencies for the proper and efficient administration of this chapter. The fund shall consist of all moneys appropriated by this state, and all moneys received from the United States, or any agency thereof, and all moneys received from any other source for such purpose, and shall also include any moneys received from any agency of the United States or any other state as compensation for services or facilities supplied to such agency, any amounts received pursuant to any surety bond or insurance policy or from other sources for losses sustained by the employment security administration trust fund or by reason of damage to equipment or supplies purchased from moneys in such fund, and any proceeds realized from the sale or disposition of any such equipment or supplies which may no longer be necessary for the proper administration of this chapter. Notwithstanding any provision of this section, all money requisitioned and deposited in this fund pursuant to §443.10(5)(c) shall remain part of the unemployment compensation trust fund and shall be used only in accordance with the conditions specified in §443.10(5). All moneys in this fund shall be deposited, administered, and disbursed, in the same manner and under the same conditions and requirements as is provided by law for other special funds in the state treasury, except that moneys in this fund shall not be commingled with other state funds, but shall be maintained in a separate account on the books of a depository bank. Such moneys shall be secured by the depository in which they are held to the same extent and in the same manner as required by the general depository law of the state and collateral pledged shall be maintained in a separate custody account. All payments from the employment security administration trust fund shall be approved by the commission or by a duly authorized agent and shall be made by the treasurer upon warrants issued by the comp-

troller and countersigned by the governor. Any balances in this fund shall not lapse at any time, but shall be continuously available to the commission for expenditure consistent with this chapter. The state treasurer shall be liable on his official bond for the faithful performance of his duties in connection with the employment security administration trust fund provided for under this chapter. Such liability on the official bond shall be effective immediately upon the enactment of this provision, and such liability shall exist in addition to any liability upon any separate bond existent on the effective date of this provision, or which may be given in the future. All sums recovered on any surety bond for losses sustained by the employment security administration trust fund shall be deposited in said fund.

(2) **SPECIAL EMPLOYMENT SECURITY ADMINISTRATION TRUST FUND.**—There is hereby created in the state treasury a special fund, to be known as the "special employment security administration trust fund," into which shall be deposited or transferred all interest on contributions, penalties, and fines or fees collected under this chapter. Interest on contributions, penalties, and fines or fees deposited during any calendar quarter in the clearing account in the unemployment compensation trust fund shall, as soon as practicable after the close of such calendar quarter and upon certification of the commission, be transferred to the special employment security administration trust fund; provided, however, that there shall be withheld from any such transfer the amount certified by the commission to be required under this chapter to pay refunds of interest on contributions, penalties, and fines or fees collected after June 30, 1947, and erroneously deposited into the clearing account in the unemployment compensation trust fund. Such amounts of interest and penalties so certified for transfer shall be deemed to have been erroneously deposited in the clearing account and the transfer thereof to the special employment security administration trust fund shall be deemed to be a refund of such erroneous deposits. All moneys in this fund shall be deposited, administered and disbursed in the same manner and under the same conditions and requirements as is provided by law for other special funds in the state treasury. Said moneys shall not be expended or be available for expenditure in any manner which would permit their substitution for (or permit a corresponding reduction in) federal funds which would, in the absence of said moneys, be available to finance expenditures for the administration of the unemployment compensation law. But nothing in this section shall prevent said moneys from being used as a revolving fund to cover expenditures, necessary and proper under the law, for which federal funds have been duly requested but not yet received, subject to the charging of such expenditures against such funds when received. The moneys in this fund, with the approval of the state budget director, shall be used by the com-

mission for the payment of costs of administration which are found not to have been properly and validly chargeable against funds obtained from federal sources. All moneys in the special employment security administration trust fund shall be continuously available to the commission for expenditure in accordance with the provisions of this chapter and shall not lapse at any time. All payments from the special employment security administration trust fund shall be approved by the commission or by a duly authorized agent thereof and shall be made by the treasurer upon warrants issued by the comptroller and countersigned by the governor. The moneys in this fund are hereby specifically made available to replace, as contemplated by subsection (3) of this section, expenditures from the employment security administration trust fund, established by subsection (1) of this section, which have been found by the bureau of employment security (or other authorized federal agency or authority), because of any action or contingency, to have been lost or improperly expended. The state treasurer shall be liable on his official bond for the faithful performance of his duties in connection with the special employment security administration trust fund.

(3) **REIMBURSEMENT OF FUND.**—If any moneys received after June 30, 1941, from the bureau of employment security under Title III of the social security act, or any unencumbered balances in the employment security administration trust fund as of that date, or any moneys granted after that date to this state pursuant to the provisions of the Wagner-Peyser act, or any moneys made available by this state or its political subdivisions and matched by such moneys granted to this state pursuant to the provisions of the Wagner-Peyser act, after reasonable notice and opportunity for hearing, are found by the bureau of employment security, because of any action or contingency, to have been lost or been expended for purposes other than, or in amounts in excess of, those found necessary by the bureau of employment security for the proper administration of this chapter, it is the policy of this state that such moneys shall be replaced by moneys appropriated for such purposes from the general funds of this state to the employment security administration trust fund for expenditure as provided in subsection (1) of this section. Upon receipt of notice of such a finding by the bureau of employment security, the commission shall promptly report the amount required for such replacement to the governor and the governor shall at the earliest opportunity, submit to the legislature a request for the appropriation of such amount. This subsection shall not be construed to relieve this state of its obligation with respect to funds received prior to July 1, 1941, pursuant to the provisions of Title III of the social security act.

(4) **EXEMPTION OF FUND FROM CERTAIN LAWS.**—The special employment securi-

ty administration trust fund provided for in subsection (2) of this section be, and the same is hereby exempt from the application of any laws of the legislature of 1949, other than this subsection, and specifically from the application or effect by §§282.001-282.002, commonly known as the continuing appropriations law.

443.15 Collection of contributions.—

(1) PAST DUE CONTRIBUTIONS.—

(a) *Interest.*—Contributions unpaid on the date on which they are due and payable shall bear interest at the rate of one-half per centum per month from and after such date until payment plus accrued interest is received by the commission. Interest collected pursuant to this subsection shall be paid into the special employment security administration trust fund.

(b) *Penalty for delinquent reports.*—

1. Any employing unit which fails to file any reports required by the commission in the administration of this chapter, in accordance with regulations adopted by the commission, shall pay to the commission with respect to each such report the sum of five dollars for each thirty days or fraction thereof that such employing unit is delinquent, unless the commission finds that such employing unit has or had good reason for failure to file such report or reports.

2. Sums collected as penalties under the provisions of subparagraph 1. shall be deposited by the commission in the special employment security administration trust fund.

(2) REPORTS, CONTRIBUTIONS, APPEALS.—

(a) *Failure to make reports and pay contributions; duty and power of commission.*—If any employing unit determined by the commission to be an employer subject to the provisions of this chapter fails to make and file any report as and when required by the terms and provisions of this chapter or by any rule or regulation of the commission, for the purpose of determining the amount of contributions due by said employer under this chapter, or if any such report which has been filed is deemed by the commission to be incorrect or insufficient, and such employer after having been given written notice, by registered or certified mail, by the commission to file such report, or a corrected or sufficient report, as the case may be, shall fail to file such report within fifteen days after the date of the mailing of such notice, the commission may 1. determine the amount of contributions due from such employer on the basis of such information as may be readily available to it, which said determination shall be deemed to be prima facie correct; 2. assess such employer with the amount of contributions so determined; and 3. immediately give written notice by registered or certified mail to such employer of such determination and assessment including penalties as provided in

this chapter, if any, added and assessed, demanding payment of same together with interest as herein provided on the amount of contributions from the date when same were due and payable. Such determination and assessment shall be final at the expiration of fifteen days from the date of the mailing of such written notice thereof demanding payment unless such employer shall have filed with the commission a written protest and petition for hearing specifying the objections thereto. Upon receipt of such petition within the fifteen days allowed the commission shall fix the time and place for a hearing and shall notify the petitioner thereof. The commission by regulation may appoint special deputies with full power to hold hearings hereunder, and to submit their findings together with a transcript of the proceedings before them and their recommendations to the commission for its final decision and determination. At any hearing held before the commission or its special deputy, as herein provided, evidence may be offered to support such determination and assessment or to prove that it is incorrect. Provided, however, that at such hearing the petitioner shall be required to show wherein that it is incorrect or else file full and complete corrected reports. Evidence may also be submitted at such hearing to rebut the determination by the commission that the petitioner is an employer under the provisions of this chapter, and upon evidence taken before it or upon the transcript submitted to it with the findings and recommendation of its special deputy the commission may set aside its determination that the petitioner is an employer under the provisions of this chapter or may reaffirm such determination. Any determination made by the commission with reference to the status of an employer under the provisions of this subsection shall become final upon the mailing of notice of such determination by registered or certified mail to the last known address of such employer unless within fifteen days thereof the employer shall have filed in the district court of appeal in the district in which the petitioner resides or in the district court of appeal for the first district of Florida a petition for writ of certiorari. Such review shall proceed in the same manner as provided for a review of decisions of the board of review under §443.07(4)(e). The amounts assessed pursuant to a final determination by the commission hereunder together with interest and penalties shall be paid within fifteen days after notice of such final decision and assessment and demand for payment thereof by the commission shall have been mailed to such employer, unless judicial review is instituted under the provisions hereof in cases of status determinations. Amounts due when the status of the employer is in dispute shall be payable within fifteen days of the entry of an order by the district appellate court affirming such determination. Provided, however, that any determination by the commission that an employing unit is not an employer under the provisions of this chapter shall not affect the benefit rights of any individual as determined by an appeals referee or

the board of review, under the provisions of this chapter, unless such individual shall have been made a party to the proceedings before the commission by registered or certified notice served upon him at least ten days before the holding of any hearing hereunder, or unless such determination of the board of review or appeals referee shall not have become final or the employing unit and the commission shall not have been made parties to the proceedings before the appeals referee or the board of review.

(b) *Appeals.*—Subject to the foregoing provisions of this subsection, the commission shall by regulation prescribe the manner pursuant to which an employing unit which has been determined to be an "employer" may file an appeal and be afforded an opportunity for a hearing on such determination.

(3) **COLLECTION PROCEEDINGS.**—

(a) *Lien for payment of contributions.*—

1. There is hereby created a lien in favor of the commission upon all the property both real and personal of any employer who shall become liable for the payment of any contribution levied and imposed upon it by this law for the amount of the contributions due and payable under the provisions hereof, together with interest, costs and penalties; and if any contribution imposed by this chapter or any portion of such contribution or interest or penalty be not paid within sixty days after the same becomes delinquent the commission may thereafter issue a notice of lien under its official seal, which notice of lien may be filed in the office of the clerk of the circuit court of any county in which the delinquent employer owns property or has conducted business, and which notice of lien shall set forth the periods for which the contributions, interest or penalties are demanded and the amounts thereof, copy of which notice of lien shall be mailed to the employer at his last known address by registered mail. Provided, that notice of lien may be issued and recorded at the expiration of fifteen days from the date assessment becomes final under the provisions of §443.15(2) hereof. Upon presentation of said notice of lien the clerk of the circuit court shall record same in a book maintained by him for that purpose, and thereupon the amount of said notice of lien, together with the cost of recording and interest accruing upon the contribution amount, shall become a lien upon the title to and interest, whether legal or equitable, in any real property, chattels real, or personal property of such employer against whom such notice of lien is issued, in the same manner as a judgment of the circuit court duly docketed in the office of such circuit court clerk with execution duly issued thereon and in the hands of the sheriff for levy; and such lien shall be prior, preferred and superior to all mortgages or other liens filed, recorded, or acquired subsequent to the time such notice of lien shall have been filed. Upon the payment of the amounts due thereunder, or upon determination by the commission that such notice of lien was erroneously issued, the same may be satisfied of record by the commission by an acknowledgment under the seal of the commission that such lien has

been fully satisfied. Such satisfaction need not be acknowledged before any notary or other public officer and the seal of the commission together with the signature of the chairman or member thereof shall be conclusive evidence of the satisfaction of said lien, which satisfaction shall be recorded by the clerk of the circuit court who shall receive fees for such services as may be fixed by law for the recording of instruments generally.

2. The commission may thereafter issue a warrant under its official seal and signed by the chairman thereof, directed to all and singular sheriffs in the State of Florida, commanding them to levy upon and sell any real or personal property of the employer liable for any amount under this law within their respective jurisdictions, for the payment of the amount thereof, with the added penalties, interest and the costs of executing the warrant, together with costs of the clerk of the circuit court in recording and docketing the notice of lien, and to return such warrant to the commission and to pay to it the money collected by virtue thereof; such warrant shall issue and be enforced for all amounts due the commission as of the date of issuance thereof, together with interest accruing on the contribution amount due from said employer to the date of payment at the rate provided herein; provided, that in the event of sale of any assets of the employer, priorities under said warrant shall be determined in accordance with the priority established by the notice or notices of lien filed by the commission and recorded by the clerk of the circuit court. The sheriff shall proceed upon said warrant in all respects with like effect and in the same manner prescribed by law in respect to executions issued out of the office of the clerk of the circuit court upon judgments of the circuit court and the sheriff shall be entitled to the same fees for his services in executing the warrant as under a writ of execution out of the circuit court, said fees to be collected in the same manner.

(b) *Injunction—procedures to contest warrants after issuance.*—No writ of injunction or restraining order to stay the execution of such warrant shall issue until a bill praying therefor shall have been filed and reasonable notice of hearing of motion for such injunction has previously been served on the commission, nor unless the party applying therefor shall have previously tendered and paid into the custody of the court the full amount of contributions, interests, costs and penalties claimed in such warrant or entered into and filed in said court a bond with two or more good and sufficient sureties approved by the court in a sum at least double the amount of such contributions, interests, costs and penalties, payable to the commission, and conditioned to pay the amount of such warrant, interest thereon, and such damages as may be occasioned by the wrongful issuing of said injunction, if the said injunction shall be dissolved, or the bill upon which it may be granted be dismissed. Only one surety shall be required when such bond is exe-

cuted by a lawfully authorized surety company as surety thereon.

(c) *Attachment and garnishment.*—Upon the filing of notice of lien as provided in §443.15 (3) (a) 1. hereof, the commission shall be entitled to remedy by attachment or garnishment as provided in chapters 76 and 77, as for a debt due and upon application by the commission such writs shall issue out of the office of the clerk of the circuit court as upon a judgment of the circuit court duly docketed and recorded, and such writs shall be made returnable to the circuit court. Provided, however, that no bond shall be required of the commission as a condition precedent to the issuance of said writs of attachment or garnishment. Issues raised under proceedings by attachment or garnishment shall be tried by the circuit court as upon a judgment thereof in the manner provided in chapters 76 and 77. Provided, further, that said notice of lien filed by the commission shall be of full force and effect for the purposes of all remedies provided for in this chapter until satisfied as provided in this chapter, and no revival by scire facias or other proceedings shall be necessary prior to the pursuit of any remedy herein provided for, and proceedings authorized as upon a judgment of the circuit court shall not be construed as making of said lien a judgment of the circuit court upon a debt for any purpose except as herein specifically set forth as procedural remedies only.

(d) *Third party claims.*—Upon any levy made by the sheriff under the authority of a writ of attachment or garnishment as provided in §443.15(3)(c) third party claims to property involved shall be tried by the circuit court as upon a judgment thereof and all proceedings shall be authorized on such third party claims as provided in §§55.39, 55.43, 76.21 and 77.16.

(e) *Proceedings supplementary to execution.*—At any time after a warrant provided for in §443.15(3)(a)2. shall have been in the hands of any sheriff of this state and returned unsatisfied the commission may make and file an affidavit in the circuit court affirming such fact and also that said warrant is valid and outstanding and also stating the residence of the party or parties against whom the warrant has been issued, and the commission shall thereupon be entitled to have other and further proceedings in the circuit court as upon a judgment thereof as provided in §55.52 et seq.

(f) *Photostats.*—In any proceedings in any court under this chapter photostats of original records or microfilm copies of records of the Florida industrial commission shall be primary evidence in lieu of the originals of said records or of the documents which have been transcribed into such records.

(g) *Jeopardy assessment and warrant.*—If the commission has just cause to believe and does believe that the collection of contributions from an employer will be jeopardized by delay it may assess such contributions immediately, together with interest or penalties when due, whether or not contributions accrued

have become due, and may immediately issue a notice of lien and jeopardy warrant upon which proceedings may be had as herein provided for notice of lien and warrant of the commission. Within fifteen days from the mailing of such notice of lien by registered mail the employer against whom such notice of lien and warrant is issued may protest the issuance thereof in the same manner provided in §443.15(3)(a) and further proceedings shall be had upon said protest as therein provided. Such protest shall not operate as a supersedeas or stay of enforcement proceedings until and unless the employer shall have filed with the sheriff seeking to enforce the warrant of the commission a good and sufficient surety bond in twice the amount demanded by said notice of lien or warrant conditioned upon payment of the amount subsequently found to be due from the employer to the commission by final determination of the commission upon protest of assessment. Said jeopardy warrant and notice of lien shall be satisfied by the commission in the manner heretofore provided upon payment of the amount finally determined to be due from said employer. In the event enforcement of said jeopardy warrant is not superseded as hereinabove provided the employer shall be entitled to a refund from the fund of all amounts paid as contributions in excess of the amount finally determined to be due by said employer upon application being made as provided in this chapter.

(4) MISCELLANEOUS PROVISIONS FOR ENFORCEMENT OF COLLECTION OF CONTRIBUTIONS.—(a) Independently of all other remedies and proceedings authorized by this law for the enforcement of and the collection of contributions hereby levied, a right of action by suit in the name of the commission is hereby created. Suit may be maintained and prosecuted, and all proceedings taken, to the same effect and extent as for the enforcement of a right of action for debt or assumpsit, and any and all remedies available in such actions including attachment and garnishment shall be available to the commission for the collection of any contribution accruing hereunder; provided that the commission shall not be required to post bond in any such action or proceeding; and providing further that nothing herein contained shall be construed as making of said contributions a debt or demand unenforceable against homestead property provided by article X of the constitution of the state, the above remedies being procedural only.

(b) Any employer failing to make return or to pay the contributions levied under this chapter, and who has not ceased to be an employer as provided in §443.09 hereof, may be enjoined from employing individuals in employment as defined in this chapter upon the complaint of the commission in the circuit court of the county in which said employer may be doing business; and such employer so failing to make return or to pay contributions levied hereunder shall be enjoined from employing individuals in employment until such return shall have been made

and the contributions shown to be due thereunder paid to the commission.

(c) The commission or any agent or employee whom it may designate shall have the power to administer an oath to any person in respect to any return or report required by this law or by the rules and regulations of the commission and such oath made before the commission or any authorized agent or employee shall have the same efficacy as an oath made before any judicial officer or notary public of the state.

(d) Civil actions brought under this chapter to collect contributions and interest thereon, or any proceeding had herein for the collection of contributions from an employer shall be heard by the court having jurisdiction thereof at the earliest possible date, and shall be entitled to preference upon the calendar of said court over all other civil actions except petitions for judicial review of claims for benefits arising under this chapter and cases arising under the workmen's compensation law of this state.

(e) The commission is hereby authorized to commence action in any other state by and in the name of the commission to collect unemployment compensation contributions, penalties and interest legally due this state. The officials of other states which extend a like comity to this state are authorized to sue for the collection of such contributions, interest and penalties in the courts of this state. The courts of this state shall recognize and enforce liability for such contributions interest and penalties imposed by other states which extend a like comity to this state.

(f) The collection of any contribution, interest and penalty otherwise due under this chapter shall not be enforceable by civil action, warrant, claim or other means unless within five years from the date upon which such contribution, interest and penalty became due and payable as provided by law and by regulations of the commission, a notice of lien with respect to such contribution, interest and penalty was filed for record with a clerk of a circuit court as provided in subsection (3) of this section.

(5) PRIORITIES UNDER LEGAL DISSOLUTION OR DISTRIBUTIONS.—In the event of any distribution of any employer's assets pursuant to an order of any court under the laws of this state, including any receiverships, assignment for benefit of creditors, adjudicated insolvency, composition, administration of estates of decedents, or any other similar proceeding, contributions then or thereafter due shall be paid in full prior to all other claims except claims for wages of not more than two hundred and fifty dollars to each claimant, earned within six months of the commencement of the proceeding, and on a parity with all other tax claims wherever such tax claims shall have been given priority. In the administration of the estate of any decedent the filing of notice of lien shall be deemed a proceeding required upon protest of the claim filed by the commission for

contributions due under this chapter and such claim shall be allowed by the county judge. Provided, however, that the personal representative of the decedent may by petition to the circuit court object to the validity of the claim of the commission and proceedings shall be had in the circuit court for the determination of the validity of the claim of the commission, and, provided further, that the bond of the personal representative shall not be discharged until such claim is finally determined by the circuit court, and where no bond has been given by the personal representative none of the assets of said estate shall be distributed until such final determination by the circuit court; and, provided, further, that upon distribution of the assets of the estate of any decedent the claim of the commission shall have priority established in class (5) of §733.20, subject to the above limitations with reference to wages. In the event of any employer's adjudication in bankruptcy, judicially confirmed extension proposal, or composition, under the federal bankruptcy act of 1898, as amended, contributions then or thereafter due shall be entitled to such priority as is provided in §64B of that act (U. S. C. Title II, §104(b), as amended).

(6) REFUNDS.—If not later than four years after the date of payment of any amount as contributions, interest or penalties, an employing unit who has paid such contributions, interest or penalties shall make application for an adjustment thereof in connection with subsequent contribution payments, or for a refund thereof because such adjustment cannot be made, and the commission shall determine that such contributions or interest or penalties or any portion thereof was erroneously collected, the commission shall allow such employer to make an adjustment thereof without interest in connection with subsequent contribution payment by him, or if such adjustment cannot be made, the commission shall refund said amount, without interest, from the fund. For like cause, and within the same period, adjustment or refund may be made on the commission's own initiative. Provided, however, that nothing in this chapter shall be construed to authorize a refund of contributions which were properly paid in accordance with the provisions of this chapter at the time of such payment, except as required by §443.03(5)(g) 7.; provided further that refunds under this subsection and under §443.03 (5) (g) 7. may be paid from either the clearing account or the benefit account of the unemployment compensation trust fund and from the special employment security administration trust fund with respect to interest or penalties which have been previously paid into such fund, provisions of §443.10 (2) to the contrary notwithstanding.

443.16 Waiver of rights; fees; privileged communications.—

(1) WAIVER OF RIGHTS VOID. — Any agreement by an individual to waive, release, or commute his rights to benefits or any other rights under this chapter shall be void. Any agreement by an individual in the employ of any person or concern to pay all or any portion of any employer's contributions, required under this chapter from such employer, shall be void. No employer shall directly or indirectly make or require or accept any deduction from wages to finance the employer's contributions required from him, or require or accept any waiver of any right hereunder by any individual in his employ. Any employer or officer or agent of an employer who violates any provision of this subsection shall, for each offense, be fined not less than one hundred nor more than one thousand dollars, or be imprisoned for not more than six months, or both.

(2) FEES.—

(a) No individual claiming benefits shall be charged fees of any kind in any proceeding under this chapter by the commission or its representatives, or by any court or any officer thereof, except as hereinafter provided. Any individual claiming benefits in any proceeding before the commission or representatives of the commission or a court may be represented by counsel or duly authorized agent, but no such counsel or agent shall either charge or receive for such services more than an amount approved by the commission or by the court.

(b) An attorney at law representing a claimant for benefits in any district court of appeal of this state or in the supreme court of Florida shall be entitled to counsel fees payable by the commission as fixed by the court in either of the following cases:

1. Where petition for review or appeal is initiated by any party to such proceeding other than the claimant, or

2. Where such petition for review or appeal is initiated by the claimant and results in a decision awarding more benefits than did the decision under review or from which appeal was taken.

(c) Attorneys' fees awarded under this section shall be paid by the commission out of employment security administration funds as a part of the costs of administration of this chapter and may be paid directly to the attorney for the claimant in a lump sum.

(d) Any person, firm or corporation who or which seeks or receives any remuneration or gratuity for any services rendered on behalf of a claimant, except as allowed by this section and in an amount approved by the commission or by a court, shall be guilty of a misdemeanor. Any person, firm or corporation who or which shall solicit the business of appearing on behalf of a claimant, or shall make it a business to solicit employment for another in connection with any claim for benefits under this chapter, shall be guilty of a misdemeanor.

(3) PRIVILEGED COMMUNICATIONS.— All letters, reports, communications, or any other

matters, either oral or written, from the employer or employee to each other or to the commission or any of its agents, representatives or employees which shall have been written, sent, delivered, or made in connection with the requirements and administration of this chapter, shall be absolutely privileged and shall not be made the subject matter or basis for any suit for slander or libel in any court of the state.

443.18 Reciprocal arrangement.—

(1) The commission is hereby authorized to enter into reciprocal arrangements with appropriate and duly authorized agencies of other states or of the federal government, or both, whereby:

(a) Services performed by an individual for a single employing unit for which services are customarily performed by such individuals in more than one state shall be deemed to be services performed entirely within any one of the states:

1. In which any part of such individual's service is performed, or

2. In which such individual has his residence, or

3. In which the employing unit maintains a place of business, provided there is in effect as to such services, an election, approved by the agency charged with the administration of such state's unemployment compensation law, pursuant to which all the services performed by such individual for such employing unit are deemed to be performed entirely within such state;

(b) Potential rights to benefits accumulated under the unemployment compensation laws of one or more states or under one or more such laws of the federal government, or both, may constitute the basis for the payment of benefits through a single appropriate agency under terms which the commission finds will be fair and reasonable as to all affected interests and will not result in any substantial loss to the fund;

(c) Wages or services, upon the basis of which an individual may become entitled to benefits under an unemployment compensation law of another state or of the federal government, shall be deemed to be wages for insured work for the purpose of determining his rights to benefits under this chapter, and wages for insured work, on the basis of which an individual may become entitled to benefits under this chapter shall be deemed to be wages or services on the basis of which unemployment compensation under such

law of another state or if the federal government is payable, but no such arrangements shall be entered into unless it contains provisions for reimbursements to the fund for such of the benefits paid under this chapter upon the basis of such wages or services, and provisions for reimbursements from the fund for such of the compensation paid under such other law upon the basis of wages for insured work, as the commission finds will be fair and reasonable as to all affected interests; and

Such number of placements shall be broken down in the following classifications: clerical, industrial, hotel and restaurant, and domestic. Forms for such reports shall be furnished by the commission. The commission shall furnish each licensed agency a statistical report combining the above information from all agencies with same information from files of the Florida state employment services.

Am. §3, ch. 25265, 1949.

449.05 Registration fees, when permitted; investigation; revocation of permit; referral.—

(1) No such licensed agency shall charge a registration fee without having first obtained a permit to charge such registration fee from the commission. Any such licensed person desiring to charge such registration fee shall make application in writing to the commission, and shall set out in the application the type of applicants from whom it is intended to accept a registration fee, the amount of the fee to be charged, and shall furnish any other information on the subject that the commission may deem necessary to enable it to determine whether permit shall be granted.

(2) The commission may make investigation, upon receipt of the application, as to the truthfulness of said application and the necessity of the charge of a registration fee; and if it is shown that the applicant's method of doing business is of such a nature that a permit to charge a registration fee is necessary, and that the record of the applicant's past method of charging a registration fee has been reasonable and fair, then the commission may grant a permit to such applicant, which permit shall remain in force until revoked for cause. No permit shall be granted until after ten days from the date of filing of the application.

*(3) When a permit is granted such licensed agency may charge a registration fee not to exceed two dollars. In all cases a complete record of all such registration fees and reference of applicants of all such registration fees and references of applicants shall be kept on file. For such registration fee a receipt shall be given to said applicant for help or employment, and shall state therein the name of such applicant,

date and amount of payment, the character of position or help applied for, and the name and address of such agency. If no position has been furnished by said licensed agency to the said applicant, then said registration fee shall be returned to the said applicant on demand after thirty days and within six months from date of the receipt thereof, less the amount that has been actually expended by said licensed agency in checking the references of said applicant, and an itemized amount of such expenditures shall be presented to said applicant on request at the time of returning the unused portion of such registration fee.

(4) Any such permit granted by the commission may be revoked by it, in the same manner as prescribed herein for the revocation of licenses.

*(5) No such licensed agency shall, as a condition to registering or obtaining employment for any applicant, require such applicant to subscribe to any publication or to any post card service or advertisement. Each licensed agency shall be permitted to accept an advance fee in the form of a deposit. All such advance deposit fees taken, shall be deposited in the escrow account. No funds are to be withdrawn from the escrow account by the agency before the date of the applicant's acceptance of employment. Whenever an applicant fails to secure or refuses to accept a position furnished by the agency no fee shall have been earned, and any advance fee on deposit with the escrow agent shall be refunded in full to the applicant within three business days after request. If an applicant accepts a position through the efforts of the licensed agency and fails to report for work at the prescribed time, or quits, then said applicant shall owe the licensed agency the full placement fee for the said job and shall forfeit the total amount deposited with the licensed agency. In the event the applicant has an advance fee on deposit with the licensed agency of an amount exceeding the total fee of said position, then such overpayment of fee shall be refunded to the applicant within three days after request.

(6) Each applicant sent to an employer for an interview shall be furnished with a referral card containing the following information: The name and address of the employer doing the interviewing, the position for which the applicant is being interviewed, the salary offered, who is paying the cost of transportation for the interview, and a space must be provided whereby the interviewer can sign his or her name, after noting thereon whether the applicant has been engaged.

(7) In addition to the receipt herein provided to be given for a registration fee, it shall be the duty of such licensed agency to give to every applicant for employment or help from whom other fee or fees shall be received, an additional receipt in which shall be stated the name of the applicant, the amount of the fee, date of payment. All such receipts shall be in duplicate, numbered consecutively, shall contain the name and address of such agency. The duplicate receipt shall be kept on file in the

agency for at least one year from date thereof.

* (8) If the employer pays the fee, and the employee fails to remain in the position for the period of fourteen days, such licensee shall refund to the employer all fees, less an amount equal to twenty-five per cent of the total fee, within three days after said licensed agency has been notified of the employee's failure to remain in the employment.

* (9) If the applicant is discharged at any time within fourteen calendar days for any reason other than intoxication, dishonesty, unexcused tardiness, unexcused absenteeism, insubordination, misrepresentation of abilities, education or skills, or otherwise fails to remain in the position for a period of fourteen calendar days through no fault of his own, such licensed agency shall refund to the employee all fees paid to said agency, less an amount equal to twenty-five per cent of the total fee. All refunds shall be in cash or negotiable check and shall be made within three days of the time such licensed agency has been notified of the employee's failure to remain in the employment.

449.13 Revocation of license; procedure; jurisdiction, etc.—No license shall be revoked by the commission unless due notice is given to the licensee, holding such license and the said licensee is given an opportunity for public hearing as provided by this section.

When a written complaint is filed with the commission against a licensed employment agency, charging said licensee with any act prohibited by this chapter, the commission shall conduct an investigation and if from such investigation it shall appear to the commission that there is ground for revocation of license, a day shall be set by the commission for public hearing to determine whether or not the license of the accused shall be revoked. The hearing shall be heard before a deputy commissioner appointed by the commission who shall transmit to the accused by registered mail a notice setting forth the charge or charges that will be heard before the deputy commissioner, and the date and place at which the hearing will be held, which date shall not be less than thirty days after mailing such notice. The accused licensee may appear before the deputy commissioner at such time and place, in person or by counsel, and dispute or disprove the said charge or charges. For the purpose of such hearing, the deputy commissioner shall have the power to require the production of books, papers, or other documents, and may issue subpoenas to compel the defendants or witnesses to testify, produce such books, papers, or other documents as may be, in the opinion of the deputy commissioner, relevant to the issues involved; said subpoenas to be served by duly authorized agent of the commission or by the sheriff of the county where the witnesses reside or may be found; such witnesses shall be entitled to the same per diem and mileage as witnesses appearing in the circuit courts of the state, which shall be paid by the commission. The deputy commissioner shall administer oaths or affirmations to witnesses appearing before

him. If any person shall refuse to obey any subpoena so issued, or shall refuse to testify or produce any books, papers, or other documents, required by the commission or deputy commissioners, the deputy commissioner may present his petition to the circuit court of the county where any such person is served with a subpoena, or where he resides, setting forth the facts, and shall deposit with said court the per diem and mileage to secure the attendance of such witness; whereupon, the court shall issue a rule nisi to such person, requiring him to obey forthwith the subpoena issued by the commission, or show cause why he fails to obey the same; and unless the said person shows sufficient cause for failing to obey the said subpoena, the court shall forthwith direct such person to obey the same, and, upon refusal to comply, he shall be adjudged in contempt of court and shall be punished as the court may direct.

The hearing shall be held by a deputy commissioner, and stenographically reported, who shall enter his order revoking the license of the licensee, or denying the charges upon which the hearing was held, within twenty days after the conclusion of the hearing. The order of the deputy commissioner shall be filed in the office of the commission at Tallahassee, and a copy of such order shall be sent by registered mail to the licensee, addressed to the licensee at the address shown on his application for license.

The order rendered by the deputy commissioner shall become final seven days after same was filed in the office of the commission at Tallahassee, unless within said time any interested party may make and file with the commission an application for review thereof by the commission. As soon as practicable after receiving such application, the deputy commissioner shall have prepared a transcript of the testimony adduced at the hearing before him, to which he shall attach his certificate, and shall return the same, together with the file, to the commission. The commissioner shall consider the matter upon the record as prepared and certified by the deputy commissioner, and shall thereafter affirm, reverse or modify said order, or remand to a deputy commissioner for further proceedings. The order of the commissioner shall be filed in the office of the commission and shall become final unless either party shall file in the appropriate district court of appeal a petition for the issuance of a writ of certiorari in the manner and within the time provided by the Florida appellate rules.

History.—§13, ch. 24080, 1947; §4, ch. 61-421; §31, ch. 63-512.

449.14 Additional remedy to control unlawful practice.—As an alternative, supplemental and additional remedy, in cases of unlawful practices, the commission may, notwithstanding the procedure prescribed in §449.13, apply directly to the circuit court of the county wherein the person proceeded against resides, or where any of the unlawful practices, as set out in this chapter, are being committed, for an injunction restraining such person from operating as an employment agent. The court may, in its dis-

cretion, grant a temporary injunction restraining the defendant from operating as an employment agency pending the outcome of said cause, and upon final hearing, permanently enjoin him from further operation as an employment agent. The commission shall not be required to give any bond in any proceeding hereunder.

History.—§14, ch. 24080, 1947.

449.15 When application license may be denied.—The commission may deny any application for license for applicant's failure to meet any qualification or requirement prescribed in this chapter, or for any cause which, if applicant were already licensed hereunder, would be ground for revocation of such license.

Upon denial of any application, the commission shall promptly notify the applicant by registered mail, setting forth in said notice the ground or grounds on which such application was denied. Denial of the application shall be final unless, within twenty days from date of mailing notice of denial, applicant files with the commission his appeal from such denial and requests public hearing. Upon receipt of such appeal and request for hearing, the commission shall set a date therefor, and appoint a deputy commissioner to conduct said hearing, after which the matter shall proceed as hereinbefore provided for revocation of licenses. At any time before denial of an application becomes final, the commission may rescind its denial, and issue the license applied for.

No fee shall be refunded to any applicant until after denial of application becomes final by reason of applicant's right to appeal having expired. Refunds shall be made without interest.

History.—§15, ch. 24080, 1947.

(2) Any person violating any of the provisions of this chapter by scheme, trick, false advertising, false statements of any kind, or by wilful misrepresentation causes an applicant to be sent or directed to any fictitious job or position, or so induces an applicant to register for employment and act to his disadvantage, shall upon conviction be deemed guilty of a felony and shall be punishable by a fine of not more than \$1,000.00 or imprisonment in the state prison for a term of not more than 2 years or by both such fine and imprisonment in the discretion of the court. 453.01 Declaration of policy.—That it is hereby declared to be the public policy of the State of Florida that it is necessary and essential in the public interest to facilitate the prompt, peaceful and just settlement of labor disputes between public utility employers and their employees which cause or threaten to cause an interruption in the supply of services necessary to the health, safety and well-being of the citizens of Florida, and to that end to encourage the making and maintaining of agreements concerning wages, hours and other conditions of employment through collective bargaining between public utility employers and their employees, and to provide settlement procedures for labor disputes between public utility employers and their employees in cases where the collective bargaining process has reached an impasse and stalemate, and as a result thereof the parties are unable to effect such settlement and which labor disputes, if not settled, are likely to cause interruption of the supply of a public utility service on which the community so affected is so dependent that severe hardship would be inflicted on a substantial number of persons by a cessation of such service.

History.—§1, ch. 23911, 1947.
cf.—Ch. 447, Labor organizations.

453.02 Definitions.—

(1) The term "public utility employer" means an employer engaged in the business of rendering electric power, light, heat, gas, water, communication or transportation services to the public in this state.

(2) The term "collective bargaining" means collective bargaining of or similar to the kind provided for by the federal law known as the national labor relations act and as interpreted by decisions of the supreme court of the United States arising under said last mentioned act.

History.—§2, ch. 23911, 1947.
cf.—§453.17, Publicly owned utilities excepted.

453.03 Duty to make effort to settle labor disputes.—It shall be the duty of public utility employers and their employees in public utility

operations to exert every reasonable effort to settle such labor disputes by the making of agreements through collective bargaining between the parties, and by the maintaining thereof when made, and to prevent, if possible, the collective bargaining process from reaching a state of impasse and stalemate.

History.—§3, ch. 23911, 1947.

453.04 Petition for and appointment of conciliator.—If in any case of a labor dispute between a public utility employer and its employees, the collective bargaining process reaches an impasse and stalemate, with the result that the employer and the employees are unable to effect a settlement thereof, then either party to the dispute may petition the governor of the State of Florida to appoint a conciliator. The party filing such a petition shall serve a true copy thereof upon the other party or parties to such labor dispute. Service shall be made by delivering such a copy (a) in the case of public utility employer, to one of its officers or a member of its collective bargaining committee and (b) in the case of a labor organization, a labor union or a group of employees in the process of organizing, to one of the officers, business agents, organizers or collective bargaining committeemen of such organization, union or group. In case service cannot be so made within twenty-four hours after the time of the actual receipt of the petition by the governor, then such service shall be effected by mailing (registered mail—return receipt requested) such a copy to the last known principal post office address or box of the party entitled to receive the same. In event such acceptance or delivery of such mailing is refused then such service shall be fully and sufficiently effected by the immediate posting of a true copy of the petition on the bulletin board of at least one major place of employment of employees involved in such labor dispute. The party effecting such service shall make and file with the governor a certificate setting forth the time and date of such service and the manner in which it was so effected. Upon the filing of such petition, the governor shall consider the same, and if he deems advisable shall order a

hearing thereon, and if in his opinion the collective bargaining process, notwithstanding good faith efforts on part of both sides to such dispute, has reached an impasse and stalemate and such dispute, if not settled, will cause or is likely to cause the interruption of the supply of a service on which the community affected is so dependent that severe hardship would be inflicted on a substantial number of persons by a cessation of such service, the governor shall appoint a conciliator to attempt to effect the settlement of such dispute. Such conciliator shall be allowed reasonable compensation for his services and for his necessary expenses, in an amount to be fixed by the governor, such compensation and expenses to be shared equally by the parties to the dispute.

History.—§4, ch. 23911, 1947.

453.05 Work interruption; prohibited.—The conciliator so named shall expeditiously meet with the disputing parties and shall exert every reasonable effort to effect a prompt settlement of such dispute. From and after the filing of a petition with the governor as provided for in §453.04 hereof, and until and unless the governor shall determine that the failure to settle the dispute with respect to which such petition relates would not cause severe hardship to be inflicted on a substantial number of persons, there shall be no interruption of work and no strikes or slowdowns by the employees, and there shall be no lockout or other work stoppage by the employer, until such time as all procedure provided for by this chapter has been exhausted or during the effective period of any order issued by a board of arbitration pursuant to the provisions of this chapter.

History.—§5, ch. 23911, 1947.
cf.—§447.13, Right to strike preserved.

453.06 Inability to effect settlement; appointment of board of arbitration; compensation and expenses.—If the conciliator so named is unable to effect a settlement of such dispute within a thirty day period after his appointment, he shall report such fact to the governor; and the governor may allow such conciliator up to an additional fifteen days in which to attempt to effect a settlement of such dispute and make report to the governor; and the governor, if he believes that a continuation of the dispute will cause or is likely to cause the interruption of the supply of a service on which the community so affected is so dependent that severe hardship would be inflicted on a substantial number of persons by a cessation of such service, shall appoint a board of arbitration to hear and determine such dispute. The board of arbitration shall consist of one public member chosen by the governor, and one member designated in writing by each of the parties to the dispute. If either party to the dispute shall fail or refuse to designate its member within one week after appointment of the public member, the governor shall appoint such member in the same manner as the public member is appointed. A new board shall be chosen by the governor for each separate dispute; but the same board may hear any

number of issues or grievances which are involved at the same time in any dispute between the same employer and his employees. The public member of such board of arbitration shall be allowed reasonable compensation for his services and shall be reimbursed for traveling expenses as provided in §112.061, in an amount to be fixed by the governor, and such compensation of such board of arbitration shall be shared equally by the parties to the dispute.

History.—§6, ch. 23911, 1947; §19, ch. 63-400.

453.07 Arbitration board; hearings.—The board of arbitration shall promptly hold hearings and shall have the power to administer oaths and compel the attendance of witnesses and the furnishing by the parties of such information as may be necessary to a determination of the issue or issues in dispute. Both parties to the dispute shall have the opportunity to be present at the hearing, both personally and by counsel, and to present such oral and documentary evidence as the board shall deem relevant to the issue or issues in controversy.

History.—§7, ch. 23911, 1947.

453.08 Finding and order of board.—It shall be the duty of the board to make written findings of fact, and to promulgate a written decision and order upon the issue or issues presented in each case. In making such findings the board shall consider only, and be bound only, by the evidence submitted. When a valid contract is in effect defining the rights, duties and liabilities of the parties with respect to any matter in dispute, the board shall have power only to determine the proper interpretation and application of the contract provisions which are involved. Where wage rates or other conditions of employment under a proposed new or proposed amended contract are in dispute, the board shall establish rates of pay and conditions of employment which are comparable to the prevailing wage rates paid and conditions of employment maintained by the same or similar public utility employers, if any, in the same labor market area, and if none, in adjoining labor market areas within the state, and if none, in adjoining labor market areas in states bordering on this state, and which in addition thereto bear a generally comparable relationship to wage rates paid and conditions of employment maintained by all other employers in the same labor market area. The board shall determine in each case, based upon the evidence presented and received by the board, what constitutes in that case the labor market area involved. The board may establish separate schedules of wage rates and separate conditions of employment in each labor market area. In establishing wage rates the board shall take into consideration the overall compensation presently received by the employees, having regard not only to wages for time actually worked but also to wages for time not worked, including (without limiting the generality of the foregoing) vacations, holiday, and other excused time, and all benefits received, including insurance and pensions, and the con-

tinuity and stability of employment by the employees.

History.—§8, ch. 23911, 1947.

453.09 Time within which to make findings; majority decision; recording; finality of order.

—The board of arbitration shall hand down its findings, decision and order (hereinafter referred to as its order) within sixty days after its appointment; provided, however, that the governor may for good cause extend said period for not to exceed an additional thirty days. If all three members of the board do not agree, the order of the majority shall constitute the order of the board. The board shall furnish to each of the parties a copy of its order. A certified copy thereof shall be filed in the office of the clerk of the circuit court of the county wherein the dispute arose or in the office of the clerk of the circuit court of any county where the employer operates or maintains an office or place of business. Unless such order is reversed upon a petition for review filed pursuant to the provisions of §453.10, such order, together with such agreements as the parties may themselves have reached, shall become binding upon, and shall control the relationship between, the parties from the date such order is filed with the clerk of the circuit court, as aforesaid, and shall continue effective for one year from that date, but such order may be changed by mutual consent or agreement of the parties. No order of the board relating to wages or rates of pay shall be retroactive to a date before the date of the termination of any contract which may have existed between the parties, or, if there was no such contract, to a date before the day on which the governor appointed a conciliator in such dispute.

History.—§9, ch. 23911, 1947.

453.10 Review of order; by circuit court.

Either party to the dispute may within fifteen days from the date such order is filed with the clerk of the court petition the circuit court of any county, in which the employer operates or has an office or place of business, for a review of such order on the ground (a) that the parties were not given reasonable opportunity to be heard, or (b) that the board of arbitration exceeded its powers, or (c) that the order is unreasonable in that it is not supported by the evidence, or (d) that the order was procured by fraud, collusion, or other unlawful means or methods. A summons to the other party to the dispute shall be issued as provided by law in other civil cases; and either party shall have the same rights to a change of venue from the county, or to a change of judge, as provided by law in other civil cases. The judge of the circuit court, without the intervention of a jury, shall hear the evidence adduced by both parties with respect to the issue raised by such petition and may reverse said order only if he finds that (a) one of the parties was not given reasonable opportunity to be heard, or (b) that the board of arbitration exceeds its powers, or (c) that the order is unreasonable in that it is not supported by the evidence, or (d) that the order was pro-

cured by fraud, collusion or other unlawful means or methods. The decision of the judge of the circuit court shall be final, unless an appeal is taken to the supreme court as hereinafter provided. If the court reverses said order for one of the reasons stated herein, and no appeal is taken to the supreme court, the clerk of said court shall certify the court's decision to the governor, who may either attempt further conciliation or may appoint another board of arbitration, as hereinabove provided for, in the event that the parties do not prefer first to engage in further collective bargaining in an attempt to settle such dispute.

History.—§10, ch. 23911, 1947.

453.11 Appeal to supreme court.—Any interested party may appeal to the supreme court from the decision of the judge of the circuit court within the same period of time and following the same procedure as used in appeals from the order of the board of arbitration to the circuit court. The supreme court shall give precedence to the hearing of such appeals because of the public interest involved. If the supreme court reverses said order, then its order shall be certified to the governor in the same manner as above provided in case of reversal by the circuit court.

History.—§10, ch. 23911, 1947.

453.12 Penalty for violation by an individual.

—Any violation of this chapter by any member of a group of employees acting in concert, or by any employer or by any officer of an employer acting for such employer, or by any other individual, shall constitute a misdemeanor, punishable upon conviction by a fine of not more than one thousand dollars or by imprisonment in the county jail for not more than twelve months, or both.

History.—§11, ch. 23911, 1947.

453.13 Penalty for lockout strike or work stoppage.

—Any lockout engaged in by any utility, or any strike or work stoppage engaged in by any labor organization or labor union or any concerted or simultaneous action on the part of a substantial number of the members of any labor organization or labor union, which shall result in an interruption in or suspension of operation of any utility in violation of this chapter, shall subject such utility, or labor organization or labor union to a penalty not to exceed ten thousand dollars per day for each day that such interruption or suspension of operation shall continue. Such penalty shall be to the state and recoverable by it in any appropriate legal action. All legal proceedings under this section against corporations or unincorporated bodies to recover any such penalty or penalties may be instituted and conducted according to the provisions of general law applicable to suits or actions against such corporations or bodies.

History.—§12, ch. 23911, 1947.

cf.—§453.17. Inapplicable to publicly owned utilities.
§447.13. Right to strike.

453.14 Action for injunction.—Any person

adversely affected by reason of any violation of the provisions of this chapter may file an action in the circuit court of the county in which any such violation occurs to restrain and enjoin such violation and to compel the performance of the duties imposed by this chapter.

History.—§13, ch. 23911, 1947.

453.15 Rights of immunities of individual employees; intent of law.—Nothing in this chapter shall be construed to require an individual employee to render labor or service without his consent, or to make illegal the quitting of his labor or service or the withdrawal from his place of employment unless done in concert or by agreement with others. No court shall have power to issue any process to compel an individual employee to render labor or service or to remain at his place of employment without his consent. It is the intent of this chapter only to forbid employees to leave their employment in concert or to cause a work

slowdown or stoppage in concert, and to forbid an employer to lock out his employees, in any case where the resultant interruption of public service would cause hardship to a substantial number of persons.

History.—§14, ch. 23911, 1947.

453.16 National railway labor act not affected.—Nothing in this chapter shall apply to any utility to which the national railway labor act is applicable.

456.31 Legislative intent.

456.32 Definitions.

456.30 Short title.—This part II of this chapter shall be known as the hypnosis law.

History.—§2, ch. 61-506.

456.31 Legislative intent.—It is recognized that hypnosis has attained a significant place as another technique in the treatment of human injury, disease and illness, both mental and physical; that the utilization of hypnotic techniques for therapeutic purposes should be restricted to certain practitioners of the healing arts who are qualified by professional training to fulfill the necessary criteria required for diagnosis and treatment of human illness, disease or injury within the scope of their own particular field of competence; or that such hypnotic techniques should be employed by qualified individuals who work under the direction, supervision or prescription of such practitioners.

It is the intent of the legislature to provide for certain practitioners of the healing arts, such as a trained and qualified dentist, to use hypnosis for hypnoanesthesia or for the allaying of anxiety in relation to dental work; however, under no circumstances shall it be legal or proper for the dentist, or the individual to whom the dentist may refer the patient, to use hypnosis for the treatment of the neurotic difficulties of a patient. The same applies to the optometrist, chiropodist, chiropractor, osteopath or physician of medicine.

It is, therefore, the intent and purpose of part II of this chapter to regulate the practice of hypnosis for therapeutic purposes by providing that such hypnotic techniques shall be used only by certain practitioners of the healing arts within the limits and framework of their own particular field of competence; or by qualified persons to whom a patient may be referred, in which event the referring practitioner of the healing arts shall be responsible, severally or jointly, for any injury or damages resulting to the patient because of either his own incompetence, or the incompetence of the person to whom the patient was referred.

History.—§1, ch. 61-506.

456.32 Definitions.—In construing part II of this chapter, the words, phrases or terms, un-

(2) "Healing arts" shall mean the practice of medicine, surgery, psychiatry, dentistry, osteopathic medicine, chiropractic, naturopathy, chiropody, podiatry and optometry.

(3) "Practitioner of the healing arts" shall mean a person licensed under the laws of the state to practice medicine, surgery, psychiatry, dentistry, osteopathic medicine, chiropractic, naturopathy, chiropody, podiatry or optometry within the scope of his professional training and competence and within the purview of the statutes applicable to his respective profession, and who may refer a patient for treatment by a qualified person, who shall employ hypnotic techniques under the supervision, direction, prescription and responsibility of such referring practitioner.

(4) "Qualified person" shall mean a person deemed by the referring practitioner to be qualified by both professional training and experience to be competent to employ hypnotic technique for therapeutic purposes, under supervision, direction or prescription.

History.—§3, ch. 61-506.

456.33 Hypnosis, unlawful to practice.—It shall be unlawful for any person to engage in the practice of hypnosis for therapeutic purposes unless such person is a practitioner of one of the healing arts, as herein defined, or acts under the supervision, direction, prescription and responsibility of such a person.

(1) **MISDEMEANOR.**—Any person who shall violate the provisions of part II of this

chapter shall be guilty of a misdemeanor and upon conviction shall be punished as provided by law.

(2) **REVOCATION OF LICENSE.**—A violation of any of the provisions of part II of this chapter by any person licensed to practice any branch of the healing arts in this state shall constitute grounds for revocation of license and action may be taken by the respective boards in accordance with the applicable statutes.

shall be damaged or injured by any practitioner of the healing arts, or by any person to whom such a practitioner may refer a patient for treatment, may bring suit against the practitioner either severally, or jointly, with the person to whom the referral was made.

(3) If at such hearing the board shall be satisfied, from the evidence and proofs submitted, that the accused has been guilty of any of the charges mentioned in §458.12 hereof it shall thereupon, without further notice, take such action upon the charges and impose such penalties as it may be advised under said §458.12. 460.001 Legislative intent and purpose.—It is hereby declared that the practice of chiropractic is a privilege which is subordinate to the authority of the legislature to enact reasonable laws to regulate the practice thereof to protect the public health. The practice of chiropractic is declared to be a matter in the interest of public health, safety and welfare; that to merit confidence of the public and to protect the public from being misled by incompetent, unscrupulous practitioners, the legislature has enacted laws that will insure that only such chiropractic physicians who are qualified shall be granted the privilege to practice.

In the exercise of the fundamental power of the legislature to control the treatment of disease, it is not necessary that all the regulations be uniform and the same with respect to all methods and systems of practice. Among the

primary methods for regulating the practice of chiropractic are:

- (1) To make it unlawful for the practitioner to practice without a license;
- (2) To prescribe certain qualifications with which he must comply before obtaining said license;
- (3) To provide a procedure for disciplinary proceedings to be conducted on specified grounds of misconduct;
- (4) To provide for penalties to be imposed in case a licensee is found guilty; and
- (5) To provide for a judicial review of the order of discipline.

It is recognized that the legislature has the authority to enact laws to control the practice of chiropractic including the power to create an administrative board such as the Florida state board of chiropractic examiners; and that the

legislature may lawfully delegate to such a board the authority to determine that the qualifications for granting a license or the procedure for refusing or revoking a license is in keeping with the intent and purpose of the statutory law. The legislature is not creating and delegating powers of discretion to such board to act arbitrarily; such powers are granted for the board to act with reason, free from fraud, corruption or oppression; and if the board shall abuse the powers and discretion so vested in it, the aggrieved person shall have a remedy which shall not be against the delegation of such authority but for the improper exercise of it. The legislature may prescribe policies or standards to guide the discretion of such an administrative board, and delegate to it the authority to make rules and regulations which may assist it in administering legislative policy. It is declared that a delegation by the legislature of such discretion and rule-making authority to such board is not a delegation of the police powers of the state, but a means of enforcing such powers.

This chapter is enacted as an exercise of the police powers of the state in the interest of the public health, safety and welfare of the people of Florida.

Such permanent file of work orders to be kept by such dentist or by such unlicensed person shall be open to inspection at any reasonable time by the board or its duly constituted agent. However, nothing in this section shall be construed to prevent the registered dental laboratory from maintaining a listing in the local telephone directory; however, such listing shall be limited to the laboratory's name, location, telephone number and business hours only. This listing may specify that the said dental laboratory accepts only work accompanied by a properly executed work order from a dentist licensed to practice in this state and holding a current renewal certificate.

All examinations by the board shall be written except that in the case of an architect heretofore registered as such in another state or country who shall establish to the board that he has been engaged for a period of at least ten years in the independent lawful practice of architecture under his own name the board may examine such applicant by either written examination or oral examination or part written and part oral. If, upon any examination, any applicant shall be found by the board to be qualified and competent to engage in the practice of architecture then upon the payment of an additional fee of twenty dollars, certificate of registration shall be issued to such applicant authorizing him to practice the profession of architecture in this state to and including the July 31, next, except that a registrant whose certificate of registration is dated less than six months previous to July 31, shall not be required to renew his certificate until July of the next year, subject to the provisions of law regulating the practice of such profession, and thereafter provided such certificate shall be properly renewed as required by law; provided, however, that no certificate shall be

issued either with or without an examination to any corporation, partnership, firm or association to practice architecture in this state, but all certificates shall be to individual persons.

467.09 Certain persons exempt from registration; inter-professional privileges between architects and professional engineers defined.—No person shall be required by this or any other state law regulating the practice of architecture to qualify as an architect in order to make plans and specifications for or supervise the erection, enlargement or alteration of any building upon any farm for the use of any farmer, irrespective of the cost of such building, or any one- or two-family residence building costing less than ten thousand dollars or any domestic outbuilding appurtenant to any such one- or two-family residence regardless of costs, or of any other type building costing less than five thousand dollars (except schools, auditoriums, or other buildings intended for the mass assemblage of people). Nor shall anything in this or any other state law be held to prevent registered professional engineers or their employees or subordinates under their responsible supervising control from performing architectural services which are purely incidental to their engineering practice or registered architects or their employees or subordinates under their responsible supervising control from performing engineering services which are purely incidental to their architectural practice. Provided that no professional engineer shall practice architecture or use the designation "architect" or any term derived therefrom, and no architect shall practice professional engineering or use the term "engineer" or any term derived therefrom. Otherwise, any person who shall be engaged in the planning or design for the erection, enlargement or alteration of buildings for others or furnishing architectural supervision of the construction thereof shall be deemed to be practicing architecture and be required to secure a certificate and all annual renewals thereof required by the laws of this state as a condition precedent to his so doing.

The term "building" in this chapter shall be understood to be a structure, consisting of foundations, walls and roof, with or without the other parts. Nothing contained in this chapter shall be construed to prevent any employee of an architect from acting under his instruction, control and supervision, in any capacity whether paid by the architect or the owner.

Each person holding certificate to practice architecture in this state, shall post such certificate in a prominent place in his place of business and shall cause such certificate to be recorded in the secretary of state's office upon payment of a fee of one dollar to the secretary of state. Failure to post his certificate or to have the same recorded, shall be deemed sufficient cause for revocation of said certificate.

History.—§10, ch. 6951, 1915; RGS 2238; CGL 3571.

467.11 Admission without examination.—Hereafter no person shall be admitted to practice architecture in this state without an examination except in accordance with one of the following procedures: (1) That a certificate of registration shall be issued upon filing of application and payment of the same fees as if qualified by examination to a person who has passed a standard examination of the national council of architectural registration boards and who furnishes satisfactory evidence of continued honorable professional conduct after the passing of such examination. (2) That the board, upon application and the payment of the same fees as if qualified by examination shall issue to the person so applying a certificate of registration if such person is a citizen of the United States and holds an unexpired certificate of registration issued to him by any state, territory or possession of the United States, or by any country, provided that the requirements for the registration of architects under which said certificate of registration was issued are found by the board to be the equivalent of the requirements for registration in this state by examination; and provided further that the applicant submits satisfactory evidence of his present ability and of his integrity.

History.—§11, ch. 6951, 1915; RGS 2239; CGL 3572; §6, ch. 20651, 1941; §2, ch. 29727, 1955.

Upon failure to have his certificate renewed during the month of July in each and every year, except as provided in §467.08, the holder thereof shall have his certificate revoked, but the failure to renew said registration in apt time shall not deprive him of the right to renewal upon payment of said fee; provided, his application for rein-

statement is made within one year after the expiration of his certificate.

History.—§13, ch. 6951, 1915; RGS 2240; CGL 3573. Am. §1, ch. 25008, 1949; §3, ch. 29727, 1955.

467.13 Filing and distribution of roster; registration made condition precedent to obtaining occupational license.—No roster of architects need be published by the board hereafter, but annually the secretary of the board shall prepare a roster showing the names and business addresses of all registered architects and file the same in the office of the secretary of state and furnish a copy to each registered architect. A copy shall also be furnished without charge upon the request of any public official of this state, including any state, county or municipal building inspector or commissioner. Any person applying to the licensing official of any county, city, town or village for an occupational license to practice architecture shall at the time of such application exhibit to such licensing official satisfactory evidence under the seal of the Florida state board of architecture and the hand of its secretary that such applicant possesses a registration certificate and any required annual renewal thereof and no such occupational license shall be granted until such evidence shall be presented, any provision of any special act or general act notwithstanding.

467.14 Revocation of certificate; reinstatement; procedure, process, attorneys and counsel.—Architect's certificate issued in accordance with the provisions of this chapter shall remain in full force until revoked for cause as provided in this chapter. Any architect's registration certificate and current renewal may be suspended for a period not exceeding twelve months, or may be revoked, by the unanimous vote of the members of the board sitting in any hearing, provided the members so sitting shall constitute a quorum of the board, for gross incompetency, or negligence in the construction of buildings, or for a dishonest practice or practices on the part of the holder thereof as an architect, or for affixing or permitting to be affixed his seal or his name to any plan, specification, drawing or other related document which was not prepared by him or under his responsible supervising control, or for using his seal or doing any other act as an architect at a time when his certificate of registration is suspended or at a time when current renewals have not been obtained in conformity with §467.12, or on conviction of a felony or misdemeanor involving moral turpitude, in which case the record of conviction is conclusive evidence, for wilfully misleading or defrauding any person employing him as an architect, or for the violation of this or any other law of this state relating to the practice of architecture or any lawful rule or regulation made by the board pursuant to law, provided, that the accused certificate holder shall have had twenty days notice of the charge against him and of the time and place of the meeting of the board

for the hearing and determination of such charge. At such hearing the accused shall have the right to cross-examine witnesses against him, to produce witnesses in his defense and to appear personally or by counsel. In the event of suspension or revocation the secretary of the board shall give notice to the secretary of state, who shall duly cancel the recordation of such registration in his office. The Florida state board of architecture under the hand of its secretary and seal of the board, may require the production of books, papers or other documents and may issue subpoenas to compel the attendance of witnesses to testify and to produce such books, papers or other documents in their possession before the board or any member thereof relevant to any hearing or to any proceeding concerning any violation of laws regulating architects or the practice of architecture, said subpoenas to be served by the sheriff of the county where the witness resides or may be found. If any person shall refuse to obey any subpoena so issued, or shall refuse to testify or to produce any books, papers or other documents required to be produced, the board may present its petition to the circuit court of the county wherein such person was served with subpoena setting forth the facts, whereupon such court shall issue its rule nisi to such person requiring him to obey forthwith the subpoena or show cause why he fails to obey the same, and unless said person shall show sufficient cause for failing to obey the same, the court shall forthwith direct such person to obey the same and upon his refusal to comply he shall be adjudged in contempt of court and punished therefor, as the court may direct. In any judicial proceeding to which the board may be a party, the board shall be entitled to the services of the attorney general of this state and of the several state's attorneys and assistant state's attorneys in any circuit where such litigation may be. The board shall also have power to secure such other legal advice and services as may be necessary or proper for the conduct of its affairs.

The person whose certificate of registration was revoked may have a new certificate of registration issued to him by the secretary of said board upon the certificate of said board, issued by them upon satisfactory evidence for proper reasons for his reinstatement, and upon payment to the secretary of a fee of ten dollars. The person whose certificate of registration is suspended shall have his certificate of registration reinstated by the board at the end of the period of his suspension.

470.08 Qualifications of applicants.—

(1) No applicant shall be qualified to be examined by the board for license as an embalmer unless he has the following qualifications:

(a) He shall be a bona fide resident of the state.

(b) He shall be over the age of twenty-one years.

(c) He shall have completed a full prescribed course in a standard high school, or a course of education equivalent thereto.

(d) He shall have a good moral character.

(e) He shall have had three years of practical training and instruction as an apprentice under

a regular licensed and practicing embalmer holding a Florida state license, and shall have embalmed at least fifty dead human bodies, and shall have attended a regular nine months' course of instruction in a reputable college of embalming approved by the board, in which the following subjects are covered: Anatomy, physiology, chemistry, the principles and methods of embalming, restorative art, bacteriology, public health and sanitation. He shall further be vouched for by two funeral directors duly licensed under the terms of this chapter who are licensed embalmers and who are familiar with his reputation and character. Provided, however, that the requirements of apprenticeship set forth in this subparagraph shall not apply to any person who has served one year of practical training and instruction as an apprentice under a regular licensed and practicing embalmer holding a Florida state license and who has graduated and received a degree in the profession of funeral directing and embalming from a college or university that is a member of the American association of colleges and universities.

(f) Any person who shall have otherwise qualified as required by §470.08 (1), except for his three years of apprentice training, and who thereafter entered and served in the military forces of the United States, and shall have been honorably discharged or relieved, and as a part of his duties during such service he shall have had, in the opinion of the state board of funeral directors and embalmers (hereinafter referred to as the board), practical training and instruction of a nature at least equivalent to that he would necessarily have had as an apprentice embalmer under a duly licensed and practicing embalmer holding a Florida state license, shall be credited on said three-year required apprentice service with such time as he may have so served but the total of such credit shall not exceed two and one-half years.

(g) Provided, further, that the said board, and it only, shall decide upon the proof submitted to it by such applicant whether he has received the degree of training herein contemplated and if so, for what time he should be credited, and shall issue its certificate to him accordingly.

(h) It is the intention of this subsection to provide a plan by which credit not to exceed two and one-half years may be given to any Florida apprenticed embalmer for any training he may have had of a nature which in the opinion of the board is equivalent to Florida apprentice embalming training while engaged in the military services of the United States so as to avoid the hardship of making the ex-serviceman who was so engaged go over substantially the same training twice.

(2) No applicant shall be qualified to be examined by the board for a license as a funeral director unless he shall have the following qualifications:

(a) He shall be a bona fide resident of the state.

If such application shall be found in due form, and it shall appear that the applicant is possessed of the requisite qualifications, the secretary of the board shall so notify such applicant.

Then the applicant may present himself before said board at a duly organized meeting thereof for examination by said board as to his knowledge of funeral directing or embalming, whichever it may be, and all subjects necessary and pertaining thereto, said subjects to be prescribed and determined by the board. The examination for embalmers' licenses shall consist of the propounding to such applicant in writing of not less than one hundred and fifty questions on the subject of anatomy and embalming and of not less than one hundred oral questions pertaining to the several subjects and other subjects connected therewith. The oral examination, when possible, shall be conducted in the presence of a cadaver, upon which actual demonstrations may be asked for. The examination for funeral directors' licenses shall consist of the propounding of questions by said board, either oral or written, as to such qualifications for a funeral director's license, as provided in this chapter, or prescribed by said board. All examination papers, questions and answers and credits allowed upon same by the board shall be kept on file by the secretary of the board.

The board shall grant to any applicant eligible under the terms of this chapter for examination and who has correctly answered more than seventy-five per cent of the oral and seventy-five per cent of the written questions propounded in the examination provided for herein, a license to practice the profession of funeral directing or embalming, whichever it may be, in the state.

Every person actively engaged in the profession of funeral directing or embalming in the state shall renew his or her license on or before June 30 of each year, except as otherwise provided herein, and any qualified person who fails to renew his license within sixty days from the date the same becomes due, shall be suspended from the right to practice the profession for which he was previously licensed until said license is renewed, provided that no license shall be renewed after September 1 of any year unless the applicant shall submit to the board a penalty fee of five dollars per year or any part thereof, in addition to the annual renewal license fee. If a person shall desire a renewal of his license for the succeeding year, the board shall grant and issue the same without further examination upon the payment by said licensee of a renewal fee plus the penalty, if applicable, as follows: embalmer, ten dollars; funeral director, fifteen dollars.

If a licensed funeral director or embalmer fails to renew his license for a period of three years after the expiration of said license he shall be deemed to have retired from the profession and may be licensed only under the conditions and requirements for persons who have not previously been licensed in this state. Provided, however, the purchaser complies with the fictitious name law of the state; and provided, further, that the provisions of this chapter shall not affect or impair the rights now held by corporations or an embalmer or funeral director now engaged in the profession of funeral directing or embalming under a corporate name, or persons engaged in the profession of funeral directing or embalming under a fictitious name holding licenses at the date this law becomes effective; and further, provided, that any person engaging in the profession of funeral directing or embalming under a corporate or fictitious name and securing a license from and after the date this law becomes effective, shall cause to be placed and shall keep in a conspicuous place at each public entrance to his funeral home, mortuary or funeral establishment, in intelligible lettering, not less than one and one-half inches in height and one inch in width, the name of the person or persons licensed to engage in the profession of funeral directing or embalming at said funeral home, mortuary or funeral establishment.

The board shall adopt such rules, regulations and classifications as may be reasonable and proper to define what shall be deemed the proper drainage and ventilation and what instruments are necessary and suitable in a funeral establishment, which rules must conform with the rules of the state board of health. Every funeral establishment operated and conducted by any person licensed under this chapter shall at all times be subject to the inspection of the board, or any

(1) No license shall be revoked by the board unless due notice is given to the licensee holding such license and the said licensee is accorded a public hearing as provided in this section.

(2) When a written complaint, under oath, is filed with the board, or the secretary of the board has been directed by a majority of the members of the board to make a complaint against a licensed funeral director or embalmer charging said licensee with the commission of any of the acts set forth in §470.12, the board shall conduct an investigation and if, from such investigation, it shall appear to the board that there is reasonable ground for belief that the accused licensee may have been guilty of the violations charged, a day shall be set by the board for a public hearing to determine whether or not the license of the accused shall be revoked or suspended.

(3) The secretary of the board shall transmit to the accused a true copy of said written complaint by registered mail, together with a notice setting forth the charge or charges that will be heard before the board and the date and place at which such hearing will be held, which date shall be not less than thirty days after mailing of such notice. (4) For the purpose of such hearing, the board shall have the power, under the hand of the president, the vice-president and the seal of the board, to require the production of books, papers or other documents and may issue subpoenas to compel the defendants or witnesses to testify and produce such books, papers or other documents in their possession as may be in the opinion of the board, relevant to any hearing before it; said subpoenas to be served by the sheriff of the county where the witness resides or may be found. Such witnesses shall be entitled to the same per diem and mileage as witnesses appearing in the circuit courts of the state, which shall be paid by said board. Any member of the board may administer oaths or affirmation to witnesses appearing before the board.

(5) If any person shall refuse to obey any subpoenas so issued or shall refuse to testify or produce any books, papers or other documents required by the board, the board may present its petition to the circuit court of the county where any such person is served with the subpoena or where he resides, setting forth the facts, and shall deposit with said court the per diem and mileage to secure the attendance of such witness; whereupon said court shall issue its rule nisi to such person requiring him to obey forthwith the subpoena issued by the board or show cause why he fails to obey the same, and unless the said person shows sufficient cause for failing to obey the said subpoena, the court shall forthwith direct such person to obey the same, and upon his refusal to comply, he shall be adjudged in contempt of court and shall be punished as the court may direct.

(6) If at such hearing the board shall be satisfied from all the evidence submitted that the accused has been guilty of the offense

charged, it shall thereupon, without further notice, revoke or suspend the license of the person so accused. Upon the revocation or suspension of any license, the fact shall be noted upon the records of the board and the license shall be marked as canceled or suspended upon the date of the decision of the board, and the losing party shall pay all costs of such hearing.

Such review may be secured by filing in the office of the clerk of said court, within the time and in the manner provided by the Florida appellate rules, a petition for certiorari stating the grounds upon which a review or such order is sought. The board shall have power to receive, consider and accept or reject applications for registration; to examine said applicants as to their qualifications, fitness and ability to practice engineering in Florida; to register and certify such applicants as are found to be qualified; and to hear and determine complaints, objections and charges against any applicant or registered engineer or any person practicing engineering without registration or otherwise in violation of law, and, for cause, to revoke any certificate of registration issued by said board. In carrying into effect the provisions of this chapter the board, under the hand of the president or vice-president and seal of the board, may require the production of books, papers or other documents and may issue subpoenas to compel the attendance of witnesses to testify and to produce such books, papers, or other documents in their possession as may be, in the opinion of the board, relevant to any hearing before it, said subpoenas to be served by the sheriff of the county where the witness resides or may be

found. Any member of the board may administer oaths or affirmations to witnesses appearing before the board. If any person shall refuse to obey any subpoena so issued, or shall refuse to testify or produce any books, papers or other documents required by the board, the board may present its petition to the circuit court of the county wherein such person was served with subpoena setting forth the facts, whereupon such court shall issue its rule nisi to such person requiring him to obey forthwith the subpoena issued by the board or show cause why he fails to obey the same, and unless the said person shows sufficient cause for failing to obey the said subpoena, the court forthwith shall direct such person to obey the same and upon his refusal to comply he shall be adjudged in contempt of court and punished as the said court may direct. If the board, after a full hearing, determines that any person is practicing engineering illegally in Florida, it may, by petition to the circuit court of the county wherein such person resides or wherein he practices engineering illegally, petition said court for an injunction restraining such person from the practice of professional engineering, and the court, upon sufficient showing, shall have power to issue and carry into effect such an injunction. The procedure for an injunction as aforesaid shall be governed by the rules and statutes applicable to the issuance of injunctions.

471.19 Engineers heretofore registered.—No person who heretofore has been duly registered as a professional engineer under the laws of Florida, and whose registration has not been revoked, shall be required to register again under this chapter and his former registration shall be fully recognized under the provisions of this chapter. All certificates heretofore issued and not revoked shall have the same force and effect as if they had been issued under the provisions of this chapter, and shall be subject to the same rules, terms and conditions as are the certificates provided for in this chapter.

471.21 Qualifications for registration.—

(1) **AS A PROFESSIONAL ENGINEER.**—The following shall be considered as minimum evidence satisfactory to the board that the applicant is qualified to be admitted to examination for registration as a professional engineer, to-wit; that he

- (a) Is more than twenty-four years of age,
- (b) Is of good character and reputation,
- (c) Is a graduate from an approved course in engineering of four years or more in a school or college approved by the board as of satisfactory high standing, and has a specific record of an additional four years or more of active practice in engineering work of a character indicating that the applicant is competent to be placed in responsible charge of such work; or in lieu of graduation and the active practice aforesaid, has a specific record of ten years or more of active practice in engineering work of a character indicating that the applicant is competent to be placed in responsible charge of such work.

The applicant shall file his application in the manner to be prescribed by the board.

(2) AS AN ENGINEER-IN-TRAINING.—

The following shall be considered as minimum evidence that the applicant is qualified for certification as an engineer-in-training:

(a) A graduate of an approved engineering curriculum of four years or more who has passed the board's examination in the fundamentals of engineering shall be certified or enrolled as an engineer-in-training if he is otherwise qualified.

(b) An applicant having a high school education and a specific record of eight or more years of experience in engineering work of a grade and character satisfactory to the board, who passes the board's examination in the fundamentals of engineering shall be certified or enrolled as an engineer-in-training if he is otherwise qualified.

471.22 Examinations.—Examinations for registration shall be held at such times and at such places within the state as the board shall determine, provided, however, that there shall be not less than two examinations per annum. The scope of the examinations shall be of such a character as to test the qualifications of the applicant to practice professional engineering, and shall include such subjects as will tend to ascertain the knowledge of the applicant of the theory and practice of professional engineering and may include such subjects as are taught in accredited engineering schools and colleges. The board may adopt such rules and regulations as may specifically set forth the subjects upon which such examinations will be held. As soon as practicable after the close of an examination the board shall determine the result of the examination and either approve or disapprove the applicant as being qualified. An applicant failing to pass an examination may be re-examined at the discretion of the board, for which re-examination the board shall charge the candidate a fee of fifteen dollars.

471.24 Renewal of certificates.—

(1) Certificates of registration shall expire on December 31 following their issuance or renewal and shall become dormant unless renewed as provided herein. Renewals may be effected at any time during the month of December by the payment by the registrant of a fee to be determined by the board, but not to exceed twenty dollars. The failure of the registrant to renew his certificate during the month of December as aforesaid, shall cause said certificate to become dormant and it shall be unlawful for such registrant to practice, offer to practice, or to hold himself out as qualified to practice professional engineering in Florida after March 1 following the expiration of the certificate. A certificate of registration not renewed within two years after it becomes dormant shall become null and void. The board, for good reason shown (which in the discretion of the board may include re-examination of the applicant), may reissue a certificate of registration to any person whose certificate has become null and void as aforesaid. A fee of twenty dollars shall be charged the applicant for such reissue.

(2) Certificates of authorization issued to corporations and partnerships under the provisions of this chapter shall expire on December 31 following their issuance or renewal and shall become dormant unless renewed as provided herein. Renewals may be effected at any time during the month of December by the payment by the corporation or partnership of a fee of twenty-five dollars. The failure by a corporation or partnership to renew its certificate of authorization during the month of December as aforesaid shall cause said certificate to become dormant and it shall be unlawful for such corporation or partnership to practice, offer to practice or hold itself out as qualified to practice professional engineering in Florida after March 1 following the expiration of the certificate. A certificate of authorization not renewed within two years after it becomes dormant shall become null and void. The board, for good reason shown, may reissue a certificate of authorization to any corporation or partnership whose certificate has become null and void as aforesaid. A fee of forty dollars shall be charged the applicant for such reissue.

History.—§13, ch. 7404, 1917; RGS 2285; CGL 3631; §24, ch. 20621, 1941; §8, ch. 63-310.
cf.—§455.03 Dispensing with examination of veterans.

471.25 Lost certificates.—A new certificate of registration of a duly registered engineer to replace a certificate lost, destroyed, stolen or mutilated, may be issued subject to rules and regulations to be adopted by the board. A fee of five dollars shall be charged the applicant for such issue. The mutilated certificate shall be returned to the secretary of the board before a new certificate is issued. Any lost, destroyed or stolen certificate for which a new certificate has been issued, shall be returned to the board, if ever found. The new certificate aforesaid

shall be marked plainly with the word "DUPLICATE."

History.—§25, ch. 20621, 1941.

471.26 Revocation or suspension of certificates.—The board shall have power to revoke or suspend the certificate of registration of any registrant, provided four or more members of the board vote in favor of such revocation should such registrant be found guilty of:

(1) The practice of any fraud or deceit in obtaining a certificate of registration to practice professional engineering; or

(2) Conviction of any crime involving moral turpitude; or

(3) Malpractice, malfeasance, gross negligence or incompetency in the practice of professional engineering.

(4) Affixing or permitting to be affixed his seal or his name to any plans, designs, drawings, or specifications which were not prepared by such registrant or under his responsible supervision, direction or control.

(5) The violation of any law of this state relating to the practice of professional engineering or any lawful rule or regulation made by the board pursuant to law.

Any corporation or partnership which has been duly certified under the provisions of this chapter and has engaged in the practice of professional engineering in this state shall have its certificate of authorization either suspended or revoked by the board if, after a proper hearing, the board shall revoke or suspend the certificate of registration of an agent, employee, officer or partner of such corporation or partnership who acts in its behalf as professional engineers in this state provided four or more members of the board vote in favor of suspension or revocation of such certificate of authorization. Before the certificate of authorization of a corporation or partnership is revoked or suspended by the board, such corporation or partnership shall be furnished notice, an opportunity to be heard and such other procedural guarantees as are provided in §471.27. Any corporation or partnership aggrieved by an adverse determination of the board may appeal therefrom to the circuit court in the manner provided in §471.28.

History.—§12, ch. 7404, 1917; RGS 2284; CGL §630; §26, ch. 20621, 1941; §9, ch. 63-310.

471.27 Procedure for revoking or suspending a certificate.—Any person, including a member of the board, may prefer charges against any registrant. Such charges shall be in writing and shall be sworn to by the person making them. They shall be preferred by delivering them, together with six copies thereof to the secretary of the board, who, forthwith, shall furnish each member of the board with a copy of said charges. All charges, unless dismissed by the board as being unfounded or trivial, shall be heard and disposed of by the board within four months after the date upon which they were preferred, except as to cases hereinafter

noted. The time and place of said hearing shall be fixed by the board, and a copy of the charges, together with notice of the time and place of the hearing, shall be served upon the person against whom preferred, either personally or by registered mail with return receipt demanded, addressed to the said person at his last known address as the same appears on the records of the board, at least twenty days before the time fixed for the hearing. Where personal service can not be made as aforesaid, or where registered notice is returned undelivered, the secretary of the board shall cause a short, simple notice to the registrant to be published for four consecutive weeks (four publications being sufficient) in a newspaper published in the county wherein the registrant's last known address appears as shown on the records of the board, or if no newspaper be published in said county, then said notice may be published in a newspaper published in an adjoining county. If said address appears in some state, territory or country other than the State of Florida, then said notice may be published in the county wherein the board may have its headquarters. Said notices shall contain the name of the registrant, his last known address, the number of his registration certificate under which he has been registered to practice in Florida, the time of the preferring of the charges, the date set for the hearing of said charges, the nature of the charges and the place where said hearing will be held. Due proof of service or of publication shall be filed with the secretary of the board and shall be recorded by him in the minutes of the boards. The board, for good cause shown, may continue any hearing from time to time and in proper cases to a time beyond the aforesaid four months' period. At any hearing the accused shall have the right to appear personally and by counsel, to cross-examine witnesses appearing against him and to testify and produce evidence and witnesses in his defense. If, after such hearing, four, or more, members of the board present at such hearing, find the accused guilty of the charge, or charges, against him, they shall evidence their finding by so voting, and the board shall thereupon revoke the certificate of registration of the person so found guilty and, thereafter, unless a certificate is again issued to him, said person shall not practice professional engineering in the state. Or, in proper cases, and in lieu of revocation, the board may suspend the certificate of said person so found guilty for a period of time not to exceed two years, during which time said person shall not practice professional engineering in the state unless his certificate is reinstated as hereafter provided. The board, for good cause shown, and by a vote of four or more of its members, may reissue a certificate to any person whose certificate has been revoked as aforesaid, for which reissue the board shall charge such person the sum of five dollars unless otherwise ordered by the board; and in cases where a certificate has been suspended as aforesaid, the board by a favorable

vote of four or more of its members, may reinstate said certificate at any time. Upon the re-issue or reinstatement of the certificate of any person, such person shall be entitled to resume the practice of professional engineering in accordance with this chapter.

471.28 Review of decision of board revoking or suspending a certificate of registration.—Any person who shall feel aggrieved by the action of the board in revoking or suspending his certificate of registration may have the decision of the board reviewed by filing a petition for certiorari with the circuit court of the county wherein the board maintains its headquarters, in the manner and within the time prescribed by the Florida appellate rules. The circuit court shall hear the case upon the record from the board. The board and the appellant shall have the right of review of the judgment of the circuit court by the appropriate district court of appeal pursuant to the Florida appellate rules.

471.30 Seals.—The board shall adopt and prescribe a form of seal to be used by registrants holding valid certificates of registration hereunder. Each registrant shall obtain a seal in the form aforesaid and all plans, specifications, plats or reports prepared or issued by the said registrant shall be stamped with said seal, and such seal shall be evidence of the authenticity of that to which affixed, but it shall be unlawful for any person to stamp or seal any document with said seal after his certificate of registration has become dormant or revoked unless reinstated or re-issued. The registrant shall affix his name to all documents so stamped and sealed.

471.31 Profit from employment.—It shall be unlawful for any person employed in the practice of professional engineering to participate in or derive any profit from the subject matter of his employment, either in the matter of construction work or materials, other than the compensation he is to receive for such work by virtue of his contract for professional employment.

History.—§14, ch. 7404, 1917; RGS 2286; CGL 3632; §31, ch. 20621, 1941.

If such convicted person be a registered professional engineer, then his conviction as aforesaid shall immediately and automatically revoke and annul his certificate of registration. It shall be the duty of the duly constituted officers of the law of this state or any political subdivision thereof to enforce the provisions of this chapter and to prosecute any persons, firms, partnerships or corporations violating the same.

471.34 By-laws and rules, amendment of.—No by-laws or rules by which more than a majority vote is required for any specific action by the board shall be amended, suspended or repealed by a smaller vote than that required for action thereunder.

History.—§4, ch. 7404, 1917; RGS 2276; CGL 3622.

471.35 Power of board to inquire into identity of certificate holder.—The board may at any time inquire into the identity of any person claiming to be a registered professional engineer, and after due service of a notice in writing, require him to prove to the satisfaction of the board that he is the person authorized to practice professional engineering under the certificate of registration by virtue of which he claims the privileges of this chapter. When the board finds that a person claiming to be a professional engineer registered under this chapter is not in fact the person to whom the certificate of registration was issued, it shall reduce its findings to writing and file them in its office. Such findings shall be prima facie evidence that the person mentioned therein is falsely impersonating a professional engineer of a like or different name.

471.37 Liability of professional engineers.—

(1) The fact that individual registered professional engineers practice engineering as defined in this chapter through a corporation or partnership shall not relieve such engineers from personal liability for their professional acts and each such corporation or partnership shall be jointly and severally liable for the professional acts of agents, employees, officers, or partners.

(2) The fact that individual registered land surveyors practice land surveying as defined in chapter 472 through a corporation or partnership engaged in the combined practice of

professional engineering and land surveying shall not relieve such land surveyors from personal liability for their professional acts and each such corporation or partnership shall be jointly and severally liable for the professional acts of agents, employees, officers or partners.

Each said note shall be made payable to the engineering scholarship trust fund for the amount of the scholarship payment.

History.—§12, ch. 63-310.

471.41 Satisfaction of notes and exemption of interest.—

(1) The first note executed by a scholarship recipient shall become due and payable one year after the recipient receives his engineering degree, or one year after the cessation of his attendance in an approved institution of higher learning, whichever comes first. Each subsequent note shall become due and payable in its chronological order of execution and at intervals following the due date of the first executed note equal to the period of time intervening between the execution of the first note and each subsequent note.

(2) The recipient of a scholarship loan under the provisions of this act who earns any degree in engineering and becomes employed or engaged in the practice of engineering in this state during or prior to the period that notes executed by him for a scholarship loan are due and payable, shall be exempt from interest payments or charges, so long as he is

employed or engaged in the practice of engineering within the state. The board may, before issuing an annual renewal certificate, inquire into the character, professional practice and qualifications of any applicant, and if, in its judgment, he may have been guilty of any of the improprieties enumerated in this chapter as cause for revocation of a certificate of registration, he may be called before the board for supplemental examination for character and technical competency. If, in the opinion of the board, after notice and hearing, he is found guilty of any of the said improprieties or incompetence, renewal certificates shall be denied him and he shall be deprived of any of the privileges accorded him by a legally issued certificate, subject always to the right of review by certiorari by the appropriate circuit court in the manner and within the time prescribed by the Florida appellate rules.

472.10 Revocation, suspension and reissue of certificates; records of board.—The board may at any time inquire into the identity of any person claiming to be a registered land surveyor and after due service of a notice in writing, require him to prove to the satisfaction of the board that he is the person authorized to practice land surveying under the certificate of registration by virtue of which he claims the privilege of this chapter.

When the board finds that a person claiming to be a land surveyor registered under this chapter is not in fact the person to whom the certificate of registration was issued, it shall reduce its findings to writing and file them in its office. Such findings shall be prima facie evidence that the person mentioned therein is falsely impersonating a land surveyor of a like or different name.

The board may revoke or suspend a certificate of registration of a land surveyor for fraud or deceit in the securing of his certificate; for conviction of any crime involving moral turpitude; for malpractice, malfeasance, gross carelessness or gross incompetence in the practice of land surveying; for affixing or permitting to be affixed his seal or his name to any maps, plats or surveys which were not prepared by such registrant or under his responsible supervision, direction or control; and for the violation of any law of this state relating to the practice of land surveying or any lawful rule or regulation made by the board pursuant to law.

Any corporation or partnership which has been duly certified under the provisions of this

chapter and has engaged in the practice of land surveying in this state shall have its certificate of authorization either suspended or revoked by the board if, after a proper hearing the board shall revoke or suspend the certificate of registration of an agent, employee, officer or partner of such corporation or partnership who acts in its behalf as land surveyor in this state provided four or more members of the board vote in the favor of such suspension or revocation of such certificate of authorization.

The board shall adopt rules and regulations governing the proceedings for the revocation or suspension of certificates of registration and authorization.

The board may reissue a certificate of registration to any person and a certificate of authorization to any corporation or partnership whose certificate has been revoked, for reasons which the board shall determine to be satisfactory.

The records of the board shall be open to public inspection and certified copies thereof shall be received in evidence in all the courts of this state as prima facie evidence of what they purport to be and of the facts therein contained.

(1) The practice or offer to practice land surveying as defined in §472.01 by individual land surveyors registered under this chapter through a corporation or partnership, or by a corporation or partnership through individual land surveyors, as agents, employees, officers or partners, is permitted subject to the provisions of this chapter; provided that one or more of the principal officers of such corporation or partners of such partnership and all personnel of such corporation or partnership who act in its behalf as land surveyors in this state are registered as provided by this chapter, or are persons lawfully practicing under §472.08, and further provided that said corporation or partnership has been issued a certificate of authorization by the board as provided herein. All final maps, plats, surveys, reports, or other surveying papers or documents involving the practice of land surveying as defined in §472.01 which shall have been prepared or approved for the use of the corporation or partnership or for delivery to any person or for public record within the state shall be dated and bear the signature and seal of the land surveyor who prepared or approved them.

(2) A corporation or partnership desiring a certificate of authorization shall file with the board an application upon a form to be prescribed by the board and the designation required by the following subsection, accompanied by the application and registration fees prescribed by §§472.04 and 472.06.

A partnership shall file with the board using a form provided by the board the names and addresses of all partners of the partnership, including the partner or partners duly registered to practice land surveying in this state, and also of an individual or individuals duly registered to practice land surveying in this state who shall be in responsible charge of the practice of land surveying in this state by said partnership. This same form, giving the same information, must accompany the annual renewal fee prescribed by §472.09. In the event there shall be a change in any of those persons during the year such changes shall be designated on the same form and filed with the board by the corporation or partnership within thirty days after the effective date of such change.

(4) If all the requirements of this section are met, the board shall issue to such corporation or partnership a certificate of authorization; provided, however, the board may refuse to issue a certificate if any facts exist which would entitle the board to suspend or revoke an existing certificate, or if the board, after giving the persons involved a full and fair hearing, shall determine that any of the officers or directors of said corporation or partners of said partnership are not persons of good character. Any person aggrieved by an adverse determination of the board may appeal to the circuit court in the manner provided in §471.28.

(5) Nothing in this law shall be construed to mean that a certificate of registration to practice land surveying as defined herein shall be held by a corporation.

selling or fraudulently obtaining of such certificates, or who shall practice or attempt or advertise to practice or hold himself out as authorized to practice land surveying under cover of any certificate obtained or issued fraudulently or unlawfully or under fraudulent representations or willful misstatement of fact in a material regard; and any person who shall practice or attempt or advertise to practice, or hold himself out as authorized to practice land surveying under a false or assumed name or who shall falsely impersonate any land surveyor or former land surveyor of a like or different name or who shall violate any of the provisions of this chapter, shall be guilty of a misdemeanor, and upon conviction thereof, shall be punished according to law, and in addition his certificate of registration shall be automatically revoked.

History.—§14, ch. 15657, 1931; CGL 1936 Supp. 8135(8).
cf.—775.07, Punishment for misdemeanor.

475.01 Definition of terms used in chapter.—

(1) This chapter may be referred to in any legal proceeding as the "Real Estate License Law."

(2) Every person who shall, in this state, for another, and for a compensation or valuable consideration directly or indirectly paid or promised, expressly or impliedly, or with an intent to collect or receive a compensation or valuable consideration therefor, appraise, auction, sell, exchange, buy or rent, or offer, attempt or agree to appraise, auction or negotiate the sale, exchange, purchase or rental of any real property, or any interest in or concerning the same, including mineral rights or leases; or who shall advertise or hold out to the public by any oral or printed solicitation or representation that such person is engaged in the business of appraising, auctioning, buying, selling, exchanging, leasing or renting real estate, or interests therein, including mineral rights or leases, of others; and every person who shall take any part in the procuring of sellers, purchasers, lessors or lessees of the real property, or interests therein, includ-

ing mineral rights or leases, of another; or who shall direct or assist in the procuring of prospects, or the negotiation or closing of any transaction which does, or is calculated to, result in a sale, exchange, or leasing thereof, and who shall receive, expect, or be promised any compensation or valuable consideration, directly or indirectly therefor; and all persons who are members of partnerships or officers or directors of corporations engaged in performing any of the aforesaid acts or services; each and every such person shall be deemed and held to be a "real estate broker" or a "real estate salesman," as hereinafter classified, unless said person when performing the act or acts herein specified shall be acting as an attorney-in-fact for the purpose of the execution of contracts or conveyances only, or as an attorney-at-law within the scope of his duties as such, or when acting as the administrator, executor, receiver, trustee, or master under or by virtue of an appointment by will or by order of a court of competent jurisdiction, or as trustee under a deed of trust, or under a trust agreement, the ultimate pur-

pose and intent whereof shall be charitable, philanthropic, or providing for those having a natural right to the bounty of the donor or trustor; nor shall the term broker or salesman be applied to a person who shall deal with property in which he is a part owner, unless said person shall receive a larger share of the proceeds or profits from the transaction than his proportional investment therein would otherwise justify, such excess share being directly or indirectly the result of the service of buying, selling, exchanging or leasing said property; nor shall said terms be applied to one officer of every corporation engaged in the sale of its own properties who shall be its president unless otherwise provided in its charter or by-laws, if said corporation shall not otherwise be classed as a real estate broker or a salesman.

(3) Every person who comes within the meaning of the preceding subsection, and shall not be within the exceptions named, and whose business policies and acts are free from the direction, control or management of another person, and all members of a partnership, and all officers and directors of a corporation, which partnership or corporation is defined by said subsection to be a real estate broker, shall be deemed and held to be operating as real estate brokers; and every other person who shall come within the terms "real estate broker" or "real estate salesman," as defined in the preceding subsection, shall be deemed and held to be operating as real estate salesmen.

(4) "Registration" shall consist of the placing and keeping of the name and business address, and if of a salesman, the name and business address of the employer also, upon the list of brokers and salesmen in the offices of the Florida real estate commission, with the appropriate designation as "broker" or "salesman." Said "registration list" shall be kept in books, or in files, as may be deemed expedient by the commission. Registration shall be in force for a period of six months after the expiration of the last certificate issued, or after the termination of any period of suspension, and no longer; but registration alone shall not entitle the registrant to operate as a broker or salesman.

(5) A "registrant" is a person whose name and business address, and in case of a salesman, the name and business address of the employer also, has been placed, and lawfully remains, on said registration list, and said term shall not include any person who has not applied for a renewal certificate within the aforesaid period of six months.

(6) The "license period" shall be the fiscal year ending at midnight, September 30 of each year, provided, however, that if the commission shall adopt rules or regulations providing for the issuance of certificates for some period other than the fiscal year aforesaid, then the "license period" shall be the fiscal period ending at midnight on the last day of the period for which the certificate is issued.

(7) A "registered broker" shall be any per-

son who is a registrant under this chapter and who has been classified as a real estate broker. All other registrants shall be "registered salesmen."

(8) The word "Commission," when used in this chapter shall refer to the Florida real estate commission, except when obviously used in some other sense.

(9) Where the phrase "members, officers and directors of a partnership or corporation," or similar phrase, is used in this chapter, the word "members" shall be deemed to refer to partnerships only, and not to stockholders in a corporation.

(10) The words "certificate" or "registration certificate" shall be deemed to mean a written instrument, prepared according to the regulations and bearing the seal of the commission, which shall be issued to every broker or salesman as soon as registration is granted, and renewed annually thereafter as long as renewals thereof shall be granted, and which shall be prima facie evidence that the holder is a registrant, and that the registration fee for the license year expiring next after the date of issuance which shall be indorsed thereon, has been paid. Such certificate, except nonactive certificate, shall authorize the holder to act as a broker or salesman until the date of expiration, or until the registration is revoked or suspended.

(11) The term "real estate" or "real property" used in subsection (2), shall include leaseholds, assignments of leaseholds and subleaseholds thereof, as well as any and every interest or estate in land.

(12) The words "appeal," "appealable," "review," "appellate review," "court" and "appellate court," wherever used in this chapter, shall be construed to mean any appropriate proceeding to review the orders and rulings of the Florida real estate commission, or any court wherein said proceedings may be pending, when such construction shall be necessary to make this statute consistent with the provisions of Art. V of the constitution of Florida and the Florida appellate rules adopted pursuant thereto.

(13) The terms "real estate," "real estate property," "real estate broker," and "real estate salesman," as used in this chapter shall not apply to any cemetery lot, or the right of burial in any cemetery, nor shall such terms apply to any person selling, exchanging, leasing or dealing in such aforementioned property.

The members of the commission shall serve until the expiration of the term for which they

shall have been appointed and until their successors shall have qualified. The term of office shall be three years; that of one member shall expire each year, and upon the death, resignation or removal of a member, his successor shall be appointed for the unexpired portion of his term. As the new member is appointed each year, the commission shall reorganize and select a chairman from its number, who shall be the executive officer of said commission, and a secretary. The commission shall foster the education of real estate brokers and salesmen concerning the ethical, legal and business principles which should govern their conduct.

(2) For the purpose of performing its duty to educate registrants under subsection (1), the commission may conduct, offer, sponsor, prescribe or approve real estate educational courses for all persons registered with the commission as real estate brokers, or salesmen, and the cost and expense of such courses shall be paid as provided for other expenses of the commission by §475.12.

The commission may decide questions of practice arising in the proceedings before it, having regard to this chapter and the rules and regulations then in force. Printed copies of rules and regulations, or written copies under the seal of the commission, shall be prima facie evidence of their existence and substance, and the courts shall judicially notice such rules and regulations. Its papers, documents, reports or evidence shall not be subject to subpoena, without its consent, until after the same shall have been published at a hearing held under this chapter unless, after notice to the commission, and hearing, the court shall determine that the commission or the accused will not be unreasonably hindered or embarrassed.
